

# CHAINSAW IN-SERVICE TRAINING COURSE

JUNE 21–22, 2019 • 9:00 AM–5:00 PM

Come join us at Okanogan High School, June 21–22, for two intensive days of instruction. Stihl Northwest will be assisting with engine performance maintenance, safety, and will discuss educational and technical training opportunities for teachers and their students. Washington Department of Fish and Wildlife will host the field portion of the workshop. Department of Labor and Industry specialists will provide hands-on field training with falling, bucking and safety at the Sinlahekin Wildlife Area (which spans from Conconully to Loomis).

## Location

Most of the training will be at Okanogan High School. The field portion will take place in the Sinlahekin Wildlife Area.

In the hands of a careless, inexperienced or tired operator, the chainsaw can be very hazardous. Logging injuries are the number one occupational hazard in the U.S. and the U.S. Consumer Product Safety Commission estimated that more than 44,000 people required hospital treatment for chainsaw-related injuries. Most accidents were caused when the operator came in contact with a moving chain. Injuries from a chain are usually serious because of the jagged cut it leaves. This workshop can help you avoid serious injury.
