

## Discover the benefits of Path at ACUMA's Digital Mortgage Showcase Tuesday, October 13 @ 1pm CT

Path is the industry's intuitive, highly configurable, cloud-based, data-driven loan origination software with unique benefits for credit unions. Path is designed to simplify the loan process while still providing the controls and flexibility you need to operate your business more efficiently and effectively.

### Cloud-Based Software

Our cloud-based software secures your members' information on an individual database dedicated to only your credit union so there's no need to worry about data comingling. Path is scalable & built for company growth.

### Always Connected

Path has a proven track record of more than 99.95 percent consistent system uptime. In fact, we offer an uptime guarantee. That means no more interrupted access to your files.

### Digital Borrower Interview

You and your members will love the ease and accessibility of Zip, a mobile-friendly borrower interview with automated data transfer into Path.

### Fast, Accurate Product & Pricing Engine

Unlike agency Automated Underwriting Systems (AUS), Portfolio Underwriter can be custom-tailored to reflect the underwriting guidelines of your specific non-agency programs.

### Integrated compliance management

Path Agile Compliance™ provides proactive, automated compliance alerts, audit trails, fee history tracking, rules engine capabilities, integrations with industry-leading companies, and a fully configurable compliance workflow.
