Subject: Utah Food Handler Training Provider Approval for Program Revalidation,  
AboveTraining Inc. dba StateFoodSafety.com

Dear Mr. Cannon,

Section 103-7(5) of Rule R392-103 requires food handler training providers to submit an application for program revalidation to the Utah Department of Health (Department) every three years. On September 22, 2017, AboveTraining Inc. dba StateFoodSafety.com submitted the required application to the Department.

The Department has reviewed the application and determined that the AboveTraining Inc. dba StateFoodSafety.com training program continues to meet the training objectives contained in R392-103-5. The previously-approved food handler training program is hereby revalidated, and AboveTraining Inc. dba StateFoodSafety.com will remain on the list of approved food handler training providers in Utah. This letter should be kept for documentation of program revalidation. The Department will provide courtesy notification to you approximately ninety days before the next revalidation deadline.

If you have any questions regarding program revalidation, please feel free to contact me or Chris Nelson at 801-538-6191.

Sincerely,

Karl Hartman  
Registered Environmental Health Services Specialist
