AIDS EDUCATION FOR THE DEAF presents

AIDS and the Deaf Community: Taking Responsibility

January 21-24, 1990
Asilomar Conference Center
Pacific Grove, California
“In Germany, first they came for the Communists, and I didn’t speak up because I wasn’t a Communist.

Then, they came for the Jews, and I didn’t speak up because I wasn’t a Jew.

Then, they came for the trade unionists, and I didn’t speak up because I wasn’t a trade unionist.

Then, they came for the Catholics, and I didn’t speak up because I was a Protestant.

Then, they came for me, and by that time, there was no one left to speak up.”

– Reverend Martin Niemoller
1892 - 1984
HISTORY

About AIDS Education for the Deaf...

AED was established in November 1987, making this the first organization of its kind in the nation. Its purpose is to bring public awareness of AIDS to the deaf community and relax the anxieties caused by misinformation concerning the disease. The program helps to prevent the further spread of the virus by education, which is the best defense at this time.

The AED staff is actively involved in the development of educational materials geared to the deaf. These include educational brochures, safety kits, and videotapes that are closed captioned. Workshops and presentations are not only given to the deaf (at schools, colleges and various community organizations), but to various non-deaf service agency personnel to help reduce any anxieties they may encounter when dealing with deaf clients. Rap sessions are held in our office or in private homes. One-on-one peer counseling is also available.

About the Greater Los Angeles Council on Deafness...

Founded in 1969, GLAD provides an array of social services at its Headquarters in downtown Los Angeles, its Orange County subsidiary known as OC-DEAF and several outreach offices throughout Los Angeles, Kern and Ventura Counties. It employs over fifty deaf and hearing workers and a cadre of volunteers. GLAD also serves as an umbrella agency for over fifty agencies and organizations related to hearing impairment.

Over the years, GLAD, through its legislative and judicial efforts, as well as its individual client service provision, has dramatically improved the quality of life for deaf and hard-of-hearing persons and their families. GLAD is a non-profit organization dedicated to the social, educational, economic and cultural welfare of the deaf and hard-of-hearing communities. GLAD receives funding from the California Department of Social Services, United Way, private foundations, individual donations and memberships.

OFFICE OF THE GOVERNOR
State of California

December 20, 1989

On behalf of the State of California, it is my distinct pleasure to convey my warm regards to all attending the regional conference sponsored by AIDS Education for the Deaf.

The incidence of AIDS in our society is a continuing tragedy that requires the understanding and concentrated efforts of each of us. We need to learn more about the disease, its effects and how it is transmitted. Furthermore, we must assure that proper medical care is available to those who suffer from this devastating disease.

Your efforts on behalf of educating the deaf about AIDS are highly commendable. All involved in this worthy effort should take pride in their achievement. Your dedicated work and compassion underscore your true commitment to your fellowman.

Please accept my best wishes for every continued success.

Most cordially,

George Deukmejian
WHEREAS, AIDS is one of the most devastating diseases of our time, with no cure currently available, and

WHEREAS, AIDS is preventable through education and subsequent behavioral changes, and

WHEREAS, the Deaf community, due to their unique communication needs, lacks access to the traditional forms of media used to educate the general population, and

WHEREAS, the Deaf population in the City of Los Angeles, numbering between 150,000 to 200,000, is deserving of accurate and up to date information about AIDS presented in a culturally sensitive manner, and

WHEREAS, AIDS Education for the Deaf, a project of the Greater Los Angeles Council on Deafness, Inc., is the first free standing AIDS education and prevention program for the deaf in the nation, and

WHEREAS, on the event of its statewide conference, "AIDS and the Deaf Community: Taking Responsibility", the City of Los Angeles recognizes the accomplishments of AIDS Education for the Deaf;

City of West Hollywood

Proclamation

AIDS Awareness Week for the Deaf

WHEREAS, AIDS Education for the Deaf (AED) is a project of the Greater Los Angeles Council on Deafness, Inc.; and

WHEREAS, AIDS Education for the Deaf was established to increase AIDS awareness to the deaf and hard-of-hearing community, decrease the anxieties caused by misinformation, and provide a safe environment where issues related to the disease may be discussed and information disseminated; and

WHEREAS, the many services provided by AED include a drop-in center open to the public, a resource center, workshops on AIDS, emotional support groups, and outreach to deaf IV drug users; and

WHEREAS, on January 21-24, 1990 AIDS Education for the Deaf will be presenting a Regional Conference in Pacific Grove, California, entitled: "AIDS and the Deaf Community: Taking Responsibility."

