THE ADVENTURES OF MISS SMITH

Dedicated to the Graduating Class University of California School of Nursing November 1944

Margaret Carlson
Why don't you go to theube between classes?
In neoplastic conditions—ph (where was I?)

If the doctor's wife only knew
Avertine anesthetic contraindicated
1600 cc glucose
Physiological saline
Fe and Ca must be increased
Therapy:
2 Lugols sol
9/5x

Medical case study due
5/14/12
if anyone were to say boo!
I've got them
in here somewhere
doctor

A Nurse is always prepared
you bet it was worth it
