

The Amazingly Wonderful Energy of Visionary Reality

"Whatever you can do or dream you can, begin it. Boldness has genius, power, and magic in it." – Goethe

You all ARE doing a great job creating their goals for 2017 – and the energy it takes to fulfill them - so we thought this would be a good time to remind everyone of the amazingly wonderful energy of visionary reality.

Quick review of the Playing Field, explaining the difference in energies between physical reality and visionary reality; what lives in visionary reality (SOI, LI, ideas, possibility, dreams, visions); why our goals need to be "anchored" in visionary reality. The Sky is the Limit! Anything is possible! (Check out MARS on National Geographic Channel)

Goals: Review what happens when we start to bring a goal across the border (MM) and why creating goals that bring our most heartfelt Life's Intentions across the border helps us to navigate the border.

Walt Disney was a real person... How does someone like Walt bring dreams to reality...*"I once had this creative idea...but well you know how it is."* **How many great ideas have you had but never followed up with?** What if some of our biggest dreamers had quit in the process?

- *Go after that next level of production*
- *Begin that exercise and weight management program*
- *Buy an investment property*
- *Take a great vacation*
- *Make a big change in my personal life / Re-evaluate where I'm going with my life*
- *Change my living circumstances.*

Is it too big an undertaking? **Or just unclear thinking.** Just use your imagination....what would the energy of Walt Disney when he dreamed of Disney World. Do you think Walt Disney was inspired by his dream? There was a process to it - Dreamer, Realist, and Critic.

What youngster. . .has not dreamed of flying with Peter Pan over moonlit London, or tumbling into Alice's nonsensical Wonderland? In Fantasyland, these classic stories of everyone's youth have become realities for youngsters-of all ages-to participate in." - Walt Disney

"I dream, I test my dreams against my beliefs, I dare to take risks, and I execute my vision to make those dreams come true." – Walt Disney

Be sure that you are USING this in your Letters to Yourself written before end of this year... Dated Dec. 31, 2017. READ your letter from last year if you wrote one. How much did you fulfill? What needs to be in the NEW letter?

"When you're working on a truly worthwhile dream, the dream is also working on you." Paul McKenna

"Testing my dreams against my beliefs" is another way of saying we align our dreams and goals with our Standards of Integrity and Life's Intentions. **It's about being coherent**, and making sure most of our energies are demonstrating our most heartfelt (i.e. 5's) life's intentions.

Being clear about our dreams and why they're important to us allows us to be of **maximum contribution**.

"Only those who have learned the power of sincere and selfless contribution experience life's deepest joy: true fulfillment." - Tony Robbins

"Success is not a function of the size of your title but the richness of your contribution." Robin S. Sharma

“Life is not accumulation, it is about contribution.” - Stephen Covey

“You look out there and there's people that, their day is changed because of your contribution to it.” - Brad Paisley

Fulfilling Our dreams and Goals **allows others to see that it is possible.** What a gift to give – belief in yourself.

Our contribution if truly a gift also.

Look at the difference you make in peoples lives we help families buy a “Home” with courage, compassion, our generosity, our presence, our focus, our kindness, our support (sound familiar?) I know most of our clients, in the moment, do come from this spirit of contribution – its about helping – not the dollars you make. I know this is true because we often work harder for the “little deals” than we do for the bigger ones.

This vision of contribution is so very powerful. Think about it before every call, every appointment, every interaction.

How can I contribute to produce an extraordinary result?
