Alumnae House

The Alumnae House was completed in 1953, but the wings were not added until 1963. The building was named after Mae Grimmer ‘14 in 1964. Grimmer served as secretary of the Alumnae Association from 1928-1964. Originally located where the northeast corner of the Science and Mathematics Building is today, it was moved to the present location in 2002. To learn more about the Mae Grimmer Alumnae House or the Meredith College Alumnae Association click on the links below or visit the College Archives.
