

Field Display Name	Definition	Years Available
100 largest US cities	Ranking of 100 largest cities. Los Angeles includes Encino, Harbor City, Los Angeles, Marina Del Rey, Mission Hills, Northridge, Panorama City, San Pedro, Sherman Oaks, Sun Valley, Sylmar, Tarzana, Van Nuys, West Hills, Woodland Hills. New York includes Bronx, Brooklyn, Far Rockaway, Flushing, Jamaica, Long Island, New York, and Staten Island.	2006-CY
Ablation of Barrett's esophagus	Premalignant condition that can lead to adenocarcinoma of the esophagus. The nonsurgical ablation of premalignant tissue in Barrett's esophagus by the application of thermal energy or light through an endoscope passed from the mouth into the esophagus. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey	2007-CY
Ablation of Barrett's esophagus - health system	Premalignant condition that can lead to adenocarcinoma of the esophagus. The nonsurgical ablation of premalignant tissue in Barrett's esophagus by the application of thermal energy or light through an endoscope passed from the mouth into the esophagus. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey	2018-CY
Ablation of Barrett's esophagus - joint venture	Premalignant condition that can lead to adenocarcinoma of the esophagus. The nonsurgical ablation of premalignant tissue in Barrett's esophagus by the application of thermal energy or light through an endoscope passed from the mouth into the esophagus. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey	2018-CY
Ablation of Barrett's esophagus - network	Premalignant condition that can lead to adenocarcinoma of the esophagus. The nonsurgical ablation of premalignant tissue in Barrett's esophagus by the application of thermal energy or light through an endoscope passed from the mouth into the esophagus. Sourced from the AHA Annual Survey	2007-2012

Accountable care contract - commercial insurance plan	An ACO contract has two essential elements: (1) accountability for the total costs of care for the population of patients attributed to the primary care physicians in the organization; (2) financial incentives that link the magnitude of bonus payments to performance on quality measures (which could include technical quality, patient experience and/or health outcome measures) This will generally involve a contract where the payer establishes a target budget for one or more years for the total costs of care for the agreed-upon patient population, the payer tracks actual spending and performance on quality; and the provider receives bonus payments that could include a share of savings that are (or are not) contingent on meeting quality targets, with (or without) additional bonuses related to performance on those quality measures. Sourced from the AHA Annual Survey.	2018-CY
Accountable care contract - medicaid	An ACO contract has two essential elements: (1) accountability for the total costs of care for the population of patients attributed to the primary care physicians in the organization; (2) financial incentives that link the magnitude of bonus payments to performance on quality measures (which could include technical quality, patient experience and/or health outcome measures) This will generally involve a contract where the payer establishes a target budget for one or more years for the total costs of care for the agreed-upon patient population, the payer tracks actual spending and performance on quality; and the provider receives bonus payments that could include a share of savings that are (or are not) contingent on meeting quality targets, with (or without) additional bonuses related to performance on those quality measures. Sourced from the AHA Annual Survey.	2018-CY

Accountable care contract - medicare advantage plan	An ACO contract has two essential elements: (1) accountability for the total costs of care for the population of patients attributed to the primary care physicians in the organization; (2) financial incentives that link the magnitude of bonus payments to performance on quality measures (which could include technical quality, patient experience and/or health outcome measures) This will generally involve a contract where the payer establishes a target budget for one or more years for the total costs of care for the agreed-upon patient population, the payer tracks actual spending and performance on quality; and the provider receives bonus payments that could include a share of savings that are (or are not) contingent on meeting quality targets, with (or without) additional bonuses related to performance on those quality measures. Sourced from the AHA Annual Survey.	2018-CY
Accountable care contract - traditional medicare	An ACO contract has two essential elements: (1) accountability for the total costs of care for the population of patients attributed to the primary care physicians in the organization; (2) financial incentives that link the magnitude of bonus payments to performance on quality measures (which could include technical quality, patient experience and/or health outcome measures) This will generally involve a contract where the payer establishes a target budget for one or more years for the total costs of care for the agreed-upon patient population, the payer tracks actual spending and performance on quality; and the provider receives bonus payments that could include a share of savings that are (or are not) contingent on meeting quality targets, with (or without) additional bonuses related to performance on those quality measures. Sourced from the AHA Annual Survey.	2018-CY
Accountable Care Organization Established	An ACO contract has two essential elements: (1) accountability for the total costs of care for the population of patients attributed to the primary care physicians in the organization; (2) financial incentives that link the magnitude of bonus payments to performance on quality measures. Sourced from the AHA Annual Survey.	2016-2017
Accountable for implementing strategies for health equity goals - CEO	Sourced from the AHA Annual Survey.	2021-2023
Accountable for implementing strategies for health equity goals - committee or task force	Sourced from the AHA Annual Survey.	2021-2023

Accountable for implementing strategies for health equity goals - designated senior executive	Sourced from the AHA Annual Survey.	2021-2023
Accountable for implementing strategies for health equity goals - division/department leaders	Sourced from the AHA Annual Survey.	2021-2023
Accountable for implementing strategies for health equity goals - employee resource group	Sourced from the AHA Annual Survey.	2021-2023
Accountable for implementing strategies for health equity goals - middle management	Sourced from the AHA Annual Survey.	2021-2023
Accountable for implementing strategies for health equity goals - none of the above	Sourced from the AHA Annual Survey.	2022-2023
Accountable for meeting health equity goals - CEO	Sourced from the AHA Annual Survey.	2021-2023
Accountable for meeting health equity goals - committee or task force	Sourced from the AHA Annual Survey.	2021-2023
Accountable for meeting health equity goals - designated senior executive	Sourced from the AHA Annual Survey.	2021-2023
Accountable for meeting health equity goals - division/department leaders	Sourced from the AHA Annual Survey.	2021-2023
Accountable for meeting health equity goals - employee resource group	Sourced from the AHA Annual Survey.	2021-2023
Accountable for meeting health equity goals - middle management	Sourced from the AHA Annual Survey.	2021-2023
Accountable for meeting health equity goals - none of the above	Sourced from the AHA Annual Survey.	2022-2023
Accreditation by Accreditation Commission for Healthcare, Inc (ACHC)	Accreditation by Accreditation Commission for Healthcare, Inc (ACHC). Previously, accreditation by Healthcare Facilities Accreditation Program (HFAP) of the American Osteopathic Association. Sourced from Accreditation Commission for Health Care, Inc.	2018-CY
Accreditation by Commission on Accreditation of Rehabilitation Facilities (CARF)	Accreditation by Commission on Accreditation of Rehabilitation Facilities (CARF) - (MAPP7) Sourced from the Commission on Accreditation of Rehabilitation Facilities.	2018-CY
Accreditation by The Joint Commission	Accreditation by Joint Commission on Accreditation of Health Care Organizations (JCAHO) - (MAPP1). Sourced from The Joint Commission.	2018-CY

Accreditation Council for Graduate Medical Education residency (historical)	Participating site recognized for one or more Accreditation Council for Graduate Medical Education (ACGME) accredited programs (MAPP3). Sourced from Accreditation Council of Graduate Medical Education (ACGME).	2006-2017
Accumulated depreciation	The total amount of depreciation for land and physical properties consumed or used in the creation of economic activity by the health care entity. Sourced from AHA Annual Survey.	2006-CY
ACO Medicaid Population	The patient population that participates in the ACO is Medicaid. Sourced from the AHA Annual Survey.	2016-2017
ACO Medicare Population	The patient population that participates in the ACO is Medicare. Sourced from the AHA Annual Survey.	2016-2017
ACO Other Description	Sourced from the AHA Annual Survey.	2016-2017
ACO Other Population	The population that participates in the ACO is a group other than Medicaid, Medicare, and/or privately insured. Sourced from the AHA Annual Survey.	2016-2017
ACO patient population - Direct to employer	The population that participates in the ACO is director to employer. Sourced from the AHA Annual Survey.	2017
ACO Privately Insured Population	The patient population that participates in the ACO is privately insured. Sourced from the AHA Annual Survey.	2016-2017
Acute inpatient care integrated with behavioral health care	Acute inpatient care integrated with behavioral health care. Sourced from the AHA Annual Survey.	2017-2020
Acute inpatient care integrated with behavioral health care	Provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization. Integration means routinely coupling medical services with behavioral health services and could range from co-located physical and behavioral health providers, with some screening and treatment planning, to fully integrated care where behavioral and physical health providers function as a true team in a shared practice. Sourced from the AHA Annual Survey.	2023-CY
Acute long term care	Provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization averaging 25 days, in a facility offering specialized treatment programs and therapeutic intervention on a 24 hour/7 day a week basis. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Acute long term care beds	Staffed beds set up to provide specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization averaging 25 days, in a facility offering specialized treatment programs and therapeutic intervention on a 24 hour/7 day a week basis. Sourced from the AHA Annual Survey.	2006-CY
Acute long-term care - health system	Provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization averaging 25 days, in a facility offering specialized treatment programs and therapeutic intervention on a 24 hour/7 day a week basis. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2018-CY
Acute long-term care - joint venture	Provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization averaging 25 days, in a facility offering specialized treatment programs and therapeutic intervention on a 24 hour/7 day a week basis. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2018-CY
Acute long term care - network	Provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization averaging 25 days, in a facility offering specialized treatment programs and therapeutic intervention on a 24 hour/7 day a week basis. Sourced from the AHA Annual Survey.	2006-2012
Addiction/substance use disorder consultation and liaison services - acute inpatient care	Provides organized consultation/liaison services to nonpsychiatric hospital staff and/or departments to reduce the mortality and morbidity associated with substance use disorders by improving access to evidence-based addiction treatment while in a hospital. This could include risk assessment and diagnostic testing and providing different treatment resources. Acute inpatient care provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization. Sourced from the AHA Annual Survey.	2020-CY

Addiction/substance use disorder consultation and liaison services - emergency services	Provides organized consultation/liaison services to nonpsychiatric hospital staff and/or departments to reduce the mortality and morbidity associated with substance use disorders by improving access to evidence-based addiction treatment while in a hospital. This could include risk assessment and diagnostic testing and providing different treatment resources. Emergency services consist of health services that are provided after the onset of a medical condition that manifests itself by symptoms of sufficient severity, including severe pain, that the absence of immediate medical attention could reasonably be expected by a prudent layperson, who possesses an average knowledge of health and medicine, to result in placing the patient's health in serious jeopardy. Sourced from the AHA Annual Survey.	2020-CY
Addiction/substance use disorder consultation and liaison services - extended care	Provides organized consultation/liaison services to nonpsychiatric hospital staff and/or departments to reduce the mortality and morbidity associated with substance use disorders by improving access to evidence-based addiction treatment while in a hospital. This could include risk assessment and diagnostic testing and providing different treatment resources. Extended care provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization averaging 25 days. Extended care can be offered in a hospital or extended care facility. Sourced from the AHA Annual Survey. Sourced from the AHA Annual Survey.	2020-CY
Addiction/substance use disorder consultation and liaison services - primary care services	Provides organized consultation/liaison services to nonpsychiatric hospital staff and/or departments to reduce the mortality and morbidity associated with substance use disorders by improving access to evidence-based addiction treatment while in a hospital. This could include risk assessment and diagnostic testing and providing different treatment resources. Primary care services are health services that cover a range of prevention, wellness, and treatment for common illnesses. Primary care providers include doctors, nurses, nurse practitioners, and physician assistants. They often maintain long-term relationships with patients and advise and treat a range of health-related issues. Sourced from the AHA Annual Survey.	2020-CY
Address 1 (mailing)	Mailing address	CY
Address 1 (physical)	Physical mailing address	2006-CY

Address 2 (mailing)	Mailing address	CY
Address 2 (physical)	Physical address	CY
Adjusted admissions	An aggregate figure reflecting the number patients admitted during the reporting period, plus an estimate of the volume of outpatient services, expressed in units equivalent to an (admission) inpatient day in terms of level of effort. The figure is derived by first multiplying the number of outpatient visits by the ratio of outpatient revenue per outpatient visit to inpatient revenue per inpatient day. The product (which represents the number of admissions attributable to outpatient services) is then added to the number of admissions. Originally, the purpose of this calculation was to summarize overall productivity and calculate a unit cost that would include both inpatient and outpatient admissions. Sourced from the AHA Annual Survey.	2006-CY
Adjusted average daily census	An estimate of the average number of patients (both inpatients and outpatients) receiving care each day during the reporting period, which is usually 12 months. The figure is derived by dividing the number of inpatient day equivalents (also called adjusted inpatient days) by the number of days in the reporting period. Sourced from the AHA Annual Survey.	2006-CY
Adjusted average daily census (hospital unit)	Adjusted Inpatient Days Hospital Unit/Number of Days in Reporting Period. Sourced from the AHA Annual Survey.	2016-CY
Adjusted patient days	An aggregate figure reflecting the number of days of inpatient care, plus an estimate of the volume of outpatient services, expressed in units equivalent to an inpatient day in terms of level of effort. The figure is derived by first multiplying the number of outpatient visits by the ratio of outpatient revenue per outpatient visit to inpatient revenue per inpatient day. The product (which represents the number of patient days attributable to outpatient services) is then added to the number of inpatient days. Originally, the purpose of this calculation was to summarize overall productivity and calculate a unit cost that would include both inpatient and outpatient activities. Sourced from the AHA Annual Survey.	2006-CY
Adjusted patient days (hospital unit)	Inpatient Days + (Inpatient Days hospital* (Outpatient Revenue/Inpatient Revenue)). Sourced from the AHA Annual Survey.	2016-CY

Admission restricted to children	Indicates this is a hospital whose primary focus is the health and treatment of children and adolescents, with 80% admissions 18 years or younger. Sourced from the AHA Annual Survey.	2006-CY
Admissions	The number of patients, excluding newborns, accepted for inpatient service during the reporting period; the number includes patients who visit the emergency room and are later admitted for inpatient service. Sourced from the AHA Annual Survey.	2006-CY
Admissions (est.)	Estimated Admissions - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Admissions (hospital unit)	The number of patients, excluding newborns, accepted for inpatient service during the reporting period; the number includes patients who visit the emergency room and are later admitted for inpatient service. Sourced from the AHA Annual Survey.	2006-CY
Admissions (nursing home)	The number of patients accepted for inpatient service during the reporting period. Sourced from the AHA Annual Survey.	2006-CY
Adult cardiac electrophysiology	Evaluation and management of patients with complex rhythm or conduction abnormalities, including diagnostic testing, treatment of arrhythmias by catheter ablation or drug therapy, and pacemaker/defibrillator implantation and follow-up. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Adult cardiac electrophysiology-health system	Evaluation and management of patients with complex rhythm or conduction abnormalities, including diagnostic testing, treatment of arrhythmias by catheter ablation or drug therapy, and pacemaker/defibrillator implantation and follow-up. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2018-CY

Adult cardiac electrophysiology-joint venture	Evaluation and management of patients with complex rhythm or conduction abnormalities, including diagnostic testing, treatment of arrhythmias by catheter ablation or drug therapy, and pacemaker/defibrillator implantation and follow-up. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2018-CY
Adult cardiac electrophysiology-network	Evaluation and management of patients with complex rhythm or conduction abnormalities, including diagnostic testing, treatment of arrhythmias by catheter ablation or drug therapy, and pacemaker/defibrillator implantation and follow-up. Sourced from the AHA Annual Survey.	2008-2012
Adult cardiac surgery	Includes minimally invasive procedures that include surgery done with only a small incision or no incision at all, such as through a laparoscope or an endoscope and more invasive major surgical procedures that include open chest and open heart surgery. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Adult cardiac surgery - health system	Includes minimally invasive procedures that include surgery done with only a small incision or no incision at all, such as through a laparoscope or an endoscope and more invasive major surgical procedures that include open chest and open heart surgery. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2018-CY
Adult cardiac surgery - joint venture	Includes minimally invasive procedures that include surgery done with only a small incision or no incision at all, such as through a laparoscope or an endoscope and more invasive major surgical procedures that include open chest and open heart surgery. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2018-CY
Adult cardiac surgery - network	Includes minimally invasive procedures that include surgery done with only a small incision or no incision at all, such as through a laparoscope or an endoscope and more invasive major surgical procedures that include open chest and open heart surgery. Sourced from the AHA Annual Survey.	2006-2012
Adult cardiology services	An organized clinical service offering diagnostic and interventional procedures to manage the full range of adult heart conditions. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2009-CY

Adult cardiology services - health system	An organized clinical service offering diagnostic and interventional procedures to manage the full range of adult heart conditions. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2018-CY
Adult cardiology services - joint venture	An organized clinical service offering diagnostic and interventional procedures to manage the full range of adult heart conditions. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2018-CY
Adult cardiology services - network	An organized clinical service offering diagnostic and interventional procedures to manage the full range of adult heart conditions. Sourced from the AHA Annual Survey.	2009-2012
Adult day care program	Program providing supervision, medical and psychological care, and social activities for older adults who live at home or in another family setting, but cannot be alone or prefer to be with others during the day. May include intake assessment, health monitoring, occupational therapy, personal care, noon meal, and transportation services. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Adult day care program - health system	Program providing supervision, medical and psychological care, and social activities for older adults who live at home or in another family setting, but cannot be alone or prefer to be with others during the day. May include intake assessment, health monitoring, occupational therapy, personal care, noon meal, and transportation services. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Adult day care program - joint venture	Program providing supervision, medical and psychological care, and social activities for older adults who live at home or in another family setting, but cannot be alone or prefer to be with others during the day. May include intake assessment, health monitoring, occupational therapy, personal care, noon meal, and transportation services. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY

Adult day care program - network	Program providing supervision, medical and psychological care, and social activities for older adults who live at home or in another family setting, but cannot be alone or prefer to be with others during the day. May include intake assessment, health monitoring, occupational therapy, personal care, noon meal, and transportation services. Sourced from the AHA Annual Survey.	2006-2012
Adult diagnostic catheterization	Cardiac angiography, also called coronary angiography or coronary arteriography, is used to assist in diagnosing complex heart conditions. It involves the insertion of a tiny catheter into the artery in the groin then carefully threading the catheter up into the aorta where the coronary arteries originate. Once the catheter is in place, a dye is injected which allows the cardiologist to see the size, shape, and distribution of the coronary arteries. Images are used to diagnose heart disease and to determine, whether or not surgery is indicated. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Adult diagnostic catheterization - health system	Cardiac angiography, also called coronary angiography or coronary arteriography, is used to assist in diagnosing complex heart conditions. It involves the insertion of a tiny catheter into the artery in the groin then carefully threading the catheter up into the aorta where the coronary arteries originate. Once the catheter is in place, a dye is injected which allows the cardiologist to see the size, shape, and distribution of the coronary arteries. Images are used to diagnose heart disease and to determine, whether or not surgery is indicated. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Adult diagnostic catheterization - joint venture	Cardiac angiography, also called coronary angiography or coronary arteriography, is used to assist in diagnosing complex heart conditions. It involves the insertion of a tiny catheter into the artery in the groin then carefully threading the catheter up into the aorta where the coronary arteries originate. Once the catheter is in place, a dye is injected which allows the cardiologist to see the size, shape, and distribution of the coronary arteries. Images are used to diagnose heart disease and to determine, whether or not surgery is indicated. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY

Adult diagnostic catheterization - network	Cardiac angiography, also called coronary angiography or coronary arteriography, is used to assist in diagnosing complex heart conditions. It involves the insertion of a tiny catheter into the artery in the groin then carefully threading the catheter up into the aorta where the coronary arteries originate. Once the catheter is in place, a dye is injected which allows the cardiologist to see the size, shape, and distribution of the coronary arteries. Images are used to diagnose heart disease and to determine, whether or not surgery is indicated. Sourced from the AHA Annual Survey.	2006-2012
Adult interventional cardiac catheterization	Non surgical procedure that utilizes the same basic principles as diagnostic catheterization and then uses advanced techniques to improve the heart's function. It can be a less-invasive alternative to heart surgery. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Adult interventional cardiac catheterization - health system	Non surgical procedure that utilizes the same basic principles as diagnostic catheterization and then uses advanced techniques to improve the heart's function. It can be a less-invasive alternative to heart surgery. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Adult interventional cardiac catheterization - joint venture	Non surgical procedure that utilizes the same basic principles as diagnostic catheterization and then uses advanced techniques to improve the heart's function. It can be a less-invasive alternative to heart surgery. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Adult interventional cardiac catheterization - network	Non surgical procedure that utilizes the same basic principles as diagnostic catheterization and then uses advanced techniques to improve the heart's function. It can be a less-invasive alternative to heart surgery. Sourced from the AHA Annual Survey.	2006-2012
Advanced practice nurses	Registered nurses with advanced didactic and clinical education, knowledge, skills, and scope of practice. Sourced from the AHA Annual Survey.	2010-CY
Advanced practice nurses FT	Number of full-time advanced practice nurses: registered nurses with advanced didactic and clinical education, knowledge, skills, and scope of practice. Sourced from the AHA Annual Survey.	2010-2023

Advanced practice nurses FTE	Number of advanced practice nurse FTEs: registered nurses with advanced didactic and clinical education, knowledge, skills, and scope of practice. Sourced from the AHA Annual Survey.	2010-2023
Advanced practice nurses PT	Number of part-time advanced practice nurses: registered nurses with advanced didactic and clinical education, knowledge, skills, and scope of practice. Sourced from the AHA Annual Survey.	2010-2023
Africa	Hospital recruits foreign-educated nurses from Africa. Sourced from the AHA Annual Survey.	2007-CY
AHA ID	AHA Assigned unique identification number. Sourced from AHA Membership.	2006-CY
AI assisted diagnostics - clinical AI implementation	Hospital uses AI to assist in analyzing medical data and improve early detection of disease. Artificial Intelligence (AI) encompasses a broad range of technologies that enable machines to simulate human intelligence and perform tasks that typically require human cognitive abilities. Sourced from the AHA Annual Survey.	2024-CY
AI assisted surgery - clinical AI implementation	Hospital uses AI to assist in surgical processes. Artificial Intelligence (AI) encompasses a broad range of technologies that enable machines to simulate human intelligence and perform tasks that typically require human cognitive abilities. Sourced from the AHA Annual Survey.	2024-CY
AI or machine learning - automating routine tasks	Sourced from the AHA Annual Survey.	2021-2023
AI or machine learning - does not apply	Sourced from the AHA Annual Survey.	2022-2023
AI or machine learning - optimizing administrative and clinical workflows	Sourced from the AHA Annual Survey.	2021-2023
AI or machine learning - predicting patient demand	Sourced from the AHA Annual Survey.	2021-2023
AI or machine learning - predicting staffing needs	Sourced from the AHA Annual Survey.	2021-2023
AI or machine learning - staff scheduling	Sourced from the AHA Annual Survey.	2021-2023
Air ambulance services - health system	Aircraft and especially a helicopter equipped for transporting the injured or sick. Most air ambulances carry critically ill or injured patients, whose condition could rapidly change for the worse. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2018-CY
Air ambulance services - hospital	Aircraft and especially a helicopter equipped for transporting the injured or sick. Most air ambulances carry critically ill or injured patients, whose condition could rapidly change for the worse. Service owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2018-CY

Air ambulance services - joint venture	Aircraft and especially a helicopter equipped for transporting the injured or sick. Most air ambulances carry critically ill or injured patients, whose condition could rapidly change for the worse. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2018-CY
Airborne infection isolation room	A single-occupancy room for patient care where environmental factors are controlled in an effort to minimize the transmission of those infectious agents, usually spread person to person by droplet nuclei associated with coughing or inhalation. Such rooms typically have specific ventilation requirements for controlled ventilation, air pressure and filtration. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Airborne infection isolation room - health system	A single-occupancy room for patient care where environmental factors are controlled in an effort to minimize the transmission of those infectious agents, usually spread person to person by droplet nuclei associated with coughing or inhalation. Such rooms typically have specific ventilation requirements for controlled ventilation, air pressure and filtration. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Airborne infection isolation room - joint venture	A single-occupancy room for patient care where environmental factors are controlled in an effort to minimize the transmission of those infectious agents, usually spread person to person by droplet nuclei associated with coughing or inhalation. Such rooms typically have specific ventilation requirements for controlled ventilation, air pressure and filtration. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Airborne infection isolation room - network	A single-occupancy room for patient care where environmental factors are controlled in an effort to minimize the transmission of those infectious agents, usually spread person to person by droplet nuclei associated with coughing or inhalation. Such rooms typically have specific ventilation requirements for controlled ventilation, air pressure and filtration. Sourced from the AHA Annual Survey.	2006-2012

Airway endoscopy - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Airway endoscopy - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Airway endoscopy - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Alcohol/drug abuse or dependency inpatient care	Provides diagnosis and therapeutic services to patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal. Sourced from the AHA Annual Survey.	2006-2019
Alcohol/drug abuse or dependency inpatient care beds	Staffed beds set up for patient care in a dedicated alcohol/drug abuse or dependency care unit. Sourced from the AHA Annual Survey.	2006-2019
Alcohol/drug abuse or dependency inpatient care - health system	Provides diagnosis and therapeutic services to patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal. Sourced from the AHA Annual Survey.	2006-2019
Alcohol/drug abuse or dependency inpatient care - joint venture	Provides diagnosis and therapeutic services to patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal. Sourced from the AHA Annual Survey.	2006-2019
Alcohol/drug abuse or dependency inpatient care - network	Provides diagnosis and therapeutic services to patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal. Sourced from the AHA Annual Survey.	2006-2012

Alcohol/drug abuse or dependency outpatient services	Organized hospital services that provide medical care and/or rehabilitative treatment services to outpatients for whom the primary diagnosis is alcoholism or other chemical dependency. Sourced from the AHA Annual Survey.	2006-2019
Alcohol/drug abuse or dependency outpatient services - network	Organized hospital services that provide medical care and/or rehabilitative treatment services to outpatients for whom the primary diagnosis is alcoholism or other chemical dependency. Sourced from the AHA Annual Survey.	2006-2012
Alcoholism/chemical dependency outpatient services - health system	Organized hospital services that provide medical care and/or rehabilitative treatment services to outpatients for whom the primary diagnosis is alcoholism or other chemical dependency. Sourced from the AHA Annual Survey.	2006-2019
Alcoholism/chemical dependency outpatient services - joint venture	Organized hospital services that provide medical care and/or rehabilitative treatment services to outpatients for whom the primary diagnosis is alcoholism or other chemical dependency. At the joint venture level. Sourced from the AHA Annual Survey.	2017-2019
Alcoholism/chemical dependency outpatient services - joint venture (historical)	Organized hospital services that provide medical care and/or rehabilitative treatment services to outpatients for whom the primary diagnosis is alcoholism or other chemical dependency. Sourced from the AHA Annual Survey.	2006-2019
Alcoholism/chemical dependency pediatric services beds	Staffed pediatric beds set up for patient care in a dedicated alcohol/drug abuse or dependency care unit. Sourced from the AHA Annual Survey.	2017-2019
Alcoholism/chemical dependency pediatric services - health system	Provides diagnosis and therapeutic services to pediatric patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal. At the health system level. Sourced from the AHA Annual Survey.	2017-2019
Alcoholism/chemical dependency pediatric services - hospital	Provides diagnosis and therapeutic services to pediatric patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal. Sourced from the AHA Annual Survey.	2017-2019

Alcoholism/chemical dependency pediatric services - joint venture	Provides diagnosis and therapeutic services to pediatric patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal. At the joint venture level. Sourced from the AHA Annual Survey.	2017-2019
Alcoholism/chemical partial hospitalization services - health system	Organized hospital services providing intensive day/evening outpatient services of three hour or more duration, distinguished from other outpatient visits of one hour. At the health system level. Sourced from the AHA Annual Survey.	2017-2019
Alcoholism/chemical partial hospitalization services - hospital	Organized hospital services providing intensive day/evening outpatient services of three hour or more duration, distinguished from other outpatient visits of one hour. Sourced from the AHA Annual Survey.	2017-2019
All other contracted staff - Contracted FTE	All other full time equivalent contracted staff. Sourced from the AHA Annual Survey.	2022-CY
All Other Expenses	Any total facility expenses not previously reported in other items. Sourced from AHA Annual Survey.	2006-CY
All other personnel (FT)	Includes all other personnel not already accounted for in other categories. Sourced from the AHA Annual Survey.	2006-CY
All other personnel (FTE)	The total number of hours worked (excluding non-worked hours such as PTO, etc.) by all other personnel over the full (12 month) reporting period divided by the normal number of hours worked by a full-time employee for that same time period. This count only includes personnel engaged in clinical practice and on the payroll. Sourced from the AHA Annual Survey.	2006-CY
All other personnel (FTEC)	Includes all other full-time equivalent personnel not already accounted for in other categories. Sourced from the AHA Annual Survey.	2006-CY
All Other Personnel FT (est.)	Estimated Full Time All Other Personnel - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
All other personnel (PT)	Includes all other personnel not already accounted for in other categories. Sourced from the AHA Annual Survey.	2006-CY

All other personnel (vac.)	Number of all other personnel vacancies. Sourced from the AHA Annual Survey.	2010-CY
Alzheimer Center	Facility that offers care to persons with Alzheimer's disease and their families through an integrated program of clinical services, research, and education. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Alzheimer Center - health system	Facility that offers care to persons with Alzheimer's disease and their families through an integrated program of clinical services, research, and education. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Alzheimer Center - joint venture	Facility that offers care to persons with Alzheimer's disease and their families through an integrated program of clinical services, research, and education. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Alzheimer Center - network	Facility that offers care to persons with Alzheimer's disease and their families through an integrated program of clinical services, research, and education. Sourced from the AHA Annual Survey.	2006-2012
AMA medical school affiliation (historical)	Medical school affiliation reported to American Medical Association (MAPP5). Sourced from the American Medical Association.	2006-2017
Ambulance services	Provision of ambulance services to the ill and injured who require medical attention on a scheduled or unscheduled basis. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Ambulance services - health system	Provision of ambulance services to the ill and injured who require medical attention on a scheduled or unscheduled basis. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Ambulance services - joint venture	Provision of ambulance services to the ill and injured who require medical attention on a scheduled or unscheduled basis. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY

Ambulance services - network	Provision of ambulance services to the ill and injured who require medical attention on a scheduled or unscheduled basis. Sourced from the AHA Annual Survey.	2006-2012
Ambulatory surgery center	Facility that provides care to patients requiring surgery who are admitted and discharged on the same day. Ambulatory surgery centers are distinct from same day surgical units within the hospital outpatient departments for purposes of Medicare payments. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey	2006-CY
Ambulatory surgery center - health system	Facility that provides care to patients requiring surgery who are admitted and discharged on the same day. Ambulatory surgery centers are distinct from same day surgical units within the hospital outpatient departments for purposes of Medicare payments. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Ambulatory surgery center - joint venture	Facility that provides care to patients requiring surgery who are admitted and discharged on the same day. Ambulatory surgery centers are distinct from same day surgical units within the hospital outpatient departments for purposes of Medicare payments. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Ambulatory surgery center - network	Sourced from the AHA Annual Survey.	2006-2012
Ambulatory surgery - number of facilities	Number of facilities providing ambulatory surgery. Sourced from the AHA Annual Survey.	2017
Ambulatory surgery - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Ambulatory surgery - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Ambulatory surgery - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020

Ambulatory surgery - satellite facility	Facility that provides care to patients requiring surgery that are admitted and discharged on the same day. Ambulatory surgery centers are distinct from same day surgical units within the hospital outpatient departments for purposes of Medicare payment. Satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2017
Ambulatory Surgical Centers (JV)	Facility that provides care to patients requiring surgery who are admitted and discharged on the same day. Ambulatory surgery centers are distinct from same day surgical units within the hospital outpatient departments for purposes of Medicare payments. Sourced from the AHA Annual Survey.	2006-CY
American Hospital Association	Member of the American Hospital Association. Sourced from AHA Membership.	2006-CY
American Osteopathic Association accreditation (historical)	Accreditation by American Osteopathic Association (MAPP11). Sourced from Accreditation Commission for Health Care, Inc.	2006-2017
American Osteopathic Association internship (historical)	Internship approved by American Osteopathic Association (MAPP12). Sourced from the American Osteopathic Association.	2006-2017
American Osteopathic Association residency (historical)	Residency approved by American Osteopathic Association (MAPP13). Sourced from the American Osteopathic Association.	2006-2017
Anesthesia services advanced practice nurses	Registered nurses with advanced didactic and clinical education, knowledge, skills, and scope of practice. Sourced from the AHA Annual Survey.	2010-2023
Anesthesia services - advanced practice physician assistants FTE	Full time equivalent physician assistants that provide anesthesia services. Anesthesia is the use of medicines to prevent pain during surgery and other procedures. Sourced from the AHA Annual Survey.	2024-CY
Anesthesia services - advanced practice registered nurses FTE	Full time equivalent registered nurses that provide anesthesia services. Anesthesia is the use of medicines to prevent pain during surgery and other procedures. Sourced from the AHA Annual Survey.	2024-CY
Anesthesiologist - not employed or under contract	Total anesthesiologists with privileges that have no employment or contractual relationship with the hospital to provide services. Sourced from the AHA Annual Survey.	2024-CY
Anesthesiologist - total employed	Total employed physicians that are either direct hospital employees or employees of a hospital subsidiary corporation that practice anesthesiology services. Sourced from the AHA Annual Survey.	2024-CY

