Virtual Professional Development Opportunity for Washington State Educators

- Teachers from all disciplines welcome, no Computer Science (CS) experience required!
- Learn about a wide range of topics related to CS and CS education, including: mobile app development, data science, teaching best practices, and cross-curricular CS integration.
- Explore the intersection of CS and the impact it has on Washington’s communities and people - with a focus on issues related to equity, diversity, and justice.
- Learn how to incorporate CS topics into your classroom.
- Meet other Washington teachers who are interested in CS education.
- Earn 15 STEM Clock Hours, costs paid by the Allen School, through WSTA.
