As you and the Chancellor requested, this office kept copies of the sheets containing the Resolution from the Coordinating Committee and the signatures of faculty. The copies have been sent to the Library Archives. There were three hundred and twenty-six signatures in all.
December 4, 1964

President Clark Kerr
University of California
Berkeley Campus

We the undersigned members of the Coordinating Committee of the San Francisco Division of the Academic Senate express our confidence in President Kerr and strongly endorse the maintenance of law and order on the University of California campuses. Law and order are essential for negotiation and due process of law to solve problems arising among students, faculty and administration.

February 18, 1966

TO: Members of the Academic Senate, San Francisco Division

FROM: Nicholas L. Petrakis, Chairman
Committee on University Welfare and Memorials
Academic Senate, San Francisco Division

The following communication from President Kerr is being circulated for your information. The welfare of the San Francisco Campus can best be promoted by a democratic expression of faculty participation in the selection of the new Chancellor and Dean of the School of Medicine.

(copy)

"February 4, 1966

"TO ALL DEPARTMENT CHAIRMEN, SAN FRANCISCO CAMPUS:

"In accordance with customary University practice, a special committee of the faculty has been constituted to advise on appointment of a Chancellor for the San Francisco Campus and of a Dean of the School of Medicine. The committee has also been charged to recommend on division of administrative authority and responsibility on the campus. If you or any of the members of your Department would care to forward any suggestions of candidates for either position, I would be happy to have them. Should you, or any of your faculty, wish to comment personally on these matters, Vice President Harry Wellman will be happy to meet with you as my representative.

/s/ CLARK KERR"
RESOLUTION OF THE STATEWIDE COUNCIL OF THE ACADEMIC SENATE

23 January 1967

I. The Council of the Academic Senate directs Chairman Adams to convey to President Kerr its deep appreciation for his years of dedicated service to the University, for his contributions to academic freedom, and for his achievements in establishing quality education for ever larger numbers of students.

II. The Council of the Academic Senate calls upon students, faculty, and other members of the University community to observe orderly, democratic, and non-coercive procedures in expressing their legitimate concern over problems facing the University.

III. The Council of the Academic Senate calls upon the nine Chancellors to continue their efforts to protect academic freedom, campus autonomy, quality education, and academic order on the several campuses.

IV. The Council of the Academic Senate resolves that:
WHEREAS the dismissal of President Kerr by the Board of Regents at its first regular meeting after the installation of a new Governor appears to have occurred in a climate of political pressure on the University, and
WHEREAS the students, faculty, alumni, and friends of the University are fearful that this action portends continuous
political interference with the University, a contraction of financial support from the state, restrictions upon academic freedom, and a resulting decline in the University's distinction as a leading institution of higher learning;

BE IT RESOLVED THAT the Council of the Academic Senate respectfully urges the Board of Regents to demonstrate that:

1. They intend to do their utmost to see that all decisions are made without undue concern for the political opinions or interests of either public officials or members of the University community;

2. They will continue to support the students and faculty in their efforts to preserve and extend the freedoms appropriate to, and necessary for, the search for truth, and in the same spirit of mutual respect and confidence evidenced by Chairman Meyer's invitation to the Academic Senate to advise on the selection of the President, they will continue to consult with the faculty in matters of common concern to the University community;

3. They are determined to continue doing everything in their power to obtain the public support which the University
needs to uphold its standards of excellence without decreasing its service to the people of California.

V. That Chairman Adams take appropriate steps to see that the sense of the above motion is conveyed to Chairman Meyer of the Board of Regents.

VI. That the Chairman of the nine Divisions be directed to report the Council's actions to their respective Divisions, Chancellors, and students.

* * *
To: Acting President Harry Wellman
for transmittal to the Regents of the University of California

January 24, 1967

The members of the Academic Senate of the University of California, San Francisco, desire to convey to the Regents of the University of California the following:

(a) We express our professional esteem and personal affection for our colleague and former President, Dr. Clark Kerr. Under his wise and farsighted leadership, our University has grown to its present distinguished position in this nation and in the world.

(b) We record our shock and indignation at the precipitous dismissal of a distinguished University President in a manner that is incompatible with respect for the dignity of his Office.

(c) We deplore the unfortunate timing of this action, immediately following a change in State administration, which has led many to question whether the Regents have been able to safeguard the University and the Faculty from political influences and other external pressures.

(d) We believe that the abrupt dismissal of a distinguished educator has, in the eyes of many, damaged the reputation of the University and lessened the confidence of the academic community in the Regents. We also believe that this action will hamper the recruitment of new members of the Faculty of the University of California and cause serious delay in the development of new campuses and the necessary expansion of existing campuses.

(e) The University can continue in its distinguished position of leadership only if mutual respect exists among the Regents, the President and the Faculty. To maintain this we urge that the Regents restate their determination to protect the University from political pressures and assure the Academic Senate that there will be meaningful consultation with the Faculty, both in the selection of a successor to our distinguished colleague, Dr. Clark Kerr, and in any future decisions regarding the suitability of a President for continued tenure in his Office.

Respectfully,

ACADEMIC SENATE
UNIVERSITY OF CALIFORNIA, SAN FRANCISCO
