University of California, Irvine
Compliments of the U.C.I. Alumni Association

Book Edited by Lauren Jennings
Book Cover Designed by Karin Wickham
Study. All-nighters, unopened library books that collected huge fines, chemistry mid terms, and early morning computer dates. The responsibility and reason of Irvine.
Relate. Pier walks and grass talks. Special friendships sparkling minutes with intimate meanings, shared places, times, people.
Create. The ice cream tower, mounds of rich soil, and free-style dance... the clear ascent of imagination and design
Play, Donald Duck and "My Fair Lady", the Recycled Regatta, competition between classes and people...the biggest break from study.
Welcome visitors. People with big ideas, the filmcrew from “Silent Movie”, a handshake... and memories of meetings not soon forgotten.
Were there, Physics lab and "the Commons", the beach as a place to get away from it all . . . dorm parties and tree-lined pathways that led you to who knows where . . .
Wonder. Add-drop cards, hassles with the Registrar, big ideas for the future... questions of nature and us that sometimes go unanswered.
Co-op Recycling Center Sweeps Up.

With the involvement of UCI's Co-op Recycling Center, the environment could do nothing but improve. The purpose of the center in receiving material from the campus and the community is to clean up the area while earning money for environmental programs. Money earned through the recycling of tin, glass, aluminum, newspaper, and magazines helps fund Earth Week, a few days aimed at promoting ecological awareness.
Who ever said there was nothing more to school than sleeping, studying, and eating? ASUCI proved that wrong! In the past years, Associated Students has offered everything away from a lecture hall; concerts, dances, speakers, KUCI radio, "The New U", "Wayzgoose", and a variety of special interest projects. Those not directly involved in the council, took part in the enjoyment of the various services and activities. No matter where you were, ASUCI was there too!
It’s GREEK to me!

The Greek system at UCI, involving eight nationally known fraternities and sororities, provides an opportunity for young people to interact between one another and the community. Their service projects include donations to individual philanthropies, volunteer work in March of Dimes and Red Cross Blood Drives, and participation in University activities such as Wayzgoose, University Day, and the leading of campus tours.

Social events find the fraternity and sorority members at formals, exchanges, or theme parties. But there is more to the Greek system than socializing. Besides achieving academic excellence, the dedicated members of Alpha Chi Omega, Beta Theta Pi, Chi Psi, Delta Gamma, Gamma Phi Beta, Phi Delta Theta, Pi Beta Phi, and Sigma Chi have found that being a Greek has added an enriching dimension to their college experience.
