

HOP PRIORITIZATION NOMINATION FORM

Due: No later than the First Friday of January

Fax:	Mail:	E-mail/phone:
1-509-786-9370 (please call or send email notification prior to sending a fax)	NCPN-Hops Prioritization Attn: CPCNW Coordinator Clean Plant Center NW 24106 N. Bunn Road Prosser, WA 99350	cpcnw@wsu.edu 509-786-9242

The process of testing and eliminating viruses in hop plants is time consuming. Only a certain number of cultivars can be entered into the program each year. The National Clean Plant Network for Hops will prioritize which cultivars start the virus elimination process based on the needs of growers, breeders and industry. Nominating a hop cultivar for virus elimination is the first step. The Prioritization Committee will review the nomination forms and issue a list of prioritized hop cultivars.

Nominating Group/Individual:						
How would you describe the group or individual making the nomination?	<input type="checkbox"/>	Individual Commercial Grower	<input type="checkbox"/>	Individual Crafter	<input type="checkbox"/>	Commercial Breeder
	<input type="checkbox"/>	Commercial Group	<input type="checkbox"/>	Crafter Group	<input type="checkbox"/>	Hop Commission
	<input type="checkbox"/>	Other _____				
Nominated Hop Cultivar:						
Is distribution of this cultivar free or restricted?						
Attach a letter from the group or individual explaining the rationale for making this particular hop variety a priority for virus-elimination. (250 word maximum)						

Please provide contact information for your group/individual
