

RFI DATA

These bulls represent 3 different test groups. **Test Group 1** was a group of 54 bulls and tested on a very high roughage – low energy ration. **Test Group 2** was a group of 50 bulls and tested on a moderate energy ration. **Test Group 3** was a group of 100 bulls and tested on a moderate energy ration and the test included the month of February. Because of the difference in test dates, ration, and weather you should not compare bulls between different test groups.

Test Group 1

Lot	Finish Date	End Wt. (lbs)	ADG (lbs)	Average DMI (lbs)	F/C	RFI (lbs)	Eff Index
