Dear Ray:

John McLean and I discussed, this morning, the possibility of holding a Cantaloupe Day in Fresno County this year. There is considerable new information developed along lines of cantaloupe production and handling. We believe that a meeting at which this information could be presented should be held.

In view of Armen's absence on sabbatical leave, we would like to work with you or your delegated representative in planning this meeting in Fresno County. As to time, perhaps the middle of November would be most satisfactory.

We would appreciate hearing from you regarding this matter at your earliest convenience.

Sincerely yours,

Robert F. Kasmire

cc: J. McLean
