The Honorable Wilbur L. Ross, Jr.
Secretary of Commerce
U.S. Department of Commerce
1401 Constitution Avenue NW
Washington, D.C. 20230

Secretary Ross:

This letter is to inquire as to the status of the ongoing Section 232 National Security Investigation of Imports of Steel. Imported steel at greatly reduced cost has placed the domestic steel industry under immense pressure. I appreciate the Administration and the Commerce Department undertaking this investigation and I urge you to take swift action to complete it.

I represent thousands of workers who work for our country’s steel industry. This sector plays a critical role in supporting our nation’s security and critical infrastructure. Unfair trade practices by foreign competition have diminished our steel sector and put our workers at a great disadvantage.

It is critical that your department completes the Section 232 investigation as soon as possible and develops a remedy to prevent foreign manufacturers of steel products from engaging in illegal practices. Our nation’s steel workers cannot wait any longer.

Sincerely,

Daniel T. Kildee
MEMBER OF CONGRESS
