This is Jim.

Last week Jim was cleaning out his garage, when he lifted a heavy box...

And that's when he felt "something wasn't right" in his lower back.

Jim thought the pain would go away after a few days, but lo and behold, it didn't.

Jim was having trouble bending, walking, even putting on his socks and shoes.

It got to the point where Jim's back was throbbing...like he was being poked with a cattle prod!

Jim's injuries are much more common than you think. Thousands of Americans just like you injure their lower back and body each day doing common, everyday things...

Like bending, lifting, twisting, sitting, slipping, climbing, playing sports, even lying down or sleeping in weird positions.