NOW, THEREFORE, BE IT PROCLAIMED by the City Council of the City of West Hollywood that January 21-27 be designated "AIDS Awareness Week for the Deaf" to promote greater understanding of the needs of the deaf and hard-of-hearing community within West Hollywood. We salute AIDS Education for the Deaf in providing a forum where their needs may be addressed.

January 21, 1990

Dear Conference Participants:

On behalf of the Greater Los Angeles Council on Deafness, Inc. I would like to offer a resounding welcome to you as you begin what hopefully will be a time of learning and sharing. This conference has been designed to bring together three very unique yet very interdependent components which make up the AIDS education for deaf community: deaf people, health care delivery personnel and interpreters. I encourage all of you to take advantage of this opportunity to get to know one another better. And for those of you who do not speak the same aural language, roving interpreters are available for your use. Please feel free to ask any one of them to interpret for you. Of course, on every other level we all speak the same language or we would not be here today.

Do enjoy your stay at Asilomar. The Conference Center and the surrounding area is one of California's most enjoyed spots. A visit to neighboring Carmel or a walk on the beach is a refreshing break from the full schedule that awaits you.

Best wishes for the week.

GLAD yours,

Marcella M. Heyer
Executive Director
ACKNOWLEDGEMENTS

"AIDS and the Deaf Community: Taking Responsibility" was made possible by the following co-sponsoring agencies:

Greater Los Angeles Council on Deafness, Inc.
California Department of Health Services,
Office of AIDS
California Association of the Deaf
Gallaudet Regional Center at Ohlone College

and through generous contributions from:

Christopher Street West, Los Angeles
The NAMES Project
Monterey AIDS Project
Hands Across West Hollywood
Regional Interpreter Training Consortium,
University of Arizona, Tucson
National AIDS TTY Hotline
University of California, San Francisco, Center on Deafness
San Francisco AIDS Foundation
LIFESIGNS
California School for the Deaf, Fremont
Catholic Social Services
Center for Independent Living, Berkeley
DCARA

and a special thanks to . . .

Janet Hay

**WORKSHOP DESCRIPTIONS**

"Deaf Culture and Sexuality" Ella Mae Lentz

The presentation will discuss various aspects of American deaf culture, especially its values and how the values are shared or conflicted by being both deaf and gay. Preliminary results of a survey on attitudes/preferences towards gay people by deaf people (both straight and gay) will be shared.

"Service Delivery for Deaf and Hearing-Impaired Persons in HIV Related Settings" Pauline Annarino

This is an intensive, two-part, seminar designed to increase an understanding of hearing loss, deafness and the impact they have on service delivery and the therapeutic process. The intended audience includes primary care givers, staff development personnel and administrators who have no or minimal previous experience in the area of deafness. Each participant will receive materials and guidelines for understanding deafness when developing health care and service delivery strategies for deaf patients.

"HIV – An Introduction" Lewis Merkin

This presentation will introduce the disease. It will include a brief discussion of basic biology as well as the origins and epidemic history of the Human Immunodeficiency Virus.

"Self-Empowerment for the Deaf Community" Gary Olsen

A workshop where individuals will actively participate in learning to take responsibility – and thereby, impart their newly discovered feelings of empowerment with their respective communities.

"Medical and Alternative Treatments" Carson G. Glick

This session will focus on various medical and alternative treatments that can be used alone or combined. Focusing primarily on attitudes, behaviors, responsibilities and a better understanding of how the body functions in reaction to medical and/or alternative treatments. There is hope through prevention and maintenance of one’s health. Prevention versus repair will be discussed.

"Negotiating Sexual Behavior – How to Discuss Sexual Expectations Without Turning Off..." Daniel Langholtz

This small-group workshop will be a participatory discussion, helping us to develop confidence in talking with sexual partners for a more rewarding sexual experience without taking any health risks.

"HIV Interpreting" John McBride

This workshop will examine, in two parts, the various medical, ethical and emotional issues involved in interpreting in HIV-related situations. Sign language vocabulary will be covered in these sessions.

"You and The National AIDS TTY Hotline: Working Together" Grace Bullen and Lillian Wynn

How can the National AIDS TTY Hotline help you? Who calls the Hotline? When should you refer your clients to the Hotline? What kinds of referrals can the Hotline give you? Why call the Hotline when you’re planning an AIDS workshop for the Deaf Community? Find out the answers to these questions and many more through discussions, role-playing, videotapes and handouts.

"Surviving the System" Deborah Jones

The goal of this workshop is to present the various needs experienced by persons with AIDS or ARC and the strategies to meet those needs. This will be accomplished by examining the myriad of systems a person with AIDS or ARC may encounter. The systems to be discussed include financial benefits, insurance, medical care, legal services, and support services. The basic structure of each system, pertinent laws and regulations, challenges each system presents, and strategies to surmount those challenges are points to be addressed.

