RE: Food Handler Training

Dear Mr. Chapman,

As you are aware, State Food Safety competed in a rigorous RFP process to provide online food handler training in Kansas City Missouri. Through this process, the Kansas City Health Department evaluated the training provided by State Food Safety to ensure it meets the requirements for food safety that align with the Kansas City Missouri Food Code.

During the RFP process, it was determined that State Food Safety does meet these requirements and a contractual agreement is in place to *continue* offering online food handler training through State Food Safety.

Again, we congratulate you and look forward to working with State Food Safety as a partner in online food handler training.

Sincerely,

Naser Jouhari
Division Manager
Environmental Health Services Division