Anesthesiologist - total group contract	Total anesthesiologists that are part of a group (group practice, faculty practice plan or medical foundation) under a formal contract to provide services at a hospital including at inpatient and outpatient facilities, clinics and offices. Sourced from the AHA Annual Survey.	2024-CY
Anesthesiologist - total individual contract	Total independent physicians under a formal contract to provide services at a hospital including at outpatient facilities, clinics and offices that practice anesthesiology services. Sourced from the AHA Annual Survey.	2024-CY
Anesthesiologist - total privileged	Sum of all anesthesiologists with privileges that practice emergency medicine. Sourced from the AHA Annual Survey.	2024-CY
Approved cancer program (historical)	Cancer program approved by Commission on Cancer, American College of Surgeons (MAPP2). Sourced from the American College of Surgeons, Commission on Cancer.	2006-2017
Area agencies on aging - CHNA	Sourced from the AHA Annual Survey.	2021-2023
Area agencies on aging - community-level initiatives	Sourced from the AHA Annual Survey.	2021-2023
Area agencies on aging - not involved	Sourced from the AHA Annual Survey.	2021-2023
Area agencies on aging - social needs	Sourced from the AHA Annual Survey.	2021-2023
Area behavioral health service providers - CHNA	Sourced from the AHA Annual Survey.	2021-2023
Area behavioral health service providers - community-level initiatives	Sourced from the AHA Annual Survey.	2021-2023
Area behavioral health service providers - not involved	Sourced from the AHA Annual Survey.	2021-2023
Area behavioral health service providers - social needs	Sourced from the AHA Annual Survey.	2021-2023
Area code	Sourced from AHA Membership.	2006-CY
Are any other types of hospitals co-located in your hospital?	Co-location refers to two or more entities, with separate CMS Certification Numbers occupying the same building, or conjoined buildings. Sourced from the AHA Annual Survey.	2018-CY
Arthritis treatment center	Specifically equipped and staffed center for the diagnosis and treatment of arthritis and other joint disorders. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Arthritis treatment center - health system	Specifically equipped and staffed center for the diagnosis and treatment of arthritis and other joint disorders. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Arthritis treatment center - joint venture	Specifically equipped and staffed center for the diagnosis and treatment of arthritis and other joint disorders. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Arthritis treatment center - network	Specifically equipped and staffed center for the diagnosis and treatment of arthritis and other joint disorders. Sourced from the AHA Annual Survey.	2006-2012
Assisted living services	A special combination of housing, supportive services, personalized assistance and health care designed to individual needs of those who need help in activities of daily living and instrumental activities of daily living. Supportive services are available, 24 hours a day, to meet scheduled and unscheduled needs, in a way that promotes maximum independence and dignity for each resident and encourages the involvement of a resident's family, neighbor and friends. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Assisted living services - health system	A special combination of housing, supportive services, personalized assistance and health care designed to individual needs of those who need help in activities of daily living and instrumental activities of daily living. Supportive services are available, 24 hours a day, to meet scheduled and unscheduled needs, in a way that promotes maximum independence and dignity for each resident and encourages the involvement of a resident's family, neighbor and friends. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Assisted living services - joint venture	A special combination of housing, supportive services, personalized assistance and health care designed to individual needs of those who need help in activities of daily living and instrumental activities of daily living. Supportive services are available, 24 hours a day, to meet scheduled and unscheduled needs, in a way that promotes maximum independence and dignity for each resident and encourages the involvement of a residents' family, neighbor and friends. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Assisted living services - network	A special combination of housing, supportive services, personalized assistance and health care designed to individual needs of those who need help in activities of daily living and instrumental activities of daily living. Supportive services are available, 24 hours a day, to meet scheduled and unscheduled needs, in a way that promotes maximum independence and dignity for each resident and encourages the involvement of a resident's family, neighbor and friends. Sourced from the AHA Annual Survey.	2006-2012
Assistive technology center	A program providing access to specialized hardware and software with adaptations allowing individuals greater independence with mobility, dexterity, or increased communication options. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2009-CY
Assistive technology center - health system	A program providing access to specialized hardware and software with adaptations allowing individuals greater independence with mobility, dexterity, or increased communication options. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2009-CY
Assistive technology center - joint venture	A program providing access to specialized hardware and software with adaptations allowing individuals greater independence with mobility, dexterity, or increased communication options. Sourced from the AHA Annual Survey.	2009-CY
Assistive technology center - network	A program providing access to specialized hardware and software with adaptations allowing individuals greater independence with mobility, dexterity, or increased communication options. Sourced from the AHA Annual Survey.	2009-2012
Auxiliary	A volunteer community organization formed to assist the hospital in carrying out its purpose and to serve as a link between the institution and the community. Sourced from the AHA Annual Survey.	2006-2023

Auxiliary - health system	A volunteer community organization formed to assist the hospital in carrying out its purpose and to serve as a link between the institution and the community. Sourced from the AHA Annual Survey.	2006-2023
Auxiliary - joint venture	A volunteer community organization formed to assist the hospital in carrying out its purpose and to serve as a link between the institution and the community. Sourced from the AHA Annual Survey.	2006-2023
Auxiliary - network	A volunteer community organization formed to assist the hospital in carrying out its purpose and to serve as a link between the institution and the community. Sourced from the AHA Annual Survey.	2006-2012
Average daily census	The average number of people served on an inpatient basis on a single day during the reporting period; the figure is calculated by dividing the number of inpatient days by the number of days in the reporting period. Sourced from the AHA Annual Survey.	2006-CY
Bariatric/weight control services	Bariatrics is the medical practice of weight reduction. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Bariatric/weight control services - health system	Bariatrics is the medical practice of weight reduction. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Bariatric/weight control services - joint venture	Bariatrics is the medical practice of weight reduction. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Bariatric/weight control services - network	Bariatrics is the medical practice of weight reduction. Sourced from the AHA Annual Survey.	2006-2012
Basic interventional radiology - health system	Therapies include embolization, angioplasty, stent placement, thrombus management, drainage and ablation among others. Facilities providing interventional radiology should have a radiologist with additional certification and training in diagnostic radiology, interventional radiology, or radiation oncology. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2020-CY

Basic interventional radiology - hospital	Therapies include embolization, angioplasty, stent placement, thrombus management, drainage and ablation among others. Facilities providing interventional radiology should have a radiologist with additional certification and training in diagnostic radiology, interventional radiology, or radiation oncology. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2020-CY
Basic interventional radiology - joint venture	Therapies include embolization, angioplasty, stent placement, thrombus management, drainage and ablation among others. Facilities providing interventional radiology should have a radiologist with additional certification and training in diagnostic radiology, interventional radiology, or radiation oncology. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2020-CY
Bassinets set up and staffed	The number of set up and staffed newborn bassinets for normal use. Bassinets in neonatal intensive and intermediate care units are not included in this count, however they are counted as part of the hospital's overall staffed and/or licensed bed count. Sourced from the AHA Annual Survey.	2006-CY
Bed size code	Indicates which of eight (8) pre-defined bed size ranges the hospital fits. Bed size ranges are: 6-24, 25-49, 50-99, 100-199, 200-299, 300-399, 400-499, 500+	2006-CY
Beds (nursing home)	Only operating beds, not constructed bed capacity. Sourced from the AHA Annual Survey.	2006-CY
Beds (total facility)	Number of beds regularly maintained (set up and staffed for use) for inpatients as of the close of the reporting period. If the hospital owns and operates a nursing home type unit/facility then total facility beds is a combined total of hospital plus nursing home unit/facility beds. Excludes newborn bassinets. Sourced from the AHA Annual Survey.	2006-CY
Beginning date of fiscal year	Beginning date of the hospital's fiscal year. Sourced from the AHA Annual Survey.	2006-CY
Beginning of reporting period	Beginning date of reporting year for survey response. Sourced from the AHA Annual Survey.	2006-CY
Better health outcomes for patients	Sourced from the AHA Annual Survey.	2020-2023

Biocontainment patient care unit beds	A permanent unit that provides the first line of treatment for people affected by bio-terrorism or highly hazardous communicable diseases. The unit is equipped to safely care for anyone exposed to a highly contagious and dangerous disease. Please do not report temporary COVID-19 units on this line (report COVID units as other special care.) Sourced from the AHA Annual Survey.	2021-CY
Biocontainment patient care unit - health system	A permanent unit that provides the first line of treatment for people affected by bio-terrorism or highly hazardous communicable diseases. The unit is equipped to safely care for anyone exposed to a highly contagious and dangerous disease. Please do not report temporary COVID-19 units on this line (report COVID units as other special care.) Sourced from the AHA Annual Survey.	2021-CY
Biocontainment patient care unit - hospital	A permanent unit that provides the first line of treatment for people affected by bio-terrorism or highly hazardous communicable diseases. The unit is equipped to safely care for anyone exposed to a highly contagious and dangerous disease. Please do not report temporary COVID-19 units on this line (report COVID units as other special care.) Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2021-CY
Biocontainment patient care unit - joint venture	A permanent unit that provides the first line of treatment for people affected by bio-terrorism or highly hazardous communicable diseases. The unit is equipped to safely care for anyone exposed to a highly contagious and dangerous disease. Please do not report temporary COVID-19 units on this line (report COVID units as other special care.) This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2021-CY
Birthing room/LDR room/LDRP room	A single-room type of maternity care with a more homelike setting for families than the traditional three-room unit (labor/delivery/recovery) with a separate postpartum area. 1 = Yes; 0 = No. A birthing room combines labor and delivery in one room. An LDR room accommodates three stages in the birthing process--labor, delivery, and recovery. An LDRP room accommodates all four stages of the birth process--labor, delivery, recovery, and postpartum. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Birthing room/LDR room/LDRP room - health system	A single-room type of maternity care with a more homelike setting for families than the traditional three-room unit (labor/delivery/recovery) with a separate postpartum area. 1 = Yes; 0 = No. A birthing room combines labor and delivery in one room. An LDR room accommodates three stages in the birthing process--labor, delivery, and recovery. An LDRP room accommodates all four stages of the birth process--labor, delivery, recovery, and postpartum. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Birthing room/LDR room/LDRP room - joint venture	A single-room type of maternity care with a more homelike setting for families than the traditional three-room unit (labor/delivery/recovery) with a separate postpartum area. 1 = Yes; 0 = No. A birthing room combines labor and delivery in one room. An LDR room accommodates three stages in the birthing process--labor, delivery, and recovery. An LDRP room accommodates all four stages of the birth process--labor, delivery, recovery, and postpartum. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Birthing room/LDR room/LDRP room - network	A single-room type of maternity care with a more homelike setting for families than the traditional three-room unit (labor/delivery/recovery) with a separate postpartum area. 1 = Yes; 0 = No. A birthing room combines labor and delivery in one room. An LDR room accommodates three stages in the birthing process--labor, delivery, and recovery. An LDRP room accommodates all four stages of the birth process--labor, delivery, recovery, and postpartum. Sourced from the AHA Annual Survey.	2006-2012
Births (est.)	Estimated births - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Blood Donor Center - health system	A facility that performs, or is responsible for the collection, processing, testing or distribution of blood and components. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Blood Donor Center Hospital	A facility that performs, or is responsible for the collection, processing, testing or distribution of blood and components. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Blood Donor Center - joint venture	A facility that performs, or is responsible for the collection, processing, testing or distribution of blood and components. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Blood Donor Center Network - network	A facility that performs, or is responsible for the collection, processing, testing or distribution of blood and components. Sourced from the AHA Annual Survey.	2006-2012
Blood product exchange - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Blood product exchange - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Blood product exchange - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Blue Cross participant	Blue Cross contracting or participating (MAPP9)	2006-2014
Bone marrow transplant - health system	The branch of medicine that transfers healthy bone marrow from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Bone marrow transplant - joint venture	The branch of medicine that transfers healthy bone marrow from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Bone Marrow transplant services	The branch of medicine that transfers healthy bone marrow from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Bone Marrow transplant services - network	The branch of medicine that transfers healthy bone marrow from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. Sourced from the AHA Annual Survey.	2006-2012
Breast cancer screening/mammograms	Provides mammography screening, the use of breast x-ray to detect unsuspected breast cancer in asymptomatic women and/or diagnostic mammography, the x-ray imaging of breast tissue in symptomatic women who are considered to have a substantial likelihood of having breast cancer already. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Breast cancer screening/mammograms - health system	Provides mammography screening, the use of breast x-ray to detect unsuspected breast cancer in asymptomatic women and/or diagnostic mammography, the x-ray imaging of breast tissue in symptomatic women who are considered to have a substantial likelihood of having breast cancer already. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Breast cancer screening/mammograms - joint venture	Provides mammography screening, the use of breast x-ray to detect unsuspected breast cancer in asymptomatic women and/or diagnostic mammography, the x-ray imaging of breast tissue in symptomatic women who are considered to have a substantial likelihood of having breast cancer already. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Breast cancer screening/mammograms - network	Sourced from the AHA Annual Survey.	2006-2012
Burn care	Provides care to severely burned patients, which include any of the following: (1) second-degree burns of more than 25% total body surface area for adults or 20% total body surface area for children; (2) third-degree burns of more than 10% total body surface area; (3) any severe burns of the hands, face, eyes, ears, or feet; or (4) all inhalation injuries, electrical burns, complicated burn injuries involving fractures and other major traumas, and all other poor risk factors. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Burn care beds	Staffed beds set up for patient care in a dedicated burn care unit. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2006-CY
Burn care - health system	Provides care to severely burned patients, which include any of the following: (1) second-degree burns of more than 25% total body surface area for adults or 20% total body surface area for children; (2) third-degree burns of more than 10% total body surface area; (3) any severe burns of the hands, face, eyes, ears, or feet; or (4) all inhalation injuries, electrical burns, complicated burn injuries involving fractures and other major traumas, and all other poor risk factors. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Burn care - joint venture	Provides care to severely burned patients, which include any of the following: (1) second-degree burns of more than 25% total body surface area for adults or 20% total body surface area for children; (2) third-degree burns of more than 10% total body surface area; (3) any severe burns of the hands, face, eyes, ears, or feet; or (4) all inhalation injuries, electrical burns, complicated burn injuries involving fractures and other major traumas, and all other poor risk factors. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Burn care - network	Provides care to severely burned patients, which include any of the following: (1) second-degree burns of more than 25% total body surface area for adults or 20% total body surface area for children; (2) third-degree burns of more than 10% total body surface area; (3) any severe burns of the hands, face, eyes, ears, or feet; or (4) all inhalation injuries, electrical burns, complicated burn injuries involving fractures and other major traumas, and all other poor risk factors. Sourced from the AHA Annual Survey.	2006-2012
Canada	Hospital recruits foreign-educated nurses from Canada. Sourced from the AHA Annual Survey.	2007-CY
Cancer program approved by American College of Surgeons	Cancer program approved by Commission on Cancer, American College of Surgeons (MAPP2). Sourced from the American College of Surgeons, Commission on Cancer.	2018-CY

Cardiac intensive care	Intensivists are board-certified physicians who are additionally certified in the sub-specialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of sub-specialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2009
Cardiac intensive care	Provides patient care of a more specialized nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. The unit is staffed with specially trained nursing personnel and contains monitoring and specialized support or treatment equipment for patients who, because of heart seizure, open-heart surgery, or other life-threatening conditions, require intensified, comprehensive observation and care. May include myocardial infarction, pulmonary care, and heart transplant units. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Cardiac intensive care beds	Staffed beds set up for patient care in a dedicated cardiac intensive care unit. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2006-CY
Cardiac intensive care (FT)	Intensivists are board-certified physicians who are additionally certified in the subspecialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of subspecialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2007-2009

Cardiac intensive care (FTE)	Number of intensivists assigned to cardiac intensive care. Intensivists are board-certified physicians who are additionally certified in the sub-specialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of sub-specialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2007-CY
Cardiac intensive care - health system	Provides patient care of a more specialized nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. The unit is staffed with specially trained nursing personnel and contains monitoring and specialized support or treatment equipment for patients who, because of heart seizure, open-heart surgery, or other life-threatening conditions, require intensified, comprehensive observation and care. May include myocardial infarction, pulmonary care, and heart transplant units. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Cardiac intensive care - joint venture	Provides patient care of a more specialized nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. The unit is staffed with specially trained nursing personnel and contains monitoring and specialized support or treatment equipment for patients who, because of heart seizure, open-heart surgery, or other life-threatening conditions, require intensified, comprehensive observation and care. May include myocardial infarction, pulmonary care, and heart transplant units. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY

Cardiac intensive care - network	Provides patient care of a more specialized nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. The unit is staffed with specially trained nursing personnel and contains monitoring and specialized support or treatment equipment for patients who, because of heart seizure, open-heart surgery, or other life-threatening conditions, require intensified, comprehensive observation and care. May include myocardial infarction, pulmonary care, and heart transplant units. Sourced from the AHA Annual Survey.	2006-2012
Cardiac intensive care (PT)	Intensivists are board-certified physicians who are additionally certified in the subspecialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of subspecialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2007-2009
Cardiac - Limited Service	An organized range of clinical services offering diagnostic and interventional procedures to manage the full range of adult heart conditions. Sourced from the AHA Annual Survey.	2006-CY
Cardiac/pulmonary rehabilitation - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Cardiac/pulmonary rehabilitation - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Cardiac/pulmonary rehabilitation - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020

Cardiac Rehabilitation	A medically supervised program to help heart patients recover quickly and improve their overall physical and mental functioning. The goal is to reduce risk of another cardiac event or to keep an already present heart condition from getting worse. Cardiac rehabilitation programs include: counseling to patients, an exercise program, helping patients modify risk factors such as smoking and high blood pressure, providing vocational guidance to enable the patient to return to work, supplying information on physical limitations and lending emotional support. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Cardiac Rehabilitation - health system	A medically supervised program to help heart patients recover quickly and improve their overall physical and mental functioning. The goal is to reduce risk of another cardiac event or to keep an already present heart condition from getting worse. Cardiac rehabilitation programs include: counseling to patients, an exercise program, helping patients modify risk factors such as smoking and high blood pressure, providing vocational guidance to enable the patient to return to work, supplying information on physical limitations and lending emotional support. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Cardiac Rehabilitation - joint venture	A medically supervised program to help heart patients recover quickly and improve their overall physical and mental functioning. The goal is to reduce risk of another cardiac event or to keep an already present heart condition from getting worse. Cardiac rehabilitation programs include: counseling to patients, an exercise program, helping patients modify risk factors such as smoking and high blood pressure, providing vocational guidance to enable the patient to return to work, supplying information on physical limitations and lending emotional support. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY

Cardiac Rehabilitation - network	A medically supervised program to help heart patients recover quickly and improve their overall physical and mental functioning. The goal is to reduce risk of another cardiac event or to keep an already present heart condition from getting worse. Cardiac rehabilitation programs include: counseling to patients, an exercise program, helping patients modify risk factors such as smoking and high blood pressure, providing vocational guidance to enable the patient to return to work, supplying information on physical limitations and lending emotional support. Sourced from the AHA Annual Survey.	2006-2012
Cardiology - advanced practice physician assistants FTE	Full time equivalent physician assistants that provide cardiology services. Cardiology is the branch of medicine that deals with diseases and abnormalities of the heart. Sourced from the AHA Annual Survey.	2024-CY
Cardiology - advanced practice registered nurses FTE	Full time equivalent registered nurses that provide cardiology services. Cardiology is the branch of medicine that deals with diseases and abnormalities of the heart. Sourced from the AHA Annual Survey.	2024-CY
Cardiovascular - Commercial Insurance Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Cardiovascular is relating to the heart and blood vessels. Sourced from the AHA Annual Survey.	2022-CY
Cardiovascular - Medicaid, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Cardiovascular is relating to the heart and blood vessels. Sourced from the AHA Annual Survey.	2022-CY

Cardiovascular - Medicare Advantage Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Cardiovascular is relating to the heart and blood vessels. Sourced from the AHA Annual Survey.	2022-CY
Cardiovascular - Traditional Medicare, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Cardiovascular is relating to the heart and blood vessels. Sourced from the AHA Annual Survey.	2022-CY
Career development resources	Tools, training programs, financial aid, executive coaching and other resources that can be used to prepare individuals to compete for advancement opportunities in an organization. Sourced from the AHA Annual Survey.	2006-2010
Care management - advanced practice physician assistants FTE	Full time equivalent physician assistants that provide case management services. Case management is a system of assessment, treatment planning, referral and follow-up that ensures the provision of comprehensive and continuous services and the coordination of payment and reimbursement for care. Sourced from the AHA Annual Survey.	2024-CY
Case Management	A system of assessment, treatment planning, referral and follow-up that ensures the provision of comprehensive and continuous services and the coordination of payment and reimbursement for care. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Case management advanced practice nurses	Registered nurses with advanced didactic and clinical education, knowledge, skills, and scope of practice. Sourced from the AHA Annual Survey.	2010-2023

Case management - advanced practice registered nurses FTE	Full time equivalent registered nurses that provide case management services. Case management is a system of assessment, treatment planning, referral and follow-up that ensures the provision of comprehensive and continuous services and the coordination of payment and reimbursement for care. Sourced from the AHA Annual Survey.	2024-CY
Case Management - health system	A system of assessment, treatment planning, referral and follow-up that ensures the provision of comprehensive and continuous services and the coordination of payment and reimbursement for care. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Case Management - joint venture	A system of assessment, treatment planning, referral and follow-up that ensures the provision of comprehensive and continuous services and the coordination of payment and reimbursement for care. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Case Management - network	A system of assessment, treatment planning, referral and follow-up that ensures the provision of comprehensive and continuous services and the coordination of payment and reimbursement for care. Sourced from the AHA Annual Survey.	2006-2012
Catholic Church Operated	Catholic church operated (MAPP16). Sourced from the Catholic Hospital Association.	2018-CY
Catholic (historical)	Catholic church operated (MAPP16). Sourced from the Catholic Hospital Association.	2006-2017
CBSA code	Sourced from U.S. Census Bureau (see 'Census Division Code' for Census Bureau Division codes)	2006-CY
CBSA name	The name for either a Metropolitan Statistical Area, Metropolitan Division, or a Micropolitan Statistical Area as assigned by the Office of Management and Budget (OMB) effective June 6, 2003. Where a Metropolitan Statistical Area includes multiple Metropolitan Divisions only the individual Divisions are named and not the larger Metropolitan Statistical Area. Sourced from U.S. Census Bureau.	2006-CY

CBSA type	Type of Core-based statistical Area (CBSA). The Metro type designates a Metropolitan Statistical Area. The Division type designates a Metropolitan Division within a larger Metropolitan Statistical Area. The Micro type designates a Micropolitan Statistical Area. The Rural type designates a rural area. To arrive at the historically consistent definition of Rural, the Micro type should be combined with the Rural type. Sourced from U.S. Census Bureau.	2006-CY
Census Bureau codes	FIPS State and County Code. Sourced from U.S. Census Bureau.	2006-CY
Census Bureau county code	FIPS County code. Sourced from U.S. Census Bureau.	2006-CY
Census Bureau state code	FIPS State code. Sourced from U.S. Census Bureau.	2006-CY
Center for Improvement in Healthcare Quality accreditation	Accreditation by the Center for Improvement in Healthcare Quality (CIHQ). Sourced from the Center for Improvement in Healthcare Quality.	2018-CY
Certified trauma center	A facility certified to provide emergency and specialized intensive care to critically ill and injured patients. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Certified trauma center - health system	A facility certified to provide emergency and specialized intensive care to critically ill and injured patients. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Certified trauma center - joint venture	A facility certified to provide emergency and specialized intensive care to critically ill and injured patients. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Certified trauma center - network	A facility certified to provide emergency and specialized intensive care to critically ill and injured patients. Sourced from the AHA Annual Survey.	2006-2012
Chaplaincy/pastoral care services	A service ministering religious activities and providing pastoral counseling to patients, their families, and staff of a health care organization. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Chaplaincy/pastoral care services - health system	A service ministering religious activities and providing pastoral counseling to patients, their families, and staff of a health care organization. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Chaplaincy/pastoral care services - joint venture	A service ministering religious activities and providing pastoral counseling to patients, their families, and staff of a health care organization. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Chaplaincy/pastoral care services - network	A service ministering religious activities and providing pastoral counseling to patients, their families, and staff of a health care organization. Sourced from the AHA Annual Survey.	2006-2012
Chemotherapy	An organized program for the treatment of cancer by the use of drugs or chemicals. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Chemotherapy - health system	An organized program for the treatment of cancer by the use of drugs or chemicals. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Chemotherapy - joint venture	An organized program for the treatment of cancer by the use of drugs or chemicals. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Chemotherapy - network	An organized program for the treatment of cancer by the use of drugs or chemicals. Sourced from the AHA Annual Survey.	2006-2012
Chief Admin. First Name	First name of Chief Administrator. Sourced from the AHA Membership.	CY
Chief Admin. Last Name	Last name of Chief Administrator. Sourced from the AHA Membership.	CY
Chief Admin. Middle Name	Middle name of Chief Administrator. Sourced from the AHA Membership.	CY
Chief Admin. Name	Full name of Chief Administrator. Sourced from AHA Membership.	2006-CY
Chief Admin. Prefix	Sourced from AHA Membership.	CY
Chief Admin. Suffix	Sourced from AHA Membership.	CY
Children's wellness program	A program that encourages improved health status and a healthful lifestyle of children through health education, exercise, nutrition and health promotion. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Children's wellness program - health system	A program that encourages improved health status and a healthful lifestyle of children through health education, exercise, nutrition and health promotion. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Children's wellness program - joint venture	A program that encourages improved health status and a healthful lifestyle of children through health education, exercise, nutrition and health promotion. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Children's wellness program - network	A program that encourages improved health status and a healthful lifestyle of children through health education, exercise, nutrition and health promotion. Sourced from the AHA Annual Survey.	2006-2012
China	Hospital recruits foreign-educated nurses from China. Sourced from the AHA Annual Survey.	2007-CY
Chiropractic services	An organized clinical service including spinal manipulation or adjustment and related diagnostic and therapeutic services. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Chiropractic services - health system	An organized clinical service including spinal manipulation or adjustment and related diagnostic and therapeutic services. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Chiropractic services - joint venture	An organized clinical service including spinal manipulation or adjustment and related diagnostic and therapeutic services. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Chiropractic services - network	An organized clinical service including spinal manipulation or adjustment and related diagnostic and therapeutic services. Sourced from the AHA Annual Survey.	2006-2012
CIHQ Accreditation (historical)	Accreditation by the Center for Improvement in Healthcare Quality (CIHQ). Sourced from the Center for Improvement in Healthcare Quality.	2014-2017
City Name (mailing)	Sourced from AHA Membership.	CY
City Name (physical)	Sourced from AHA Membership.	2006-CY

Clinical decision support tools - clinical AI implementation	Hospital uses AI in clinical decision support tools. Artificial Intelligence (AI) encompasses a broad range of technologies that enable machines to simulate human intelligence and perform tasks that typically require human cognitive abilities. Sourced from the AHA Annual Survey.	2024-CY
Closed cardiac intensive care	Only intensivists authorized to care for ICU patients in medical-surgical intensive care. Sourced from the AHA Annual Survey.	2010-CY
Closed medical surgical intensive care	Only intensivists authorized to care for ICU patients in medical-surgical intensive care. Sourced from the AHA Annual Survey.	2010-CY
Closed neonatal intensive care	Only intensivists authorized to care for patients in neonatal intensive care. Sourced from the AHA Annual Survey.	2010-CY
Closed other intensive care	Only intensivists authorized to care for patients in other intensive care. Sourced from the AHA Annual Survey.	2010-CY
Closed pediatric intensive care	Only intensivists authorized to care for patients in pediatric intensive care. Sourced from the AHA Annual Survey.	2010-CY
Closed physician-hospital organization	The hospital maintains a closed physician-hospital organization (PHO) that restricts physician membership to those practitioners who meet criteria for cost effectiveness and/or high quality. Sourced from the AHA Annual Survey.	2006-2017
Closed physician-hospital organization - health system	A PHO that restricts physician membership to those practitioners who meet criteria for cost effectiveness and/or high quality. Sourced from the AHA Annual Survey.	2019-2023
Closed physician-hospital organization - hospital	A PHO that restricts physician membership to those practitioners who meet criteria for cost effectiveness and/or high quality. Sourced from the AHA Annual Survey.	2019-2023
Closed physician-hospital organization - hospital ownership share	A PHO that restricts physician membership to those practitioners who meet criteria for cost effectiveness and/or high quality. Sourced from the AHA Annual Survey.	2018-2023
Closed physician-hospital organization - insurance ownership share	A PHO that restricts physician membership to those practitioners who meet criteria for cost effectiveness and/or high quality. Sourced from the AHA Annual Survey.	2018-2023
Closed physician-hospital organization (net)	The hospital's network maintains a closed physician-hospital organization (PHO) that restricts physician membership to those practitioners who meet criteria for cost effectiveness and/or high quality. Sourced from the AHA Annual Survey.	2006-2017

Closed physician-hospital organization (# of)	Number of physicians participating in the hospital-based closed physician-hospital organization (PHO). Sourced from the AHA Annual Survey.	2006-2023
Closed physician-hospital organization - parent corporation ownership share	A PHO that restricts physician membership to those practitioners who meet criteria for cost effectiveness and/or high quality. Sourced from the AHA Annual Survey.	2018-2023
Closed physician-hospital organization - physician ownership share	A PHO that restricts physician membership to those practitioners who meet criteria for cost effectiveness and/or high quality. Sourced from the AHA Annual Survey.	2018-2023
Closed physician-hospital organization (sys)	The hospital's system maintains a closed physician-hospital organization (PHO) that restricts physician membership to those practitioners who meet criteria for cost effectiveness and/or high quality. Sourced from the AHA Annual Survey.	2006-2017
Collects patient's primary language	Hospital gathers information on a patient's primary language during their stay. Sourced from the AHA Annual Survey.	2006-2012
Collects patient's race/ethnicity	Hospital gathers information on a patient's race/ethnicity during their stay. Sourced from the AHA Annual Survey.	2006-2012
Colleges or universities - CHNA	Sourced from the AHA Annual Survey.	2020-2023
Colleges or universities - community level initiatives	Sourced from the AHA Annual Survey.	2020-2023
Colleges or universities - not involved	Sourced from the AHA Annual Survey.	2020-2023
Colleges or universities - social needs	Sourced from the AHA Annual Survey.	2020-2023
Combined Statistical Area Code	The code of a Combined Statistical Area (CSA). A CSA is composed of adjacent Metropolitan and Micropolitan Statistical Areas in the United States and Puerto Rico as defined by the U.S. Census Bureau. Sourced from U.S. Census Bureau.	2014-CY
Combined Statistical Area Name	Combined Statistical Area (CSA). A CSA is composed of adjacent Metropolitan and Micropolitan Statistical Areas in the United States and Puerto Rico as defined by the U.S. Census Bureau. Sourced from U.S. Census Bureau.	2014-CY
Commission on Accreditation of Rehabilitation Facilities (CARF) (historical)	Accreditation by Commission on Accreditation of Rehabilitation Facilities (CARF) - (MAPP7) Sourced from the Commission on Accreditation of Rehabilitation Facilities.	2006-2017
Community benefit activity resources	Hospital has resources for its community benefit activities. Sourced from the AHA Annual Survey.	2006-2010

