

Campus Buildings, 1949-1963

After the campus moved to its location on Hillsborough St. in 1926 building construction remained stagnant for over two decades. Not until 1949 did the campus experience growth through the construction of new buildings. Between the years 1949 and 1963, under Carlyle Campbell's administration, several new

buildings were added to campus. Our contemporary campus would not be recognizable without this significant era of building and facilities construction. The following is a list of all the new buildings constructed during this period. To learn more about the campus buildings click on the links below or visit the [College Archives](#).
