TECHNICAL RIDER & STAGE PLAN

First of all, thank you for your interest in booking a show for Hedtrip. Below is a list of our technical requirements. It might sound a bit formal to you, this is not meant to cause any inconveniences on your behalf. We designed this rider for optimum effectiveness at the day of the show. If there are any questions or if you have trouble providing any of the below mentioned please contact us before the day of the show and we will work out a solution.

Our Stage Setup is:

1 Drumset

1 Bass Guitar

1 Acoustic Guitar

2 Electric Guitars

4 Vocals

We assume that there is a well sized PA system provided for the concert room with sufficient power to supply a clean and undistorted 110dB SPL RMS to the mixing desk and a powerful and feedback-proof monitor system. It is very important that each member have their own monitor speakers with separate mixes. For venues over 300 people we will need two extra monitors for the guitar players and two sidefills for really large venues.
