ICON HELMETS

ICON HELMETS ARE THE CULMINATION OF OUR UNIQUE RIDER DRIVEN DESIGN

An aggressive style, combined with peerless engineering, has carved ICON a unique niche within the riding community. Our commitment to quality has won us the prestigious J.D.

Powers customer satisfaction award, and accolades from riders the world over.

Whether your riding includes blasting high-speed circuits, storming the dirt of Baja, or strafing pockmarked highways; there's an ICON helmet for you.

AIRFRAME PRO

The modern riding position - higher rear sets, lower clip-ons - has dramatically altered how a rider interacts with the modern hypersport motorcycle. Compressed into an ever more compact shape, the rider's head positioning requires increased angle to maintain visibility and stability. With this in mind, ICON designed the AIRFRAME PRO™.

VARIANT PRO

The VARIANT PRO™ showcases composite shells. Featuring a 3D molded shield and an aerodynamically optimized visor, it has a style all its own. From streetfighters to sportbikes to cruisers to ADV bikes, the VARIANT PRO™ is for those who ride outside the boundaries of convention. The VARIANT PRO™ is our premier all-terrain option.

AIRFLITE

A neo-retro glimpse into one possible future, the AIRFLITE™ is the vessel of your dreams. The visually-defining shield makes a statement on the streets while the helmet's versatility and customizable ability speak to the development and design. Remove the shield, replace it with the AIRFLITE™ visor, and the helmet goes from street to dirt in a matter of moments. Combine that with a recessed twin-channel cooling system, HydraDry™ comfort liner, inner DROPSHIELD, sculpted neck-roll, and internal speaker pockets, and you get the ultimate street-style helmet.

AIRFORM

For almost two decades, ICON Motosports has come to define moto-street style. Proven design, comfortable fit, and superb quality for the maximum value, the AIRFORM™ helmet is an excellent entry point into the ICON family. Includes world-renowned HydraDry™ comfort liner, ventilation, and an inner DROPSHIELD for those rides that start before sunrise and end well after the sunset. Highly customizable for those who like to dial it in.

SAFETY WARNING: Riding a motorcycle is a dangerous activity. No helmet can protect a wearer against all possible impacts. When riding, always wear a helmet, eye protection, protective clothing, gloves and boots. There is no assurance that serious injury or death can be avoided even if you wear a helmet. Take all precautions to avoid every risk when riding a motorcycle. This helmet is not meant for use as a fire retardant product and does not contain any fire retardant materials. Please ensure that your Icon® products fit properly. Improperly fitting products can impair your ability to control your motorcycle.

Reworked and redesigned, the Variant Pro™ Carbon is lighter and more compact than its predecessor. Through ICON's proprietary molding technology, the hand-laid 4Tress™ carbon is strategically placed throughout the shell to ensure structural integrity without adding weight. The fog-free 3D-molded shield provides optical clarity across its oversized eye-port. It increases peripheral vision, and the visor has been designed to block the sun while reducing lift at speed. To improve comfort, the 5-piece sweat-wicking HydraDry™ liner works in conjunction with the vents to help reduce heat build-up. Constructed of a 1.1-1.3mm TracSpec™ leather chassis, ICON Attack Fit (pre-curved arms and legs), reinforced perforation zones, and integrated TPU speed hump, shoulders, elbows & knee caps. The Hypersport includes a full suite of D30® impact protectors (shoulder, elbow, back, hip & knee). Four-way stretch material and accordion paneling in the flex zones ensure a comfortable and contoured fit in a full tuck position. Neoprene wrists and ankles are designed for ease of use and reduced cuff bulk. The removable, washable liner allows you to keep your gear smelling fresh, even when you don't. The replaceable knee pucks round out the package, and the OG TPR chest logo lets them know who you're reppin'.