Community benefits dedicated staff	Hospital has dedicated staff to manage community benefits. Sourced from the AHA Annual Survey.	2007-2010
Community Health Education	Education that provides information to individuals and populations, support to personal, family and community health decisions with the objective of improving health status. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Community health education - health system	Education that provides information to individuals and populations, support to personal, family and community health decisions with the objective of improving health status. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Community health education - joint venture	Education that provides information to individuals and populations, support to personal, family and community health decisions with the objective of improving health status. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Community Health Education - network	Education that provides information to individuals and populations, support to personal, family and community health decisions with the objective of improving health status. Sourced from the AHA Annual Survey.	2006-2012
Community hospital designation	Community hospitals are designated as all non-federal, short-term general, and special hospitals, including special children's hospitals, whose facilities and services are available to the public. Sourced from the AHA Annual Survey.	2006-CY
Community hospital designation for Stats	Community hospitals are nonfederal, short-term general and special hospitals whose facilities and services are available to the public. Sourced from the AHA Annual Survey.	2006-CY
Community outreach	A program that systematically interacts with the community to identify those in need of services, alerting persons and their families to the availability of services, locating needed services, and enabling persons to enter the service delivery system. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Community outreach - health system	A program that systematically interacts with the community to identify those in need of services, alerting persons and their families to the availability of services, locating needed services, and enabling persons to enter the service delivery system. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Community outreach - joint venture	A program that systematically interacts with the community to identify those in need of services, alerting persons and their families to the availability of services, locating needed services, and enabling persons to enter the service delivery system. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Community outreach - network	A program that systematically interacts with the community to identify those in need of services, alerting persons and their families to the availability of services, locating needed services, and enabling persons to enter the service delivery system. Sourced from the AHA Annual Survey.	2006-2012
Community Violence Prevention Program	An organized program that attempts to make a positive impact on the type(s) of violence a community is experiencing. Sourced from the AHA Annual Survey.	2016-2017
Complementary and alternative medicine services	Organized hospital services or formal arrangements to providers that provide care or treatment not based solely on traditional western allopathic medical teachings as instructed in most U.S. medical schools. Includes any of the following: acupuncture, chiropractic, homeopathy, osteopathy, diet and lifestyle changes, herbal medicine, massage therapy, etc. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Complementary and alternative medicine services - health system	Organized hospital services or formal arrangements to providers that provide care or treatment not based solely on traditional western allopathic medical teachings as instructed in most U.S. medical schools. Includes any of the following: acupuncture, chiropractic, homeopathy, osteopathy, diet and lifestyle changes, herbal medicine, massage therapy, etc. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Complementary and alternative medicine services - joint venture	Organized hospital services or formal arrangements to providers that provide care or treatment not based solely on traditional western allopathic medical teachings as instructed in most U.S. medical schools. Includes any of the following: acupuncture, chiropractic, homeopathy, osteopathy, diet and lifestyle changes, herbal medicine, massage therapy, etc. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Complementary and alternative medicine services - network	Organized hospital services or formal arrangements to providers that provide care or treatment not based solely on traditional western allopathic medical teachings as instructed in most U.S. medical schools. Includes any of the following: acupuncture, chiropractic, homeopathy, osteopathy, diet and lifestyle changes, herbal medicine, massage therapy, etc. Sourced from the AHA Annual Survey.	2006-2012
Computed-tomography (CT) scanner	Computed tomographic scanner for head or whole body scans. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Computed-tomography (CT) scanner - health system	Computed tomographic scanner for head or whole body scans. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Computed-tomography (CT) scanner - joint venture	Computed tomographic scanner for head or whole body scans. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Computed-tomography (CT) scanner - network	Computed tomographic scanner for head or whole body scans. Sourced from the AHA Annual Survey.	2006-2012
Computer assisted orthopedic surgery	Orthopedic surgery using computer technology, enabling three-dimensional graphic models to visualize a patient's anatomy. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Computer assisted orthopedic surgery - health system	Orthopedic surgery using computer technology, enabling three-dimensional graphic models to visualize a patient's anatomy. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Computer assisted orthopedic surgery - joint venture	Orthopedic surgery using computer technology, enabling three-dimensional graphic models to visualize a patient's anatomy. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Computer assisted orthopedic surgery - network	Orthopedic surgery using computer technology, enabling three-dimensional graphic models to visualize a patient's anatomy. Sourced from the AHA Annual Survey.	2006-2012
Conducts health status with local providers	Hospital works with other local providers, public agencies or community representatives to conduct a health status assessment of the community. Sourced from the AHA Annual Survey.	2006-2010
Contract Group - Number of physicians	The number of physicians that provide services under contractual agreements with your hospital but are not directly employed. Sourced from the AHA Annual Survey.	2024-CY
Contract managed hospital	Indicates whether hospital is contract managed. General day-to-day management of an entire organization by another organization under a formal contract. Managing organization reports directly to the board of trustees or owners of the managed organization; managed organization retains total legal responsibility and ownership of the facility's assets and liabilities. Sourced from the AHA Annual Survey.	2006-2023
Contracts for provided care under a capitated basis	Hospital contracts directly with employers or a coalition of employers to provide care on a capitated, predetermined or shared risk basis. Sourced from the AHA Annual Survey.	2018-CY
Contracts for provided care under a capitated basis	Hospital contracts directly with employers or a coalition of employers to provide care on a capitated, predetermined or shared risk basis. Sourced from the AHA Annual Survey.	2006-2017
Control/Ownership Type	Type of authority responsible for establishing policy concerning overall operation of the hospital. Sourced from the AHA Annual Survey.	2006-CY
Cost and resource requirements - AI implementation challenges	Hospital has encountered cost and resource requirements as a challenge in implementing AI in clinical and/or operational areas. Sourced from the AHA Annual Survey.	2024-CY

Council of Teaching Hospitals of the AAMC (historical)	Member of Council of Teaching Hospital of the Association of American Medical Colleges (COTH) - (MAPP8) Sourced from the Association of American Medical Colleges.	2006-2017
Crisis prevention - network	Services provided in order to promote physical and mental well being and the early identification of disease and ill health prior to the onset and recognition of symptoms so as to permit early treatment. Sourced from the AHA Annual Survey.	2006-2012
Critical Access Hospital	Geographically isolated hospitals with no more than 25 inpatient beds that provide 24-hour emergency care and receive cost-based reimbursement for inpatient and outpatient services. (MAPP18) Sourced from the Centers for Medicare and Medicaid.	2009-CY
Data integration and interoperability - AI implementation challenges	Hospital has encountered data integration and interoperability as a challenge in implementing AI in clinical and/or operational areas. Sourced from the AHA Annual Survey.	2024-CY
Days open during reporting period	The number of days open during reporting period; should equal the time span between the beginning and end reporting dates. Sourced from the AHA Annual Survey.	2006-CY
Decreased health care costs	Sourced from the AHA Annual Survey.	2020-2023
Decreased utilization of hospital or system services	Sourced from the AHA Annual Survey.	2020-2023
Degree of centralization of health system	A health system is assigned to one of five categories based on how much they differentiate and centralize their hospital services, physician arrangements, and provider-based insurance products. Differentiation refers to the number of different products or services that the organization offers. Centralization refers to whether decision-making and service delivery emanates from the system level more so than individual hospitals. This identification system was developed jointly by the American Hospital Association's Health Research and Educational Trust and Health Forum, and the University of California-Berkeley.	2006-2017,2019-2
DEI disaggregated data to inform decisions - none of the above	Sourced from the AHA Annual Survey.	2022-2023
DEI disaggregated data to inform decisions - patient outcomes	Sourced from the AHA Annual Survey.	2021-2023

DEI disaggregated data to inform decisions - procurement	Sourced from the AHA Annual Survey.	2021-2023
DEI disaggregated data to inform decisions - professional development	Sourced from the AHA Annual Survey.	2021-2023
DEI disaggregated data to inform decisions - supply chain	Sourced from the AHA Annual Survey.	2021-2023
DEI disaggregated data to inform decisions - training	Sourced from the AHA Annual Survey.	2021-2023
Dental services	An organized dental service or dentists on staff, not necessarily involving special facilities, providing dental or oral services to inpatients or outpatients. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Dental services - health system	An organized dental service or dentists on staff, not necessarily involving special facilities, providing dental or oral services to inpatients or outpatients. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Dental services - joint venture	An organized dental service or dentists on staff, not necessarily involving special facilities, providing dental or oral services to inpatients or outpatients. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Dental services - network	An organized dental service or dentists on staff, not necessarily involving special facilities, providing dental or oral services to inpatients or outpatients. Sourced from the AHA Annual Survey.	2006-2012
Depreciation expense	The cost of wear and tear, inadequacy, obsolescence, etc. on buildings and equipment, expressed as an expense for a given reporting period. Sourced from AHA Annual Survey.	2006-CY
Diabetes prevention program - health system	Program to prevent or delay the onset of type 2 diabetes by offering evidence-based lifestyle changes based on research studies, which showed modest behavior changes helped individuals with prediabetes reduce their risk of developing type 2 diabetes. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2018-CY

Diabetes prevention program - hospital	Program to prevent or delay the onset of type 2 diabetes by offering evidence-based lifestyle changes based on research studies, which showed modest behavior changes helped individuals with prediabetes reduce their risk of developing type 2 diabetes. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2018-CY
Diabetes prevention program - joint venture	Program to prevent or delay the onset of type 2 diabetes by offering evidence-based lifestyle changes based on research studies, which showed modest behavior changes helped individuals with prediabetes reduce their risk of developing type 2 diabetes. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2018-CY
Diagnostic imaging center - number of facilities	Diagnostic imaging center - number of facilities. Sourced from the AHA Annual Survey.	2017
Diagnostic imaging center - satellite facility	Diagnostic imaging center - satellite facility. Sourced from the AHA Annual Survey.	2017
Diagnostic radioisotope facility	The use of radioactive isotopes (radiopharmaceuticals) as tracers or indicators to detect an abnormal condition or disease. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Diagnostic radioisotope facility - health system	The use of radioactive isotopes (radiopharmaceuticals) as tracers or indicators to detect an abnormal condition or disease. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Diagnostic radioisotope facility - joint venture	The use of radioactive isotopes (radiopharmaceuticals) as tracers or indicators to detect an abnormal condition or disease. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Diagnostic radioisotope facility - network	The use of radioactive isotopes (radiopharmaceuticals) as tracers or indicators to detect an abnormal condition or disease. Sourced from the AHA Annual Survey.	2006-2012
Diagnostic/screening test and other procedures - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020

Diagnostic/screening test and other procedures - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Diagnostic/screening test and other procedures - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Distributors name	Name of the medical/surgical supplies distributor. Sourced from the AHA Annual Survey.	2010-CY
Diversity orientation for clinical staff	Hospital educates all clinical staff during orientation about how to address the unique cultural and linguistic factors affecting the care of diverse patients and communities. Sourced from the AHA Annual Survey.	2011-2012
Diversity strategy/plan	A set of goals and objectives that are linked to the organization's Strategic Plan to promote the elimination of disparities and identify strategies to ensure the ethnic and racial composition of the workforce better reflects the composition of the communities being served. Sourced from the AHA Annual Survey.	2006-2012
Diversity training for all employees is required	Hospital requires all employees to attend diversity training. Sourced from the AHA Annual Survey.	2011-2012
DNV accreditation (historical)	Accreditation by DNV Healthcare, Inc. (MAPP21) Sourced from DNV Healthcare.	2009-2017
DNV Healthcare Accreditation	Accreditation by DNV Healthcare, Inc. (MAPP21) Sourced from DNV Healthcare.	2018-CY
Does hospital or system also administer benefits?	A health plan in which the employer provides/administers health care benefits to it's employees. Sourced from the AHA Annual Survey.	2020-CY
Does hospital or system record social needs screening results in EHR?	Sourced from the AHA Annual Survey.	2020-2023
Does hospital own or jointly own a health plan?	Indicates if hospital owns or jointly own a health plan. Health plan is defined as an insurance policy or contract, medical or hospital service agreement, membership or subscription contract, or other arrangement under which health services for individuals are provided or the expenses of such services are paid. Sourced from the AHA Annual Survey.	2018-CY
Does system own or jointly own a health plan?	Does system own or jointly own a health plan? Sourced from the AHA Annual Survey.	2018-2023

Does the hospital have a formal written contract with an HMO?	A health care organization that acts as both insurer and provider of comprehensive but specified medical services in return for prospective per capita (capitation) payments. Sourced from the AHA Annual Survey.	2006-2016
Does the hospital have a REH designation (Rural Emergency Hospital)?	Rural Emergency Hospital is a new Medicare Provider designation established by Congress through the Consolidated Appropriations Act of 2021. REH facilities are meant to reinforce access to outpatient medical services and reduce health disparities in areas that may not be able to sustain a full service hospital. Sourced from the AHA Annual Survey.	2023
Does the hospital have contracts with commercial payors where payment is tied to performance on quality/safety metrics?	Does the hospital have contracts with commercial payors where payment is tied to performance on quality/safety metrics? Sourced from the AHA Annual Survey.	2018-CY
Does the hospital participate in a bundled payment program involving care settings outside the hospital?	Sourced from the AHA Annual Survey.	2015-2017
Does the hospital participate in a bundled payment program involving care settings outside the hospital?	Indicates if the hospital participates in a bundled payment program involving care settings outside the hospital. Sourced from the AHA Annual Survey.	2018-CY
Does the hospital participate in any bundled payment arrangements?	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Sourced from the AHA Annual Survey.	2022-CY

Does the hospital participate in any bundled payment arrangements? - Historical	Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Previously labeled as “Does your hospital participate in any bundled payment arrangements?” Sourced from the AHA Annual Survey.	2018-2021
Does your hospital have an established patient and family advisory council that meets regularly to actively engage the perspectives of patients and families?	Advisory council dedicated to the improvement of quality in patient and family care. The advisory council is comprised of past/present patients, family members, and hospital staff. Sourced from the AHA Annual Survey.	2018-2023
Does your hospital/health system have a significant partnership with an insurer or an insurance company/health plan?	Does your hospital/health system have a significant partnership with an insurer or an insurance company/health plan? Sourced from the AHA Annual Survey.	2018-2023
Does your hospital/health system have a significant partnership with an insurer or an insurance company/health plan?	Does your hospital/health system have a significant partnership with an insurer or an insurance company/health plan? Sourced from the AHA Annual Survey.	2024-CY
Does your hospital or system offer a self-administered health plan for your employees?	A health plan in which the employer assumes the financial risk for providing health care benefits to its employees. Sourced from the AHA Annual Survey.	2018-CY
Does your hospital or system screen patients for social needs?	Sourced from the AHA Annual Survey.	2020-2023
Does your hospital provide services through satellite outpatient departments?	Services are available at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Drug administration and clinical oncology - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Drug administration and clinical oncology - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020

Drug administration and clinical oncology - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Early intervention treatment - health system	Services provided in order to promote physical and mental well being and the early identification of disease and ill health prior to the onset and recognition of symptoms so as to permit early treatment. This service is owned or provided at the system-level. Previously labeled as Crisis prevention - health system. Sourced from the AHA Annual Survey.	2006-CY
Early intervention treatment - hospital	Services provided in order to promote physical and mental well being and the early identification of disease and ill health prior to the onset and recognition of symptoms so as to permit early treatment. This service is owned or provided by the hospital or subsidiary. Previously labeled as Crisis prevention - hospital. Sourced from the AHA Annual Survey.	2006-CY
Early intervention treatment - joint venture	Services provided in order to promote physical and mental well being and the early identification of disease and ill health prior to the onset and recognition of symptoms so as to permit early treatment. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Previously labeled as Crisis prevention - joint venture. Sourced from the AHA Annual Survey.	2006-CY
Ear, nose, throat (ENT) - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Ear, nose, throat (ENT) - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Ear, nose, throat (ENT) - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
ED bed change during reporting period	Sourced from the AHA Annual Survey.	2020
Education level screening	Sourced from the AHA Annual Survey.	2020-2023
Education program/strategy	Sourced from the AHA Annual Survey.	2020-2023

Electrodiagnostic services	Diagnostic testing services for nerve and muscle function including services such as nerve conduction studies and needle electromyography. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2009-CY
Electrodiagnostic services - health system	Diagnostic testing services for nerve and muscle function including services such as nerve conduction studies and needle electromyography. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2009-CY
Electrodiagnostic services - joint venture	Diagnostic testing services for nerve and muscle function including services such as nerve conduction studies and needle electromyography. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2009-CY
Electrodiagnostic services - network	Diagnostic testing services for nerve and muscle function including services such as nerve conduction studies and needle electromyography. Sourced from the AHA Annual Survey.	2009-2012
Electron Beam Computed Tomography (EBCT)	A high tech computed tomography scan used to detect coronary artery disease by measuring coronary calcifications. This imaging procedure uses electron beams which are magnetically steered to produce a visual of the coronary artery and the images are produced faster than conventional CT scans. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Electron Beam Computed Tomography (EBCT) - health system	A high tech computed tomography scan used to detect coronary artery disease by measuring coronary calcifications. This imaging procedure uses electron beams which are magnetically steered to produce a visual of the coronary artery and the images are produced faster than conventional CT scans. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Electron Beam Computed Tomography (EBCT) - joint venture	A high tech computed tomography scan used to detect coronary artery disease by measuring coronary calcifications. This imaging procedure uses electron beams which are magnetically steered to produce a visual of the coronary artery and the images are produced faster than conventional CT scans. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Electron Beam Computed Tomography (EBCT) - network	A high tech computed tomography scan used to detect coronary artery disease by measuring coronary calcifications. This imaging procedure uses electron beams which are magnetically steered to produce a visual of the coronary artery and the images are produced faster than conventional CT scans. Sourced from the AHA Annual Survey.	2006-2012
Emergency Department	Hospital facilities for the provision of unscheduled outpatient services to patients whose conditions require immediate care. Sourced from the AHA Annual Survey.	2006-2017
Emergency department care advanced practice nurses	Registered nurses with advanced didactic and clinical education, knowledge, skills, and scope of practice. Sourced from the AHA Annual Survey.	2010-2023
Emergency department care - advanced practice physician assistants FTE	Full time equivalent physician assistants that provide emergency department care. Sourced from the AHA Annual Survey.	2024-CY
Emergency department care - advanced practice registered nurses FTE	Full time equivalent registered nurses that provide emergency department care. Sourced from the AHA Annual Survey.	2024-CY
Emergency department - health system	Hospital facilities for the provision of unscheduled outpatient services to patients whose conditions require immediate care. Sourced from the AHA Annual Survey.	2006-2017
Emergency department - joint venture	Hospital facilities for the provision of unscheduled outpatient services to patients whose conditions require immediate care. Sourced from the AHA Annual Survey.	2006-2017
Emergency Department - network	Hospital facilities for the provision of unscheduled outpatient services to patients whose conditions require immediate care. Sourced from the AHA Annual Survey.	2006-2012
Emergency Medicine (NE)	Total emergency medicine physicians with privileges that have no employment or contractual relationship with the hospital to provide services. Sourced from the AHA Annual Survey.	2010-CY

Emergency medicine (TC)	Total independent physicians under a formal contract to provide services at a hospital including at outpatient facilities, clinics and offices that practice emergency medicine. Sourced from the AHA Annual Survey.	2010-CY
Emergency medicine (TE)	Total employed physicians that are either direct hospital employees or employees of a hospital subsidiary corporation that practice emergency medicine. Sourced from the AHA Annual Survey.	2010-CY
Emergency medicine (TG)	Total emergency medicine physicians that are part of a group (group practice, faculty practice plan or medical foundation) under a formal contract to provide services at a hospital including at inpatient and outpatient facilities, clinics and offices. Sourced from the AHA Annual Survey.	2010-CY
Emergency medicine (TP)	Sum of all physicians with privileges that practice emergency medicine. Sourced from the AHA Annual Survey.	2010-CY
Emergency room visits	Number of emergency room visits reported by the hospital. An emergency room visit is defined as a visit to the emergency unit. When an emergency outpatient is admitted to the inpatient area of the hospital, he or she is counted as an emergency room visit and subsequently, as an inpatient admission. Sourced from the AHA Annual Survey.	2006-CY
Emergency services integrated with behavioral health care	Emergency services integrated with behavioral health care. Sourced from the AHA Annual Survey.	2017-2020
Emergency services integrated with behavioral health care	Health services that are provided after the onset of a medical condition that manifests itself by symptoms of sufficient severity, including severe pain, that the absence of immediate medical attention could reasonably be expected by a prudent layperson, who possesses an average knowledge of health and medicine, to result in placing the patient's health in serious jeopardy. Integration means routinely coupling medical services with behavioral health services and could range from co-located physical and behavioral health providers, with some screening and treatment planning, to fully integrated care where behavioral and physical health providers function as a true team in a shared practice. Sourced from the AHA Annual Survey.	2023-CY
Employed by a physician group		2006-2009
Employed by a university or school program		2006-2009
Employed by your hospital		2006-2009

Employed model or Group owned/operated by the hospital/health system - Number of involved physicians at Health System	In this model physicians are directly employed by the hospital/health system or by a separate medical practice/group entity that is ultimately part of the hospital/health system governance structure, receiving a salary and benefits. Indicates number of involved physicians in this model in health system. Sourced from the AHA Annual Survey.	2024-CY
Employed model or Group owned/operated by the hospital/health system - Number of involved physicians at Hospital	In this model physicians are directly employed by the hospital/health system or by a separate medical practice/group entity that is ultimately part of the hospital/health system governance structure, receiving a salary and benefits. Indicates number of involved physicians in this model in hospital. Sourced from the AHA Annual Survey.	2024-CY
Employed model or Group owned/operated by the hospital/health system - Number of involved physicians not provided	In this model physicians are directly employed by the hospital/health system or by a separate medical practice/group entity that is ultimately part of the hospital/health system governance structure, receiving a salary and benefits. Indicates model is not available at hospital. Sourced from the AHA Annual Survey.	2024-CY
Employed - Number of physicians	The number of physicians that are directly employed by the hospital/health system and are members of the hospital medical staff. Sourced from the AHA Annual Survey.	2024-CY
Employee Benefits (est.)	Estimated Employee Benefits - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a non-reporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from AHA Annual Survey.	2006-CY
Employment and income program/strategy	Sourced from the AHA Annual Survey.	2020-2023
Employment status or income screening	Sourced from the AHA Annual Survey.	2020-2023
Employment support services	Services designed to support individuals with significant disabilities to seek and maintain employment. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2018-CY
Employment support services - health system	Services designed to support individuals with significant disabilities to seek and maintain employment. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2018-CY

Employment support services - joint venture	Services designed to support individuals with significant disabilities to seek and maintain employment. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2018-CY
Enabling Services	A program that is designed to help the patient access health care services by offering any of the following linguistic services, transportation services, and/or referrals to local social services agencies. Sourced from the AHA Annual Survey.	2006-2023
Enabling Services - health system	A program that is designed to help the patient access health care services by offering any of the following linguistic services, transportation services, and/or referrals to local social services agencies. Sourced from the AHA Annual Survey.	2006-2023
Enabling Services - joint venture	A program that is designed to help the patient access health care services by offering any of the following linguistic services, transportation services, and/or referrals to local social services agencies. Sourced from the AHA Annual Survey.	2006-2023
Enabling Services - network	A program that is designed to help the patient access health care services by offering any of the following linguistic services, transportation services, and/or referrals to local social services agencies. Sourced from the AHA Annual Survey.	2006-2012
Endocrinology - Commercial Insurance Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Endocrinology is the branch of medicine concerned with endocrine glands and hormones. Sourced from the AHA Annual Survey.	2022-CY

Endocrinology - Medicaid, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Endocrinology is the branch of medicine concerned with endocrine glands and hormones. Sourced from the AHA Annual Survey.	2022-CY
Endocrinology - Medicare Advantage Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Endocrinology is the branch of medicine concerned with endocrine glands and hormones. Sourced from the AHA Annual Survey.	2022-CY
Endocrinology - Traditional Medicare, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Endocrinology is the branch of medicine concerned with endocrine glands and hormones. Sourced from the AHA Annual Survey.	2022-CY
End of reporting period	Ending date of reporting year for survey response. Sourced from the AHA Annual Survey.	2006-CY

Endoscopic retrograde cholangiopancreatography (ERCP)	A procedure in which a catheter is introduced through an endoscope into the bile ducts and pancreatic ducts. Injection of contrast material permits detailed x-ray of these structures. The procedure is used diagnostically as well as therapeutically to relieve obstruction or remove stones. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2007-CY
Endoscopic retrograde cholangiopancreatography (ERCP) - health system	A procedure in which a catheter is introduced through an endoscope into the bile ducts and pancreatic ducts. Injection of contrast material permits detailed x-ray of these structures. The procedure is used diagnostically as well as therapeutically to relieve obstruction or remove stones. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2007-CY
Endoscopic retrograde cholangiopancreatography (ERCP) - joint venture	A procedure in which a catheter is introduced through an endoscope into the bile ducts and pancreatic ducts. Injection of contrast material permits detailed x-ray of these structures. The procedure is used diagnostically as well as therapeutically to relieve obstruction or remove stones. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2007-CY
Endoscopic retrograde cholangiopancreatography (ERCP) - network	A procedure in which a catheter is introduced through an endoscope into the bile ducts and pancreatic ducts. Injection of contrast material permits detailed x-ray of these structures. The procedure is used diagnostically as well as therapeutically to relieve obstruction or remove stones. Sourced from the AHA Annual Survey.	2007-2012
Endoscopic ultrasound	Specially designed endoscope that incorporates an ultrasound transducer used to obtain detailed images of organs in the chest and abdomen. The endoscope can be passed through the mouth or the anus. When combined with needle biopsy the procedure can assist in diagnosis of disease and staging of cancer. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2007-CY

Endoscopic ultrasound - health system	Specially designed endoscope that incorporates an ultrasound transducer used to obtain detailed images of organs in the chest and abdomen. The endoscope can be passed through the mouth or the anus. When combined with needle biopsy the procedure can assist in diagnosis of disease and staging of cancer. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2007-CY
Endoscopic ultrasound - joint venture	Specially designed endoscope that incorporates an ultrasound transducer used to obtain detailed images of organs in the chest and abdomen. The endoscope can be passed through the mouth or the anus. When combined with needle biopsy the procedure can assist in diagnosis of disease and staging of cancer. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2007-CY
Endoscopic ultrasound - network	Specially designed endoscope that incorporates an ultrasound transducer used to obtain detailed images of organs in the chest and abdomen. The endoscope can be passed through the mouth or the anus. When combined with needle biopsy the procedure can assist in diagnosis of disease and staging of cancer. Sourced from the AHA Annual Survey.	2007-2012
Energy Star Rated	Facility has obtained an Energy Star Rating by the EPA. Sourced from the AHA Annual Survey.	2011
Energy Star rating	A national energy performance rating system, which uses a 1-100 scale to give meaning to the energy usage. To qualify, each building must meet specific guidelines in four areas: energy performance; thermal comfort; indoor air quality; illumination levels. Sourced from the AHA Annual Survey.	2008-2011
Enrollment Assistance Program	A program that provides enrollment assistance for patients who are potentially eligible for public health insurance programs such as Medicaid, State Children's Health Insurance, or local/state indigent care programs. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Enrollment Assistance Program - network	A program that provides enrollment assistance for patients who are potentially eligible for public health insurance programs such as Medicaid, State Children's Health Insurance, or local/state indigent care programs. Sourced from the AHA Annual Survey.	2006-2012

Enrollment (insurance) assistance services - health system	A program that provides enrollment assistance for patients who are potentially eligible for public health insurance programs such as Medicaid, State Children's Health Insurance, or local/state indigent care programs. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Enrollment (insurance) assistance services - joint venture	A program that provides enrollment assistance for patients who are potentially eligible for public health insurance programs such as Medicaid, State Children's Health Insurance, or local/state indigent care programs. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Equity model - health system	Allows established practitioners to become shareholders in a professional corporation in exchange for tangible and intangible assets of their existing practices. Sourced from the AHA Annual Survey.	2019-2023
Equity model - hospital	Allows established practitioners to become shareholders in a professional corporation in exchange for tangible and intangible assets of their existing practices. Sourced from the AHA Annual Survey.	2019-2023
Equity model - hospital ownership share	Allows established practitioners to become shareholders in a professional corporation in exchange for tangible and intangible assets of their existing practices. Sourced from the AHA Annual Survey.	2018-2023
Equity model -insurance ownership share	Allows established practitioners to become shareholders in a professional corporation in exchange for tangible and intangible assets of their existing practices. Sourced from the AHA Annual Survey.	2018-2023
Equity model - parent corporation ownership share	Allows established practitioners to become shareholders in a professional corporation in exchange for tangible and intangible assets of their existing practices. Sourced from the AHA Annual Survey.	2018-2023
Equity model participation	The hospital allows established practitioners to become shareholders in a professional corporation in exchange for tangible and intangible assets of their existing practices. Sourced from the AHA Annual Survey.	2006-2017
Equity model participation (net.)	The hospital's network allows established practitioners to become shareholders in a professional corporation in exchange for tangible and intangible assets of their existing practices. Sourced from the AHA Annual Survey.	2006-2017

Equity model participation (# of)	Number of physicians participating in the hospital-based equity model. Sourced from the AHA Annual Survey.	2006-2023
Equity model participation (sys.)	The hospital's system allows established practitioners to become shareholders in a professional corporation in exchange for tangible and intangible assets of their existing practices. Sourced from the AHA Annual Survey.	2006-2017
Equity model - physician ownership share	Allows established practitioners to become shareholders in a professional corporation in exchange for tangible and intangible assets of their existing practices. Sourced from the AHA Annual Survey.	2018-2023
ER triage to determine which patients are seen	Type of triage system used by your emergency department on a daily basis to determine which patients can be seen. Sourced from the AHA Annual Survey.	2009-2011
Esophageal impedance study	A test in which a catheter is placed through the nose into the esophagus to measure whether gas or liquids are passing from the stomach into the esophagus and causing symptoms. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2007-CY
Esophageal impedance study - health system	A test in which a catheter is placed through the nose into the esophagus to measure whether gas or liquids are passing from the stomach into the esophagus and causing symptoms. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2007-CY
Esophageal impedance study - joint venture	A test in which a catheter is placed through the nose into the esophagus to measure whether gas or liquids are passing from the stomach into the esophagus and causing symptoms. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2007-CY
Esophageal impedance study - network	A test in which a catheter is placed through the nose into the esophagus to measure whether gas or liquids are passing from the stomach into the esophagus and causing symptoms. Sourced from the AHA Annual Survey.	2007-2012

Evaluate a leadership program	A program that is designed to increase the leadership skills of manager level personnel for eventual placement in a more senior level position. This program focuses on two classes of personnel. Of greatest importance is the Mid-careerist that has been working in a hospital setting for 7-12 years and is stuck at the Manager level. The other category of a good Leadership Development program focuses on increasing the number of minorities at the Senior Executive level. This would include all titles above Department Director, including Administrator, Associate Administrator, and the various levels of Vice President. Sourced from the AHA Annual Survey.	2006-2010
Extended care integrated with behavioral health care	Provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization averaging 25 days. Extended care can be offered in a hospital or extended care facility. Integration means routinely coupling medical services with behavioral health services and could range from co-located physical and behavioral health providers, with some screening and treatment planning, to fully integrated care where behavioral and physical health providers function as a true team in a shared practice. Sourced from the AHA Annual Survey.	2023-CY
Extended care integrated with behavioral health care	Extended care integrated with behavioral health care. Sourced from the AHA Annual Survey.	2017-2020
Extracorporeal shock waved lithotripter (ESWL)	A medical device used for treating stones in the kidney or urethra. The device disintegrates kidney stones noninvasively through the transmission of acoustic shock waves directed at the stones. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Extracorporeal shock waved lithotripter (ESWL) - health system	A medical device used for treating stones in the kidney or urethra. The device disintegrates kidney stones noninvasively through the transmission of acoustic shock waves directed at the stones. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Extracorporeal shock waved lithotripter (ESWL) - joint venture	A medical device used for treating stones in the kidney or urethra. The device disintegrates kidney stones noninvasively through the transmission of acoustic shock waves directed at the stones. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY

