

Larry Levin Landing Page Video #1
The Best Free Gift in Trading Education History
Dean Edelson

Congratulations!

You're about to get one of the most powerful no-nonsense, strategy-driven, wealth-exploding investment packages ever put together...absolutely FREE.

This massive 100% pure content gift that you're about to receive was personally put together by none other than Larry Levin...reluctant guru to the 'big players,' celebrity financial analyst, and one of the country's most successful and respected traders and investors.

With a retail street value of \$985, "The Best Free Gift in Trading Education History" packs a high octane financial punch specifically customized to get your investing venture skyrocketing.

Why is Larry giving you this invaluable investing package absolutely FREE? Because he's reached the boiling point with unscrupulous and unsavory 'advisors' who make big claims and never deliver on their promises.

And he wants to make dead certain you've got the best information on the planet for making smart and informed investing and trading decisions.

Whether you're currently a full or part-time trader, looking to create a secondary income stream, or just testing the investing waters, "The Best Free Gift in Trading Education History" is the ultimate tool in helping you create a rock solid investor foundation and trader launching pad.

Once you receive your package and go through these never-before-available materials, you'll experience the investing education of a lifetime.

You'll have an unfair advantage over all the market 'dabblers' and so-called 'know-it-all' investors...even if you've been trading for years.

What's more, you'll be equipped right out of the gate with superior techniques to help you filter the fluff and cut through the maze of government interference, high-frequency trading, and the swollen market craziness that drives most traders insane.

Just take a look at all you get with your "Best Free Gift in Trading Education History" package...

DVD #1... "Confessions From the Trading Floor—The Biggest Trades of all Time"

Get ready to experience some of the most outrageous...and REAL...trades transacted in and around the Chicago Exchange and Financial District. They will leave your head spinning!

You'll also get to hear...and be privy to... a select few 'underground' trades that regulators and agents DO NOT want you to know about...and that everyday investors never even hear about.

And...find out what really happens behind the closed doors in those exact same trading prop firms. The hairs on your head will stand straight up once you get an earful of these shocking 'behind the scenes' revelations.

"Confessions From the Trading Floor—The Biggest Trades of all Time" is valued at \$95.

DVD #2...Module 1: "The Market Profile Exposed"

Larry literally hands you the keys to the vault to effectively use the Market Profile Chart. Up to now, the profile chart has been a complicated, brain-bending, bell-curve challenging ball of confusion.

Using Larry's secret recipe for reading and playing the market, you'll be able to instantly understand--once and for all--market direction and trends that are critical to your success.

The elusive interpretation of the infamous 'bell curve' will no longer be a mystery to you. You'll eagerly embrace it as a cherished asset AND as your own personal lethal weapon.

Bottom line, this one chart is your crystal ball to trading like a pro.

"The Market Profile Exposed" has a retail value of \$175, and, as you'll agree, worth every penny.

DVD #2...Module 2: "The Breakout Box Technique"

This is one of Larry's exclusive 'signature' strategies for entering ANY stock trade using The Trend.

Larry personally guides you on how to chart any stock using this revolutionary technique.

Unlike complicated 'market indicators' and mind-melting software, The Trend is super simple to learn using this one easy calculation. You'll 'get it' in less than 30 seconds and can begin trading with confidence immediately.

With a retail value of \$125, "The Breakout Box Technique" is essential to your investing success.

But I have to warn you...DO NOT attempt to trade without knowing this proprietary analysis. Not knowing this technique can cost you dearly.

There's MORE!

You also get...

"The 10 Trading Commandments" PLUS a special "Trading Journal"

Once you get your hands on these essential 10 Trading Commandments, you'll avoid the pitfalls, failures, and shattered dreams that so many reckless, emotions-driven investors succumb to.

These Commandments are specifically designed to support both new and experienced investors...and should be framed and hung on your wall and memorized.

Once you know what these commandments are and followed, you substantially decrease your risk and skyrocket your opportunities.

AND...with your sleek new Trading Journal, you can instantly improve your simulated and real trades by documenting, recognizing, and identifying profile trends, market movement, and your own trading behavior.

"The 10 Trading Commandments" and your "Trading Journal" is valued at \$95.

As a BONUS, you also get 30 Day "Total-Card Entry Access" to *Larry's Live Online Real Time Trading Signal Room and Learning Center*.