"Assessing Coping Skills" Daniel Langholtz

This workshop will examine therapy issues including the stages of feelings people go through, what we can do, and what we need to do for ourselves to better serve them. The focus on deafness will be made to the degree this becomes an issue. Also discussed will be confidentiality, assessing suicidal behavior and when and to whom to refer people.
"The Addictive Personality"   Jean Modry

This workshop will address how addictions get started, what happens inside people who become addicted, how our society pushes people toward addictions and recovery methods from addictions. The term addictions is used here as it relates to the individual. Discussion includes substance addictions (alcohol, drugs, nicotine, caffeine, food); process addictions (accumulating money, gambling, sex, work); and relationship addictions. By examining the roots and rituals of how we operate in addictive ways, it provides us with insight and understanding when working with the addictive personality.

"The Experience Called Loss"   Daniel P. Warner

In this participatory workshop, we will discuss how loss affects each of us and what we can do to cope. Included in this discussion will be issues pertaining to Multiple Loss Syndrome (MLS).

"An International Perspective - Members of Various International AIDS Organizations in the Deaf Community"

This impromptu discussion will feature speakers from various international AIDS organizations. Participants will share what their respective programs have to offer the Deaf Community.

"Educational Materials Development for the Deaf Community"   Grace Bulleen and Lewis Merkin

This will be a discussion of the current educational materials, their strengths and weaknesses and what materials need to be developed for the future. Included will be an outline of the steps involved in developing these materials.

**BIOGRAPHIES**

**PAULINE ANNARINO**

Pauline Annarino is currently the Director of LIFESIGNS, a 24-hour emergency sign language interpreter referral service to health care and law enforcement agencies; Program Development Specialist at the Greater Los Angeles Council on Deafness, Inc. (GLAD); and Project Director of the AIDS Education for the Deaf Program. Ms. Annarino has worked in the field of deafness and health care delivery since 1974. Ms. Annarino holds a Masters of Science degree from the University of Wisconsin, Milwaukee in Rehabilitation Counseling and interpreting certificates from the California Association of the Deaf (CAD) and the Registry of Interpreters for the Deaf (RID).

**GRACE BULLEN**

Currently the manager of the TTY/TDD Service of the National AIDS Hotline, Grace has worked in the field of deafness for almost ten years. Her educational background is in public health and she is a certified interpreter under RID.

**CARSON G. GLICK**

As a graduate of UCLA in 1983 with a degree in Interior Design/Architecture, Carson went on to work with various interior design and kitchen design firms in Los Angeles. He was a volunteer for the AIDS Education for the Deaf (AED), AIDS Project Los Angeles, and the Shanti Foundation. After relocating in March 1989 to Lancaster, Pennsylvania, Carson began working at a consignment furniture store and volunteered at the Lancaster AIDS Project (LAP) as a buddy, AIDS educator, and workshop coordinator for the deaf community.

**DEBORAH JONES**

Deborah Jones is the Social Services Program Coordinator at the San Francisco AIDS Foundation. She has held this position for the past four and a half years. Deborah received her Masters of Social Work degree from San Francisco State University in 1980. In addition, she has been active in women's and lesbian health issues, volunteering with various organizations. Currently, she is a member of the Social Work AIDS Network, the National Association of Social Workers, and the Community Advisory Board of Coming Home Hospice.

**DANIEL LANGHOLTZ**

Daniel is a licensed, clinical social worker who has worked at the University of California, San Francisco Center on Deafness doing both clinical and training work for the past eight years. In addition, he has done a great deal of volunteer work relating to AIDS education for the deaf.
ELLA MAE LENTZ
Deaf daughter of deaf parents, Ella is an alumna of California School for the Deaf, Berkeley – class of 1971. She received a Bachelor of Arts in English and Drama from Gallaudet University in 1975. Presently, she is a full-time instructor in sign language studies and interpreter training programs at Ohlone College in Fremont. Her past jobs include being a trainer and consultant for sign language instructors and interpreters, a research assistant in various research centers relating to sign language. She has been an actress for several television and theatrical productions.

JOHN McBRIE
John is an AIDS educator and consultant for the deaf community in San Francisco. Specifically, he is a Deaf community liaison and facilitator for the AIDS Project of the East Bay. A sign language interpreter, John has his Comprehensive Skills Certificate (CSC) from the Registry of Interpreters for the Deaf (RID). In addition to being a RID evaluator, John was also Vice President of RID in Northern California from 1984 through 1986.

