

# Animal Sheltering Operations Peer Planning Workshop

Animals should not be overlooked when planning for disasters, but there are so many issues to consider. The Houston UASI Planners Work Group is hosting a peer planning workshop to touch on one aspect: animal sheltering. Although the focus of this workshop is sheltering, this one subject has the potential to touch on several other animal issues.

Over the course of the workshop:

- Local planners and subject matter experts will address planning best practices.
- Local planners will discuss the relevance of Animal Issues Committees and best practices.
- A panel of members will answer questions pertaining to animal sheltering operations, different types of animal shelters, and other related topics.

Following the workshop, participants will have an opportunity to tour the new Houston SPCA facility and demo several resources from the Texas A&M Veterinary Emergency Team.

## Who Should Attend

Professionals responsible for maintaining and updating local plans and annexes, emergency managers, planners, and partners who focus on animal welfare during the response to and recovery from an incident.

## When

November 13, 2018, 8:00 a.m. to 12:30 p.m.  
*Registration begins at 7:30 a.m.*

## Where

Houston SPCA, Carruth Education Center  
7007 Old Katy Road, Houston, TX 77024

Register here:
