Of course, I'll be there to celebrate these 50 years with you, UCI! I share these 50 with you, UCI. It was Professor Lindberg who in 1965 enticed me away from the Free University of Berlin, Germany, to sample the tender beginnings of UCI's Graduate School. I had a fabulous three years at UCI doing graduate studies while teaching as a T.A. I'm proud to be among the 1965 entry graduate students, along with UCI's founders, proud to have carried my UCI M.A. to the Stanford University for my Ph.D.

Congratulations UCI! You and I matured in these 50 years:

I grew an exciting 40 year long professional career in Education and YOU, UCI, built a fabulous, inimitable reputation!

Looking forward to raising a toast to us both! Zot!Zot!Zot! Brigitte L. Labrentz, M.A.68