LEWIS MERKIN
Lewis has been involved in the AIDS community since 1988. He is currently the Project Assistant for AIDS Education for the Deaf and an active volunteer with the Los Angeles Shanti Foundation. Lewis is also well-known as an actor having performed “Children of a Lesser God” on Broadway and “Equus” in London. In addition, Lewis travelled with the National Theatre of the Deaf for several years and has performed in various regional theatres.

JEAN MODRY
Jean Modry’s interest in the field of substance abuse originated in 1983 when she was working as a counselor on a Deaf in-patient psychiatric unit. In 1987, she completed her clinical training in addictions counseling at Grant Hospital, Chicago. Through her involvement with the Substance Abuse Task Force Amongst the Hearing Impaired, she developed connections that led her to her present job. Jean is now employed by the City Department of Health as a Substance Abuse/AIDS Prevention Program Coordinator for the Hearing Impaired. Jean is currently a graduate student studying Substance Abuse Prevention at the National College of Education.

GARY OLSEN
Nationally reknown as an advocate for the Deaf, Gary is the former Executive Director of the National Association of the Deaf, a successful lobbyist for legislation addressing the needs of deaf and hard-of-hearing individuals, and was an appointed member by former President Reagan to the Commission on Education of the Deaf. Gary established the first NAD Branch Office, Regional Conferences, the Youth Leadership Camp and Leadership Deaf Program. A graduate of the Nebraska School for the Deaf, he holds a Bachelor of Arts degree in history and a Masters degree in Education. With postgraduate training in fundraising, leadership, planning management, and administration, Gary strongly believes if one is to be successful, then one must not only believe in him or herself, but also take an active part in making changes happen.

RICHARD PIMENTEL
Richard Pimentel is a nationally renowned motivational speaker and trainer who has made tremendous contributions in helping employers and training professionals eliminate attitudinal barriers in the hiring process. In addition, Richard is the key author and trainer for the highly acclaimed “Windmills” program – an attitudinal training program for employment of disabled individuals. More recently, Richard authored the compelling new program – “Perspectives: AIDS in the Workplace” which is designed to help employers deal with the fears, emotions and psychological issues which arise when someone in the workplace is identified as being HIV positive.

DONALD L. ROSENKJAR
Donald L. Rosenkjar was born in Los Angeles to deaf parents half a century ago. He was raised with an oral background, attended Gallaudet University and studied economics. Currently, he is employed in an administrative post with the Catholic Deaf Ministry, Archdiocese of Los Angeles. He has been involved with work relating to AIDS within the Deaf Community for three and a half years, including the work to form AIDS Education for the Deaf and Shanti. Deaf Unit – an emotional support volunteer group.

DANIEL P. WARNER
Daniel P. Warner has had an extensive background in Grief and Bereavement Counseling and related issues. A co-founder of the Los Angeles Shanti Foundation, Daniel now serves as its Executive Director and has facilitated issues of loss through Shanti, the City of West Hollywood, Northern Lights and the AIDS Hospice Foundation.

DR. MELVIN WHEATLEY, JR.
Dr. Wheatley is a retired bishop of the United Methodist Church who, with his wife, Lucile, is presently living in Laguna Hills, California. As parents of a gay son, they are active members of PFLAG (Parents and Friends of Lesbians and Gays) locally and nationally. This involvement and commitment to full human rights for all persons has resulted in Bishop Wheatley’s participation in four other regional and national conferences on AIDS ministries.

LILLIAN WYNN
The first deaf person hired at the National AIDS Hotline, Lillian was promoted to supervisor in March, 1989. She is the fourth of five Deaf generations in her family. Lillian is very involved with the Deaf community and holds a Reverse Skills Certificate from RID.

Research
Training
Clinical Services

The Center's research program strives to expand knowledge and understanding about the impact of deafness on psychosocial, emotional, and linguistic development. Today, UCCD research is taking a closer look at the mental health challenges faced by deaf individuals, examining the causes of mental disorders among deaf people, and ways to improve clinical assessment and treatment.

The Center's training program disseminates knowledge generated from both the research activities and clinical experience at UCCD to professionals and students in service and research fields related to deafness. Our goal is to provide the most advanced training possible in mental health and deafness, and to serve as a clearinghouse for information on psychology and deafness.

Locally, UCCD provides a broad range of outpatient mental health services to hearing-impaired individuals and their families. Resources are offered to people of all ages, from all ethnic and cultural backgrounds, and with all kinds and degrees of hearing loss. Services include assessment and evaluation, therapy, medication management, and consultation.
