

## How To Connect Your Pacifica App to Your Clinician Tutorial

Please download the Pacifica App at the App Store if you have an iPhone or the Google Play store if you have an Android device. **Note: The app you will download is the free basic version of Pacifica. Once you connect your app to your Clinician your app will automatically upgrade to the Premium version of Pacifica.**

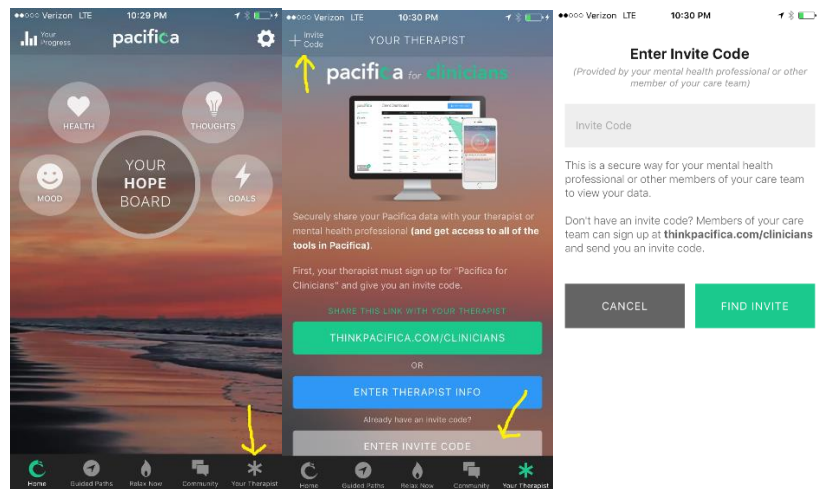

Once you download the app from the App Store or Google Play Store, you will be presented with this screen. You must click the "Sign Up (It's Free)" Button to start the process.

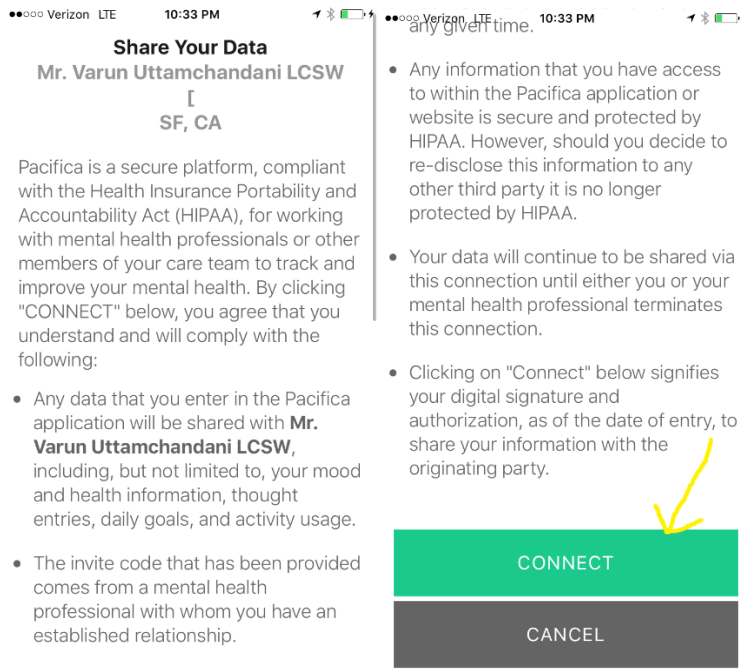

Continue the onboarding process and fill out the information as required. One screen during the onboarding process will ask you "Are you working with a mental health professional?" Please click yes.

You will then be presented with the home screen. Please click the “Your Therapist” tab on the bottom right of the home screen. Once you are on the “Your Therapist” page, click the “Invite Code” button in either area indicated by the arrows and then input the invite code.

You will then be presented with this screen. Please read through the information stating that you are giving your therapist access to information from your Pacifica App and then click “Connect” on the bottom.

In the final step, you will be presented with this screen. Please turn on both flags in order to receive push notifications, assessments, and other messaging from your clinicians. Once you click the "Finished" button, you will now be connected to your clinician, and your Pacifica account will be upgraded automatically to the Premium version of our app, giving you full functionality and access to Pacifica's features.