STORMHAWK WP™ JACKET

ICON MOTOSPORTS

*AVAILABLE OCTOBER 2020

The Stormhawk™ jacket is our latest foray into the weatherproof riding category. The low-key exterior is a durable 4-way stretch textile, backed with a waterproof/breathable Hycor membrane - perfect for three-season riding. Internally the jacket is reinforced with 600d polyester fabric for improved abrasion resistance. The Stormhawk™ comes standard with D30® CE-Certified LP1 shoulder and elbow impact protectors. The LP1 protectors are more breathable and flexible than previous generations of impact protectors, improving the jacket's overall comfort. The jacket also includes a D30® Viper back impact protector and full-length insulated liner for colder weather riding. Should your ride include more temperate locations, the large exterior front & back vents, sealed with YKK® Aquagard™ zippers, provide significant airflow. The Stormhawk™ Jacket can be worn individually or zipped directly to the Stormhawk™ Pant.

The Raiden™ jacket is purpose-built to withstand the punishment of ADV riding. Rain, dirt, or nasty get-offs, it's ready for anything the pavement or dirt can deliver. The Raiden™ jacket is comprised of a Dupont™ 3-layer nylon shell with 10k/10k Waterproof breathability as well as durable Cordura® overlays in the impact zones. The stretch-cord expansion intake ventilation system and exhaust provides on-demand comfort, prevents moisture build-up, and inhibits overheating. Seven pockets add to the on-the-trail carrying capability while the full D3O® impact protector package does the dirty work. The removable insulated liner keeps you comfortable when riding conditions are less than ideal. The waterproof YKK® Vislon® and AquaGuard® zippers are a must when Mother Nature opens up the skies, and the dual Hook & Loop side adjustment allows you to tailor your fit. A generous amount of retro-reflectivity adds to visual conspicuity.

CHAMONIX™ VEST

ICON MOTOSPORTS

\$185

All business, no BS - the denim vest is synonymous with motorcycling, so we've added our ICON flavor to a classic piece. The Chamonix™ vest is built for the ride. Regular denim is no match for get-offs at speed, that's why we use abrasion-resistant Cordura® denim for the chassis and reinforce it with 1.2-1.4mm full-grain leather on the shoulders. Like all ICON vests, the Chamonix™ comes with a D30® Viper back CE-certified impact protector. Additional features include adjustable waist straps, chest pockets, and zippered internal and side pockets for secure storage. For those who want more from a denim vest, the Chamonix™ is ready to get to work.

FIELD ARMOR 3™ VEST

ICON MOTOSPORTS

\$195

When we first designed the Stryker™ vest, we didn't know it would become the de facto uniform of sportbike riders worldwide. We were designing gear for the most at-risk riders, you and us. After years in the ICON lineup, the time had come to update, so we went back to the drawing board and reworked a classic to bring you the rider developed Field Armor Vest™. Vented bio-foam and air mesh chassis are paired to an articulating injection molded shell with airflow channels, keeping you cool and comfortable when it's hot and not. The D30® chest and back impact protectors provide industry-leading impact absorption. Elastic and hook & loop straps help ensure a snug fit over multiple body sizes, while the low-profile form factor fits easily under most jackets. We're paying homage to our past by looking to our future. The future is ICON.

HELMET FITMENT

CHOOSING THE CORRECT HELMET SIZE

Helmet fit is critical to helmet protective performance. The correct helmet size can only be checked and confirmed by physically fitting the helmet to the user. Always try the helmet on in a store, before purchasing it, to be sure you are purchasing the correct sized helmet for you.

