5. As time permits, ask recorders to share the results of their team’s discussion

Time Goal: 17 minutes

**Conclusion**

1. Congratulate students on their participation in the competition
   - Encourage students who didn’t do at least 60 minutes of physical activity on at least 3 out of 7 days to work towards this as a future goal

2. Point out that the physical activity guidelines recommend more than what students were assigned to do for the competition
   - Ask a few students to specify the guidelines

3. Ask a student to briefly explain “energy balance”
   - Encourage students to keep energy balance in mind as they make decisions that involve food and physical activity

Time Goal: 3 minutes

**Extension Activity (Optional)**

Give students an assignment to determine the “energy out” required to burn the total calories in three or four fast food items, snack foods, soft drinks, or other sugar sweetened beverage
   - Ask students to estimate how much time they would have to walk briskly or play basketball to burn off the total number of calories

Assign students to work in groups to invent a new sport or game that involves moderate-intensity or vipersus-intensity physical activities
   - Groups should share their ideas with the entire class and possibly with the PE teachers

**Materials and Supplies**

Used Materials and supplies
- Visual Aids
- Posters
- Teaching Supplies
