

DAILY Essentials for Men

GRIT

SKIN

EXFOLIANT for rough skin

SWEET TIPS

• *Facial whiskers on every man's face usually lead to ingrown bumps and red spots and oozing itchy sores. The brawnier you are in the facial hair category, the heavier the punishment if you choose to shave it off regularly. Please do not think of this exfoliating scrub as a female product. It is all male and all effective to help restore your face to its original integrity. This daily or weekly scrub will unclog the pores of each and every hair follicle. The end result is that your post-shaven face is smooth and clear and irritation free. Bless your face and enjoy this superior masculine remedy for post shave-irritation all-over scrub.*

DIRECTIONS

This scrub can be used daily or several times a week, and is great on face, neck, hands, elbows, knees, wherever a little extra scrubbing is needed. Moisten with water, dispense about a dime size of the scrub, and rub in circular motions. Rinse off with water and follow with Sweet Minerals Detox all-in-one cleanser for men.

BENEFITS

- **Unclogs pores and hair follicles**
- **Helps with ingrown hairs**
- **Helps with skin's cell turnover**
- **Smooths rough skin**
