

GENERAL INFORMATION:

GroPak is a proprietary blend of organically complex nutrients and is specifically designed as a seed treatment.

DIRECTIONS FOR USE:

Always follow directions and precautionary statements on pesticide labels. Application should be made in such a way to insure that all seeds are completely coated. An effective procedure is to fill the hopper box half full of seed and apply one half of the recommended rate of GroPak seed treatment and stir completely. Fill the seed hopper with the remainder of seed and spread the balance of the recommended dosage of GroPak over the remaining seed. Stir the balance completely. GroPak can be mixed with most fungicides and pesticides.

RATES - Applied to seed in hopper box.

Beans (green & dry), Brassica crops, Corn, Cotton, Milo, Grass Seed, Legumes (clover & alfalfa), Sugar Beets, Vegetable and Cole crops: 3-6 oz. per acre
Cereal Grains: 3-8 oz. per acre
Legumes (vetch, peas): 4-8 oz. per acre
Potatoes: 8-16 oz. per acre
Rice: 6 oz. per acre, applied to seed in drill seed box.
Soybeans: 4 oz. per acre

STORAGE AND DISPOSAL

Store in cool, dry place. Store in original container. Keep container tightly closed. Do not reuse empty container. Triple rinse, then offer for recycling or for disposal in a sanitary landfill, or by other means in accordance with local, state and federal regulations.
