

Openers

Inclusion

1. Every guy struggles with “approach anxiety” on some level.

Yet with the right strategy you can learn how to approach women anywhere you want.

2. Everyone has a credit score.

But do you truly know how it works?

3. Everybody likes sex.

Yet how many of us are actually GREAT at it?

4. We all know that we should have a retirement account.

However 60% of Americans have less than \$1,000 in the bank.

5. Every dude in the world wants to know how to turn women on.

That’s why understanding “sexual inception” is so powerful.

6. It’s a commonly held belief that men are supposed to buy women drinks.

Let me tell why that’s a bunch of bullshit.

7. There are 3 different credit reports with your credit information.

If you weren't aware of that, don't worry, you're not alone.

8. Taking out a mortgage is the traditional way to finance a home.

There are many types of mortgages, offering a variety of options for buyers. However, there are home mortgage alternatives that provide

a variety of options.

9. It's no secret that Americans are more stressed than ever before.

Heck, I used to be stressed all the time. It wasn't until I got my finances in order and learned some time-tested stress management techniques that I actually felt *relaxed* for the first time in years.

10. Have you ever been guilty of making some "not so smart" purchases with your credit card?

I know I have.

Exclusion

1. Credit card debt can be detrimental.

If you don't carry a balance or have credit card debt, congratulations, you are in rare company. However, if you do, I have some harsh truths to share with you.

2. Some guys seem to have no problem approaching women.

If that's you...congrats. If not, keep reading...

3. If you are completely satisfied with your sex life you can stop reading now.

This won't help you...but if you want to learn how give women toe curling orgasms every time you "do the deed" keep reading...

4. Paying off debt can seem like the hardest thing in the world.

But it's something you can do (a lot faster than you probably think) if you just follow these 3 basic strategies.

5. If you struggle to create sexual tension in conversations then you're gonna love this.

It's a weird little psychology tactic called "Sexual Inception" that plants the thought of sex in a woman's mind without her knowing you put it there.