Extracorporeal shock waved lithotripter (ESWL) - network	A medical device used for treating stones in the kidney or urethra. The device disintegrates kidney stones noninvasively through the transmission of acoustic shock waves directed at the stones. Sourced from the AHA Annual Survey.	2006-2012
Faith based organizations - CHNA	Sourced from the AHA Annual Survey.	2020-2023
Faith based organizations - community level initiatives	Sourced from the AHA Annual Survey.	2020-2023
Faith based organizations - not involved	Sourced from the AHA Annual Survey.	2020-2023
Faith based organizations - social needs	Sourced from the AHA Annual Survey.	2020-2023
Fax Number	Sourced from AHA Membership.	CY
Federation of American Health Care Systems	Member of Federation of American Health Care Systems. Sourced from the Federation of American Health Care Systems.	2006-2009
Fertility Clinic - Hospital	A specialized program set in an infertility center that provides counseling and education as well as advanced reproductive techniques such as: injectable therapy, reproductive surgeries, treatment for endometriosis, male factor infertility, tubal reversals, in vitro fertilization (IVF), donor eggs, and other such services to help patients achieve successful pregnancies. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Fertility Clinic - Joint Venture	A specialized program set in an infertility center that provides counseling and education as well as advanced reproductive techniques such as: injectable therapy, reproductive surgeries, treatment for endometriosis, male factor infertility, tubal reversals, in vitro fertilization (IVF), donor eggs, and other such services to help patients achieve successful pregnancies. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Fertility Clinic - Network	A specialized program set in an infertility center that provides counseling and education as well as advanced reproductive techniques such as: injectable therapy, reproductive surgeries, treatment for endometriosis, male factor infertility, tubal reversals, in vitro fertilization (IVF), donor eggs, and other such services to help patients achieve successful pregnancies. Sourced from the AHA Annual Survey.	2006-2012

Fertility Clinic - System	A specialized program set in an infertility center that provides counseling and education as well as advanced reproductive techniques such as: injectable therapy, reproductive surgeries, treatment for endometriosis, male factor infertility, tubal reversals, in vitro fertilization (IVF), donor eggs, and other such services to help patients achieve successful pregnancies. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Fiscal Year Beginning Day		2006-CY
Fiscal Year Beginning Month		2006-CY
Fiscal Year Beginning Year		2006-CY
Fitness center	Provides exercise, testing, or evaluation programs and fitness activities to the community and hospital employees. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Fitness center - health system	Provides exercise, testing, or evaluation programs and fitness activities to the community and hospital employees. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Fitness center - joint venture	Provides exercise, testing, or evaluation programs and fitness activities to the community and hospital employees. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Fitness center - network	Provides exercise, testing, or evaluation programs and fitness activities to the community and hospital employees. Sourced from the AHA Annual Survey.	2006-2012
Food insecurity or hunger program/strategy	Sourced from the AHA Annual Survey.	2020-2023
Food insecurity or hunger screening	Sourced from the AHA Annual Survey.	2020-2023
Forensic psychiatry services - health system	A medical subspecialty that includes research and clinical practice in many areas in which psychiatric is applied to legal issues. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2020-CY
Forensic psychiatry services - hospital	A medical subspecialty that includes research and clinical practice in many areas in which psychiatric is applied to legal issues. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2020-CY

Forensic psychiatry services - joint venture	A medical subspecialty that includes research and clinical practice in many areas in which psychiatric is applied to legal issues. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2020-CY
Foundation - health system	A corporation, organized either as a hospital affiliate or subsidiary, which purchases both the tangible and intangible assets of one or more medical group practices. Physicians remain in a separate corporate entity but sign a professional services agreement with the foundation. Sourced from the AHA Annual Survey.	2019-2023
Foundation - hospital	A corporation, organized either as a hospital affiliate or subsidiary, which purchases both the tangible and intangible assets of one or more medical group practices. Physicians remain in a separate corporate entity but sign a professional services agreement with the foundation. Sourced from the AHA Annual Survey.	2019-2023
Foundation - hospital ownership share	A corporation, organized either as a hospital affiliate or subsidiary, which purchases both the tangible and intangible assets of one or more medical group practices. Physicians remain in a separate corporate entity but sign a professional services agreement with the foundation. Sourced from the AHA Annual Survey.	2018-2023
Foundation - insurance ownership share	A corporation, organized either as a hospital affiliate or subsidiary, which purchases both the tangible and intangible assets of one or more medical group practices. Physicians remain in a separate corporate entity but sign a professional services agreement with the foundation. Sourced from the AHA Annual Survey.	2018-2023
Foundation model - Number of involved physicians at Health System	In this model physicians are employed by a foundation associated with your hospital, providing a mix of autonomy and organizational support. Indicates number of physicians involved in this model in health system. Sourced from the AHA Annual Survey.	2024-CY
Foundation model - Number of involved physicians at Hospital	In this model physicians are employed by a foundation associated with your hospital, providing a mix of autonomy and organizational support. Indicates number of physicians involved in this model in hospital. Sourced from the AHA Annual Survey.	2024-CY

Foundation model - Number of involved physicians not provided	In this model physicians are employed by a foundation associated with your hospital, providing a mix of autonomy and organizational support. Indicates model is not available at hospital. Sourced from the AHA Annual Survey.	2024-CY
Foundation - parent corporation ownership share	A corporation, organized either as a hospital affiliate or subsidiary, which purchases both the tangible and intangible assets of one or more medical group practices. Physicians remain in a separate corporate entity but sign a professional services agreement with the foundation. Sourced from the AHA Annual Survey.	2018-2023
Foundation participation	The hospital maintains a corporation, organized either as a hospital affiliate or subsidiary, which purchases both the tangible and intangible assets of one or more medical group practices. Physicians remain in a separate corporate entity but sign a professional services agreement with the foundation. Sourced from the AHA Annual Survey.	2006-2017
Foundation participation (net.)	The hospital's network maintains a corporation, organized either as a hospital affiliate or subsidiary, which purchases both the tangible and intangible assets of one or more medical group practices. Physicians remain in a separate corporate entity but sign a professional services agreement with the foundation. Sourced from the AHA Annual Survey.	2006-2017
Foundation participation (# of)	The number of physicians participating in the hospital-based foundation. Sourced from the AHA Annual Survey.	2006-2023
Foundation participation (sys.)	The hospital's system maintains a corporation, organized either as a hospital affiliate or subsidiary, which purchases both the tangible and intangible assets of one or more medical group practices. Physicians remain in a separate corporate entity but sign a professional services agreement with the foundation. Sourced from the AHA Annual Survey.	2006-2017
Foundation - physician ownership share	A corporation, organized either as a hospital affiliate or subsidiary, which purchases both the tangible and intangible assets of one or more medical group practices. Physicians remain in a separate corporate entity but sign a professional services agreement with the foundation. Sourced from the AHA Annual Survey.	2018-2023
Freestanding LTCH	Indicates hospital has freestanding long-term care hospital. Sourced from the AHA Annual Survey.	2018-CY

Freestanding outpatient center	A facility owned and operated by the hospital, but physically separate from the hospital, that provides various medical treatments on an outpatient basis only. In addition to treating minor illnesses or injuries, the center will stabilize seriously ill or injured patients before transporting them to a hospital. Laboratory and radiology services are usually available. Sourced from the AHA Annual Survey.	2006-CY
Freestanding outpatient center - health system	A facility owned and operated by the hospital, but physically separate from the hospital, that provides various medical treatments on an outpatient basis only. In addition to treating minor illnesses or injuries, the center will stabilize seriously ill or injured patients before transporting them to a hospital. Laboratory and radiology services are usually available. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Freestanding outpatient center - joint venture	A facility owned and operated by the hospital, but physically separate from the hospital, that provides various medical treatments on an outpatient basis only. In addition to treating minor illnesses or injuries, the center will stabilize seriously ill or injured patients before transporting them to a hospital. Laboratory and radiology services are usually available. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Freestanding outpatient center - network	A facility owned and operated by the hospital, but physically separate from the hospital, that provides various medical treatments on an outpatient basis only. In addition to treating minor illnesses or injuries, the center will stabilize seriously ill or injured patients before transporting them to a hospital. Laboratory and radiology services are usually available. Sourced from the AHA Annual Survey.	2006-2012
Freestanding/Satellite Emergency Department	A facility owned and operated by the hospital but physically separate from the hospital for the provision of unscheduled outpatient services to patients whose conditions require immediate care. Sourced from the AHA Annual Survey.	2006-2016
Freestanding/Satellite Emergency Department -joint venture	A facility owned and operated by the hospital but physically separate from the hospital for the provision of unscheduled outpatient services to patients whose conditions require immediate care. Sourced from the AHA Annual Survey.	2006-2016

Freestanding/Satellite Emergency Department - network	A facility owned and operated by the hospital but physically separate from the hospital for the provision of unscheduled outpatient services to patients whose conditions require immediate care. Sourced from the AHA Annual Survey.	2006-2012
Freestanding/Satellite Emergency Department - system	A facility owned and operated by the hospital but physically separate from the hospital for the provision of unscheduled outpatient services to patients whose conditions require immediate care. Sourced from the AHA Annual Survey.	2006-2016
Frontline facility	Sourced from the AHA Annual Survey.	2021-2023
Full-field digital mammography	Combines the x-ray generators and tubes used in analog screen-film mammography (SFM) with a detector plate that converts the x-rays into a digital signal. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Full-field digital mammography - health system	Combines the x-ray generators and tubes used in analog screen-film mammography (SFM) with a detector plate that converts the x-rays into a digital signal. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Full-field digital mammography - joint venture	Combines the x-ray generators and tubes used in analog screen-film mammography (SFM) with a detector plate that converts the x-rays into a digital signal. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Full-field digital mammography - network	Combines the x-ray generators and tubes used in analog screen-film mammography (SFM) with a detector plate that converts the x-rays into a digital signal. Sourced from the AHA Annual Survey.	2006-2012
Full time equivalent RN (hospital unit)	All full time equivalent personnel fields are calculated by adding full-time personnel to 0.5 * related part-time personnel. Sourced from the AHA Annual Survey.	2016-CY
Full time nursing home RNs	Total full-time nursing home type unit/facility registered nurses. Sourced from the AHA Annual Survey.	2016-CY

Gastrointestinal - Commercial Insurance Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Gastrointestinal is the branch of medicine that deals with the stomach and the intestines. Sourced from the AHA Annual Survey.	2022-CY
Gastrointestinal (GI) - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Gastrointestinal (GI) - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Gastrointestinal (GI) - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Gastrointestinal - Medicaid, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Gastrointestinal is the branch of medicine that deals with the stomach and the intestines. Sourced from the AHA Annual Survey.	2022-CY

Gastrointestinal - Medicare Advantage Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Gastrointestinal is the branch of medicine that deals with the stomach and the intestines. Sourced from the AHA Annual Survey.	2022-CY
Gastrointestinal - Traditional Medicare, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Gastrointestinal is the branch of medicine that deals with the stomach and the intestines. Sourced from the AHA Annual Survey.	2022-CY
Gather data to address social determinants of health - none of the above	Sourced from the AHA Annual Survey.	2022-2023
General medical and surgical care (adult) - health system	Provides acute care to patients in medical and surgical units on the basis of physicians' orders and approved nursing care plans. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
General medical and surgical care (adult) - joint venture	Provides acute care to patients in medical and surgical units on the basis of physicians' orders and approved nursing care plans. Provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
General medical and surgical care (adult) - network	Provides acute care to patients in medical and surgical units on the basis of physicians' orders and approved nursing care plans. Sourced from the AHA Annual Survey.	2006-2012
General medical and surgical care (pediatric) - health system	Provides acute care to pediatric patients on the basis of physicians' orders and approved nursing care plans. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

General medical and surgical care (pediatric) - joint venture	Provides acute care to pediatric patients on the basis of physicians' orders and approved nursing care plans. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
General medical and surgical care (pediatric) - network	Sourced from the AHA Annual Survey.	2006-2012
General surgery and related procedures - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
General surgery and related procedures - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
General surgery and related procedures - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Genetic testing/counseling	A service equipped with adequate laboratory facilities and directed by a qualified physician to advise parents and prospective parents on potential problems in cases of genetic defects. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Genetic testing/counseling - health system	A service equipped with adequate laboratory facilities and directed by a qualified physician to advise parents and prospective parents on potential problems in cases of genetic defects. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Genetic testing/counseling - joint venture	A service equipped with adequate laboratory facilities and directed by a qualified physician to advise parents and prospective parents on potential problems in cases of genetic defects. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Genetic testing/counseling - network	A service equipped with adequate laboratory facilities and directed by a qualified physician to advise parents and prospective parents on potential problems in cases of genetic defects. Sourced from the AHA Annual Survey.	2006-2012

Gen. medical/surgical adult beds	Staffed beds set up for patient care in dedicated general medical/surgical care units. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2006-CY
Gen. medical/surgical adult care	Provides acute care to patients in medical and surgical units on the basis of physicians' orders and approved nursing care plans. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Gen. medical/surgical pediatric beds	Staffed beds set up for patient care in a dedicated pediatric acute care unit. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2006-CY
Gen. medical/surgical pediatric care	Provides acute care to pediatric patients on the basis of physicians' orders and approved nursing care plans. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Geriatric services	The branch of medicine dealing with the physiology of aging and the diagnosis and treatment of disease affecting the aged. Services could include: adult day care; Alzheimer's diagnostic-assessment services; comprehensive geriatric assessment; emergency response system; geriatric acute care unit; and/or geriatric clinics. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Geriatric services - health system	The branch of medicine dealing with the physiology of aging and the diagnosis and treatment of disease affecting the aged. Services could include: adult day care; Alzheimer's diagnostic-assessment services; comprehensive geriatric assessment; emergency response system; geriatric acute care unit; and/or geriatric clinics. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Geriatric services - joint venture	The branch of medicine dealing with the physiology of aging and the diagnosis and treatment of disease affecting the aged. Services could include: adult day care; Alzheimer's diagnostic-assessment services; comprehensive geriatric assessment; emergency response system; geriatric acute care unit; and/or geriatric clinics. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Geriatric services - network	The branch of medicine dealing with the physiology of aging and the diagnosis and treatment of disease affecting the aged. Services could include: adult day care; Alzheimer's diagnostic-assessment services; comprehensive geriatric assessment; emergency response system; geriatric acute care unit; and/or geriatric clinics. Sourced from the AHA Annual Survey.	2006-2012
GPO	Indicates hospital participates in group purchasing agreement (GPO)	2006-CY
GPO city	City of GPO headquarters. Sourced from the AHA Annual Survey.	2006-CY
GPO ID		2006-2007
GPO name	Name of the GPO. Sourced from the AHA Annual Survey.	2006-CY
GPO state	State of GPO headquarters. Sourced from the AHA Annual Survey.	2006-CY
GPO ZIP	Sourced from the AHA Annual Survey.	2006-2007
Group practice without wall -insurance ownership share	Hospital sponsors the formation of, or provides capital to physicians to establish, a “quasi” group to share administrative expenses while remaining independent practitioners. Sourced from the AHA Annual Survey.	2018-2023
Group practice without walls	Hospital sponsors the formation of, or provides capital to physicians to establish, a group to share administrative expenses while remaining independent practitioners. Sourced from the AHA Annual Survey.	2006-2017
Group practice without walls - health system	Hospital sponsors the formation of, or provides capital to physicians to establish, a “quasi” group to share administrative expenses while remaining independent practitioners. Sourced from the AHA Annual Survey.	2019-2023
Group practice without walls - hospital	Hospital sponsors the formation of, or provides capital to physicians to establish, a “quasi” group to share administrative expenses while remaining independent practitioners. Sourced from the AHA Annual Survey.	2019-2023
Group practice without walls - hospital ownership share	Hospital sponsors the formation of, or provides capital to physicians to establish, a “quasi” group to share administrative expenses while remaining independent practitioners. Sourced from the AHA Annual Survey.	2018-2023

Group practice without walls (net.)	Hospital's network sponsors the formation of, or provides capital to physicians to establish, a group to share administrative expenses while remaining independent practitioners. Sourced from the AHA Annual Survey.	2006-2017
Group practice without walls (# of)	Number of physicians involved in the hospital-based group practice without walls arrangement. Sourced from the AHA Annual Survey.	2006-2023
Group practice without walls - parent corporation ownership share	Hospital sponsors the formation of, or provides capital to physicians to establish, a "quasi" group to share administrative expenses while remaining independent practitioners. Sourced from the AHA Annual Survey.	2018-2023
Group practice without walls - physician ownership share	Hospital sponsors the formation of, or provides capital to physicians to establish, a "quasi" group to share administrative expenses while remaining independent practitioners. Sourced from the AHA Annual Survey.	2018-2023
Group practice without walls (sys.)	Hospital's system sponsors the formation of, or provides capital to physicians to establish, a group to share administrative expenses while remaining independent practitioners. Sourced from the AHA Annual Survey.	2006-2017
Gynecology - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Gynecology - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Gynecology - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Has a new NPI number	National Provider Identifier (NPI) is a unique identification number for covered health care providers. Sourced from the AHA Annual Survey.	2008-2012
Has formal written contract with a PPO	A pre-set arrangement in which purchasers and providers agree to furnish specified health services to a group of employees/patients. Sourced from the AHA Annual Survey.	2006-2016

Has your hospital or health care system established an accountable care organization?	An ACO contract has two essential elements: (1) accountability for the total costs of care for the population of patients attributed to the primary care physicians in the organization; (2) financial incentives that link the magnitude of bonus payments to performance on quality measures (which could include technical quality, patient experience and/or health outcome measures) This will generally involve a contract where the payer establishes a target budget for one or more years for the total costs of care for the agreed-upon patient population, the payer tracks actual spending and performance on quality; and the provider receives bonus payments that could include a share of savings that are (or are not) contingent on meeting quality targets, with (or without) additional bonuses related to performance on those quality measures. Sourced from the AHA Annual Survey.	2018-CY
Health behaviors program/strategy	Sourced from the AHA Annual Survey.	2020-2022
Health behaviors screening	Sourced from the AHA Annual Survey.	2020-2022
Healthcare providers outside your system - CHNA	Sourced from the AHA Annual Survey.	2020-2023
Healthcare providers outside your system - community level initiatives	Sourced from the AHA Annual Survey.	2020-2023
Healthcare providers outside your system - not involved	Sourced from the AHA Annual Survey.	2020-2023
Healthcare providers outside your system - social needs	Sourced from the AHA Annual Survey.	2020-2023
Health equity strategic planning - collection and use of segmented data to drive action	Sourced from the AHA Annual Survey.	2021-2023
Health equity strategic planning - community engagement	Sourced from the AHA Annual Survey.	2021-2023
Health equity strategic planning - culturally appropriate patient care	Sourced from the AHA Annual Survey.	2021-2023
Health equity strategic planning - diverse representation in hospital and health care system governance	Sourced from the AHA Annual Survey.	2021-2023
Health equity strategic planning - diverse representation in hospital and health care system leadership	Sourced from the AHA Annual Survey.	2021-2023

Health equity strategic planning - equitable and inclusive organizational policies	Sourced from the AHA Annual Survey.	2021-2023
Health equity strategic planning - none of the above	Sourced from the AHA Annual Survey.	2022-2023
Health equity strategic planning - systematic and shared accountability for health equity	Sourced from the AHA Annual Survey.	2021-2023
Health Fair	Community health education events that focus on the prevention of disease and promotion of health through such activities as audiovisual exhibits and free diagnostic services. Sourced from the AHA Annual Survey.	2006-2023
Health fair - health system	Community health education events that focus on the prevention of disease and promotion of health through such activities as audiovisual exhibits and free diagnostic services. Sourced from the AHA Annual Survey.	2006-2023
Health fair - joint venture	Community health education events that focus on the prevention of disease and promotion of health through such activities as audiovisual exhibits and free diagnostic services. Sourced from the AHA Annual Survey.	2006-2023
Health Fair - network	Community health education events that focus on the prevention of disease and promotion of health through such activities as audiovisual exhibits and free diagnostic services. Sourced from the AHA Annual Survey.	2006-2012
Health insurance marketplace (exchange) - do not know	Health insurance marketplace (exchange) - do not know. Also called health exchanges, are organizations set up to facilitate the purchase of health insurance in each state in accordance with Patient Protection and Affordable Care Act. Marketplaces provide a set of government-regulated and standardized health care plans from which individuals may purchase health insurance policies eligible for federal subsidies. Sourced from the AHA Annual Survey.	2018-CY
Health insurance marketplace (exchange) - do not know	Health insurance marketplace (exchange) - do not know. Sourced from the AHA Annual Survey.	2017
Health insurance marketplace (exchange) - hospital	Health insurance marketplace (exchange). Also called health exchanges, are organizations set up to facilitate the purchase of health insurance in each state in accordance with Patient Protection and Affordable Care Act. Marketplaces provide a set of government-regulated and standardized health care plans from which individuals may purchase health insurance policies eligible for federal subsidies. Sourced from the AHA Annual Survey.	2018-CY

Health insurance marketplace (exchange) - hospital	Health insurance marketplace (exchange). Sourced from the AHA Annual Survey.	2017
Health insurance marketplace (exchange) - joint venture	Health insurance marketplace (exchange) at the joint venture level. Sourced from the AHA Annual Survey.	2017
Health insurance marketplace (exchange) - joint venture	Health insurance marketplace (exchange) at the joint venture level. Also called health exchanges, are organizations set up to facilitate the purchase of health insurance in each state in accordance with Patient Protection and Affordable Care Act. Marketplaces provide a set of government-regulated and standardized health care plans from which individuals may purchase health insurance policies eligible for federal subsidies. Sourced from the AHA Annual Survey.	2018-CY
Health insurance marketplace (exchange) - new product	Also called health exchanges, are organizations set up to facilitate the purchase of health insurance in each state in accordance with Patient Protection and Affordable Care Act. Marketplaces provide a set of government-regulated and standardized health care plans from which individuals may purchase health insurance policies eligible for federal subsidies. Sourced from the AHA Annual Survey.	2018-2021
Health insurance marketplace (exchange) - no	Health insurance marketplace (exchange). Sourced from the AHA Annual Survey.	2017
Health insurance marketplace (exchange) - no	Health insurance marketplace (exchange). Also called health exchanges, are organizations set up to facilitate the purchase of health insurance in each state in accordance with Patient Protection and Affordable Care Act. Marketplaces provide a set of government-regulated and standardized health care plans from which individuals may purchase health insurance policies eligible for federal subsidies. Sourced from the AHA Annual Survey.	2018-CY
Health insurance marketplace (exchange) - system	Health insurance marketplace (exchange). At the system level. Sourced from the AHA Annual Survey.	2017

Health insurance marketplace (exchange) - system	Health insurance marketplace (exchange). Also called health exchanges, are organizations set up to facilitate the purchase of health insurance in each state in accordance with Patient Protection and Affordable Care Act. Marketplaces provide a set of government-regulated and standardized health care plans from which individuals may purchase health insurance policies eligible for federal subsidies. Health Service Area Code - Dartmouth	Sourced from the Dartmouth Atlas of Health Care.	2006-CY
Health Service Area Name - Dartmouth	Sourced from the Dartmouth Atlas of Health Care.	2006-CY
Health service indicators shape services	Hospital uses health status indicators to design new services or modify existing services. Sourced from the AHA Annual Survey.	2006-2010
Heart transplant	The branch of medicine that transfers a heart organ or tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Heart transplant - health system	The branch of medicine that transfers a heart organ or tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Heart transplant - joint venture	The branch of medicine that transfers a heart organ or tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY

Heart transplant - network	The branch of medicine that transfers a heart organ or tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. Sourced from the AHA Annual Survey.	2006-2012
Hematology - Commercial Insurance Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Hematology is the study of blood and blood disorders. Sourced from the AHA Annual Survey.	2022-CY
Hematology - Medicaid, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Hematology is the study of blood and blood disorders. Sourced from the AHA Annual Survey.	2022-CY
Hematology - Medicare Advantage Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Hematology is the study of blood and blood disorders. Sourced from the AHA Annual Survey.	2022-CY

Hematology - Traditional Medicare, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Hematology is the study of blood and blood disorders. Sourced from the AHA Annual Survey.	2022-CY
Hemodialysis	Provision of equipment and personnel for the treatment of renal insufficiency on an inpatient or outpatient basis. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Hemodialysis - health system	Provision of equipment and personnel for the treatment of renal insufficiency on an inpatient or outpatient basis. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Hemodialysis - joint venture	Provision of equipment and personnel for the treatment of renal insufficiency on an inpatient or outpatient basis. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Hemodialysis - network	Provision of equipment and personnel for the treatment of renal insufficiency on an inpatient or outpatient basis. Sourced from the AHA Annual Survey.	2006-2012
HIV-AIDS services	Special unit or team designated and equipped specifically for diagnosis, treatment, continuing care planning, and counseling services for HIV-AIDS patients and their families. General inpatient care for HIV-AIDS-Inpatient diagnosis and treatment for human immunodeficiency virus and acquired immunodeficiency syndrome patients, but dedicated unit is not available. Specialized outpatient program for HIV-AIDS-Special outpatient program providing diagnostic, treatment, continuing care planning, and counseling for HIV-AIDS patients and their families. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

HIV-AIDS services - health system	Special unit or team designated and equipped specifically for diagnosis, treatment, continuing care planning, and counseling services for HIV-AIDS patients and their families. General inpatient care for HIV-AIDS-Inpatient diagnosis and treatment for human immunodeficiency virus and acquired immunodeficiency syndrome patients, but dedicated unit is not available. Sourced from the AHA Annual Survey.	2006-2012
HMO	Hospital has an equity interest in a health care organization that acts as both insurer and provider of comprehensive but specified medical services in return for prospective per capita (capitation) payments. Sourced from the AHA Annual Survey.	2006-2016

HMO (JV)	Hospital has an equity interest, through a joint venture with an insurer, in a health care organization that acts as both insurer and provider of comprehensive but specified medical services in return for prospective per capita (capitation) payments. Sourced from the AHA Annual Survey.	2006-2016
HMO (net.)	Hospital has an equity interest, through its network, in a health care organization that acts as both insurer and provider of comprehensive but specified medical services in return for prospective per capita (capitation) payments. Sourced from the AHA Annual Survey.	2006-2016
HMO (sys.)	Hospital has an equity interest, through its system, in a health care organization that acts as both insurer and provider of comprehensive but specified medical services in return for prospective per capita (capitation) payments. Sourced from the AHA Annual Survey.	2006-2016
Home health services	Service providing nursing, therapy, and health-related homemaker or social services in the patient's home. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Home health services - health system	Service providing nursing, therapy, and health-related homemaker or social services in the patient's home. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Home health services - joint venture	Service providing nursing, therapy, and health-related homemaker or social services in the patient's home. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Home health services - network	Service providing nursing, therapy, and health-related homemaker or social services in the patient's home. Sourced from the AHA Annual Survey.	2006-2012
Hospice Program	A recognized clinical program with specific eligibility criteria that provides palliative medical care focused on relief of pain and symptom control and other services that address the emotional, social, financial and spiritual needs of terminally ill patients and their families. Hospice care can be provided either at home, in a hospital setting, or a free-standing facility. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Hospice Program-joint venture	A recognized clinical program with specific eligibility criteria that provides palliative medical care focused on relief of pain and symptom control and other services that address the emotional, social, financial and spiritual needs of terminally ill patients and their families. Hospice care can be provided either at home, in a hospital setting, or a free-standing facility. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Hospice Program - network	A recognized clinical program with specific eligibility criteria that provides palliative medical care focused on relief of pain and symptom control and other services that address the emotional, social, financial and spiritual needs of terminally ill patients and their families. Hospice care can be provided either at home, in a hospital setting, or a free-standing facility. Sourced from the AHA Annual Survey.	2006-2012
Hospice Program-System	A recognized clinical program with specific eligibility criteria that provides palliative medical care focused on relief of pain and symptom control and other services that address the emotional, social, financial and spiritual needs of terminally ill patients and their families. Hospice care can be provided either at home, in a hospital setting, or a free-standing facility. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Hospital at Home Program - health system	Hospital-at-home enable some patients who need acute-level care to receive care in their homes, rather than in a hospital. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2023-CY
Hospital at Home Program - hospital	Hospital-at-home enable some patients who need acute-level care to receive care in their homes, rather than in a hospital. Service is owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2023-CY
Hospital at Home Program - joint venture	Hospital-at-home enable some patients who need acute-level care to receive care in their homes, rather than in a hospital. Service provided through a formal contractual arrangement or joint venture with another provider. Sourced from the AHA Annual Survey.	2023-CY

Hospital-based outpatient care center/services - health system	Organized hospital health care services offered by appointment on an ambulatory basis. Services may include outpatient surgery, examination, diagnosis, and treatment of a variety of medical conditions on a non-emergency basis, and laboratory and other diagnostic testing as ordered by staff or outside physician referral. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Hospital-based outpatient care center/services - hospital	Organized hospital health care services offered by appointment on an ambulatory basis. Services may include outpatient surgery, examination, diagnosis, and treatment of a variety of medical conditions on a non-emergency basis, and laboratory and other diagnostic testing as ordered by staff or outside physician referral. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Hospital-based outpatient care center/services - joint venture	Organized hospital health care services offered by appointment on an ambulatory basis. Services may include outpatient surgery, examination, diagnosis, and treatment of a variety of medical conditions on a non-emergency basis, and laboratory and other diagnostic testing as ordered by staff or outside physician referral. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Hospital-base outpatient care center/services - network		2006-2012
Hospital established a clinically integrated network	A clinically integrated network is a collection of healthcare providers, such as physicians, hospitals, and post-acute care treatment providers, that come together to improve patient care and reduce overall healthcare costs. Clinically integrated networks rely on evidence-based care guidelines to provide high-quality care across participating providers. Sourced from the AHA Annual Survey.	2017-2019
Hospital has EHR	Indicates if hospital has an electronic health record. Sourced from the AHA Annual Survey.	2007-2016

Hospitalist - Commercial Insurance Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Hospitalists are physicians whose primary professional focus is the care of hospitalized medical patients (through clinical, education, administrative and research activity). Sourced from the AHA Annual Survey.	2022-CY
Hospitalist - Medicaid, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Hospitalists are physicians whose primary professional focus is the care of hospitalized medical patients (through clinical, education, administrative and research activity). Sourced from the AHA Annual Survey.	2022-CY
Hospitalist - Medicare Advantage Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Hospitalists are physicians whose primary professional focus is the care of hospitalized medical patients (through clinical, education, administrative and research activity). Sourced from the AHA Annual Survey.	2022-CY
Hospitalist (NE)	Total hospitalist physicians with privileges that have no employment or contractual relationship with the hospital to provide services. Sourced from the AHA Annual Survey.	2010-CY

Hospitalists FT		2006-2009
Hospitalists Full Time Equivalent (FTE)	Total number of full-time employed hospitalists plus one half of total part-time hospitalists. Sourced from the AHA Annual Survey.	2007-CY
Hospitalists Provide Care	Indicates whether hospitalists provide patient care in the hospital. Sourced from the AHA Annual Survey.	2006-CY
Hospitalists PT		2006-2009
Hospitalist (TC)	Total independent physicians under a formal contract to provide services at a hospital including at outpatient facilities, clinics and offices that practice hospitalist services. Sourced from the AHA Annual Survey.	2010-CY
Hospitalist (TE)	Total employed physicians that are either direct hospital employees or employees of a hospital subsidiary corporation that practice hospitalist services. Sourced from the AHA Annual Survey.	2010-CY
Hospitalist (TG)	Total hospitalist physicians that are part of a group (group practice, faculty practice plan or medical foundation) under a formal contract to provide services at a hospital including at inpatient and outpatient facilities, clinics and offices. Sourced from the AHA Annual Survey.	2010-CY
Hospitalist (TP)	Sum of all hospitalist physicians with privileges that practice emergency medicine. Sourced from the AHA Annual Survey.	2010-CY
Hospitalist - Traditional Medicare, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Hospitalists are physicians whose primary professional focus is the care of hospitalized medical patients (through clinical, education, administrative and research activity). Sourced from the AHA Annual Survey.	2022-CY

