

US 6 WEST EDWARDS IMPROVEMENTS DESIGN AND ECO TRANSIT CONNECTIVITY STUDY

VIRTUAL PUBLIC MEETING

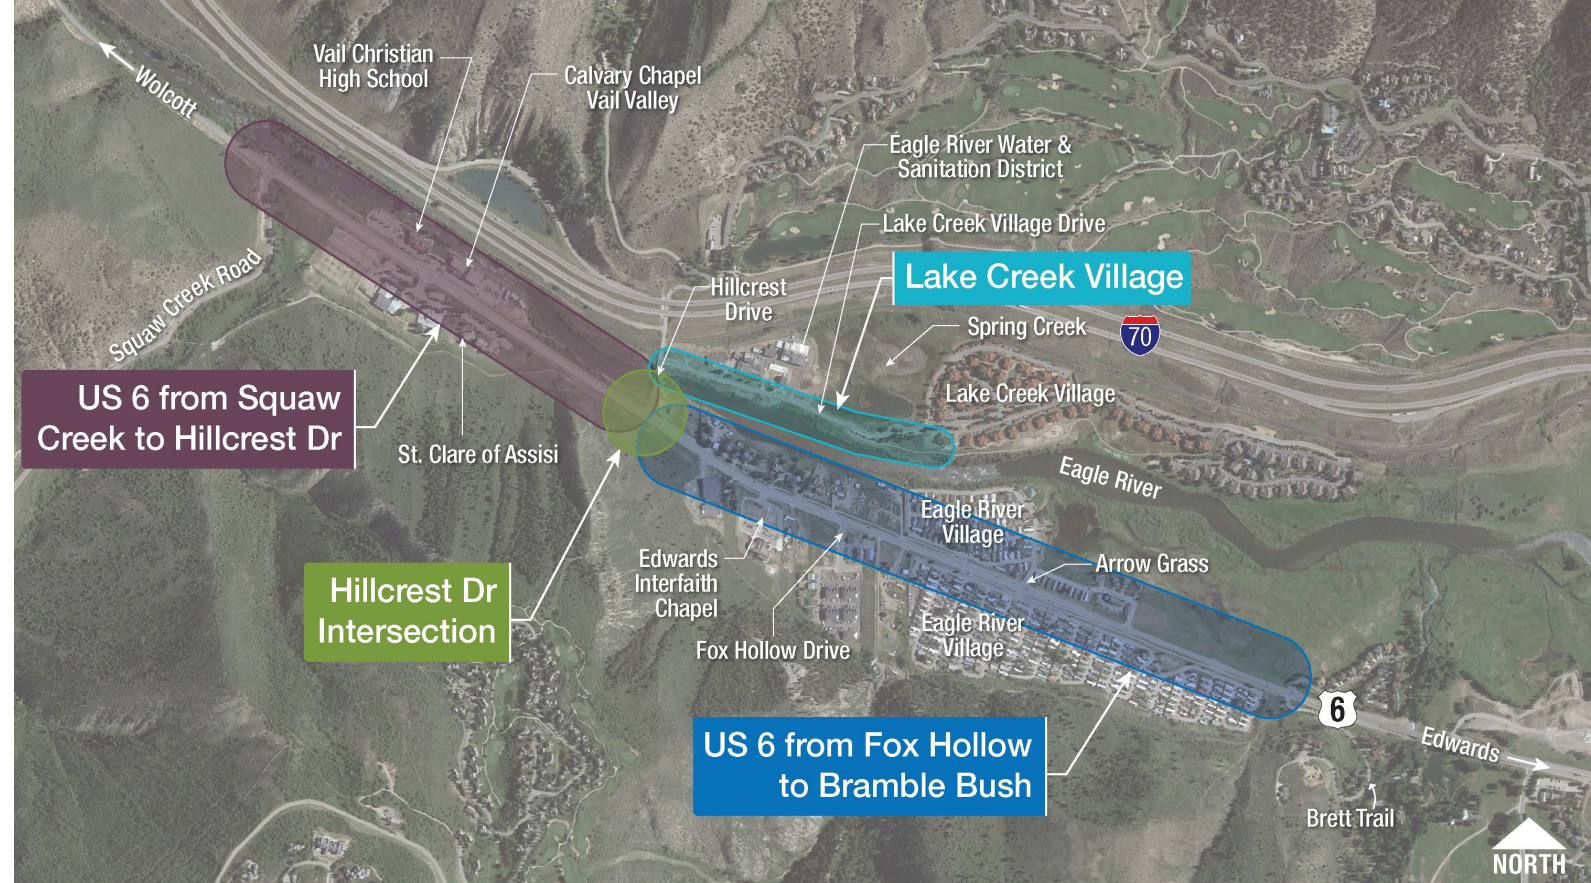

FALL 2020

Project sponsors:

