

B&A Planning Group

Passion to create better communities, together.

We are one of Western Canada's leading and fastest growing professional community and land development planning firms.

B&A brings a twenty-five year track record of success in providing professional consulting services to a diverse range of public and private sector clients including individual landowners, developers, municipalities and leading players in the aggregate and energy industry.

Our Services Include

Master Planning & Urban Design

Visioning, design and planning for new urban and rural communities.

Municipal Planning

Preparation of statutory and non-statutory plans, specialized analysis, studies and support for municipal growth initiatives.

Land Use & Development Approvals

Adept at securing approvals including land use amendments, subdivision entitlements, development permits, road closures & appeal submissions.

Energy & Resource Development

Planning services, customized reports and expert witness testimony to support the sustainable development of natural resources.

Special Projects

Special studies to support land acquisition or disposition matters, to explore development scenarios or to assess land requirements.

Communications & Engagement

Integrated communications and engagement strategies and services that reflect the context and scale of a project and stakeholders.

GIS, 3D & Technical Services

Use of leading-edge technologies and software applications to inform and support projects including specialized mapping & 3D visualization.

Our Approach

At B&A, we take a strategic and customized approach to every assignment and advocate on your behalf to achieve project success. Our strategic lens involves finding triple-win solutions which benefit your organization, approving authorities and the broader community. This strategic approach and belief in finding optimal solutions is the cornerstone of our practice.

Our Team

We are not a large firm of generalists. We are a customized, award-winning team with the expertise and strategic leadership necessary to achieve project success. Our family is made up of over 40 in-house experts with diverse backgrounds and experience in project management, urban and rural planning, community and neighbourhood design and communications and engagement. Our team is supported by unparalleled technical services in design and drafting, GIS, and 3D visualization.