Hospital Location	Hospital location indicates rural or urban location based on Metropolitan Statistical Area (MSA) designation. A rural location is defined as: located outside an MSA, as designated by the U.S. Office of Management and Budget (OMB). An urban area is a geographically defined, integrated social and economic unit with a large population nucleus. Micropolitan areas, continue to be classified as rural. An urban location is defined as: located inside an MSA, designated by the U.S. OMB. An urban areas is a geographically defined, integrated social and economic unit with a large population base. According to the OMB, an MSA is a geographical designation that represents an integrated social and economic unit with a large population nucleus. Under these standards, an area qualifies for recognition as an MSA if there is a city within the area of at least 50,000 with a total metropolitan population of at least 100,000. MSAs are defined as entire counties. In addition to the county containing the main city, an MSA also includes additional counties having strong economic and social ties to the central county. Such counties must have a specified level of commuting to the central counties and must meet certain standards regarding metropolitan character, such as population density. When an MSA encompasses two or more central cities, up to three cities may be specified in the MSA title. They will be listed in order of population size. When a single central city exists, the MSA is named for that particular city. A MSA may extend beyond a single state. An MSA containing a single core with a population of 2.5 million or more may be subdivided to form smaller groupings of counties referred to as Metropolitan Divisions.	2010-CY
Hospital Name	Sourced from AHA Membership.	2006-CY
Hospital owned physician practice - multi-specialty group number	Report the number of physicians and specialty breakdown for physician practices wholly owned by the hospital. Sourced from the AHA Annual Survey.	2018-2023
Hospital owned physician practice - multi-specialty group percent	Report the number of physicians and specialty breakdown for physician practices wholly owned by the hospital. Sourced from the AHA Annual Survey.	2018-2023
Hospital owned physician practice -percent primary care	Report the number of physicians and specialty breakdown for physician practices wholly owned by the hospital. Sourced from the AHA Annual Survey.	2018-CY
Hospital owned physician practice - percent specialty care	Percent of hospital owned by specialty care physician practice. Specialty care is specialized medical care beyond the scope of primary care. Sourced from the AHA Annual Survey.	2018-CY

Hospital owned physician practice - single specialty group number	Report the number of physicians and specialty breakdown for physician practices wholly owned by the hospital. Sourced from the AHA Annual Survey.	2018-2023
Hospital owned physician practice - single specialty group percent	Report the number of physicians and specialty breakdown for physician practices wholly owned by the hospital. Sourced from the AHA Annual Survey.	2018-2023
Hospital owned physician practice - solo practice number	Report the number of physicians and specialty breakdown for physician practices wholly owned by the hospital. Sourced from the AHA Annual Survey.	2018-2023
Hospital owned physician practice - solo practice percent	Report the number of physicians and specialty breakdown for physician practices wholly owned by the hospital. Sourced from the AHA Annual Survey.	2018-2023
Hospital owns trauma certification	The American College of Surgeons (ACS) provides verification of trauma centers. It verifies that the facility has the resources available for the trauma patient. The ACS will evaluate a facility's preparedness, resources, policies, and quality improvement process. Verification by the ACS is valid for three years. Sourced from the AHA Annual Survey.	2022-CY
Hospital partnership - certified community behavioral health center	These entities, a new provider type in Medicaid, are designed to provide a comprehensive range of mental health and substance use disorder services to vulnerable individuals. In return, CCBHCs receive an enhanced Medicaid reimbursement rate based on their anticipated costs of expanding services to meet the needs of 38 these complex populations. CCBHCs are non-profit organizations or units of a local government behavioral health authority. They must directly provide (or contract with partner organizations to provide) nine types of services, with an emphasis on the provision of 24-hour crisis care, evidence-based practices, care coordination with local primary care and hospital partners, and integration with physical health care. Sourced from the AHA Annual Survey.	2021-CY

Hospital partnership - community mental health center	According to the American Psychological Association, a community mental health center is a facility or facilities that are community-based and provide mental health services, sometimes as an alternative to the care that mental hospitals provide. SAMHSA reported that, as of 2019, approximately 2,700 community mental health centers were in operation. They are supported by sources such as county and state funding programs, federal funding through programs such as Medicaid and Medicare, private insurance and cash payments. The centers treat both children and adults, including individuals who are chronically mentally ill or have been discharged from an inpatient mental health facility. Sourced from the AHA Annual Survey.	2021-CY
Hospital's County name	Name of the county in which the hospital is located. Sourced from U.S. Census Bureau.	2006-CY
Hospital shares upside or downside risk for outside providers	Hospital shares upside or downside risk for outside providers. Upside risk refers to the uncertain upward potential for a financial instrument, market, sector, or economy. Upside risk is positive, which means it can work to an investor or company's favor. It is the opposite of downside risk, which allows observers to determine how much they may lose. Sourced from the AHA Annual Survey.	2017-CY
Hospital size	Hospital size is based on bed size as follows: small – under 100 beds; medium – 100-399 beds; large – 400+ beds. Sourced from the AHA Annual Survey.	2010-CY
Hospital/system offers insurance products (via ownership or joint venture)	Hospital/system offers insurance products (via ownership or joint venture). Sourced from the AHA Annual Survey.	2017
Hospital/system partners with insurer to offer insurance products	Hospital/system partners with insurer to offer insurance products. Sourced from the AHA Annual Survey.	2017
Hospital total expenses (excluding bad debt)	Includes all payroll and non-payroll expenses (excluding bad debt) as well as any non-operating losses (including extraordinary losses). Sourced from AHA Annual Survey.	2006-CY
Hospital total expenses, excluding bad debt (est.)	Estimated Hospital total expenses, excluding bad debt - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a non-reporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from AHA Annual Survey.	2006-CY

Hospital Unit Admissions (est.)	Estimated Unit Admissions - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a non-reporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Hospital Unit Beds	Only operating beds, not constructed bed capacity. Includes all bed facilities that are set up and staffed for use by inpatients that have no other bed facilities, such as pediatric bassinets, isolation units, quiet rooms, and reception and observation units assigned to or reserved for them. Exclude newborn bassinets and bed facilities for patients receiving special procedures for a portion of their stay and who have other bed facilities assigned to or reserved for them. Exclude, for example, labor room, post anesthesia, or postoperative recovery room beds, psychiatric holding beds, and beds that are used only as holding facilities for patients prior to their transfer to another hospital. Sourced from the AHA Annual Survey.	2006-CY
Hospital unit employee benefits	Includes social security, group insurance, retirement benefits, workman's compensation, unemployment insurance, etc. Sourced from AHA Annual Survey.	2006-CY
Hospital Unit Employee Benefits (est.)	Estimated Hospital Unit Employee Benefits - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a non-reporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from AHA Annual Survey.	2006-CY
Hospital Unit Inpatient Days (est.)	Estimated Hospital Unit Inpatient Days - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a non-reporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Hospital unit Medicaid days	Inpatient days where a Medicaid Managed Care Plan is the source of payment. Sourced from the AHA Annual Survey.	2006-CY
Hospital unit Medicaid discharges	Discharge days where a Medicaid Managed Care Plan is the source of payment. Sourced from the AHA Annual Survey.	2006-CY

Hospital Unit Medicaid Inpatient Days (est.)	Estimated Hospital Unit Medicaid Inpatient Days - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Hospital Unit Medicaid Inpatient Discharges (est.)	Estimated Hospital Unit Medicaid Inpatient Discharges - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Hospital unit Medicare days	Inpatient days where a Medicare Managed Care Plan is the source of payment. Sourced from the AHA Annual Survey.	2006-CY
Hospital unit Medicare discharges	Discharge days where a Medicare Managed Care Plan is the source of payment. Sourced from the AHA Annual Survey.	2006-CY
Hospital Unit Medicare Inpatient Days (est.)	Estimated Hospital Unit Medicare Inpatient Days - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Hospital Unit Medicare Inpatient Discharges (est.)	Estimated Hospital Unit Medicare Inpatient Discharges defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Hospital unit other payer discharges	Sourced from the AHA Annual Survey.	2022-CY
Hospital unit other payer inpatient days	Sourced from the AHA Annual Survey.	2022-CY
Hospital unit other payer inpatient days (est.)	Sourced from the AHA Annual Survey.	2022-CY
Hospital unit other payer inpatient discharges (est.)	Sourced from the AHA Annual Survey.	2022-CY
Hospital unit payroll expenses	Includes all salaries and wages. Sourced from AHA Annual Survey.	2006-CY
Hospital unit self-pay discharges	Sourced from the AHA Annual Survey.	2022-CY
Hospital unit self-pay inpatient days	Sourced from the AHA Annual Survey.	2022-CY
Hospital unit self-pay inpatient days (est.)	Sourced from the AHA Annual Survey.	2022-CY

Hospital unit self-pay inpatient discharges (est.)	Sourced from the AHA Annual Survey.	2022-CY
Hospital unit third-party discharges	Sourced from the AHA Annual Survey.	2022-CY
Hospital unit third-party inpatient days	Sourced from the AHA Annual Survey.	2022-CY
Hospital unit third-party inpatient days (est.)	Sourced from the AHA Annual Survey.	2022-CY
Hospital unit third-party inpatient discharges (est.)	Sourced from the AHA Annual Survey.	2022-CY
Hospital Unit Total Full Time (est.)	Estimated Hospital Unit Total Full Time - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Hospital unit total inpatient discharges	Sourced from the AHA Annual Survey.	2022-CY
Hospital Unit Total Part Time (est.)	Estimated Hospital Unit Total Part Time - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Hospital Unit Total Payroll Expenses (est.)	Estimated Hospital Unit Total Payroll Expenses - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a non-reporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from AHA Annual Survey.	2006-CY
Hospital unit total personnel (FTEC)	Total number of FTE personnel for the hospital unit.Sourced from the AHA Annual Survey.	2006-CY
Host hospital city	Host city name of general acute care hospital in arrangement with long-term care facility. Sourced from the AHA Annual Survey.	2018-CY
Host hospital name	Name of general acute care hospital in arrangement with long-term care facility. Sourced from the AHA Annual Survey.	2018-CY
Host hospital state	Host state abbreviation of general acute care hospital in arrangement with long-term care facility. Sourced from the AHA Annual Survey.	2018-CY
Housing program/strategy	Sourced from the AHA Annual Survey.	2020-2023
Housing screening	Sourced from the AHA Annual Survey.	2020-2023
ICU bed change during reporting period	Sourced from the AHA Annual Survey.	2020

Image-guided radiation therapy	Automated system for image-guided radiation therapy that enables clinicians to obtain high-resolution x-ray images to pinpoint tumor sites, adjust patient positioning when necessary, and complete a treatment, all within the standard treatment time slot, allowing for more effective cancer treatments. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Image-guided radiation therapy - health system	Automated system for image-guided radiation therapy that enables clinicians to obtain high-resolution x-ray images to pinpoint tumor sites, adjust patient positioning when necessary, and complete a treatment, all within the standard treatment time slot, allowing for more effective cancer treatments. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Image-guided radiation therapy - joint venture	Automated system for image-guided radiation therapy that enables clinicians to obtain high-resolution x-ray images to pinpoint tumor sites, adjust patient positioning when necessary, and complete a treatment, all within the standard treatment time slot, allowing for more effective cancer treatments. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Image-guided radiation therapy - network	Automated system for image-guided radiation therapy that enables clinicians to obtain high-resolution x-ray images to pinpoint tumor sites, adjust patient positioning when necessary, and complete a treatment, all within the standard treatment time slot, allowing for more effective cancer treatments. Sourced from the AHA Annual Survey.	2006-2012
Imaging Centers (JV)	An imaging center is a healthcare facility that provides imaging services. Procedures that imaging centers perform include MRIs, X-Rays, CT scans, PET CT/MRI, fluoroscopy, interventional radiology, radiation oncology, angiography, dual energy x-ray absorptiometry (DEXA), mammography or CyberKnife/Gamma Knife services. Sourced from the AHA Annual Survey.	2006-CY
Immunization program	Program that plans, coordinates and conducts immunization services in the community. Sourced from the AHA Annual Survey.	2007-CY

Immunization program - health system	Program that plans, coordinates and conducts immunization services in the community. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2007-CY
Immunization program - joint venture	Program that plans, coordinates and conducts immunization services in the community. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2007-CY
Immunization program - network	Program that plans, coordinates and conducts immunization services in the community. Sourced from the AHA Annual Survey.	2007-2012
Improved community health status	Sourced from the AHA Annual Survey.	2020-2023
Incorporating workforce as part of strategic planning - benefits	Strategic planning process is a process in which an organization's leaders define their vision for the future and identify their organization's goals and objectives. This process involves benefits such as tuition reimbursement. Sourced from the AHA Annual Survey.	2024-CY
Incorporating workforce as part of strategic planning - conduct needs assessment	Strategic planning process is a process in which an organization's leaders define their vision for the future and identify their organization's goals and objectives. Needs assessment is a systematic process for determining and addressing needs, or "gaps", between current conditions, and desired conditions, or "wants." Sourced from the AHA Annual Survey.	2021-CY
Incorporating workforce as part of strategic planning - does not apply	Sourced from the AHA Annual Survey.	2022-CY
Incorporating workforce as part of strategic planning - leadership succession planning	Strategic planning process is a process in which an organization's leaders define their vision for the future and identify their organization's goals and objectives. Leadership succession planning is the process of identifying and developing new leaders to succeed current leaders. Sourced from the AHA Annual Survey.	2021-CY
Incorporating workforce as part of strategic planning - partnerships with elementary/HS to develop interest in health care careers	Strategic planning process is a process in which an organization's leaders define their vision for the future and identify their organization's goals and objectives. This process involves partnerships with elementary/HS to develop interest in health care careers. Sourced from the AHA Annual Survey.	2021-CY

Incorporating workforce as part of strategic planning - recruitment & retention planning	Strategic planning process is a process in which an organization's leaders define their vision for the future and identify their organization's goals and objectives. Recruitment and retention planning is strategic process where an organization identifies its future staffing needs, actively attracts qualified candidates to fill those positions (recruitment), and then implements strategies to keep those employees engaged and satisfied within the company to minimize turnover (retention). Sourced from the AHA Annual Survey.	2021-CY
Incorporating workforce as part of strategic planning - support for ongoing professional development for clinical staff	Strategic planning process is a process in which an organization's leaders define their vision for the future and identify their organization's goals and objectives. This process involves support for ongoing professional development for clinical staff. Sourced from the AHA Annual Survey.	2024-CY
Incorporating workforce as part of strategic planning - support for ongoing professional development for non-clinical staff	Strategic planning process is a process in which an organization's leaders define their vision for the future and identify their organization's goals and objectives. This process involves support for ongoing development for non-clinical staff.. Sourced from the AHA Annual Survey.	2024-CY
Incorporating workforce as part of strategic planning - talent development plan	Strategic planning process is a process in which an organization's leaders define their vision for the future and identify their organization's goals and objectives. Talent development plan is the organizational process of positioning employees for career advancement in a way that aligns with the company's mission. Sourced from the AHA Annual Survey.	2021-CY
Incorporating workforce as part of strategic planning - training program partnership with community colleges, vocational training programs	Strategic planning process is a process in which an organization's leaders define their vision for the future and identify their organization's goals and objectives. This process involves training program partnership with community colleges, vocational training programs. Sourced from the AHA Annual Survey.	2021-CY
Incorporating workforce as part of strategic planning - transition to practice programs	Strategic planning process is a process in which an organization's leaders define their vision for the future and identify their organization's goals and objectives. This process involves a transition to practice programs which are structured, supportive programs designed to help newly licensed healthcare professionals, particularly nurses, bridge the gap between their academic education and the real-world demands of clinical practice. Sourced from the AHA Annual Survey.	2024-CY

Incorporating workforce as part of strategic planning - well-being programs	Strategic planning process is a process in which an organization's leaders define their vision for the future and identify their organization's goals and objectives. This process involves well-being programs such as peer support, well-being measurement and team efficiency efforts. Sourced from the AHA Annual Survey.	2024-CY
Incorporating workforce as part of strategic planning - workplace violence/de-escalation trainings/programming	Strategic planning process is a process in which an organization's leaders define their vision for the future and identify their organization's goals and objectives. This process involves workplace violence/de-escalation trainings/programming. Sourced from the AHA Annual Survey.	2024-CY
Indemnity fee for service plan	Hospital has an equity interest in the traditional type of health insurance, in which the insured is reimbursed for covered expenses without regard to choice of provider. Payment up to a stated limit may be made either to the individual incurring and claiming the expense, or directly to providers. Sourced from the AHA Annual Survey.	2006-2016
Indemnity fee for service plan (JV)	Hospital has an equity interest, through a joint venture with an insurer, in the traditional type of health insurance, in which the insured is reimbursed for covered expenses without regard to choice of provider. Payment up to a stated limit may be made either to the individual incurring and claiming the expense, or directly to providers. Sourced from the AHA Annual Survey.	2006-2016
Indemnity fee for service plan (net.)	Hospital has an equity interest, through its network, in the traditional type of health insurance, in which the insured is reimbursed for covered expenses without regard to choice of provider. Payment up to a stated limit may be made either to the individual incurring and claiming the expense, or directly to providers. Sourced from the AHA Annual Survey.	2006-2016
Indemnity fee for service plan (sys.)	Hospital has an equity interest, through its system, in the traditional type of health insurance, in which the insured is reimbursed for covered expenses without regard to choice of provider. Payment up to a stated limit may be made either to the individual incurring and claiming the expense, or directly to providers. Sourced from the AHA Annual Survey.	2006-2016
Independent Group - Number of involved physicians at Health System	In this model physicians work together under a single administrative entity that is owned by the group's partners separate from the hospital/health system. Indicates number of physicians involved in this model in health system. Sourced from the AHA Annual Survey.	2024-CY

Independent Group - Number of involved physicians at Hospital	In this model physicians work together under a single administrative entity that is owned by the group's partners separate from the hospital/health system. Indicates number of physicians involved in this model in hospital. Sourced from the AHA Annual Survey.	2024-CY
Independent Group - Number of involved physicians not provided	In this model physicians work together under a single administrative entity that is owned by the group's partners separate from the hospital/health system. Indicates model is not available at hospital. Sourced from the AHA Annual Survey.	2024-CY
Independent Group owned/operated by a third party - Number of involved physicians at Health System	In this model physicians work together under a single administrative entity that is owned by a third party separate from the hospital/health system. Indicates number of physicians involved in this model in health system. Sourced from the AHA Annual Survey.	2024-CY
Independent Group owned/operated by a third party - Number of involved physicians at Hospital	In this model physicians work together under a single administrative entity that is owned by a third party separate from the hospital/health system. Indicates number of physicians involved in this model in hospital. Sourced from the AHA Annual Survey.	2024-CY
Independent Group owned/operated by a third party - Number of involved physicians not provided	In this model physicians work together under a single administrative entity that is owned by a third party separate from the hospital/health system. Indicates model is not available at hospital. Sourced from the AHA Annual Survey.	2024-CY
Independent practice association	Hospital sponsors an independent practice association (IPA), a legal entity that holds managed care contracts. The IPA then contracts with physicians, usually in solo practice, to provide care either on a fee-for-services or capitated basis. The purpose of an IPA is to assist solo physicians in obtaining managed care contracts. Sourced from the AHA Annual Survey.	2006-2017
Independent practice association - health system	Legal entity that holds managed care contracts. The IPA then contracts with physicians, usually in solo practice, to provide care either on a fee-for-service or capitated basis. The purpose of an IPA is to assist solo physicians in obtaining managed care contracts. Sourced from the AHA Annual Survey.	2019-2023
Independent practice association - hospital	Legal entity that holds managed care contracts. The IPA then contracts with physicians, usually in solo practice, to provide care either on a fee-for-service or capitated basis. The purpose of an IPA is to assist solo physicians in obtaining managed care contracts. Sourced from the AHA Annual Survey.	2019-2023

Independent practice association - hospital ownership share	A legal entity that holds managed care contracts. The IPA then contracts with physicians, usually in solo practice, to provide care either on a fee-for-service or capitated basis. The purpose of an IPA is to assist solo physicians in obtaining managed care contracts. Sourced from the AHA Annual Survey.	2018-2023
Independent practice association - insurance ownership share	A legal entity that holds managed care contracts. The IPA then contracts with physicians, usually in solo practice, to provide care either on a fee-for-service or capitated basis. The purpose of an IPA is to assist solo physicians in obtaining managed care contracts. Sourced from the AHA Annual Survey.	2018-2023
Independent practice association (net.)	Hospital's network sponsors an independent practice association (IPA), a legal entity that holds managed care contracts. The IPA then contracts with physicians, usually in solo practice, to provide care either on a fee-for-services or capitated basis. The purpose of an IPA is to assist solo physicians in obtaining managed care contracts. Sourced from the AHA Annual Survey.	2006-2017
Independent Practice Association - Number of involved physicians at Health System	In this model physicians are part of a network that negotiates contracts collectively while maintaining their independence. Indicates number of physicians involved in this model in health system. Sourced from the AHA Annual Survey.	2024-CY
Independent Practice Association - Number of involved physicians at Hospital	In this model physicians are part of a network that negotiates contracts collectively while maintaining their independence. Indicates number of physicians involved in this model in hospital. Sourced from the AHA Annual Survey.	2024-CY
Independent Practice Association - Number of involved physicians not provided	In this model physicians are part of a network that negotiates contracts collectively while maintaining their independence. Indicates model is not available at hospital. Sourced from the AHA Annual Survey.	2024-CY
Independent practice association (# of)	Number of physicians involved in the hospital-based independent practice association. Sourced from the AHA Annual Survey.	2006-2023
Independent practice association - parent corporation ownership share	A legal entity that holds managed care contracts. The IPA then contracts with physicians, usually in solo practice, to provide care either on a fee-for-service or capitated basis. The purpose of an IPA is to assist solo physicians in obtaining managed care contracts. Sourced from the AHA Annual Survey.	2018-2023

Independent practice association - physician ownership share	A legal entity that holds managed care contracts. The IPA then contracts with physicians, usually in solo practice, to provide care either on a fee-for-service or capitated basis. The purpose of an IPA is to assist solo physicians in obtaining managed care contracts. Sourced from the AHA Annual Survey.	2018-2023
Independent practice association (sys.)	A hospital's health system sponsors an independent practice association (IPA), a legal entity that holds managed care contracts. The IPA then contracts with physicians, usually in solo practice, to provide care either on a fee-for-services or capitated basis. The purpose of an IPA is to assist solo physicians in obtaining managed care contracts. Sourced from the AHA Annual Survey.	2006-2017
Independent provider group		2006-2009
Independent Solo Practice - Number of involved physicians at Health System	In this model physicians operate independently without being part of a larger group or network. Indicates number of physicians involved in this model in health system. Sourced from the AHA Annual Survey.	2024-CY
Independent Solo Practice - Number of involved physicians at Hospital	In this model physicians operate independently without being part of a larger group or network. Indicates number of physicians involved in this model in hospital. Sourced from the AHA Annual Survey.	2024-CY
Independent Solo Practice - Number of involved physicians not provided	In this model physicians operate independently without being part of a larger group or network. Indicates model is not available at hospital. Sourced from the AHA Annual Survey.	2024-CY
India	Hospital recruits foreign-educated nurses from India. Sourced from the AHA Annual Survey.	2007-CY
Indigent care clinic	Health care services for uninsured and under-insured persons where care is free of charge or charged on a sliding scale. This would include free clinics staffed by volunteer practitioners, but could also be staffed by employees with the sponsoring health care organization subsidizing the cost of service. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Indigent care clinic - health system	Health care services for uninsured and under-insured persons where care is free of charge or charged on a sliding scale. This would include free clinics staffed by volunteer practitioners, but could also be staffed by employees with the sponsoring health care organization subsidizing the cost of service. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Indigent care clinic - joint venture	Health care services for uninsured and under-insured persons where care is free of charge or charged on a sliding scale. This would include free clinics staffed by volunteer practitioners, but could also be staffed by employees with the sponsoring health care organization subsidizing the cost of service. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Indigent care clinic - network	Health care services for uninsured and under-insured persons where care is free of charge or charged on a sliding scale. This would include free clinics staffed by volunteer practitioners, but could also be staffed by employees with the sponsoring health care organization subsidizing the cost of service. Sourced from the AHA Annual Survey.	2006-2012
Infectious Disease - Commercial Insurance Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Infectious disease is the branch of medicine that deals with diagnosing and treating illnesses caused by bacteria, viruses, fungi, or parasites. Sourced from the AHA Annual Survey.	2022-CY
Infectious Disease - Medicaid, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Infectious disease is the branch of medicine that deals with diagnosing and treating illnesses caused by bacteria, viruses, fungi, or parasites. Sourced from the AHA Annual Survey.	2022-CY

Infectious Disease - Medicare Advantage Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Infectious disease is the branch of medicine that deals with diagnosing and treating illnesses caused by bacteria, viruses, fungi, or parasites. Sourced from the AHA Annual Survey.	2022-CY
Infectious Disease - Traditional Medicare, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Infectious disease is the branch of medicine that deals with diagnosing and treating illnesses caused by bacteria, viruses, fungi, or parasites. Sourced from the AHA Annual Survey.	2022-CY
Inpatient Days	The number of adult and pediatric days of care, excluding newborn days of care, rendered during the entire reporting period. Sourced from the AHA Annual Survey.	2006-CY
Inpatient Days (est.)	Estimated Inpatient Days - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a non-reporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Inpatient days (hospital unit)	The number of adult and pediatric days of care, excluding newborn days of care, rendered during the entire reporting period. Sourced from the AHA Annual Survey.	2006-CY
Inpatient days (nursing home)	The number of days of care rendered during the entire reporting period. Sourced from the AHA Annual Survey.	2006-CY

Inpatient palliative care unit	An inpatient palliative care ward is a physically discreet, inpatient nursing unit where the focus is palliative care. The patient care focus is on symptom relief for complex patients who may be continuing to undergo primary treatment. Care is delivered by palliative medicine specialists. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2007-CY
Inpatient palliative care unit - health system	An inpatient palliative care ward is a physically discreet, inpatient nursing unit where the focus is palliative care. The patient care focus is on symptom relief for complex patients who may be continuing to undergo primary treatment. Care is delivered by palliative medicine specialists. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2007-CY
Inpatient palliative care unit - joint venture	An inpatient palliative care ward is a physically discreet, inpatient nursing unit where the focus is palliative care. The patient care focus is on symptom relief for complex patients who may be continuing to undergo primary treatment. Care is delivered by palliative medicine specialists. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2007-CY
Inpatient palliative care unit - network	An inpatient palliative care ward is a physically discreet, inpatient nursing unit where the focus is palliative care. The patient care focus is on symptom relief for complex patients who may be continuing to undergo primary treatment. Care is delivered by palliative medicine specialists. Sourced from the AHA Annual Survey.	2007-2012
Integrated salary model	Hospital has an arrangement in place whereby physicians are salaried by the hospital or another entity of a health system to provide medical services for primary care and specialty care. Sourced from the AHA Annual Survey.	2006-2017
Integrated salary model - health system	Physicians are salaried by the hospital or another entity of a health system to provide medical services for primary care and specialty care. Sourced from the AHA Annual Survey.	2019-2023
Integrated salary model - hospital	Physicians are salaried by the hospital or another entity of a health system to provide medical services for primary care and specialty care. Sourced from the AHA Annual Survey.	2019-2023

Integrated salary model - hospital ownership share	Physicians are salaried by the hospital or another entity of a health system to provide medical services for primary care and specialty care. Sourced from the AHA Annual Survey.	2018-2023
Integrated salary model - insurance ownership share	Physicians are salaried by the hospital or another entity of a health system to provide medical services for primary care and specialty care. Sourced from the AHA Annual Survey.	2018-2023
Integrated salary model (net.)	Hospital has an arrangement in place whereby physicians are salaried by the hospital or another entity of a health system to provide medical services for primary care and specialty care. Sourced from the AHA Annual Survey.	2006-2017
Integrated salary model (# of)	Number of physicians involved in the hospital-based integrated salary model. Sourced from the AHA Annual Survey.	2006-2023
Integrated salary model - parent corporation ownership share	Physicians are salaried by the hospital or another entity of a health system to provide medical services for primary care and specialty care. Sourced from the AHA Annual Survey.	2018-2023
Integrated salary model - physician ownership share	Physicians are salaried by the hospital or another entity of a health system to provide medical services for primary care and specialty care. Sourced from the AHA Annual Survey.	2018-2023
Integrated salary model (sys.)	Hospital has an arrangement in place whereby physicians are salaried by the hospital or another entity of a health system to provide medical services for primary care and specialty care. Sourced from the AHA Annual Survey.	2006-2017
Intensity-Modulated Radiation Therapy (IMRT)	A type of three-dimensional radiation therapy, which improves the targeting of treatment delivery in a way that is likely to decrease damage to normal tissues and allows varying intensities. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Intensity-modulated radiation therapy (IMRT) - health system	A type of three-dimensional radiation therapy which improves treatment delivery by targeting a tumor in a way that is likely to decrease damage to normal tissues and allows for varying intensities. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Intensity-modulated radiation therapy (IMRT) - joint venture	A type of three-dimensional radiation therapy which improves treatment delivery by targeting a tumor in a way that is likely to decrease damage to normal tissues and allows for varying intensities. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Intensity-Modulated Radiation Therapy (IMRT) - network	A type of three-dimensional radiation therapy, which improves the targeting of treatment delivery in a way that is likely to decrease damage to normal tissues and allows varying intensities. Sourced from the AHA Annual Survey.	2006-2012
Intensivist (NE)	Total intensivist physicians with privileges that have no employment or contractual relationship with the hospital to provide services. Sourced from the AHA Annual Survey.	2010-CY
Intensivists FTE Total	Number of intensivists assigned to neonatal intensive care. Intensivists are board-certified physicians who are additionally certified in the sub-specialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of sub-specialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2007-CY
Intensivists Full-time Total	Intensivists are board-certified physicians who are additionally certified in the subspecialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of subspecialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2007-2009

Intensivists Part-time Total	Intensivists are board-certified physicians who are additionally certified in the sub-specialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of sub-specialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2007-2009
Intensivists provide care	Intensivists are board-certified physicians who are additionally certified in the sub-specialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of sub-specialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2008-CY
Intensivist (TC)	Total independent physicians under a formal contract to provide services at a hospital including at outpatient facilities, clinics and offices that practice intensivist services. Sourced from the AHA Annual Survey.	2010-CY
Intensivist (TE)	Total employed physicians that are either direct hospital employees or employees of a hospital subsidiary corporation that practice intensivist services. Sourced from the AHA Annual Survey.	2010-CY
Intensivist (TG)	Total intensivist physicians that are part of a group (group practice, faculty practice plan or medical foundation) under a formal contract to provide services at a hospital including at inpatient and outpatient facilities, clinics and offices. Sourced from the AHA Annual Survey.	2010-CY
Intensivist (TP)	Sum of all intensivist physicians with privileges that practice emergency medicine. Sourced from the AHA Annual Survey.	2010-CY
Interest expense	Interest payments made by the hospital on bank loans, notes, bonds, and mortgages. Sourced from AHA Annual Survey.	2006-CY

Intermediate nursing care	Provides health-related services (skilled nursing care and social services) to residents with a variety of physical conditions or functional disabilities. These residents do not require the care provided by a hospital or skilled nursing facility, but do need supervision and support services. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Intermediate nursing care beds	Staffed beds set up for patient care in a dedicated intermediate nursing care unit. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2006-CY
Intermediate nursing care - health system	Provides health-related services (skilled nursing care and social services) to residents with a variety of physical conditions or functional disabilities. These residents do not require the care provided by a hospital or skilled nursing facility, but do need supervision and support services. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Intermediate nursing care - joint venture	Provides health-related services (skilled nursing care and social services) to residents with a variety of physical conditions or functional disabilities. These residents do not require the care provided by a hospital or skilled nursing facility, but do need supervision and support services. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Intermediate nursing care - network	Provides health-related services (skilled nursing care and social services) to residents with a variety of physical conditions or functional disabilities. These residents do not require the care provided by a hospital or skilled nursing facility, but do need supervision and support services. Sourced from the AHA Annual Survey.	2006-2012
Internal medicine/hospitalist - advanced practice physician assistants FTE	Full time equivalent physician assistants that provide services for internal medicine/hospitalist. Internal medicine/hospitalist are physicians whose primary professional focus is the care of hospitalized medical patients (through clinical, education, administrative and research activity). Sourced from the AHA Annual Survey.	2024-CY

Internal medicine/hospitalist - advanced practice registered nurses FTE	Full time equivalent registered nurses that provide services for internal medicine/hospitalist. Internal medicine/hospitalist are physicians whose primary professional focus is the care of hospitalized medical patients (through clinical, education, administrative and research activity). Sourced from the AHA Annual Survey.	2024-CY
Internship approved by American Osteopathic Association	Internship approved by American Osteopathic Association (MAPP12). Sourced from the American Osteopathic Association.	2018
Interpersonal violence program/strategy	Sourced from the AHA Annual Survey.	2020-2023
Interpersonal violence screening	Sourced from the AHA Annual Survey.	2020-2023
Intraoperative magnetic resonance imaging	An integrated surgery system which provides an MRI system in an operating room. The system allows for immediate evaluation of the degree to tumor resection while the patient is undergoing a surgical resection. Intraoperative MRI exists when a MRI (low-field or high-field) is placed in the operating theater and is used during surgical resection without moving the patient from the operating room to the diagnostic imaging suite. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2007-CY
Intraoperative magnetic resonance imaging - health system	An integrated surgery system which provides an MRI system in an operating room. The system allows for immediate evaluation of the degree to tumor resection while the patient is undergoing a surgical resection. Intraoperative MRI exists when a MRI (low-field or high-field) is placed in the operating theater and is used during surgical resection without moving the patient from the operating room to the diagnostic imaging suite. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2007-CY
Intraoperative magnetic resonance imaging - joint venture	An integrated surgery system which provides an MRI system in an operating room. The system allows for immediate evaluation of the degree to tumor resection while the patient is undergoing a surgical resection. Intraoperative MRI exists when a MRI (low-field or high-field) is placed in the operating theater and is used during surgical resection without moving the patient from the operating room to the diagnostic imaging suite. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2007-CY