HEAD MEASUREMENT INSTRUCTIONS

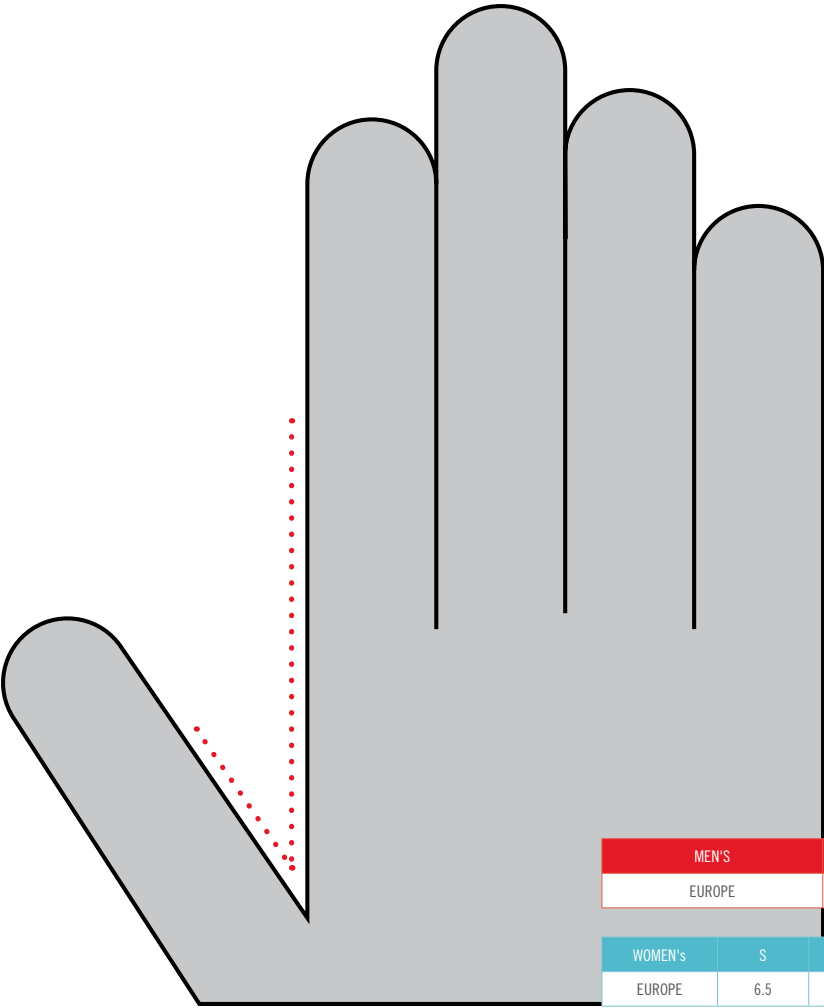

Wrap a flexible tape measure around your head approximately one inch above the eyebrows and ears. Use this measurement (in either inches or centimeters) to find your helmet size.

HELMET SIZING INFORMATION

To achieve proper helmet fitment, begin by finding your head circumference size using the method described. Remember that the helmet size you choose should fit around the crown of your head comfortably with no pressure points. The cheekpads should fit firmly around your face. Once your chin strap is fastened, grab the chin bar of the helmet and move it side to side. Your cheeks should move with the helmet, which should not slide across your face. Different thickness cheekpads can be purchased to obtain the best fit. Ask your dealer or visit www.rideicon.com for more information.

When sizing your helmet please refer to the size charts that are unique to each helmet shell:

GLOVE FITMENT

HOW TO DETERMINE YOUR GLOVE SIZE

ICON glove size is determined by measuring the width of your palm at its widest point - a little below the knuckles. To get this measurement, place your hand on the page as shown with the crook of your thumb positioned at the “V” intersection of the two dotted lines and on top of the Men’s and Women’s measuring bars.

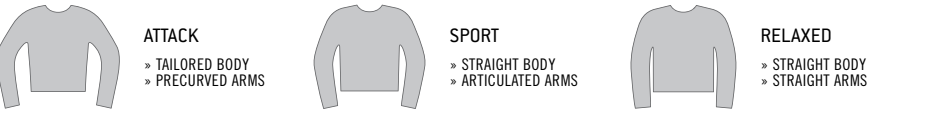

THIS CHART SERVES ONLY AS A GUIDE. TO ENSURE THE PROPER FIT ALWAYS TRY ON THE ACTUAL PRODUCT.

JACKET FITMENT

JACKET SIZING INFORMATION

There are three variables to consider when sizing an ICON jacket. The first two are the chest and sleeve measurements, which are what your jacket size is based on. The third is the the jacket fit type, which defines the “cut” of the jacket (Attack, Sport, or Relaxed). Instructions, sizing charts and jacket fit details can be found below. The fit type of every ICON jacket can be found in the first bullet point of the copy block for that individual product.

CHEST MEASUREMENT INSTRUCTIONS

While standing with your arms relaxed at your side, wrap a flexible tape measure around your chest at its largest point. The tape measure should go through your armpit and stay parallel with the floor while taking the measurment.

SLEEVE MEASUREMENT INSTRUCTIONS

While standing with your arms relaxed at your side, place one end of a flexible tape measure on your spine at the base of your neck. Measure over the top of your shoulder, down over the point of your elbow, and finish at the wrist bone.
