Let's face it...

As a dentist, the insurance companies and PPO's are literally holding you hostage.

Trying to get your claims and fee reimbursements paid to you is like waiting for paint to dry.

What's more, with all the loopholes, often times they're not paying you the full amount you're owed.

And what about all the time you waste chasing these shady characters for YOUR money?

You probably secretly wish you could get one of these culprits in your dentist chair, say 'open wide,' and go to town without anaesthesia!

Ahh, sweet revenge!

I've got great news for you.

Sweet revenge is yours...And it's Legit!

It's called, "Dental Fee Negotiator"...and it works like a charm.

See, a few years ago, Tim Quirt, a highly respected fellow dentist with 14 offices, faced similar problems in trying to collect all his fees from the insurance companies and PPOs.

After spending countless painful hours on the phone with providers and grilling them with specific 'insider' questions to get the answers he was looking for, Tim discovered that 'the good 'ol boys' were sometimes withholding up to 40% of what he was owed in claims and fees...

40%!

Needless to say, Tim had steam coming out of his ears.

And if they were doing this to him, they were doing it to ALL dentists all over the country!

Those rotten S.O.B.'s !

That's when it hit him like a ton of bricks:

Tim needed a sure-fire system so dentists could collect what was owed them on their claims and reimbursement fees...

Quickly, Easily, and without hassle.

Tim went 'into the lab'...and after several months came out with a revolutionary flat-out gangbuster program called...
