From the Desk of Dave VanHoose
Tuesday, 10:43a

Dear Speaker,

Speaking from the stage is my life. I've been doing it for over 16 years full time.

Selling, educating, training, entertaining, inspiring, and motivating audiences around the globe.

I've presented to groups large and small, from board rooms to conference rooms to ballrooms to arenas that seat 60,000+.

Over the years, I've **delivered over 3000 presentations** on topics ranging from sales, persuasion, negotiating, real estate, foreclosures, auctions, business building, personal development, NLP, hypnosis, webinar creation, and a host of others.

I've **sold over \$30 million in products and services** from the stage in various niches.

And none of this would have been possible without the training I acquired in...

- NLP (Neuro Linguistic Programming)
- Hypnosis
- Persuasion
- Entertainment
- Sales

I don't mention all this to impress or brag, but rather to illustrate a point.

The speakers market is changing. And it's changing FAST.

I see it wherever I go. Seminars, events, workshops, trade shows, keynotes, symposiums.

I see it in the eyes of speakers who are struggling with their 'canned' talks, stale sales pitches, and awkward attempts at humor.

Slumping sales, lower conversions, lackluster attendance, the inability to hold an audience's attention for more than 5 minutes...

They're all tell-tale signs of a widespread, obvious, and **blatant epidemic** running rampant throughout the speaker world.

As an audience member, you've experienced it yourself.

You're watching a presenter onstage. He's floundering. You don't trust the messenger or his message.

You can't wait to high-tail it out the door...and he's only been up there for 5 minutes!

How Will You Stand Out?

Audience engagement is WAY down...in large part due to the explosion of video, the impatient and unfulfilled, 'got have it have NOW' mentality, and rampant skepticism and cynicism.

Your audiences are starving for someone to give them what they want, what they crave.

And they're hungry for **someone they can TRUST!**

Yet one thing remains constant...and will ALWAYS remain constant...

The need for dynamic, engaging, trustworthy, inspiring, and unique talent that stands head and shoulders above all the rest...

With a message to match.

Audiences want to experience a speaker who **COMMANDS ATTENTION ...**

Captivates the imagination...

And keeps that audience transfixed from start to finish.

Someone who can **seamlessly SELL their offer, product, service, or message...**

Without feeling like they've been sold to.

They're HOPING that next speaker to make their way to the platform or podium is YOU!

The problem is, over 97% of public speakers, presenters, educators, and salespersons are getting left behind and dying a slow death because **they can't read the signs.**

They **don't know how to adjust** to this drastically shifting market, audience tolerance, or attention spans.

They don't know how to ADAPT.

And therein lies challenge.

I'm sure you can relate.

But where do you go from here?

Captivate. Motivate. Fascinate. Grab Their Attention...And Keep It

There are very few speaker 'rock stars' who truly stand out and make an impact in their industry.

That's why I created "**Speaking Giants LIVE!**"

A New Way of Speaking

Talking heads are out. Speaking with an agenda is out. Schmaltzy sales techniques and gimmicky pitches are out.

The key to truly capturing your audience's attention and getting your message to stick is to **become a great "Presentainer."**

It's the mark of every great speaker, no matter who they are.

Tony Robbins. Marianne Williamson. Joel Osteen. President Obama. Oprah. Seth Godin. Simon Sinek. Marshall Sylver. Lisa Nichols, Brendon Burchard, Brian Tracy, Wayne Dyer, Les Brown.

You have to ask yourself...

- Why are they so darn good at what they do?
- Why do they stand out?
- Why are they so memorable?
- Why do they have such a raving fanbase?
- What compels you to want to see them again and again?

It's because each of these "presentainers" have mastered **The Art of AUDIENCE CONNECTION.**

They connect with just about everyone in the room on a deeper level.

You're not just watching and observing them...

You're participating in AN EXPERIENCE.

The Art of Audience Connection

Bottom line, to capture and hold audience attention, to set yourself apart from the masses, you must **become a Presentainer.**

You are a Presenter AND an Entertainer.

Now, when I say entertainer, I'm not talking circus act or standup comedian.

I'm referring to your ability to engage your audience with...

- Variety and spice
- Highs and lows
- Stories and anecdotes
- Humor and flair
- Movement and stillness
- Pitch and tone

Incorporating all of these elements into your talk is what helps you to create that critical audience connection.

How do you connect with your audience?

Through **FEELINGS and EMOTIONS**. That's what it takes to move an audience...

Not the facts, data, statistics, fancy powerpoint slides, graphics, nor the flash.

By **stirring and igniting feelings** of empathy, compassion, desire, craving, laughter, giddiness, inspiration, motivation, anger, injustice, power, lust, peace, sadness, love...

You can take an audience on the ride of their life, wherever you want.

