

## ADMISSION ESSAY

I am excited and determined to join New York University, Silver School of Social Work. My area of study is Global Health: Social Work. I pride myself in the choice of this institution as it is in line with my mission and goals in life. NYU mission is my purpose. This is an institution reputable for its great grounding in empirical research. It is a research centre out to better humanity seeking all possible solutions to eliminate human suffering through knowledge and understanding. The ultimate goal is to offer ideal living standards and offer justice to all people through creating professionals with this understanding. I intend to use knowledge with all its supremacy for sustainable development and transform lives.

NYU is a private institution in the public realm that is out to add value with no goal of making profits. The better lives of people are their endeavour and goal. Such is the institution I would like to study in and identify myself with. The institution's motto is *Perstare et praestare* - To persevere and to excel in Latin. Over the years, the institution has proven to live by this motto, and so is my goal in life. To give life the best I have and to serve humanity with all that I am.

I am fit to join the cream of the society at NYU as an industrious, smart and resourceful person. By acquiring knowledge with the best of institution in the world, I know my skills will be unparalleled. I will have the best opportunity to sharpen my saws and be the best I can be. Additionally, I am a natural and outstanding leader, organizer and visionary to lead a course to victory. I set high goals for myself that I work to achieve. Impossible is a motivation for me. I am hardworking with a team spirit. I understand that only pooled efforts can help bring the needed changes and best fruits.

I am self motivated and work under minimum supervision. On top of that, I have worked in different cultures and environments and I appreciate diversity a lot. We are all one and this is the way to go. I am looking forward to study in NYC. I am determined to build a lasting legacy and make NYU better than I found it. I will cherish every moment and utilise all the resources there in.