Intraoperative magnetic resonance imaging - network	An integrated surgery system which provides an MRI system in an operating room. The system allows for immediate evaluation of the degree to tumor resection while the patient is undergoing a surgical resection. Intraoperative MRI exists when a MRI (low-field or high-field) is placed in the operating theater and is used during surgical resection without moving the patient from the operating room to the diagnostic imaging suite. Sourced from the AHA Annual Survey.	2007-2012
In what year did your hospital's/system's last ACO contract end?	In what year did your hospital's/system's last ACO contract end? Sourced from the AHA Annual Survey.	2018-2019
IT capital expense	Include IT capital expense for the current year only. Any capital expense that is carried forward from the previous year should be excluded from this figure. Include IT related capital included in the budget of other departments. (e.g., lab, radiology) if known or can be reasonably estimated. Include the total value of capital leases to be signed in the current year. Sourced from the AHA Annual Survey.	2017-2021
IT operating expense	Exclude department depreciation and operating dollars paid against capital leases. Sourced from the AHA Annual Survey.	2017-2021
Joint Commission Accreditation (historical)	Accreditation by Joint Commission on Accreditation of Health Care Organizations (JCAHO) - (MAPP1). Sourced from The Joint Commission.	2006-2017
Joint venture with physicians/physician group	A contractual arrangement between two or more parties forming an unincorporated business. The participants in the arrangement remain independent and separate outside of the ventures purpose. Sourced from the AHA Annual Survey.	2006-CY
K-12 schools - CHNA	Sourced from the AHA Annual Survey.	2020-2023
K-12 schools - community level initiatives	Sourced from the AHA Annual Survey.	2020-2023
K-12 schools - not involved	Sourced from the AHA Annual Survey.	2020-2023
K-12 schools - social needs	Sourced from the AHA Annual Survey.	2020-2023
Kidney transplant	The branch of medicine that transfers a kidney organ or tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Kidney transplant -health system	The branch of medicine that transfers a kidney organ or tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Kidney transplant - joint venture	The branch of medicine that transfers a kidney organ or tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Kidney transplant - network	The branch of medicine that transfers a kidney organ or tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. Sourced from the AHA Annual Survey.	2006-2012
Korea	Hospital recruits foreign-educated nurses from Korea. Sourced from the AHA Annual Survey.	2007-CY
Laboratory - number of facilities	Number of laboratory facilities. Sourced from the AHA Annual Survey.	2017
Laboratory - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Laboratory - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Laboratory - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Laboratory - satellite facility	Laboratory in satellite facilities. Sourced from the AHA Annual Survey.	2017
Laboratory technicians - Contracted FTE	Full time equivalent laboratory technicians that are contracted. Sourced from the AHA Annual Survey.	2022-CY
Laboratory technicians (FT)	Number that represents the full-time professional and technical positions in all areas of the laboratory, including, but not limited to, histology, phlebotomy, microbiology, pathology, chemistry, etc. Sourced from the AHA Annual Survey.	2006-CY

Laboratory technicians (FTE)	Number that represents the full-time equivalent professional and technical positions in all areas of the laboratory, including, but not limited to, histology, phlebotomy, microbiology, pathology, chemistry, etc. Sourced from the AHA Annual Survey.	2006-CY
Laboratory technicians (FTEC)	Full time equivalent laboratory technicians. Sourced from the AHA Annual Survey.	2019-CY
Laboratory technicians FT (est.)	Estimated Full Time Laboratory technicians - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Laboratory technicians (PT)	Number that represents the part-time professional and technical positions in all areas of the laboratory, including, but not limited to, histology, phlebotomy, microbiology, pathology, chemistry, etc. Sourced from the AHA Annual Survey.	2006-CY
Laboratory technicians (vac.)	Number of laboratory technicians vacancies. Sourced from the AHA Annual Survey.	2010-CY
Large group - do not know	Large group insurance product-do not know. Sourced from the AHA Annual Survey.	2017
Large group - do not know	Large group insurance product-do not know. A group health plan that covers employees of an employer that has 51 or more employees. Sourced from the AHA Annual Survey.	2018-CY
Large group - hospital	Large group insurance product-hospital. Sourced from the AHA Annual Survey.	2017
Large group - hospital	Large group insurance product-hospital. A group health plan that covers employees of an employer that has 51 or more employees. Sourced from the AHA Annual Survey.	2018-CY
Large group - joint venture	Large group insurance product-joint venture level. Sourced from the AHA Annual Survey.	2017
Large group - joint venture	Large group insurance product-joint venture level. A group health plan that covers employees of an employer that has 51 or more employees. Sourced from the AHA Annual Survey.	2018-CY
Large group - new product	A group health plan that covers employees of an employer that has 51 or more employees.	2018-2021
Large group - no	Large group insurance product-no. Sourced from the AHA Annual Survey.	2017

Large group - no	Large group insurance product-no. A group health plan that covers employees of an employer that has 51 or more employees. Sourced from the AHA Annual Survey.	2018-CY
Large group - system	Large group insurance product-system level. Sourced from the AHA Annual Survey.	2017
Large group - system	Large group insurance product-system level. A group health plan that covers employees of an employer that has 51 or more employees. Sourced from the AHA Annual Survey.	2018-CY
Last Update Date	Sourced from AHA Membership.	CY
Latitude	Hospital's Latitude. Sourced from the Federal Emergency Management Agency.	2006-CY
Law enforcement/safety forces - CHNA	Sourced from the AHA Annual Survey.	2020-2023
Law enforcement/safety forces - community level initiatives	Sourced from the AHA Annual Survey.	2020-2023
Law enforcement/safety forces - not involved	Sourced from the AHA Annual Survey.	2020-2023
Law enforcement/safety forces - social needs	Sourced from the AHA Annual Survey.	2020-2023
Leadership succession planning	The deliberate use of mentoring, coaching and grooming of individuals inside the organization that have been identified as having the potential to advance when vacancies occur at the senior executive level. Sourced from the AHA Annual Survey.	2006-2010
Length of Stay	Length of Stay (LOS) refers to the average number of days a patient stays at the facility. Short-term hospitals are those where the LOS is less than 30 days. Long-term hospitals are those where the average LOS is 30 days or more. The figure is derived by dividing the number of inpatient days by the number of admissions. Sourced from the AHA Annual Survey.	2006-CY
Licensed Beds	Total number of beds authorized by the state licensing (certifying agency). Sourced from the AHA Annual Survey.	2006-CY
Licensed beds (long term unit)	Total number of beds authorized by the state licensing (certifying agency). Sourced from the AHA Annual Survey.	2006-CY

Licensed practical nurses (FTE)	The total number of hours worked (excluding non-worked hours such as PTO, etc.) by licensed practical (vocational) nurses over the full (12 month) reporting period divided by the normal number of hours worked by a full-time employee for that same time period. This count only includes personnel engaged in clinical practice and on the payroll. Sourced from the AHA Annual Survey.	2006-CY
Licensed Practical Nurses FT (est.)	Estimated Full Time Licensed Practical or Vocational Nurses- defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Licensed practical nurses (vac.)	Number of licensed practical nurses vacancies. Sourced from the AHA Annual Survey.	2010-CY
Licensed practical or vocational nurses (FT)	Number that represents the full-time nurses who have graduated from an approved school of practical (vocational) nursing who work under the supervision of registered nurses and/or physicians. Sourced from the AHA Annual Survey.	2006-CY
Licensed practical or vocational nurses (FTEC)	Number that represents the full-time equivalent nurses who have graduate from an approved school of practical (vocational) nursing who work under the supervision of registered nurses and/or physicians. Sourced from the AHA Annual Survey.	2006-CY
Licensed practical or vocational nurses (PT)	Number that represents the part-time nurses who have graduated from an approved school of practical (vocational) nursing who work under the supervision of registered nurses and/or physicians. Sourced from the AHA Annual Survey.	2006-CY
Limited Service Hospital (JV)	A hospital that provides a limited number of services – often rural hospitals. Sourced from the AHA Annual Survey.	2006-CY
Linguistic/translation services	Services provided by the hospital designed to make health care more accessible to non-English speaking patients and their physicians. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Linguistic/translation services - health system	Services provided by the hospital designed to make health care more accessible to non-English speaking patients and their physicians. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Linguistic/translation services - joint venture	Services provided by the hospital designed to make health care more accessible to non-English speaking patients and their physicians. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Linguistic/translation services - network	Services provided by the hospital designed to make health care more accessible to non-English speaking patients and their physicians. Sourced from the AHA Annual Survey.	2006-2012
Liver transplant	The branch of medicine that transfers a liver organ or tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Liver transplant - health system	The branch of medicine that transfers a liver organ or tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Liver transplant - joint venture	The branch of medicine that transfers a liver organ or tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Liver transplant - network	The branch of medicine that transfers a liver organ or tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. Sourced from the AHA Annual Survey.	2006-2012
Local businesses or chambers of commerce - CHNA	Sourced from the AHA Annual Survey.	2020-2023
Local businesses or chambers of commerce - community level initiatives	Sourced from the AHA Annual Survey.	2020-2023

Local businesses or chambers of commerce - not involved	Sourced from the AHA Annual Survey.	2020-2023
Local businesses or chambers of commerce - social needs	Sourced from the AHA Annual Survey.	2020-2023
Local business or chambers of commerce	Local business or chambers of commerce. Sourced from the AHA Annual Survey.	2017-2019
Local organizations addressing food insecurity - CHNA	Sourced from the AHA Annual Survey.	2020-2023
Local organizations addressing food insecurity - community level initiatives	Sourced from the AHA Annual Survey.	2020-2023
Local organizations addressing food insecurity - not involved	Sourced from the AHA Annual Survey.	2020-2023
Local organizations addressing food insecurity - social needs	Sourced from the AHA Annual Survey.	2020-2023
Local organizations addressing housing insecurity - CHNA	Sourced from the AHA Annual Survey.	2020-2023
Local organizations addressing housing insecurity - community level initiatives	Sourced from the AHA Annual Survey.	2020-2023
Local organizations addressing housing insecurity - not involved	Sourced from the AHA Annual Survey.	2020-2023
Local organizations addressing housing insecurity - social needs	Sourced from the AHA Annual Survey.	2020-2023
Local organizations addressing transportation needs - CHNA	Sourced from the AHA Annual Survey.	2020-2023
Local organizations addressing transportation needs - community level initiatives	Sourced from the AHA Annual Survey.	2020-2023
Local organizations addressing transportation needs - not involved	Sourced from the AHA Annual Survey.	2020-2023
Local organizations addressing transportation needs - social needs	Sourced from the AHA Annual Survey.	2020-2023
Local organizations providing legal assistance - CHNA	Sourced from the AHA Annual Survey.	2020-2023

Local organizations providing legal assistance - community level initiatives	Sourced from the AHA Annual Survey.	2020-2023
Local organizations providing legal assistance - not involved	Sourced from the AHA Annual Survey.	2020-2023
Local organizations providing legal assistance - social needs	Sourced from the AHA Annual Survey.	2020-2023
Local or state public health departments - CHNA	Sourced from the AHA Annual Survey.	2020-2023
Local or state public health departments - community level initiatives	Sourced from the AHA Annual Survey.	2020-2023
Local or state public health departments - not involved	Sourced from the AHA Annual Survey.	2020-2023
Local or state public health departments - social needs	Sourced from the AHA Annual Survey.	2020-2023
Local telephone number	Local telephone number. Sourced from AHA Membership.	2006-CY
Longitude	Hospital's Longitude. Sourced from the Federal Emergency Management Agency.	2006-CY
LTCH arranged within a general acute care hospital	Indicates that long-term care hospital has an arrangement with general acute care hospital. Sourced from the AHA Annual Survey.	2018-CY
Lung transplant	The branch of medicine that transfers a lung organ or tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Lung transplant - health system	The branch of medicine that transfers a lung organ or tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Lung transplant - joint venture	The branch of medicine that transfers a lung organ or tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY

Lung transplant - network	The branch of medicine that transfers a lung organ or tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. Sourced from the AHA Annual Survey.	2006-2012
Magnetic resonance imaging (MRI)	The use of a uniform magnetic field and radio frequencies to study tissue and structure of the body. This procedure enables the visualization of biochemical activity of the cell in vivo without the use of ionizing radiation, radioisotopic substances, or high-frequency sound. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Magnetic resonance imaging (MRI) - health system	The use of a uniform magnetic field and radio frequencies to study tissue and structure of the body. This procedure enables the visualization of biochemical activity of the cell in vivo without the use of ionizing radiation, radioisotopic substances, or high-frequency sound. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Magnetic resonance imaging (MRI) - joint venture	The use of a uniform magnetic field and radio frequencies to study tissue and structure of the body. This procedure enables the visualization of biochemical activity of the cell in vivo without the use of ionizing radiation, radioisotopic substances, or high-frequency sound. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Magnetic resonance imaging (MRI) - network	The use of a uniform magnetic field and radio frequencies to study tissue and structure of the body. This procedure enables the visualization of biochemical activity of the cell in vivo without the use of ionizing radiation, radioisotopic substances, or high-frequency sound. Sourced from the AHA Annual Survey.	2006-2012
Magnetoencephalography (MEG) - health system	Magnetoencephalography (MEG). A noninvasive neurophysiological measurement tool used to study magnetic fields generated by neuronal activity of the brain. MEG provides direct information about the dynamics of evoked and spontaneous neural activity and the location of their sources in the brain. The primary uses of MEG include assisting surgeons in localizing the source of epilepsy, sensory mapping, and the study of brain function. When it is combined with structural imaging, it is known as magnetic source imaging (MSI). Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2012-CY

Magnetoencephalography (MEG) - hospital	Magnetoencephalography (MEG). A noninvasive neurophysiological measurement tool used to study magnetic fields generated by neuronal activity of the brain. MEG provides direct information about the dynamics of evoked and spontaneous neural activity and the location of their sources in the brain. The primary uses of MEG include assisting surgeons in localizing the source of epilepsy, sensory mapping, and the study of brain function. When it is combined with structural imaging, it is known as magnetic source imaging (MSI). This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2012-CY
Magnetoencephalography (MEG) - joint venture	Magnetoencephalography (MEG). A noninvasive neurophysiological measurement tool used to study magnetic fields generated by neuronal activity of the brain. MEG provides direct information about the dynamics of evoked and spontaneous neural activity and the location of their sources in the brain. The primary uses of MEG include assisting surgeons in localizing the source of epilepsy, sensory mapping, and the study of brain function. When it is combined with structural imaging, it is known as magnetic source imaging (MSI). This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2012-CY
Magnetoencephalography (MEG) - network	Magnetoencephalography (MEG). A noninvasive neurophysiological measurement tool used to study magnetic fields generated by neuronal activity of the brain. MEG provides direct information about the dynamics of evoked and spontaneous neural activity and the location of their sources in the brain. The primary uses of MEG include assisting surgeons in localizing the source of epilepsy, sensory mapping, and the study of brain function. When it is combined with structural imaging, it is known as magnetic source imaging (MSI). Sourced from the AHA Annual Survey.	2012
Major imaging - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020

Major imaging - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Major imaging - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Makes financial contributions	Hospital makes financial contributions (grants, donations, scholarships), provides in-kind support or participates in fundraising for community programs not directly affiliated with their hospital. Sourced from the AHA Annual Survey.	2007-2010
Management organization city	City in which management organization is headquartered. Sourced from the AHA Annual Survey.	2006-2023
Management organization name	Name of management organization. Sourced from the AHA Annual Survey.	2006-2023
Management organization state	State in which management organization is headquartered. Sourced from the AHA Annual Survey.	2006-2023
Management service organization	Hospital maintains a corporation, owned by the hospital or a physician/hospital joint venture, that provides management services to one or more medical group practices. The management services organization (MSO) purchases the tangible assets of the practices and leases them back as part of a full-service management agreement, under which the MSO employs all non-physician staff and provides all supplies/administrative systems for a fee. Sourced from the AHA Annual Survey.	2006-2017
Management service organization - health system	Hospital's system maintains a corporation, owned by the hospital or a physician/hospital joint venture, that provides management services to one or more medical group practices. The management services organization (MSO) purchases the tangible assets of the practices and leases them back as part of a full-service management agreement, under which the MSO employs all non-physician staff and provides all supplies/administrative systems for a fee. Sourced from the AHA Annual Survey.	2006-2017

Management service organization - health system	A corporation, owned by the hospital or a physician/hospital joint venture, that provides management services to one or more medical group practices. The MSO purchases the tangible assets of the practices and leases them back as part of a full-service management agreement, under which the MSO employs all non-physician staff and provides all supplies/administrative systems for a fee. Sourced from the AHA Annual Survey.	2019-2023
Management service organization - hospital	A corporation, owned by the hospital or a physician/hospital joint venture, that provides management services to one or more medical group practices. The MSO purchases the tangible assets of the practices and leases them back as part of a full-service management agreement, under which the MSO employs all non-physician staff and provides all supplies/administrative systems for a fee. Sourced from the AHA Annual Survey.	2019-2023
Management service organization - hospital ownership share	A corporation, owned by the hospital or a physician/hospital joint venture, that provides management services to one or more medical group practices. The MSO purchases the tangible assets of the practices and leases them back as part of a full-service management agreement, under which the MSO employs all non-physician staff and provides all supplies/administrative systems for a fee. Sourced from the AHA Annual Survey.	2018-2023
Management service organization -insurance ownership share	A corporation, owned by the hospital or a physician/hospital joint venture, that provides management services to one or more medical group practices. The MSO purchases the tangible assets of the practices and leases them back as part of a full-service management agreement, under which the MSO employs all non-physician staff and provides all supplies/administrative systems for a fee. Sourced from the AHA Annual Survey.	2018-2023
Management service organization (net.)	Hospital's network maintains a corporation, owned by the hospital or a physician/hospital joint venture, that provides management services to one or more medical group practices. The management services organization (MSO) purchases the tangible assets of the practices and leases them back as part of a full-service management agreement, under which the MSO employs all non-physician staff and provides all supplies/administrative systems for a fee. Sourced from the AHA Annual Survey.	2006-2017
Management service organization (# of)	Number of physicians involved in the hospital-based management service organization.	2006-2023

Management service organization - parent corporation ownership share	A corporation, owned by the hospital or a physician/hospital joint venture, that provides management services to one or more medical group practices. The MSO purchases the tangible assets of the practices and leases them back as part of a full-service management agreement, under which the MSO employs all non-physician staff and provides all supplies/administrative systems for a fee. Sourced from the AHA Annual Survey.	2018-2023
Management service organization - physician ownership share	A corporation, owned by the hospital or a physician/hospital joint venture, that provides management services to one or more medical group practices. The MSO purchases the tangible assets of the practices and leases them back as part of a full-service management agreement, under which the MSO employs all non-physician staff and provides all supplies/administrative systems for a fee. Sourced from the AHA Annual Survey.	2018-2023
Meal delivery services - health system	A hospital sponsored program which delivers meals to people, usually the elderly, who are unable to prepare their own meals. Low cost, nutritional meals are delivered to individuals' homes on a regular basis. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2018-CY
Meal delivery services - hospital	A hospital-sponsored program which delivers meals to people, usually the elderly, who are unable to prepare their own meals. Low cost, nutritional meals are delivered to individuals' homes on a regular basis. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2018-CY
Meal delivery services - joint venture	A hospital-sponsored program which delivers meals to people, usually the elderly, who are unable to prepare their own meals. Low cost, nutritional meals are delivered to individuals' homes on a regular basis. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2018-CY
Meals on wheels	A hospital-sponsored program which delivers meals to people, usually the elderly, who are unable to prepare their own meals. Low cost, nutritional meals are delivered to individuals' homes on a regular basis. Sourced from the AHA Annual Survey.	2006-2017

Meals on wheels - health system	A hospital-sponsored program which delivers meals to people, usually the elderly, who are unable to prepare their own meals. Low cost, nutritional meals are delivered to individuals' homes on a regular basis. Health System: A corporate body that owns, leases, religiously sponsors and/or manages health providers. Sourced from the AHA Annual Survey.	2006-2017
Meals on wheels - joint venture	A hospital-sponsored program which delivers meals to people, usually the elderly, who are unable to prepare their own meals. Low cost, nutritional meals are delivered to individuals' homes on a regular basis. Sourced from the AHA Annual Survey.	2006-2017
Meals on wheels - network	A hospital-sponsored program which delivers meals to people, usually the elderly, who are unable to prepare their own meals. Low cost, nutritional meals are delivered to individuals' homes on a regular basis. Sourced from the AHA Annual Survey.	2006-2012
Medicaid Inpatient Days (est.)	Estimated Medicaid Inpatient Days - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Medicaid Inpatient Discharges (est.)	Estimated Medicaid INpatient Discharges - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Medicaid managed care - do not know	Medicaid managed care insurance offering- do not know. Services in through an arrangement between a state Medicaid agency and managed care organizations (MCOs) that accept a set payment – “capitation” – for these services. Sourced from the AHA Annual Survey.	2018-CY
Medicaid managed care - do not know	Medicaid managed care insurance offering- do not know. Sourced from the AHA Annual Survey.	2017
Medicaid managed care - hospital	Medicaid managed care insurance offering hospital level. Sourced from the AHA Annual Survey.	2017

Medicaid managed care - hospital	Medicaid managed care insurance offering hospital level. Services in through an arrangement between a state Medicaid agency and managed care organizations (MCOs) that accept a set payment – “capitation” – for these services. Sourced from the AHA Annual Survey.	2018-CY
Medicaid managed care - joint venture	Medicaid managed care insurance offering- joint venture level. Services in through an arrangement between a state Medicaid agency and managed care organizations (MCOs) that accept a set payment – “capitation” – for these services. Sourced from the AHA Annual Survey.	2018-CY
Medicaid managed care - joint venture	Medicaid managed care insurance offering- joint venture level. Sourced from the AHA Annual Survey.	2017
Medicaid managed care - new product	Services in through an arrangement between a state Medicaid agency and managed care organizations (MCOs) that accept a set payment – “capitation” – for these services. Sourced from the AHA Annual Survey.	2018-2021
Medicaid managed care - no	Medicaid managed care insurance offering - no. Services in through an arrangement between a state Medicaid agency and managed care organizations (MCOs) that accept a set payment – “capitation” – for these services. Sourced from the AHA Annual Survey.	2018-CY
Medicaid managed care - no	Medicaid managed care insurance offering - no. Sourced from the AHA Annual Survey.	2017
Medicaid managed care - system	Medicaid managed care insurance offering - system level. Services in through an arrangement between a state Medicaid agency and managed care organizations (MCOs) that accept a set payment – “capitation” – for these services. Sourced from the AHA Annual Survey.	2018-CY
Medicaid managed care - system	Medicaid managed care insurance offering - system level. Sourced from the AHA Annual Survey.	2017
Medical and dental residents/interns (FTEC)	Number of medical and dental residents/interns (FTEC). Sourced from the AHA Annual Survey.	2006-CY
Medical & dental residents (FTE)	The total number of hours worked (excluding non-worked hours such as PTO, etc.) by medical and dental residents over the full (12 month) reporting period divided by the normal number of hours worked by a full-time employee for that same time period. This count only includes personnel engaged in clinical practice and on the payroll. Sourced from the AHA Annual Survey.	2006-CY

Medical & Dental Residents FT (est.)	Estimated Full Time Medical & Dental Residents - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Medical & dental residents/interns (FT)	Number of medical and dental residents/interns (FT). Sourced from the AHA Annual Survey.	2006-CY
Medical & dental residents/interns (PT)	Sourced from the AHA Annual Survey.	2006-CY
Medical & dental residents (vac.)	Number of medical and dental resident vacancies. Sourced from the AHA Annual Survey.	2010-CY
Medical Home	The provision of comprehensive primary care services that facilitates communication and shared decision-making between the patient, his/her primary care providers, other providers, and the patient's family. Sourced from the AHA Annual Survey.	2011-CY
Medical residents/interns - other specialties (FT)	Medical residents/interns - other specialties. Sourced from the AHA Annual Survey.	2019-CY
Medical residents/interns - primary care (FT)	Medical residents/interns - primary care. Sourced from the AHA Annual Survey.	2019-CY
Medical school affiliation reported to American Medical Association	Medical school affiliation reported to American Medical Association (MAPP5). Sourced from the American Medical Association.	2018-CY
Medical/Surgical condition bundled payment arrangement - cardiovascular	Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Sourced from the AHA Annual Survey.	2018-2021
Medical/Surgical condition bundled payment arrangement - gastrointestinal	Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Sourced from the AHA Annual Survey.	2018-2021

Medical/Surgical condition bundled payment arrangement - hematology	Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Sourced from the AHA Annual Survey.	2018-2021
Medical/Surgical condition bundled payment arrangement - infectious disease	Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Sourced from the AHA Annual Survey.	2018-2021
Medical/Surgical condition bundled payment arrangement - neurology	Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Sourced from the AHA Annual Survey.	2018-2021
Medical/Surgical condition bundled payment arrangement - oncologic	Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Sourced from the AHA Annual Survey.	2018-2021

Medical/Surgical condition bundled payment arrangement - orthopedic	Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Sourced from the AHA Annual Survey.	2018-2021
Medical/Surgical condition bundled payment arrangement - other	Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Sourced from the AHA Annual Survey.	2018-2021
Medical/Surgical condition bundled payment arrangement - other description	Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Sourced from the AHA Annual Survey.	2018-2021
Medical/Surgical condition bundled payment arrangement - pulmonary	Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Sourced from the AHA Annual Survey.	2018-2021

Medical surgical intensive care	Intensivists are board-certified physicians who are additionally certified in the sub-specialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of sub-specialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2009
Medical/surgical intensive care	Provides patient care of a more intensive nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. These units are staffed with specially trained nursing personnel and contain monitoring and specialized support equipment for patients who because of shock, trauma or other life-threatening conditions require intensified comprehensive observation and care. Includes mixed intensive care units. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Medical/surgical intensive care beds	Staffed beds set up for patient care in a dedicated medical/surgical intensive care unit. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2006-CY
Medical-surgical intensive care (FT)	Intensivists are board-certified physicians who are additionally certified in the subspecialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of subspecialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2007-2009

Medical-surgical intensive care (FTE)	The number of intensivists assigned to medical-surgical intensive care. Intensivists are board-certified physicians who are additionally certified in the sub-specialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of sub-specialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2007-CY
Medical/surgical intensive care - health system	Provides patient care of a more intensive nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. These units are staffed with specially trained nursing personnel and contain monitoring and specialized support equipment for patients who because of shock, trauma or other life-threatening conditions require intensified comprehensive observation and care. Includes mixed intensive care units. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Medical/surgical intensive care - joint venture	Provides patient care of a more intensive nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. These units are staffed with specially trained nursing personnel and contain monitoring and specialized support equipment for patients who because of shock, trauma or other life-threatening conditions require intensified comprehensive observation and care. Includes mixed intensive care units. Provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Medical/surgical intensive care - network	Provides patient care of a more intensive nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. These units are staffed with specially trained nursing personnel and contain monitoring and specialized support equipment for patients who because of shock, trauma or other life-threatening conditions require intensified comprehensive observation and care. Includes mixed intensive care units. Sourced from the AHA Annual Survey.	2006-2012

Medical-surgical intensive care (PT)	Intensivists are board-certified physicians who are additionally certified in the subspecialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of subspecialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2007-2009
Medicare advantage - do not know	Medicare advantage insurance offering - do not know. Health Insurance program within Part C of Medicare. Medicare Advantage plans provide a managed health care plan (typically a health maintenance organization (HMO) but also often a preferred provider organization (PPO) or another type of managed care arrangement) that is paid based on a monthly capitated fee. This Part of Medicare provides beneficiaries an alternative to "Original Medicare" Parts A and B Medicare, which provides insurance for the same medical services but pays providers a fee for service (FFS) directly rather than through managed care plans. Sourced from the AHA Annual Survey.	2018-CY
Medicare advantage - do not know	Medicare advantage insurance offering - do not know. Sourced from the AHA Annual Survey.	2017
Medicare advantage - hospital	Medicare advantage insurance offering- hospital. Sourced from the AHA Annual Survey.	2017
Medicare advantage - hospital	Medicare advantage insurance offering- hospital. Health Insurance program within Part C of Medicare. Medicare Advantage plans provide a managed health care plan (typically a health maintenance organization (HMO) but also often a preferred provider organization (PPO) or another type of managed care arrangement) that is paid based on a monthly capitated fee. This Part of Medicare provides beneficiaries an alternative to "Original Medicare" Parts A and B Medicare, which provides insurance for the same medical services but pays providers a fee for service (FFS) directly rather than through managed care plans. Sourced from the AHA Annual Survey.	2018-CY

Medicare advantage - joint venture	Medicare advantage insurance offering- joint venture level. Health Insurance program within Part C of Medicare. Medicare Advantage plans provide a managed health care plan (typically a health maintenance organization (HMO) but also often a preferred provider organization (PPO) or another type of managed care arrangement) that is paid based on a monthly capitated fee. This Part of Medicare provides beneficiaries an alternative to "Original Medicare" Parts A and B Medicare, which provides insurance for the same medical services but pays providers a fee for service (FFS) directly rather than through managed care plans. Sourced from the AHA Annual Survey.	2018-CY
Medicare advantage - joint venture	Medicare advantage insurance offering- joint venture level. Sourced from the AHA Annual Survey.	2017
Medicare advantage - new product	Health Insurance program within Part C of Medicare. Medicare Advantage plans provide a managed health care plan (typically a health maintenance organization (HMO) but also often a preferred provider organization (PPO) or another type of managed care arrangement) that is paid based on a monthly capitated fee. This Part of Medicare provides beneficiaries an alternative to Original Medicare Parts A and B Medicare, which provides insurance for the same medical services but pays providers a fee for service (FFS) directly rather than through managed care plans. Sourced from the AHA Annual Survey.	2018-2021
Medicare advantage - no	Medicare advantage insurance offering - no. Health Insurance program within Part C of Medicare. Medicare Advantage plans provide a managed health care plan (typically a health maintenance organization (HMO) but also often a preferred provider organization (PPO) or another type of managed care arrangement) that is paid based on a monthly capitated fee. This Part of Medicare provides beneficiaries an alternative to "Original Medicare" Parts A and B Medicare, which provides insurance for the same medical services but pays providers a fee for service (FFS) directly rather than through managed care plans. Sourced from the AHA Annual Survey.	2018-CY
Medicare advantage - no	Medicare advantage insurance offering - no. Sourced from the AHA Annual Survey.	2017
Medicare advantage - system	Medicare advantage insurance offering -system level. Sourced from the AHA Annual Survey.	2017

Medicare advantage - system	Medicare advantage insurance offering -system level. Health Insurance program within Part C of Medicare. Medicare Advantage plans provide a managed health care plan (typically a health maintenance organization (HMO) but also often a preferred provider organization (PPO) or another type of managed care arrangement) that is paid based on a monthly capitated fee. Medicare certification by the U.S. Department of Health and Human Services	Medicare certification by the U.S. Department of Health and Human Services (MAPP10). Sourced from Centers for Medicare and Medicaid.	2018-CY
Medicare certified (historical)	Medicare certification by the U.S. Department of Health and Human Services (MAPP10). Sourced from Centers for Medicare and Medicaid.	2006-2017
Medicare Inpatient Days (est.)	Estimated Medicare Inpatient Days - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Medicare Inpatient Discharges (est.)	Estimated Medicare Inpatient Discharges - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Medicare Provider ID	A formal identification number issued by the Medicare program to identify hospitals that are eligible to participate in the Medicare program. Sourced from the Centers for Medicare and Medicaid and AHA Membership.	2006-CY
Medication assisted treatment for Opioid Use Disorder - hospital	Medication assisted treatment (MAT) is the use of medications, in combination with counseling and behavioral therapies, to provide a "whole-patient" approach to the treatment of substance use disorders. Medications used in MAT are approved by the Food and Drug Administration (FDA) and MAT programs are clinically driven and tailored to meet each patient's needs. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2020-CY