COLORADO
Department of
Transportation

KEY PROJECT FOCUS AREAS

PROJECT PURPOSE & NEED

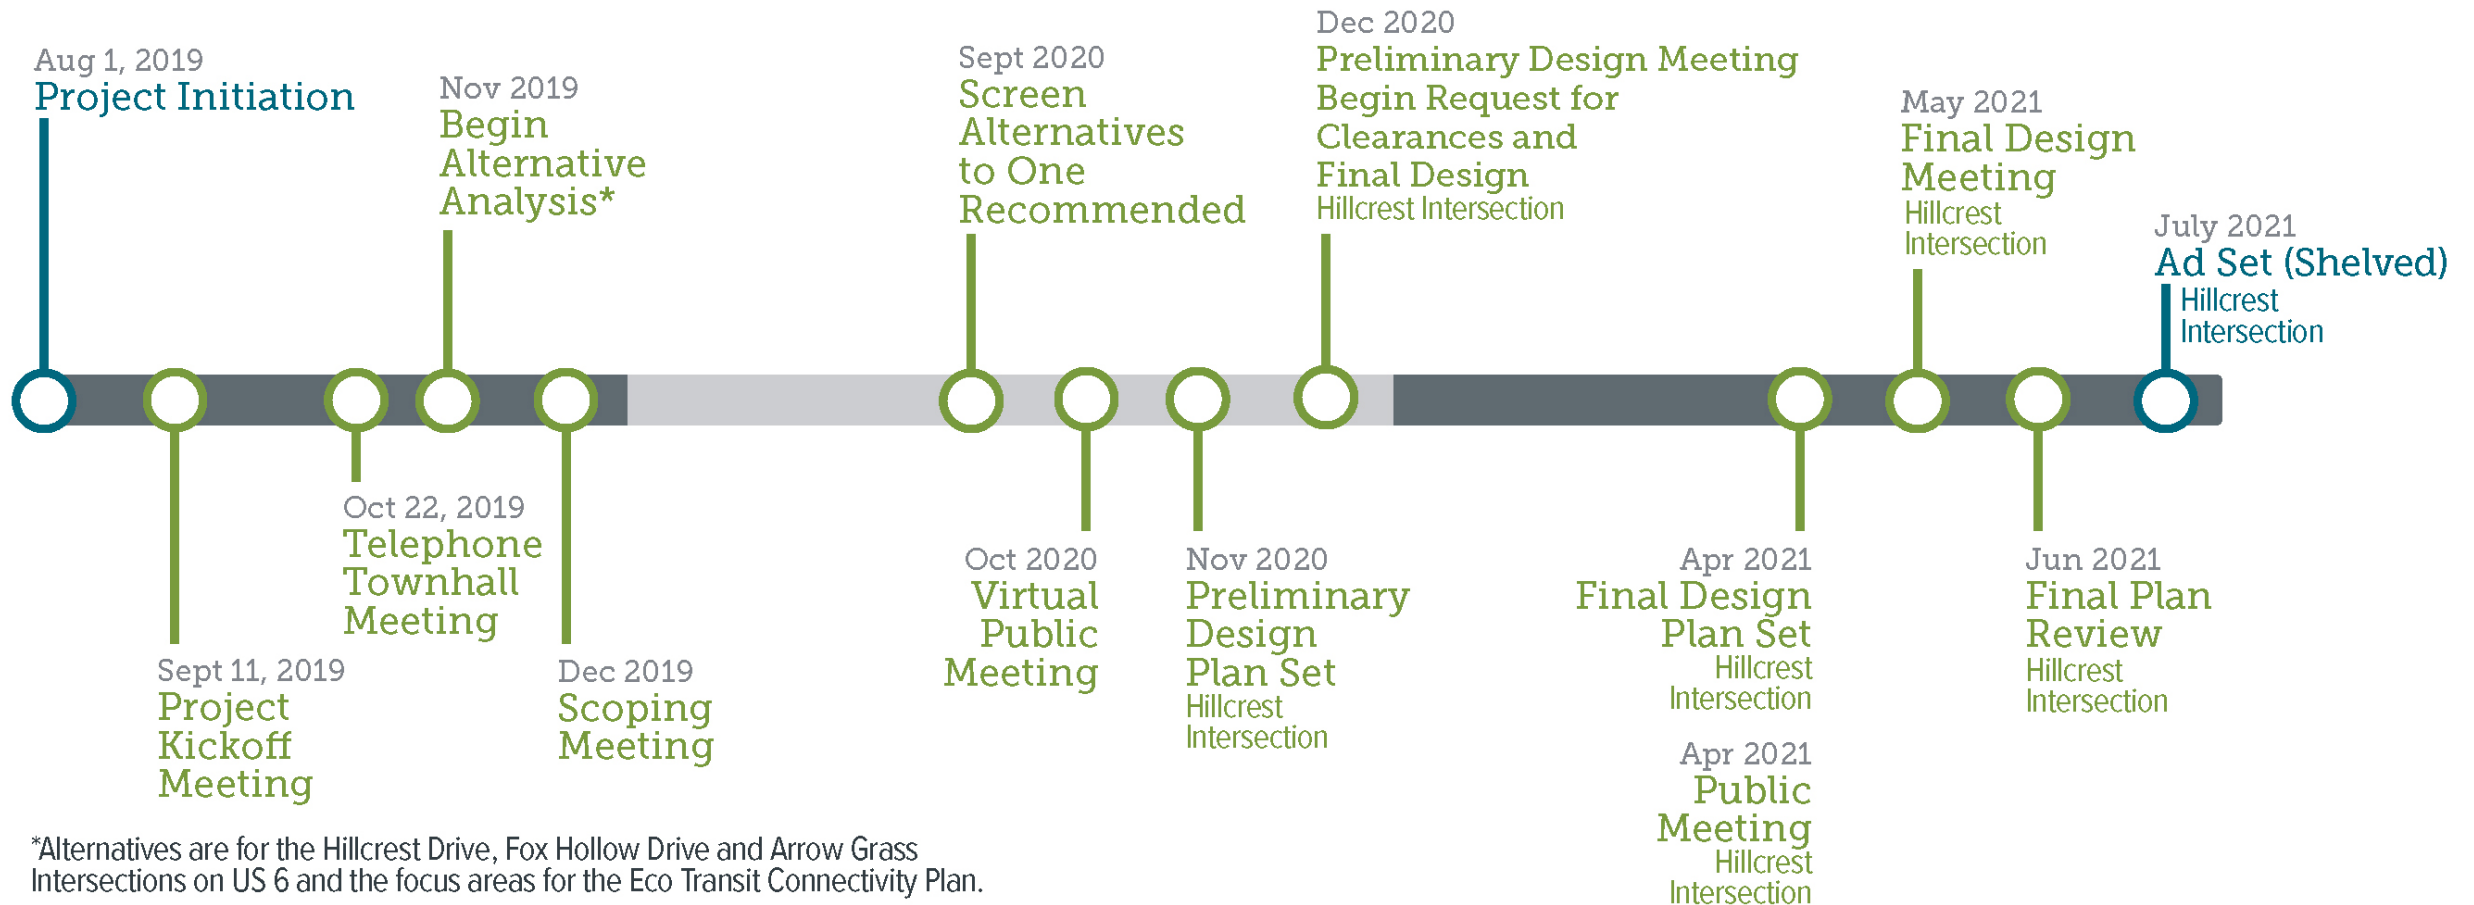

The transportation improvement project is needed to:

- Enhance the experience and facilities and help reduce the risk of increased crash frequency and severity for all modes through the study area intersections along US 6 and along Lake Creek Village Drive.
- Improve local connectivity for all modes within the project area for access to businesses, schools, residents, bus stops and trails as well as between the project area and other regional destinations.
- Improve operations of the existing intersection of Hillcrest Drive to acceptable levels of service during the AM and PM peak hour.
- Accommodate the projected daily traffic volumes along US 6 and Lake Creek Village Drive during the peak periods at acceptable levels of service.

SUMMARY OF PROJECT TASKS

1. Inventory and analyze existing conditions
2. Solicit input from the public to understand needs and community values
3. Identify concept level multimodal transportation improvements
4. Evaluate and screen concept level designs
- ★ 5. Gather stakeholder and public input to inform final concept level design
6. Complete preliminary & final design for preferred alternative for Hillcrest Drive & US 6

PROJECT SCHEDULE

SPREAD THE WORD & STAY INVOLVED!

Comment period open from October 30th to
November 18th