And that's EXACTLY what you're going to learn when you attend Speaking Giants LIVE!

No matter what field or niche you're in, no matter what the topic or your talk, no matter what group or audience you present to...

The techniques, strategies, tools, and exercises you get at Speaking Giants LIVE! are designed to work in ANY industry.

Now, with all this brain power, experience, and track record of success guiding you on your way to RULE the stage, you're assured of leaving St. Pete with a stage-ready KICK-A** presentation.

Here's how it's gonna go down over the course of your time with us.

Day 1

Session One: Understanding the Brain

This is where it all starts.

It's the foundation of your training. And it's critical to your understanding of effective communication and presentation.

You'll get a comprehensive understanding of human behavior, what drives us, and why men and women do what they do.

You'll get to know exactly what attracts and repels, what we respond and react to, how we process information and emotion, and what specific brain centers to 'talk to' when you're presenting.

You'll discover how to...

- ✓ Recognize what your audience REALLY wants...so you can give it to them
- ✓ Use specific words, language, and images...to **get your message to stick**
- ✓ Identify patterns and triggers the brain feeds on...and use them to your benefit
- ✓ Target specific brain centers...to elicit your desired effect
- ✓ Differentiate between higher and lower learning centers...**keys to audience response**

Session Two: NLP Patterns

As humans, we're all hard-wired pretty much the same way.

Which is why we all respond and react to specific neurological, physical, verbal and emotional signals, patterns, and triggers.

Great speakers know this. And great speakers and presenters utilize NLP to achieve their desired goal from the stage.

NLP is key when it comes to **highly effective verbal and non-verbal communication** and performance. So it's not just your words, inflection, and tone that guide your audience when you speak, but also the way you move...your eyes, hands, legs, head, and body.

You'll also be introduced to one of the most powerful tools you can use to remove blocks, fears, and constricting behavior that stop you from being your best.

It's called...

NEEP...Neuro Emotional Empowerment Practice

Using NLP and NEEP, you'll be **fearless in your personal and public life**.

You'll be shown how to affect a desired outcome from your audience using these life-changing techniques. Once you know them, once you use them, you'll wonder how you ever got by without them.

Without a doubt, you'll experience for yourself the massive difference NLP and NEEP make in your presentation.

What's more, you'll walk away from the training **certified in NLP and NEEP.**

You'll know exactly how to...

- ✓ Move an audience without saying a word
- ✓ Beautifully sync your words with your physical movements
- ✓ Create a magnetic bond with your audience...that never lets go
- ✓ Use '**non resistance communication**' to put your audience at ease
- ✓ Use key language and body language to **captivate, engage, and enthrall**

Session Three: The Power of Hypnosis

Ever wonder how great speakers command and 'own' the stage with confidence, clarity, and a sense of calm?

Not only is hypnosis a terrific form of therapy, it's an easy-to-use and brilliant tool for putting yourself in an 'ideal state' to deliver your message.

You won't just learn about hypnosis...you'll actually use and experience it.

You'll master what's called, "**conversational hypnosis**"...

A technique so simple to learn and easy to use, it'll become a part of your everyday communication repertoire.

You'll also undergo hypnosis yourself.

AND... you'll practice hypnotizing your fellow participants.

Plus, know precisely how to use it to **take your audience exactly where you want to.**

Hypnosis is not about 'forcing' someone to do something against their will. Hypnosis is about the power of suggestion...not mind control. (If you don't want or allow yourself to be hypnotized, you won't be.)

Hypnosis will give you the confidence and calm you can turn to before every performance...to get you centered, clear, and focused.

Bonus: You'll walk away from this training certified in hypnosis!

You'll discover...

- ✓ The subtle yet volcanic power of hypnosis
- ✓ How to get calm and centered...instantly
- ✓ Techniques that **give you a winner's edge** in your presentation
- ✓ What it means to truly 'trust' your instincts
- ✓ A **bottomless well of confidence** you never knew you had

Day 2

Session Four: How to Generate Massive Sales and Conversions

The achilles heel for most stage speakers is sales. Hands down.

Know this: when you're onstage, **you're ALWAYS selling.**

You're selling your product or service, your ideas, a proposition, a point of view, a deal, a cause.

So when it comes to selling onstage, you **MUST** prepare your audience--throughout your entire presentation--of what's to come.

To do this effectively, you must **'seed' your audience.**

And when it comes to seeding, NLP and hypnosis are your new best friends.

The tools and techniques you learned on Day 1 are crucial in taking your audience where you want to in the sales process.

You'll learn the perfect placement of these 'seeds' in your presentation:

Open Loops...Hooks...Anchors...Questions...Affirmations...Trial Closes...Future Pacing...and More.

You'll marry your words with your physical stage movements to create an organic, mesmerizing, compelling, and persuasive 'sales' performance.