Medication assisted treatment for Opioid Use Disorder - joint venture	Medication assisted treatment (MAT) is the use of medications, in combination with counseling and behavioral therapies, to provide a "whole-patient" approach to the treatment of substance use disorders. Medications used in MAT are approved by the Food and Drug Administration (FDA) and MAT programs are clinically driven and tailored to meet each patient's needs. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2020-CY
Medication assisted treatment for Opioid Use Disorder - system	Medication assisted treatment (MAT) is the use of medications, in combination with counseling and behavioral therapies, to provide a "whole-patient" approach to the treatment of substance use disorders. Medications used in MAT are approved by the Food and Drug Administration (FDA) and MAT programs are clinically driven and tailored to meet each patient's needs. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2020-CY
Medication assisted treatment for substance use disorders - hospital	Medication assisted treatment (MAT) is the use of medications, in combination with counseling and behavioral therapies, to provide a "whole-patient" approach to the treatment of substance use disorders. Medications used in MAT are approved by the Food and Drug Administration (FDA) and MAT programs are clinically driven and tailored to meet each patient's needs. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2020-CY

Medications used in MAT are approved by the Food and Drug Administration (FDA) and MAT programs are clinically driven and tailored to meet each patient's needs. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2020-CY
Member of Association of American Medical Colleges (AAMC)	Member of the Association of American Medical Colleges (AAMC). Formally the Council of Teaching Hospitals (COTH) - (MAPP8) Sourced from the Association of American Medical Colleges.	2018-CY
Metropolitan Division code	Code for an assigned Metropolitan Division as assigned by the U.S. Census Bureau. Sourced from U.S. Census Bureau.	2014-CY
Metropolitan Division name	Defined by the U.S. Census Bureau. Metropolitan Divisions are small groups of counties within a Metropolitan Statistical Area that comprise a core population. Sourced from U.S. Census Bureau.	2014-CY
Minor imaging - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Minor imaging - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Minor imaging - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Mission statement with community benefit focus	A general statement that describes a company's reason for existence, its vision and direction, its areas of expertise and its goals. Sourced from the AHA Annual Survey.	2006-2010
Mobile Health Services	Vans and other vehicles used to deliver primary care services. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Mobile health services - health system	Vans and other vehicles used to deliver primary care services. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Mobile health services - joint venture	Vans and other vehicles used to deliver primary care services. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Mobile Health Services - network	Vans and other vehicles used to deliver primary care services. Sourced from the AHA Annual Survey.	2006-2012
Modified FIPS County Code	Three-digit Federal Information Processing Standards (FIPS) code assigned by the Census Bureau. County codes generally are odd numbers assigned to an alphabetical listing of the counties within a state. Baltimore City is included in Baltimore County, St Louis City is included in St Louis County, and the independent cities in Virginia are each included in the contiguous counties. Kalawao County, Hawaii is included in Maui County. The four Alaska Judicial Divisions were used as counties. This is an AHA-derived code.	2006-CY
More foreign-educated nurses hired to fill RN vacancies	The facility hired more foreign-educated nurses this year than last year to help fill RN vacancies. Foreign-educated nurses are individuals who are foreign born and received basic nursing education in a foreign country. Sourced from the AHA Annual Survey.	2007-CY
Multi-slice spiral computed tomography < 64 slice	A specialized computer tomography procedure that provides three-dimensional processing and allows narrower and multiple slices with increased spatial resolution and faster scanning times as compared to a regular computer tomography scan. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Multi-slice spiral computed tomography 64 + slice	Involves the acquisition of volumetric tomographic x-ray absorption data expressed in Hounsfield units using multiple rows of detectors. 64+ systems reconstruct the equivalent of 64 or greater slices to cover the imaged volume. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Multi-slice spiral computed tomography 64 + slice - health system	Involves the acquisition of volumetric tomographic x-ray absorption data expressed in Hounsfield units using multiple rows of detectors. 64+ systems reconstruct the equivalent of 64 or greater slices to cover the imaged volume. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Multislice spiral computed tomography < 64 slice - health system	A specialized computer tomography procedure that provides three-dimensional processing and allows narrower and multiple slices with increased spatial resolution and faster scanning times as compared to a regular computer tomography scan. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Multi-slice spiral computed tomography 64 + slice - joint venture	Involves the acquisition of volumetric tomographic x-ray absorption data expressed in Hounsfield units using multiple rows of detectors. 64+ systems reconstruct the equivalent of 64 or greater slices to cover the imaged volume. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Multislice spiral computed tomography < 64 slice - joint venture	A specialized computer tomography procedure that provides three-dimensional processing and allows narrower and multiple slices with increased spatial resolution and faster scanning times as compared to a regular computer tomography scan. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Multi-slice spiral computed tomography 64 + slice - network	Involves the acquisition of volumetric tomographic x-ray absorption data expressed in Hounsfield units using multiple rows of detectors. 64+ systems reconstruct the equivalent of 64 or greater slices to cover the imaged volume. Sourced from the AHA Annual Survey.	2006-2012
Multislice spiral computed tomography < 64 slice - network	A specialized computer tomography procedure that provides three-dimensional processing and allows narrower and multiple slices with increased spatial resolution and faster scanning times as compared to a regular computer tomography scan. Sourced from the AHA Annual Survey.	2006-2012

Multispecialty physician arrangement - Number of physicians	A multispecialty physician arrangement or groups include members from multiple specialties, allowing for comprehensive care. The count indicates number of physicians involved in this arrangement. Sourced from the AHA Annual Survey.	2024-CY
Musculoskeletal surgery - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Musculoskeletal surgery - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Musculoskeletal surgery - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
National League for Nursing professional nursing school	Hospital-controlled professional nursing school reported by National League for Nursing (MAPP6). Sourced from the National League for Nursing.	2006-2014
Neonatal care (FT)	Intensivists are board-certified physicians who are additionally certified in the subspecialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of subspecialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2007-2009
Neonatal care (FTE)	Number of intensivists assigned to neonatal intensive care. Intensivists are board-certified physicians who are additionally certified in the sub-specialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of sub-specialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2007-CY

Neonatal care (PT)	Intensivists are board-certified physicians who are additionally certified in the subspecialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of subspecialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2007-2009
neonatal intensive care	Intensivists are board-certified physicians who are additionally certified in the subspecialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of subspecialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2009
Neonatal intensive care	A unit that must be separate from the newborn nursery providing intensive care to all sick infants including those with the very lowest birth weights (less than 1500 grams). NICU has potential for providing mechanical ventilation, neonatal surgery, and special care for the sickest infants born in the hospital or transferred from another institution. A full-time neonatologist serves as director of the NICU. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Neonatal intensive care beds	Staffed beds set up for patient care in a dedicated medical/surgical intensive care unit. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2006-CY

Neonatal intensive care - health system	A unit that must be separate from the newborn nursery providing intensive care to all sick infants including those with the very lowest birth weights (less than 1500 grams). NICU has potential for providing mechanical ventilation, neonatal surgery, and special care for the sickest infants born in the hospital or transferred from another institution. A full-time neonatologist serves as director of the NICU. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Neonatal intensive care - joint venture	A unit that must be separate from the newborn nursery providing intensive care to all sick infants including those with the very lowest birth weights (less than 1500 grams). NICU has potential for providing mechanical ventilation, neonatal surgery, and special care for the sickest infants born in the hospital or transferred from another institution. A full-time neonatologist serves as director of the NICU. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Neonatal intensive care level	Level are defined as: Level I: Well newborn nursery, Level II: Special care nursery, Level III: Neonatal intensive care unit (NICU), Level IV: Regional neonatal intensive-care unit (regional NICU)	2024-CY
Neonatal intensive care - network	A unit that must be separate from the newborn nursery providing intensive care to all sick infants including those with the very lowest birth weights (less than 1500 grams). NICU has potential for providing mechanical ventilation, neonatal surgery, and special care for the sickest infants born in the hospital or transferred from another institution. A full-time neonatologist serves as director of the NICU. Sourced from the AHA Annual Survey.	2006-2012
Neonatal intermediate care	A unit that must be separate from the normal newborn nursery and that provides intermediate and/or recover care and some specialized services, including immediate resuscitation, intravenous therapy, and capacity for prolonged oxygen therapy and monitoring. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Neonatal intermediate care beds	Staffed beds set up for patient care in a dedicated neonatal intermediate care unit. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2006-CY
Neonatal intermediate care - health system	A unit that must be separate from the normal newborn nursery and that provides intermediate and/or recover care and some specialized services, including immediate resuscitation, intravenous therapy, and capacity for prolonged oxygen therapy and monitoring. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Neonatal intermediate care - joint venture	A unit that must be separate from the normal newborn nursery and that provides intermediate and/or recover care and some specialized services, including immediate resuscitation, intravenous therapy, and capacity for prolonged oxygen therapy and monitoring. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Neonatal intermediate care - network	A unit that must be separate from the normal newborn nursery and that provides intermediate and/or recover care and some specialized services, including immediate resuscitation, intravenous therapy, and capacity for prolonged oxygen therapy and monitoring. Sourced from the AHA Annual Survey.	2006-2012
Nephrology - Commercial Insurance Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Nephrology is the branch of medicine that deals with the physiology and diseases of the kidneys. Sourced from the AHA Annual Survey.	2022-CY

Nephrology - Medicaid, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Nephrology is the branch of medicine that deals with the physiology and diseases of the kidneys. Sourced from the AHA Annual Survey.	2022-CY
Nephrology - Medicare Advantage Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Nephrology is the branch of medicine that deals with the physiology and diseases of the kidneys. Sourced from the AHA Annual Survey.	2022-CY
Nephrology - Traditional Medicare, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Nephrology is the branch of medicine that deals with the physiology and diseases of the kidneys. Sourced from the AHA Annual Survey.	2022-CY
Nervous system procedures - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020

Nervous system procedures - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Nervous system procedures - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Net property, plant and equipment	Original cost of fixed assets less accumulated depreciation and amortization. Sourced from AHA Annual Survey.	2006-CY
Network city	City in which network is headquartered	2008-2017
Network member	A group of hospitals, physicians, other providers, insurers and/or community agencies that voluntarily work together to coordinate and deliver health services	2006-2017
Network name	Name of the network	2006-2017
Network phone	Main phone number for network	2006-2017
Network phone		2006-2007
Network phone area code		2006-2007
Network state	State in which network is headquartered	2008-2017
Neurological services	Services provided by the hospital dealing with the operative and nonoperative management of disorders of the central, peripheral, and autonomic nervous system. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Neurological services - health system	Services provided by the hospital dealing with the operative and nonoperative management of disorders of the central, peripheral, and autonomic nervous system. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Neurological services - joint venture	Services provided by the hospital dealing with the operative and nonoperative management of disorders of the central, peripheral, and autonomic nervous system. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Neurological services - network	Services provided by the hospital dealing with the operative and nonoperative management of disorders of the central, peripheral, and autonomic nervous system. Sourced from the AHA Annual Survey.	2006-2012

Neurology - advanced practice physician assistants FTE	Full time equivalent physician assistants that provide neurology services. Neurology is the branch of medicine that deals with the diagnosis and treatment of disorders of the nervous system. Sourced from the AHA Annual Survey.	2024-CY
Neurology - advanced practice registered nurses FTE	Full time equivalent registered nurses that provide neurology services. Neurology is the branch of medicine that deals with the diagnosis and treatment of disorders of the nervous system. Sourced from the AHA Annual Survey.	2024-CY
Neurology - Commercial Insurance Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Neurology is the branch of medicine that deals with the diagnosis and treatment of disorders of the nervous system. Sourced from the AHA Annual Survey.	2022-CY
Neurology - Medicaid, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Hematology is the study of blood and blood disorders. Sourced from the AHA Annual Survey.	2022-CY

Neurology - Medicare advantage plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Neurology is the branch of medicine that deals with the diagnosis and treatment of disorders of the nervous system. Sourced from the AHA Annual Survey.	2022-CY
Neurology - Traditional Medicare, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Neurology is the branch of medicine that deals with the diagnosis and treatment of disorders of the nervous system. Sourced from the AHA Annual Survey.	2022-CY
Non-physician organization JV	Hospital participates in joint venture arrangements with organizations other than physician groups. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
No Special Pathogen Facility	Sourced from the AHA Annual Survey.	2022-2023
NPI number	A 10-position, intelligence-free numeric identifier (10-digit number). Sourced from the Centers for Medicare and Medicaid.	2006-2017,CY
Number of adult ventilators set up at end of reporting period	Sourced from the AHA Annual Survey.	2020-2022
Number of adult ventilators set up at start of reporting period	Sourced from the AHA Annual Survey.	2020-2022

Number of Airborne infection isolation rooms	Total number of single-occupancy rooms for patient care where environmental factors are controlled in an effort to minimize the transmission of those infectious agents, usually spread person to person by droplet nuclei associated with coughing or inhalation. Such rooms typically have specific ventilation requirements for controlled ventilation, air pressure and filtration.	2006-CY
Number of employed IT staff (in FTEs)	Sourced from the AHA Annual Survey.	2017-2021
Number of HMO contracts	A health care organization that acts as both insurer and provider of comprehensive but specified medical services in return for prospective per capita (capitation) payments. Sourced from the AHA Annual Survey.	2006-2016
Number of international medical graduated providing care	Number of international medical graduates are providing care. Sourced from the AHA Annual Survey.	2024-CY
Number of isolation rooms at end of reporting period	Sourced from the AHA Annual Survey.	2020-2023
Number of isolation rooms at start of reporting period	Sourced from the AHA Annual Survey.	2020-2023
Number of lives covered under a capitated basis	Sourced from the AHA Annual Survey.	2006-2016
Number of new RN graduates hired	Quantity of new graduates from nursing schools hired as RNs during the reporting period. Sourced from the AHA Annual Survey.	2011-CY
Number of Operating Rooms	Total number of units/rooms of a hospital or other health care facility in which surgical procedures requiring anesthesia are performed. Sourced from the AHA Annual Survey.	2006-CY
Number of outsourced IT staff (in FTEs)	Sourced from the AHA Annual Survey.	2017-2021
Number of pediatric/NICU ventilators set up at end of reporting period	Sourced from the AHA Annual Survey.	2020-2022
Number of pediatric/NICU ventilators set up at start of reporting period	Sourced from the AHA Annual Survey.	2020-2022
Number of physicians, other	The number of physicians that have relationships with the hospital/health system do not fit into the above categories. Sourced from the AHA Annual Survey.	2024-CY
Number of physicians, other relationship, description	Description of type of other relationship if provided. Sourced from the AHA Annual Survey.	2024-CY
Number of PPO Contracts	Sourced from the AHA Annual Survey.	2006-2016

Number of rooms that can be converted to isolation rooms	Sourced from the AHA Annual Survey.	2020-2023
Nursing assistive personnel (FT)	Number that represents the full-time certified nursing assistant or equivalent unlicensed staff assigned to patient care units and reporting to nursing. Sourced from the AHA Annual Survey.	2006-CY
Nursing assistive personnel (FTE)	The total number of hours worked (excluding non-worked hours such as PTO, etc.) by nursing assistive personnel over the full (12 month) reporting period divided by the normal number of hours worked by a full-time employee for that same time period. This count only includes personnel engaged in clinical practice and on the payroll. Sourced from the AHA Annual Survey.	2006-CY
Nursing assistive personnel (FTEC)	Full time equivalent nursing assistive personnel. Sourced from the AHA Annual Survey.	2019-CY
Nursing assistive personnel FT (est.)	Estimated Full Time Nursing assistive personnel - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Nursing assistive personnel (PT)	Number that represents the part-time certified nursing assistant or equivalent unlicensed staff assigned to patient care units and reporting to nursing. Sourced from the AHA Annual Survey.	2006-CY
Nursing assistive personnel (vac.)	Number of nursing assistive personnel vacancies. Sourced from the AHA Annual Survey.	2010-CY
Nursing home employee benefits	Includes social security, group insurance, retirement benefits, workman's compensation, unemployment insurance, etc. Sourced from AHA Annual Survey.	2006-CY
Nursing home expenses (excluding bad debt)	Includes all payroll and non-payroll expenses (excluding bad debt) as well as any non-operating losses (including extraordinary losses). Sourced from AHA Annual Survey.	2006-CY
Nursing home expenses, excluding bad debt (est.)	Estimated Nursing home expenses, excluding bad debt - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a non-reporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from AHA Annual Survey.	2006-CY

Nursing home Medicaid days	Inpatient days where Medicaid (including a Medicaid Managed Care Plan) is the source of payment. Sourced from the AHA Annual Survey.	2006-CY
Nursing home Medicaid discharges	Discharge days where Medicaid (including a Medicaid Managed Care Plan) is the source of payment. Sourced from the AHA Annual Survey.	2006-CY
Nursing home Medicare days	Inpatient days where Medicare (including a Medicare Managed Care Plan) is the source of payment. Sourced from the AHA Annual Survey.	2006-CY
Nursing home Medicare discharges	Discharge days where Medicare (including a Medicare Managed Care Plan) is the source of payment. Sourced from the AHA Annual Survey.	2006-CY
Nursing home other payer discharges	Discharge days where the source of payment for nursing home is other(does not fit into specified categories). Sourced from the AHA Annual Survey.	2022-CY
Nursing home other payer inpatient days	Inpatient days where the source of payment for nursing home is other(does not fit into specified categories). Sourced from the AHA Annual Survey.	2022-CY
Nursing home payroll expenses	Includes payroll for all nursing home unit/facility personnel including medical and dental residents/interns and trainees. Sourced from AHA Annual Survey.	2006-CY
Nursing home personnel (FTE)	Full time equivalent of all nursing home personnel. Sourced from the AHA Annual Survey.	2006-CY
Nursing home registered nurses (FTE)	Full time equivalent nursing home type unit/facility registered nurses. Sourced from the AHA Annual Survey.	2010-CY
Nursing home RN (vac.)	Number of nursing home registered nurse vacancies. Sourced from the AHA Annual Survey.	2010-CY
Nursing home self-pay discharges	Discharge days where self-pay is the source of payment for nursing home. Sourced from the AHA Annual Survey.	2022-CY
Nursing home self-pay inpatient days	Inpatient days where self-pay is the source of payment for nursing home. Sourced from the AHA Annual Survey.	2022-CY
Nursing home third-party discharges	Discharge days where a third-party is the source of payment for nursing home. Sourced from the AHA Annual Survey.	2022-CY
Nursing home third-party inpatient days	Inpatient days where a third-party is the source of payment for nursing home. Sourced from the AHA Annual Survey.	2022-CY
Nursing home total inpatient discharges	Sourced from the AHA Annual Survey.	2022-CY
Nursing home total personnel (FTEC)	Full time personnel on payroll plus one half of the part time personnel on payroll. Sourced from the AHA Annual Survey.	2006-CY

Nursing Home Unit Admissions (est.)	Estimated Nursing Home Unit - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Nursing Home Unit Employee Benefits (est.)	Estimated Nursing Home Unit Employee Benefits - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a non-reporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from AHA Annual Survey.	2006-CY
Nursing home unit inpatient days (est.)	Estimated Nursing Home Unit Inpatient Days - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months.	2006-CY
Nursing Home Unit Medicaid Inpatient Days (est.)	Estimated Nursing Home Unit Medicaid Inpatient Days - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Nursing Home Unit Medicaid Inpatient Discharges (est.)	Estimated Nursing Home Unit Medicaid Inpatient Discharges - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Nursing Home Unit Medicare Inpatient Days (est.)	Estimated Nursing Home Unit Medicare Inpatient Days - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY

Nursing Home Unit Medicare Inpatient Discharges (est.)	Estimated Nursing Home Unit Medicare Inpatient Discharges - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Nursing home unit other payer inpatient days (est.)	Sourced from the AHA Annual Survey.	2022-CY
Nursing home unit other payer inpatient discharges (est.)	Sourced from the AHA Annual Survey.	2022-CY
Nursing home unit self-pay inpatient days (est.)	Sourced from the AHA Annual Survey.	2022-CY
Nursing home unit self-pay inpatient discharges (est.)	Sourced from the AHA Annual Survey.	2022-CY
Nursing home unit third-party inpatient days (est.)	Sourced from the AHA Annual Survey.	2022-CY
Nursing home unit third-party inpatient discharges (est.)	Sourced from the AHA Annual Survey.	2022-CY
Nursing Home Unit Total Full Time (est.)	Estimated Nursing Home Unit Total Full Time - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Nursing Home Unit Total Part Time (est.)	Estimated Nursing Home Unit Total Part Time - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Nursing Home Unit Total Payroll Expenses (est.)	Estimated Nursing Home Unit Total Payroll Expenses - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a non-reporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from AHA Annual Survey.	2006-CY
Nutrition program	Those services within a health care facility which are designed to provide inexpensive, nutritionally sound meals to patients. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Nutrition program - health system	Those services within a health care facility which are designed to provide inexpensive, nutritionally sound meals to patients. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Nutrition program - joint venture	Those services within a health care facility which are designed to provide inexpensive, nutritionally sound meals to patients. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Nutrition program - network	Those services within a health care facility which are designed to provide inexpensive, nutritionally sound meals to patients. Sourced from the AHA Annual Survey.	2006-2012
OB/GYN - advanced practice physician assistants FTE	Full time equivalent physician assistants that provide OB/GYN services. Obstetrician-Gynecologist (OB/GYN) is a physician who provides medical and surgical treatment to pregnant women and to mothers following delivery. Also provides diagnostic and therapeutic services to women with diseases or disorders of the reproductive organs. Sourced from the AHA Annual Survey.	2024-CY
OB/GYN - advanced practice registered nurses FTE	Full time equivalent registered nurses that provide OB/GYN services. Obstetrician-Gynecologist (OB/GYN) is a physician who provides medical and surgical treatment to pregnant women and to mothers following delivery. Also provides diagnostic and therapeutic services to women with diseases or disorders of the reproductive organs. Sourced from the AHA Annual Survey.	2024-CY
Obstetric care beds	Staffed beds set up for patient care in a dedicated obstetrics care unit. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2006-CY
Obstetrics care	Provides care, examination, treatment, and other services to women during pregnancy, labor, and the puerperium. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Obstetrics care - health system	Provides care, examination, treatment, and other services to women during pregnancy, labor, and the puerperium. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Obstetrics care - joint venture	Provides care, examination, treatment, and other services to women during pregnancy, labor, and the puerperium. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Obstetrics care - network	Provides care, examination, treatment, and other services to women during pregnancy, labor, and the puerperium. Sourced from the AHA Annual Survey.	2006-2012
Obstetrics - Commercial Insurance Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Obstetrics is the branch of medicine and surgery concerned with childbirth and the care of women giving birth. Sourced from the AHA Annual Survey.	2022-CY
Obstetrics/gynecology (NE)	Total obstetrics/gynecology physicians with privileges that have no employment or contractual relationship with the hospital to provide services. Sourced from the AHA Annual Survey.	2019-CY
Obstetrics/gynecology (TC)	Total independent physicians under a formal contract to provide services at a hospital including at outpatient facilities, clinics and offices that practice obstetrics/gynecology. Sourced from the AHA Annual Survey.	2019-CY
Obstetrics/gynecology (TE)	Total employed physicians that are either direct hospital employees or employees of a hospital subsidiary corporation that practice obstetrics/gynecology. Sourced from the AHA Annual Survey.	2019-CY
Obstetrics/gynecology (TG)	Total obstetrics/gynecology physicians that are part of a group (group practice, faculty practice plan or medical foundation) under a formal contract to provide services at a hospital including at inpatient and outpatient facilities, clinics and offices. Sourced from the AHA Annual Survey.	2019-CY

Obstetrics/gynecology (TP)	Sum of all physicians with privileges that practice obstetrics/gynecology. A physician that provides obstetrics/gynecology services is a physician who provides medical and surgical treatment to pregnant women and to mothers following delivery. Also provides diagnostic and therapeutic services to women with diseases or disorders of the reproductive organs. Sourced from the AHA Annual Survey.	2019-CY
Obstetrics - Medicaid, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Obstetrics is the branch of medicine and surgery concerned with childbirth and the care of women giving birth. Sourced from the AHA Annual Survey.	2022-CY
Obstetrics - Medicare Advantage Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Obstetrics is the branch of medicine and surgery concerned with childbirth and the care of women giving birth. Sourced from the AHA Annual Survey.	2022-CY
Obstetrics - Traditional Medicare, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Obstetrics is the branch of medicine and surgery concerned with childbirth and the care of women giving birth. Sourced from the AHA Annual Survey.	2022-CY

Obstetric unit care level	For service owned or provided by the hospital, level should be designated: (1) unit provides services for uncomplicated maternity and newborn cases; (2) unit provides services for uncomplicated cases, the majority of complicated problems, and special neonatal services; and (3) unit provides services for all serious illnesses and abnormalities and is supervised by a full-time maternal/fetal specialist, (4) on-site medical and surgical care of the most complex maternal conditions and critically ill pregnant women and fetuses throughout antepartum, intrapartum, and postpartum care. Sourced from the AHA Annual Survey.	2023-CY
Obstetric unit care level - Legacy	Levels should be designated: (1) unit provides services for uncomplicated maternity and newborn cases; (2) unit provides services for uncomplicated cases, the majority of complicated problems, and special neonatal services; and (3) unit provides services for all serious illnesses and abnormalities and is supervised by a full-time maternal/fetal specialist. Sourced from the AHA Annual Survey.	2006-2022
Occupational health services	Includes services designed to protect the safety of employees from hazards in the work environment. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Occupational health services - health system	Includes services designed to protect the safety of employees from hazards in the work environment. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Occupational health services - joint venture	Includes services designed to protect the safety of employees from hazards in the work environment. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Occupational health services - network	Includes services designed to protect the safety of employees from hazards in the work environment. Sourced from the AHA Annual Survey.	2006-2012
Off-campus emergency department - health system	A facility owned and operated by the hospital but physically separate from the hospital for the provision of unscheduled outpatient services to patients whose conditions require immediate care. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2018-CY

Off-campus emergency department - hospital	A facility owned and operated by the hospital but physically separate from the hospital for the provision of unscheduled outpatient services to patients whose conditions require immediate care. A freestanding ED is not physically connected to a hospital but has all the necessary emergency staffing and equipment on site. This service is owned or provided by the hospital or subsidiary.	2018-CY
Off-campus emergency department - joint venture	A facility owned and operated by the hospital but physically separate from the hospital for the provision of unscheduled outpatient services to patients whose conditions require immediate care. A freestanding ED is not physically connected to a hospital but has all the necessary emergency staffing and equipment on site. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2018-CY
Offers community health & wellness activities	Hospital partners with local school system to offer health or wellness programs to help the community. Sourced from the AHA Annual Survey.	2007-2010
On-campus emergency department - health system	Hospital facilities for the provision of unscheduled outpatient services to patients whose conditions require immediate care. Health System: A corporate body that owns, leases, religiously sponsors and/or manages health providers. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2018-CY
On-campus emergency department - hospital	Hospital facilities for the provision of unscheduled outpatient services to patients whose conditions require immediate care. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2018-CY
On-campus emergency department - joint venture	Hospital facilities for the provision of unscheduled outpatient services to patients whose conditions require immediate care. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2018-CY

Oncologic - Commercial Insurance Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Oncologic is the medical specialty that focuses on cancer, including its diagnosis, treatment, prevention, and study. Sourced from the AHA Annual Survey.	2022-CY
Oncologic - Medicaid, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Oncologic is the medical specialty that focuses on cancer, including its diagnosis, treatment, prevention, and study. Sourced from the AHA Annual Survey.	2022-CY
Oncologic - Medicare Advantage Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Oncologic is the medical specialty that focuses on cancer, including its diagnosis, treatment, prevention, and study. Sourced from the AHA Annual Survey.	2022-CY

Oncologic - Traditional Medicare, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Oncologic is the medical specialty that focuses on cancer, including its diagnosis, treatment, prevention, and study. Sourced from the AHA Annual Survey.	2022-CY
Oncology - advanced practice physician assistants FTE	Full time equivalent physician assistants that provide oncology services. Oncology is the medical specialty that focuses on cancer, including its diagnosis, treatment, prevention, and study. Sourced from the AHA Annual Survey.	2024-CY
Oncology - advanced practice registered nurses FTE	Full time equivalent registered nurses that provide oncology services. Oncology is the medical specialty that focuses on cancer, including its diagnosis, treatment, prevention, and study. Sourced from the AHA Annual Survey.	2024-CY
Oncology services	Inpatient and outpatient services for patients with cancer, including comprehensive care, support and guidance in addition to patient education and prevention, chemotherapy, counseling and other treatment methods. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Oncology services - health system	Inpatient and outpatient services for patients with cancer, including comprehensive care, support and guidance in addition to patient education and prevention, chemotherapy, counseling and other treatment methods. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Oncology services - joint venture	Inpatient and outpatient services for patients with cancer, including comprehensive care, support and guidance in addition to patient education and prevention, chemotherapy, counseling and other treatment methods. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY

Oncology services - network	Inpatient and outpatient services for patients with cancer, including comprehensive care, support and guidance in addition to patient education and prevention, chemotherapy, counseling and other treatment methods. Sourced from the AHA Annual Survey.	2006-2012
Open 12 full months before end of reporting period	Indicates whether the hospital was in operation 12 full months to the end of the reporting period. Sourced from the AHA Annual Survey.	2006-CY
Open 24 hours a day, 7 days a week	Freestanding/satellite emergency department is open 24 hours a day, 7 days a week. Sourced from the AHA Annual Survey.	2006-2016
Open physician-hospital organization	The hospital maintains a joint venture between the hospital and all members of the medical staff who wish to participate. The open physician-hospital organization (PHO) can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members. Sourced from the AHA Annual Survey.	2006-2017
Open physician-hospital organization - health system	A joint venture between the hospital and all members of the medical staff who wish to participate. The PHO can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members. Sourced from the AHA Annual Survey.	2019-2023
Open physician-hospital organization - hospital	A joint venture between the hospital and all members of the medical staff who wish to participate. The PHO can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members. Sourced from the AHA Annual Survey.	2019-2023
Open physician-hospital organization - hospital ownership share	A joint venture between the hospital and all members of the medical staff who wish to participate. The PHO can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members. Sourced from the AHA Annual Survey.	2018-2023

Open physician-hospital organization -insurance ownership share	A joint venture between the hospital and all members of the medical staff who wish to participate. The PHO can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members. Sourced from the AHA Annual Survey.	2018-2023
Open physician-hospital organization (net.)	The hospital's network maintains a joint venture between the hospital and all members of the medical staff who wish to participate. The open physician-hospital organization (PHO) can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members. Sourced from the AHA Annual Survey.	2006-2017
Open physician-hospital organization (# of)	Number of physicians participating in the hospital-based open physician-hospital organization (PHO). Sourced from the AHA Annual Survey.	2006-2023
Open physician-hospital organization - parent corporation ownership share	A joint venture between the hospital and all members of the medical staff who wish to participate. The PHO can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members. Sourced from the AHA Annual Survey.	2018-2023
Open physician-hospital organization - physician ownership share	A joint venture between the hospital and all members of the medical staff who wish to participate. The PHO can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members. Sourced from the AHA Annual Survey.	2018-2023
Open physician-hospital organization (sys.)	The hospital's health system maintains a joint venture between the hospital and all members of the medical staff who wish to participate. The open physician-hospital organization (PHO) can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members. Sourced from the AHA Annual Survey.	2006-2017
Operates subsidiary corps.	Indicates whether the hospital itself operates subsidiary corporations. Sourced from the AHA Annual Survey.	2006-2023

Ophthalmology - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Ophthalmology - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Ophthalmology - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Optical Colonoscopy	An examination of the interior of the colon using a long, flexible, lighted tube with a small built-in camera. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2008-CY
Optical Colonoscopy-health system	An examination of the interior of the colon using a long, flexible, lighted tube with a small built-in camera. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2008-CY
Optical Colonoscopy-joint venture	An examination of the interior of the colon using a long, flexible, lighted tube with a small built-in camera. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2008-CY
Optical Colonoscopy-network	An examination of the interior of the colon using a long, flexible, lighted tube with a small built-in camera. Sourced from the AHA Annual Survey.	2008-2012
Optimizing operational efficiency - operation AI implementation	Hospital uses AI to assist with optimizing operational processes for efficiency. Artificial Intelligence (AI) encompasses a broad range of technologies that enable machines to simulate human intelligence and perform tasks that typically require human cognitive abilities. Sourced from the AHA Annual Survey.	2024-CY

