

SPA Essentials

CONDITIONER

Breathe

CONDITIONER for all hair types

SWEET TIPS

• Carefully selected essential oils used to create this unique and beneficial formula seem to ease, and expand the breath, especially the longer the conditioner is allowed to remain on the hair. *This effect is maximized in a hot, steamy shower – wow!*

SKIN

DIRECTIONS

Apply to wet hair. Using hands or comb, work conditioner through covering the entire hair shaft from root to end. *Leave in for 1 to 5 minutes depending on how deeply you wish to condition.*

Rinse thoroughly. Use as often as needed.

INGREDIENTS

Organic Aloe Leaf Juice, Cetearyl Alcohol, PEG-40 Castor Oil, Stearalkonium Chloride, Glycerin, Brassica Campestris/Aleurites Fordi Oil Copolymer, Phenoxyethanol, Organic Green Tea Leaf Extract, Organic Rooibos Leaf Extract, Activated Charcoal, Hydrolyzed Wheat Protein, Provitamin B5, MSM, Organic Alcohol, Sweet Basil Leaf Oil, Rosemary Leaf Oil, Laurel leaf Oil, Peppermint Oil, Ginger Root Oil, Eucalyptus Leaf Oil, Ravensara Oil, Lemon Peel Oil

KEY INGREDIENTS

- **Organic Green Tea** - *Green tea has advantages for the hair too. Its healthy constituents, especially the antioxidants, improve scalp health and consequently strengthen hair. The tea may even prevent male-pattern baldness.*
- **Activated Charcoal** - *Dandruff, redness, oily and itchy scalps may be relieved with activated charcoal. The activated charcoal will work on your scalp the way it does on your skin and hair: pulling out toxins and purifying.*
- **MSM** - *Collagen and keratin are both critical for the production of healthy hair. MSM is a bonafide “beauty mineral” that provides the sulfur needed to produce collagen and keratin. It’s also highly noted to contribute to exceptional strength and thickness of the hair, which can be noticed in just a couple weeks of consistent use.*