This holds true no matter what you do or who you are.

You'll discover how to...

- ✓ Elicit a 'YES' response...whenever you choose

- ✓ **Create anticipation and desire** using these 3 simple triggers
- ✓ Use the stage for optimal effect
- ✓ Ask questions that evoke and provoke...and **keep the crowd transfixed**
- ✓ Know that they've already bought your product...without having pitched

Session Five: The Offer and The Pitch

If you're a speaker who sells from the stage or offers a service you want your audience to take advantage of, this session is **critical to your success**.

Getting to the point in your talk where you have to make the transition from educating, informing, and enlightening to making your offer can be daunting and difficult.

For most, it's an awkward shift. And to be honest, most speakers fail miserably when it comes to selling a product, service, proposal, agenda, idea, or call to action.

To be brutally honest, only a small fraction of speakers and presenters know how to sell and pitch **EFFECTIVELY**.

You've witnessed it yourself. As an audience member, you can sense when the pitch is coming. It makes you uncomfortable. You start wriggling in your seat. "Please get me out here" echoes in your head.

As a CEO delivering a pitch to your Board of Directors, you've felt the prickle on the back of your neck when you face blank stares in response to your proposal.

So...

What does 'effective' selling mean?

It means **SELLING WITHOUT SELLING**.

If you've crafted and presented your talk properly, using all the tools, strategies, and training we've given you, there's no need to sell. No need to convince your audience of **ANYTHING**.

Because the audience is **WAITING** and **CRAVING what you have** to offer.

They know by the time you get to your pitch...even much sooner...

That **YOU** are the answer to their problem, their challenge, their pain.

You have the solution...

You KNOW that what you have to offer WILL transform their life...

And **they're begging for you to give it to them.**

You'll discover exactly how to...

- ✓ Craft the perfect irresistible offer...using these 5 simple steps
- ✓ Transition from the body of your talk to your pitch...effortlessly and seamlessly
- ✓ Build tremendous value...so that **price becomes a NON ISSUE**
- ✓ Transform skeptics and cynics into buyers...and they'll thank you for it
- ✓ Create a 'table rush' to the back of the room...so audiences can't wait to buy from you

Session Six: Persuasive Body Language

A powerful presentation begins the moment you take your first steps toward the stage.

But very few speakers consider these important components...

- **What do you do with your hands?**
- What's the best way to move?
- **When's the best time to walk...and be still?**
- How do you use the stage for maximum effect?
- **Do you look the audience in the eye?**
- What's the best way to move your head?
- **What gestures have the greatest impact?**

You'll dive deep into each one of these trouble spots.

As an audience member, how many times have you felt uncomfortable for a speaker because she looked so awkward up there, uncomfortable in their own skin, not knowing how to move or what to do with her hands?

Never again will you hesitate or squirm onstage, wondering how to move or where to put your hands.

You'll focus on how to...

- ✓ Be comfortable onstage and in your body
- ✓ Use your hands to add dimension, punch, and emphasis to your presentation

- ✓ Move your body gracefully, naturally...so there's no distraction
- ✓ "See" the crowd and where to focus your attention
- ✓ Open up...to have FUN and feel FREES

Session Seven: Architecting Your Talk

Time to create your masterpiece.

Every one of your trainers will be on hand to guide you in crafting your message, your movements, and your physical stage presence. This is where you start to put it all together.

Your content...your story...persuasion...NLP...hypnosis...body language...the open...the middle...the close.

What's more, you'll **recognize all the bad habits** you've acquired through the years...so you can vanquish them once and for all.

You'll discover how to...

- ✓ Sculpt the perfect presentation...tailored to your personality and your strengths
- ✓ Set the pace and tone...to capture and hold attention
- ✓ Weave your story into your talk...and have them hanging on every word
- ✓ Focus on the 'One Big Idea' you want to convey...so that your audience 'gets it'
- ✓ Start...Build...Maintain Momentum...Pitch...and Close with a BANG

Day 3

Session Eight: No Fear

- **Do you get nervous before or during your talk?**
- Does the silence unsettle you?
- **Do you get 'thrown' easily by distractions?**
- Can you handle disruptions with grace and ease?
- **When things don't go as planned, can you think quickly on your feet?**
- Are you terrified when the speaker on stage before you 'crushes'?
- **How do you deal with a room full of stares and 'poker faces'?**

- What do you do if there's a technical issue?
- **Are you equipped to handle emergencies?**
- What's your strategy when facing a tough crowd?
- **What do you do if you suddenly 'go blank?'**
- Are you present and 'in tune' with the mood of room?

You're about to get the answers and solutions to all these common...and uncommon...speaker situations.

