- Flows from blender to tender to application equipment
- Easy to handle
- No detrimental effects on the soil
- Applied with most nitrogen application practices

APPLICATION RATES

UREA:

Use 2-3 qts. (64-96 oz.) of **ContaiN**
per ton of urea

LIQUID FERTILIZERS:

Use 1 1/2 qts. (48 oz.) of **ContaiN**
per ton of UAN (28%, 30% or 32%)
For best results, use treated UAN solution
soon after mixing.

LIQUID MANURES:

Application rate of 13.5 oz. - 18 oz. of
ContaiN per acre