Because at some point in your career, if you do this long enough, you'll encounter ALL of them. Be prepared NOW so you can easily and smoothly win the crowd...no matter what you're faced with.

Here's what you get...

- ✓ The stage confidence to carry you through ANY situation
- ✓ How to handle any 'weirdness' that arises while speaking
- ✓ How to instantly squash your stage jitters
- ✓ How to use fear to your advantage
- ✓ Using humor to diffuse tension and nerves

Session Nine: Becoming a Presentainer

If you're gonna be a speaker, it's gotta be fun. You have to love what you do.

And the most effective way to convey a message from the stage...and have it stick...is to toss in a dose of entertainment.

Being entertaining IS NOT about telling jokes, or being wild and crazy, or performing some superhuman feat, or balancing spinning plates on your chin.

- It's a way to capture and hold attention.
- It's a way to engage.
- It's a way to CONNECT.

We're going to bring out a part of you that you never knew was hidden inside you. In fact, it's inside all of us. You just have to know how and where to look for it.

And once we help you find it, you'll shape it and incorporate it into your talk.

Sound nerve-racking? No worries. I've got you covered.

I'll demonstrate the power of entertainment with a full blown, rock 'em sock 'em Hypnosis Show.

You'll be the willing subjects of hypnosis, where the operative words are "FUN" and "LETTING GO"

Then guess what? It'll be YOUR turn to hypnotize the group.

You'll discover how to...

- ✓ Empower yourself by being a 'presentainer'
- ✓ Bring a whole new seductive dimension to public speaking
- ✓ Eliminate any self-consciousness
- ✓ Easily build your confidence by infusing fun and levity into your presentation
- ✓ Be totally fearless using this one simple tool

Day 4

Session 10: The Magic of Speaking

This is your turn to sit back and be entertained.

A first rate magician will wow you with illusion, perception, and his performance.

We'll then analyze the show so you get a thorough understanding of the power of entertainment and engagement.

The lessons and principles you learn and the strategies that play out in a magic show can be **easily transferred and adapted** into your own presentation.

As humans, we have a tendency to separate a 'serious talk' or a 'sales pitch' from an entertaining performance. When in reality, they're two sides of the same coin.

You'll be **blown away** not only by what you see, but by amazing secrets and nuances you can utilize in your own speeches and presentations.

You'll discover...

- ✓ How a great performance is structured...to duplicate in your own presentation

- ✓ The power of story...and how to move an audience
- ✓ Masterful ways to use the stage...to keep all eyes on YOU
- ✓ Vocal variety and tonality...for maximum impact
- ✓ How to 'shift' the energy in the room...at will

Session 11: Speaking Giants -The Art of Connection

This is your day...when everything you've learned, absorbed, and incorporated comes together in a brand new presentation.

This is where you finally tap that 'secret ingredient' that allows your message to ring like a clear bell in the minds and hearts of your audience...

Your Connection.

And when you connect...I mean REALLY connect...

They know you. They adore you. They trust you.

They can't get enough of you.

They WANT you to lead them to greener pastures, to crystal clear waters, to brighter horizons.

They're eager and hungry for you to tell them what to do next.

Take an action. Buy your product. Make a difference.

Just imagine standing in the wings backstage at a conference. You're ready to face the crowd.

Five hundred people are seated in the audience. They can't wait to not only see and hear you, but EXPERIENCE you. The crowd already knows who you are because you have a rock star reputation that precedes you.

The emcee begins your introduction and a hush falls over the room. You can hear a pin drop. At the sound of your name, the audience erupts. You glide onstage, confident, calm, and energized.

All eyes are glued on you. "Thank you," you say. And with those two simple words, and the feeling you sense from all 1000 eyes, you know they're hooked. You can feel it. They know you...like you...trust you.

Throughout your entire presentation, you feel the room, the audience. Because you're 100% present. You take them places they've never been before. You transport them with your words, your body, your movements. The way you use your hands, the way you stand, walk, gesture. It all comes together. It's as natural as breathing.

You ask them questions and they nod "Yes" in response. You have them smiling, thinking, laughing, feeling.

Like a lion, you own the room. It's yours.

You effortlessly move into your pitch, without a hint of doubt or a twinge of hesitation or a thought of “I hope this works.” None of that exists.

And as you make your offer and close your pitch, audience members get up from their seats and eagerly move in droves to the back of the room where your sales team takes their orders.

You continue to focus on the folks still seated, because they still want to hear and experience all you have to share... your knowledge, your wisdom, your heart.

The next sound you hear is applause. The next thing you see is their smiling, appreciative, and satisfied faces.

You moved them. You made an impact. You’ve made a REAL difference.

As the emcee returns to the stage and offers you another round of well-deserved recognition, you make your way down the stairs at the side of the stage where you’re swamped by a hungry crowd who wants more.