Orthopedic - Commercial Insurance Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Orthopedic is the branch of medicine dealing with the correction of deformities of bones or muscles. Sourced from the AHA Annual Survey.	2022-CY
Orthopedic - Limited Service	A range of services that aim at the treatment of the musculoskeletal system. This includes your bones, joints, ligaments, tendons, and muscles. Sourced from the AHA Annual Survey.	2006-CY
Orthopedic - Medicaid, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Orthopedic is the branch of medicine dealing with the correction of deformities of bones or muscles. Sourced from the AHA Annual Survey.	2022-CY
Orthopedic - Medicare Advantage Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Orthopedic is the branch of medicine dealing with the correction of deformities of bones or muscles. Sourced from the AHA Annual Survey.	2022-CY
Orthopedics - advanced practice physician assistants FTE	Full time equivalent physician assistants that provide orthopedic services. Orthopedics is the branch of medicine dealing with the correction of deformities of bones or muscles. Sourced from the AHA Annual Survey.	2024-CY

Orthopedics - advanced practice registered nurses FTE	Full time equivalent registered nurses that provide orthopedic services. Orthopedics is the branch of medicine dealing with the correction of deformities of bones or muscles. Sourced from the AHA Annual Survey.	2024-CY
Orthopedic services	Services provided for the prevention or correction of injuries or disorders of the skeletal system and associated muscles, joints and ligaments. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Orthopedic services - health system	Services provided for the prevention or correction of injuries or disorders of the skeletal system and associated muscles, joints and ligaments. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Orthopedic services - joint venture	Services provided for the prevention or correction of injuries or disorders of the skeletal system and associated muscles, joints and ligaments. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Orthopedic services - network	Services provided for the prevention or correction of injuries or disorders of the skeletal system and associated muscles, joints and ligaments. Sourced from the AHA Annual Survey.	2006-2012
Orthopedic - Traditional Medicare, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Orthopedic is the branch of medicine dealing with the correction of deformities of bones or muscles. Sourced from the AHA Annual Survey.	2022-CY
Other advanced practice nurses	Registered nurses with advanced didactic and clinical education, knowledge, skills, and scope of practice. Sourced from the AHA Annual Survey.	2010-2023
Other advanced practice specialty FTE - please specify	Description of other care provider type. Sourced from the AHA Annual Survey.	2024-CY

Other - AI implementation challenges	Hospital has encountered other challenge in implementing AI in clinical and/or operational areas not already categorized. Sourced from the AHA Annual Survey.	2024-CY
Other area of participation	Sourced from the AHA Annual Survey.	2009-2017
Other area of participation descrpt.	Sourced from the AHA Annual Survey.	2009-2018
Other area of participation (net.)	Sourced from the AHA Annual Survey.	2009-2017
Other area of participation (# of)	Number of physicians participating in the hospital-based foundation. Sourced from the AHA Annual Survey.	2009-2023
Other area of participation (sys.)	Sourced from the AHA Annual Survey.	2009-2017
Other - Bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Other indicates Medical/Surgical conditions that do not fit into the above categories. Sourced from the AHA Annual Survey.	2022-CY
Other care	Any type of care other than those specified provided at the hospital or subsidiary level. Sourced from the AHA Annual Survey.	2006-CY
Other care beds	Staffed beds set up for patient care in a dedicated care unit not elsewhere classified. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2006-CY
Other care beds, description	Description(s) of other care beds, which are staffed beds set up for patient care in a dedicated care unit not elsewhere classified. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2012-CY
Other care - health system	Any type of care other than those specified provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Other care - joint venture	Any type of care other than those specified. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Other care - network	Any type of care other than those specified. Sourced from the AHA Annual Survey.	2006-2012
Other - clinical AI implementation	Hospital uses AI in other clinical capacity, not already categorized. Artificial Intelligence (AI) encompasses a broad range of technologies that enable machines to simulate human intelligence and perform tasks that typically require human cognitive abilities. Sourced from the AHA Annual Survey.	2024-CY

Sourced from the AHA Annual Survey.	2024-CY
Other - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Other outpatient visits (non ER)	Visit by a patient who is not lodged in the hospital while receiving medical, dental, or other services. Sourced from the AHA Annual Survey.	2006-CY
Other payer inpatient days (est.)	Sourced from the AHA Annual Survey.	2022-CY
Other payer inpatient discharges (est.)	Sourced from the AHA Annual Survey.	2022-CY
Other physician arrangement - Description of other arrangement	Description of other physician arrangement. Sourced from the AHA Annual Survey.	2024-CY
Other physician arrangement - Number of involved physicians at Health System	This covers physicians whose practices are organized in a manner that does not fit into the other categories. Indicates number of physicians involved in this model in health system. Sourced from the AHA Annual Survey.	2024-CY

Other physician arrangement - Number of involved physicians at Hospital	This covers physicians whose practices are organized in a manner that does not fit into the other categories. Indicates number of physicians involved in this model in hospital. Sourced from the AHA Annual Survey.	2024-CY
Other physician arrangement - Number of involved physicians not provided	This covers physicians whose practices are organized in a manner that does not fit into the other categories. Indicates model is not available at hospital. Sourced from the AHA Annual Survey.	2024-CY
Other physician-organization arrangement - hospital ownership share	Other physician-organization arrangement - hospital ownership share. Sourced from the AHA Annual Survey.	2018-2023
Other physician-organization arrangement - insurance ownership share	Other physician-organization arrangement - insurance ownership share. Sourced from the AHA Annual Survey.	2018-2023
Other physician-organization arrangement - parent corporation ownership share	Other physician-organization arrangement - parent corporation ownership share. Sourced from the AHA Annual Survey.	2018-2023
Other physician-organization arrangement - physician ownership share	Other physician-organization arrangement - physician ownership share. Sourced from the AHA Annual Survey.	2018-2023
Other, please specify	Other, please specify. Sourced from the AHA Annual Survey.	2019-2023
Other, please specify - AI implementation challenges	Description of hospital challenge in implementing AI in operational and/or clinical areas. Sourced from the AHA Annual Survey.	2024-CY
Other, please specify - clinical AI implementation	Description of other use case for AI in clinical capacity.	2024-CY
Other, please specify - operation AI implementation	Description of other use case for AI in operational capacity.	2024-CY
Other program/strategy	Sourced from the AHA Annual Survey.	2020-2023
Other program/strategy description	Sourced from the AHA Annual Survey.	2020-2023
Other - satellite facility	Sourced from the AHA Annual Survey.	2017
Other satellite outpatient dept - description	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Other screening	Sourced from the AHA Annual Survey.	2020-2023
Other screening description	Sourced from the AHA Annual Survey.	2020-2023

Other special care	Provides care to patients requiring care more intensive than that provided in the acute area, yet not sufficiently intensive to require admission to an intensive care unit. Patients admitted to this area are usually transferred here from an intensive care unit once their condition has improved. These units are sometimes referred to as definitive observation, step-down or progressive care units. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Other special care beds	Staffed beds set up for patient care in a dedicated care unit that provides care to patients requiring care more intensive than that provided in the acute area, yet not sufficiently intensive to require admission to an intensive care unit. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2006-CY
Other special care beds, description	Description(s) of other special care beds, which are staffed beds set up for patient care in a dedicated care unit that provide care to patients requiring care more intensive than that provided in the acute area, yet not sufficiently intensive to require admission to an intensive care unit. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2012-CY
Other special care - health system	Provides care to patients requiring care more intensive than that provided in the acute area, yet not sufficiently intensive to require admission to an intensive care unit. Patients admitted to this area are usually transferred here from an intensive care unit once their condition has improved. These units are sometimes referred to as definitive observation, step-down or progressive care units. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Other special care - joint venture	Provides care to patients requiring care more intensive than that provided in the acute area, yet not sufficiently intensive to require admission to an intensive care unit. Patients admitted to this area are usually transferred here from an intensive care unit once their condition has improved. These units are sometimes referred to as definitive observation, step-down or progressive care units. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Other special care - network	Provides care to patients requiring care more intensive than that provided in the acute area, yet not sufficiently intensive to require admission to an intensive care unit. Patients admitted to this area are usually transferred here from an intensive care unit once their condition has improved. These units are sometimes referred to as definitive observation, step-down or progressive care units. Sourced from the AHA Annual Survey.	2006-2012
Other specialists (NE)	Total other physicians with privileges that have no employment or contractual relationship with the hospital to provide services. Sourced from the AHA Annual Survey.	2010-CY
Other specialists (TC)	Total independent physicians under a formal contract to provide services at a hospital including at outpatient facilities, clinics and offices that practice other services. Sourced from the AHA Annual Survey.	2010-CY
Other specialists (TE)	Total employed physicians that are either direct hospital employees or employees of a hospital subsidiary corporation that practice other services. Sourced from the AHA Annual Survey.	2010-CY
Other Specialists (TG)	Total other physicians that are part of a group (group practice, faculty practice plan or medical foundation) under a formal contract to provide services at a hospital including at inpatient and outpatient facilities, clinics and offices. Sourced from the AHA Annual Survey.	2010-CY
Other specialists (TP)	Sum of all other physicians with privileges that practice emergency medicine. Sourced from the AHA Annual Survey.	2010-CY
Other specialty - advanced practice physician assistants FTE	Full time equivalent physician assistants that provide other care services. Other care provided by Advanced Practice Providers that does not fit into the above categories. Sourced from the AHA Annual Survey.	2024-CY

Other specialty - advanced practice registered nurses FTE	Full time equivalent registered nurses that provide other care services. Other care provided by Advanced Practice Providers that does not fit into the above categories. Sourced from the AHA Annual Survey.	2024-CY
Other specialty care advanced practice nurses	Registered nurses with advanced didactic and clinical education, knowledge, skills, and scope of practice. Sourced from the AHA Annual Survey.	2010-2023
Other specialty care - advanced practice physician assistants FTE	Full time equivalent physician assistants that provide other specialty care. This qualifies as supporting other physicians not included in the above categories that specialize in a specific type of medical care. Sourced from the AHA Annual Survey.	2024-CY
Other specialty care - advanced practice registered nurses FTE	Full time equivalent registered nurses that provide other specialty care. This qualifies as supporting other physicians not included in the above categories that specialize in a specific type of medical care. Sourced from the AHA Annual Survey.	2024-CY
Other telehealth, please specify	Description of other telehealth offerings not already categorized.	2024-CY
Other - Traditional Medicare, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Other indicates Medical/Surgical conditions that do not fit into the above categories. Sourced from the AHA Annual Survey.	2022-CY
Other trainees (FT)	A trainee is a person who has not completed the necessary requirements for certification or met the qualifications required for full salary under a related occupational category. Excludes medical and dental residents/interns. Sourced from the AHA Annual Survey.	2006-CY
Other trainees (FTE)	Trainee is a person who has not completed the necessary requirements for certification or met the qualifications required for full salary under a related occupational category. This excludes medical and dental residents/interns. Sourced from the AHA Annual Survey.	2006-CY

Other trainees (FTEC)	A trainee is a person who has not completed the necessary requirements for certification or met the qualifications required for full salary under a related occupational category. Excludes medical and dental residents/interns. Sourced from the AHA Annual Survey.	2006-CY
Other Trainees FT (est.)	Estimated Full Time Other Trainees - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Other trainees (PT)	A trainee is a person who has not completed the necessary requirements for certification or met the qualifications required for full salary under a related occupational category. Excludes medical and dental residents/interns. Sourced from the AHA Annual Survey.	2006-CY
Other trainees (vac.)	Number of other trainee vacancies. Sourced from the AHA Annual Survey.	2010-CY
Other transplant - health system	Other transplant services includes heart/lung, or other multi-transplant surgeries. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey	2006-CY
Other Transplant - hospital	Other transplant services includes heart/lung, or other multi-transplant surgeries. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey	2006-CY
Other transplant - joint venture	Other transplant services includes heart/lung, or other multi-transplant surgeries. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Other Transplant - network	Other transplant services includes heart/lung, or other multi-transplant surgeries. Sourced from the AHA Annual Survey	2006-2012
Other treatment area description	Open ended response describing the hospital's primary service provided. Sourced from AHA Annual Survey.	2006-CY
Other type of ER triage system used	A type of triage system other than those specifically identified and used by the emergency department on a daily basis to determine which patients can be seen. Sourced from AHA Annual Survey.	2009-2011
Other type of specialty arrangement, description	Description of another type of physician arrangement/group that does not fit into the categories above. Sourced from the AHA Annual Survey.	2024-CY

Other type of specialty arrangement - Number of physicians	Count of physicians in another type of physician speciality arrangement that does not fit into the other categories. Sourced from the AHA Annual Survey.	2024-CY
Outpatient surgery	Scheduled surgical services provided to patients who do not remain in the hospital overnight. The surgery may be performed in operating suites also used for inpatient surgery, specially designated surgical suites for outpatient surgery, or procedure rooms within an outpatient care facility. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Outpatient surgery - health system	Scheduled surgical services provided to patients who do not remain in the hospital overnight. The surgery may be performed in operating suites also used for inpatient surgery, specially designated surgical suites for outpatient surgery, or procedure rooms within an outpatient care facility. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Outpatient surgery - joint venture	Scheduled surgical services provided to patients who do not remain in the hospital overnight. The surgery may be performed in operating suites also used for inpatient surgery, specially designated surgical suites for outpatient surgery, or procedure rooms within an outpatient care facility. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Outpatient surgery - network	Scheduled surgical services provided to patients who do not remain in the hospital overnight. The surgery may be performed in operating suites also used for inpatient surgery, specially designated surgical suites for outpatient surgery, or procedure rooms within an outpatient care facility. Sourced from the AHA Annual Survey.	2006-2012
Outpatient Visits Emergency (est.)	Estimated Outpatient Visits Emergency - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY

Outpatient Visits Other (est.)	Estimated Outpatient Visits Oter - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Outpatient Visits Total (est.)	Estimated Outpatient Visits Total - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Paid on capitated basis	The percentage of the hospital's net patient revenue that is paid on a capitated base. Capitation is an at-risk payment arrangement in which an organization receives a fixed prearranged payment and in turn guarantees to deliver or arrange all medically necessary care required by enrollers in the capitated plan. The fixed amount is specified within contractual agreements between the payor and the involved organization. Sourced from AHA Annual Survey.	2006-CY
Paid on shared risk basis	The percentage of the hospital's net patient revenue that is paid on a shared risk basis. A payment arrangement in which a hospital and a managed care organization share the risk of adverse claims experience. Methods for sharing risk could include: capitation with partial refunds or supplements if billed hospital charges or costs differ from capitated payments, and service or discharge-based payments with withholds and bonus payouts that depend on expenditure targets. Sourced from AHA Annual Survey.	2006-CY
Pain Management Program	A recognized clinical service or program providing specialized medical care, drugs or therapies for the management of acute or chronic pain and other distressing symptoms, administered by specially trained physicians and other clinicians, to patients suffering from an acute illness of diverse causes. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Pain management program - health system	A recognized clinical service or program providing specialized medical care, drugs or therapies for the management of acute or chronic pain and other distressing symptoms, administered by specially trained physicians and other clinicians, to patients suffering from an acute illness of diverse causes. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Pain management program - joint venture	A recognized clinical service or program providing specialized medical care, drugs or therapies for the management of acute or chronic pain and other distressing symptoms, administered by specially trained physicians and other clinicians, to patients suffering from an acute illness of diverse causes. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Pain Management Program - network	A recognized clinical service or program providing specialized medical care, drugs or therapies for the management of acute or chronic pain and other distressing symptoms, administered by specially trained physicians and other clinicians, to patients suffering from an acute illness of diverse causes. Sourced from the AHA Annual Survey.	2006-2012
Palliative care - advanced practice physician assistants FTE	Full time equivalent physician assistants that provide palliative care services. Palliative care is specialized medical care that focuses on providing relief from pain and other symptoms of a serious illness. Sourced from the AHA Annual Survey.	2024-CY
Palliative care - advanced practice registered nurses FTE	Full time equivalent registered nurses that provide palliative care services. Palliative care is specialized medical care that focuses on providing relief from pain and other symptoms of a serious illness. Sourced from the AHA Annual Survey.	2024-CY
Palliative Care Program	An organized program providing specialized medical care, drugs or therapies for the management of acute or chronic pain and/or the control of symptoms administered by specially trained physicians and other clinicians; and supportive care services, such as counseling on advanced directives, spiritual care, and social services, to patients with advanced disease and their families. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Palliative care program - health system	An organized program providing specialized medical care, drugs or therapies for the management of acute or chronic pain and/or the control of symptoms administered by specially trained physicians and other clinicians; and supportive care services, such as counseling on advanced directives, spiritual care, and social services, to patients with advanced disease and their families. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Palliative care program - joint venture	An organized program providing specialized medical care, drugs or therapies for the management of acute or chronic pain and/or the control of symptoms administered by specially trained physicians and other clinicians; and supportive care services, such as counseling on advanced directives, spiritual care, and social services, to patients with advanced disease and their families. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Palliative Care Program - network	An organized program providing specialized medical care, drugs or therapies for the management of acute or chronic pain and/or the control of symptoms administered by specially trained physicians and other clinicians; and supportive care services, such as counseling on advanced directives, spiritual care, and social services, to patients with advanced disease and their families. Sourced from the AHA Annual Survey.	2006-2012
Participating site recognized for one or more Accreditation Council for Graduate Medical Education accredited programs	Participating site recognized for one or more Accreditation Council for Graduate Medical Education (ACGME) accredited programs (MAPP3). Sourced from Accreditation Council of Graduate Medical Education (ACGME).	2018-CY
Partnership for population health improvement - Faith-based organizations	Sourced from the AHA Annual Survey.	2017-2019
Partnership for population health improvement - Healthcare providers outside your system	Sourced from the AHA Annual Survey.	2017-2019
Partnership for population health improvement - Health insurance companies	Sourced from the AHA Annual Survey.	2017-2019
Partnership for population health improvement - Local or state human/social service organizations	Sourced from the AHA Annual Survey.	2017-2019

Partnership for population health improvement - Local or state public health organizations	Sourced from the AHA Annual Survey.	2017-2019
Partnership for population health improvement - National business	Types of Partnerships: National businesses or chambers of commerce. Sourced from the AHA Annual Survey.	2018-2019
Partnership for population health improvement - Non-profit organizations	Sourced from the AHA Annual Survey.	2017-2019
Partnership for population health improvement - Other	Sourced from the AHA Annual Survey.	2017-2019
Partnership for population health improvement - Other description	Sourced from the AHA Annual Survey.	2017-2019
Partnership for population health improvement - Other local or state government	Sourced from the AHA Annual Survey.	2017-2019
Partnership for population health improvement - Schools	Sourced from the AHA Annual Survey.	2017-2019
Part Time All Other Personnel (est.)	Estimated Part Time All Other Personnel - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Part Time Laboratory technicians (est.)	Estimated Part Time Laboratory technicians - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Part Time Licensed Practical or Vocational Nurses (est.)	Estimated Part Time Licensed Practical or Vocational Nurses - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY

Part Time Medical and Dental Residents (est.)	Estimated Part Time Medical and Dental Residents - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Part Time Nursing assistive personnel (est.)	Estimated Part Time Nursing assistive personnel - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Part time nursing home RNs	Total Part-time nursing home type unit/facility registered nurses. Sourced from the AHA Annual Survey.	2016-CY
Part Time Other Trainees (est.)	Estimated Part Time Other Trainees - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Part Time Pharmacists, licensed (est.)	Estimated Part Time Pharmacists, licensed - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Part Time Pharmacy technicians (est.)	Estimated Part Time Pharmacy technicians - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Part Time Radiology technicians (est.)	Estimated Part Time Radiology technicians - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY

Part Time Registered Nurses (est.)	Estimated Part Time Registered Nurses - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Part Time Respiratory therapists (est.)	Estimated Part Time Respiratory therapists - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2007-CY
Part Time Total Personnel (est.)	Estimated Part Time Total Personnel - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Pathologist - not employed or under contract	Total pathologists with privileges that have no employment or contractual relationship with the hospital to provide services. Sourced from the AHA Annual Survey.	2024-CY
Pathologist - total employed	Total employed physicians that are either direct hospital employees or employees of a hospital subsidiary corporation that practice pathology services. Sourced from the AHA Annual Survey.	2024-CY
Pathologist - total group contract	Total pathologists that are part of a group (group practice, faculty practice plan or medical foundation) under a formal contract to provide services at a hospital including at inpatient and outpatient facilities, clinics and offices. Sourced from the AHA Annual Survey.	2024-CY
Pathologist - total individual contract	Total independent physicians under a formal contract to provide services at a hospital including at outpatient facilities, clinics and offices that practice pathology services. Sourced from the AHA Annual Survey.	2024-CY
Pathologist - total privileged	Sum of all pathologists with privileges that practice emergency medicine. Sourced from the AHA Annual Survey.	2024-CY

Pathology - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Pathology - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Pathology - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Patient communication and education - clinical AI implementation	Hospital uses AI to assist with patient communication and education. Artificial Intelligence (AI) encompasses a broad range of technologies that enable machines to simulate human intelligence and perform tasks that typically require human cognitive abilities. Sourced from the AHA Annual Survey.	2024-CY
Patient Controlled Analgesia	Patient-controlled Analgesia (PCA) is intravenously administered pain medicine under the patient's control. The patient has a button on the end of a cord than can be pushed at will, whenever more pain medicine is desired. This button will only deliver more pain medicine at pre-determined intervals, as programmed by the doctor's order. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Patient controlled analgesia - health system	Patient-controlled Analgesia (PCA) is intravenously administered pain medicine under the patient's control. The patient has a button on the end of a cord than can be pushed at will, whenever more pain medicine is desired. This button will only deliver more pain medicine at pre-determined intervals, as programmed by the doctor's order. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Patient controlled analgesia - joint venture	Patient-controlled Analgesia (PCA) is intravenously administered pain medicine under the patient's control. The patient has a button on the end of a cord than can be pushed at will, whenever more pain medicine is desired. This button will only deliver more pain medicine at pre-determined intervals, as programmed by the doctor's order. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY

Patient Controlled Analgesia - network	Patient-controlled Analgesia (PCA) is intravenously administered pain medicine under the patient's control. The patient has a button on the end of a cord than can be pushed at will, whenever more pain medicine is desired. This button will only deliver more pain medicine at pre-determined intervals, as programmed by the doctor's order. Sourced from the AHA Annual Survey.	2006-2012
Patient education advanced practice nurses	Registered nurses with advanced didactic and clinical education, knowledge, skills, and scope of practice. Sourced from the AHA Annual Survey.	2010-2023
Patient education - advanced practice physician assistants FTE	Full time equivalent physician assistants that provide patient education services. Patient education is the goals and objectives for the patient and/or family related to therapeutic regimens, medical procedures and self-care. Sourced from the AHA Annual Survey.	2024-CY
Patient education - advanced practice registered nurses FTE	Full time equivalent registered nurses that provide patient education services. Patient education is the goals and objectives for the patient and/or family related to therapeutic regimens, medical procedures and self-care. Sourced from the AHA Annual Survey.	2024-CY
Patient education center	Written goals and objectives for the patient and/or family related to therapeutic regimens, medical procedures, and self care. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Patient education center - health system	Written goals and objectives for the patient and/or family related to therapeutic regimens, medical procedures, and self care. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Patient education center - joint venture	Written goals and objectives for the patient and/or family related to therapeutic regimens, medical procedures, and self care. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Patient education center - network	Written goals and objectives for the patient and/or family related to therapeutic regimens, medical procedures, and self care. Sourced from the AHA Annual Survey.	2006-2012

Patient flow and demand forecasting - operation AI implementation	Hospital uses AI to assist with patient flow and demand forecasting. Artificial Intelligence (AI) encompasses a broad range of technologies that enable machines to simulate human intelligence and perform tasks that typically require human cognitive abilities. Sourced from the AHA Annual Survey.	2024-CY
Patient representative services	Organized hospital services providing personnel through whom patients and staff can seek solutions to institutional problems affecting the delivery of high-quality care and services. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Patient representative services - health system	Organized hospital services providing personnel through whom patients and staff can seek solutions to institutional problems affecting the delivery of high-quality care and services. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Patient representative services - joint venture	Organized hospital services providing personnel through whom patients and staff can seek solutions to institutional problems affecting the delivery of high-quality care and services. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Patient representative services - network	Organized hospital services providing personnel through whom patients and staff can seek solutions to institutional problems affecting the delivery of high-quality care and services. Sourced from the AHA Annual Survey.	2006-2012
Patient trust and acceptance - AI implementation challenges	Hospital has encountered patient trust and acceptance as a challenge in implementing AI in clinical and/or operational areas. Sourced from the AHA Annual Survey.	2024-CY
Payer bundled payment arrangement - commercial insurance plan	Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Sourced from the AHA Annual Survey.	2018-2021

Payer bundled payment arrangement - medicaid	Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Sourced from the AHA Annual Survey.	2018-2021
Payer bundled payment arrangement - medicare advantage plan	Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Sourced from the AHA Annual Survey.	2018-2021
Payer bundled payment arrangement - Traditional medicare	Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Sourced from the AHA Annual Survey.	2018-2021
Pediatric cardiac electrophysiology	Evaluation and management of pediatric patients with complex rhythm or conduction abnormalities, including diagnostic testing, treatment of arrhythmias by catheter ablation or drug therapy, and pacemaker/defibrillator implantation and follow-up. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Pediatric cardiac electrophysiology-health system	Evaluation and management of pediatric patients with complex rhythm or conduction abnormalities, including diagnostic testing, treatment of arrhythmias by catheter ablation or drug therapy, and pacemaker/defibrillator implantation and follow-up. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2008-CY

Pediatric cardiac electrophysiology-joint venture	Evaluation and management of pediatric patients with complex rhythm or conduction abnormalities, including diagnostic testing, treatment of arrhythmias by catheter ablation or drug therapy, and pacemaker/defibrillator implantation and follow-up. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2008-CY
Pediatric cardiac electrophysiology-network	Evaluation and management of pediatric patients with complex rhythm or conduction abnormalities, including diagnostic testing, treatment of arrhythmias by catheter ablation or drug therapy, and pacemaker/defibrillator implantation and follow-up. Sourced from the AHA Annual Survey.	2008-2012
Pediatric cardiac surgery - health system	Includes minimally invasive procedures that include surgery done with only a small incision or no incision at all, such as through a laparoscope or an endoscope and more invasive major surgical procedures that include open chest and open heart surgery. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Pediatric cardiac surgery - hospital	Includes minimally invasive procedures that include surgery done with only a small incision or no incision at all, such as through a laparoscope or an endoscope and more invasive major surgical procedures that include open chest and open heart surgery. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Pediatric cardiac surgery - joint venture	Includes minimally invasive procedures that include surgery done with only a small incision or no incision at all, such as through a laparoscope or an endoscope and more invasive major surgical procedures that include open chest and open heart surgery. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Pediatric cardiac surgery - network	Includes minimally invasive procedures that include surgery done with only a small incision or no incision at all, such as through a laparoscope or an endoscope and more invasive major surgical procedures that include open chest and open heart surgery. Sourced from the AHA Annual Survey.	2006-2012

Pediatric cardiology services	Specialized services of medicine that focuses on the diagnosis and treatment of heart conditions in children. This includes congenital heart defects, arrhythmias, and acquired heart diseases such as Kawasaki disease and rheumatic fever. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2009-CY
Pediatric cardiology services - health system	An organized clinical service offering diagnostic and interventional procedures to manage the full range of pediatric heart conditions. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2009-CY
Pediatric cardiology services - joint venture	An organized clinical service offering diagnostic and interventional procedures to manage the full range of pediatric heart conditions. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2009-CY
Pediatric cardiology services - network	An organized clinical service offering diagnostic and interventional procedures to manage the full range of pediatric heart conditions. Sourced from the AHA Annual Survey.	2009-2012
Pediatric diagnostic catheterization	A procedure in which a long, flexible tube (catheter) is put into a blood vessel of children experiencing cardiac issues. The doctor then guides the catheter into the heart to find and treat heart problems. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Pediatric diagnostic catheterization - health system	A procedure in which a long, flexible tube (catheter) is put into a blood vessel of children experiencing cardiac issues. The doctor then guides the catheter into the heart to find and treat heart problems. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Pediatric diagnostic catheterization - joint venture	A procedure in which a long, flexible tube (catheter) is put into a blood vessel of children experiencing cardiac issues. The doctor then guides the catheter into the heart to find and treat heart problems. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY

Pediatric diagnostic catheterization - network	Cardiac angiography, also called coronary angiography or coronary arteriography, is used to assist in diagnosing complex heart conditions. It involves the insertion of a tiny catheter into the artery in the groin then carefully threading the catheter up into the aorta where the coronary arteries originate. Once the catheter is in place, a dye is injected which allows the cardiologist to see the size, shape, and distribution of the coronary arteries. Images are used to diagnose heart disease and to determine, whether or not surgery is indicated. Sourced from the AHA Annual Survey.	2006-2012
Pediatric Emergency Department	An emergency department whose primary focus is the emergency treatment of children and adolescents. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2011-CY
Pediatric emergency department - health system	An emergency department whose primary focus is the emergency treatment of children and adolescents. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2011-CY
Pediatric emergency department - joint venture	An emergency department whose primary focus is the emergency treatment of children and adolescents. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2011-CY
Pediatric emergency department - network	An emergency department whose primary focus is the emergency treatment of children and adolescents. Sourced from the AHA Annual Survey.	2011-2012
pediatric intensive care	Intensivists are board-certified physicians who are additionally certified in the sub-specialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of sub-specialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2009

Pediatric intensive care	Provides care to pediatric patients that is of a more intensive nature than that usually provided to pediatric patients. The unit is staffed with specially trained personnel and contains monitoring and specialized support equipment for treatment of patients who, because of shock, trauma, or other life-threatening conditions, require intensified, comprehensive observation and care. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Pediatric intensive care beds	Staffed beds set up for patient care in a dedicated pediatric intensive care unit. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2006-CY
Pediatric intensive care (FT)	Intensivists are board-certified physicians who are additionally certified in the subspecialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of subspecialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2007-2009
Pediatric intensive care (FTE)	Number of intensivists assigned to pediatric intensive care. Intensivists are board-certified physicians who are additionally certified in the sub-specialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of sub-specialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2007-CY
Pediatric intensive care - health system	Provides care to pediatric patients that is of a more intensive nature than that usually provided to pediatric patients. The unit is staffed with specially trained personnel and contains monitoring and specialized support equipment for treatment of patients who, because of shock, trauma, or other life-threatening conditions, require intensified, comprehensive observation and care. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Pediatric intensive care - joint venture	Provides care to pediatric patients that is of a more intensive nature than that usually provided to pediatric patients. The unit is staffed with specially trained personnel and contains monitoring and specialized support equipment for treatment of patients who, because of shock, trauma, or other life-threatening conditions, require intensified, comprehensive observation and care. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Pediatric intensive care - network	Provides care to pediatric patients that is of a more intensive nature than that usually provided to pediatric patients. The unit is staffed with specially trained personnel and contains monitoring and specialized support equipment for treatment of patients who, because of shock, trauma, or other life-threatening conditions, require intensified, comprehensive observation and care. Sourced from the AHA Annual Survey.	2006-2012
Pediatric intensive care (PT)	Intensivists are board-certified physicians who are additionally certified in the subspecialty of critical care medicine; or physicians board-certified in emergency medicine who have completed a critical care fellowship in an ACGME accredited program; or physicians board-certified in Medicine, Anesthesiology, Pediatrics or Surgery who completed training prior to the availability of subspecialty certification in critical care and who have provided at least six weeks of full-time ICU care annually since 1987. Sourced from the AHA Annual Survey.	2007-2009
Pediatric interventional cardiac catheterization	Nonsurgical procedure that utilizes the same basic principles as diagnostic catheterization and then uses advanced techniques to improve the heart's function of children experiencing cardiac issues. It can be a less invasive alternative to heart surgery. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Pediatric interventional cardiac catheterization - health system	Nonsurgical procedure that utilizes the same basic principles as diagnostic catheterization and then uses advanced techniques to improve the heart's function of children experiencing cardiac issues. It can be a less invasive alternative to heart surgery. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Pediatric interventional cardiac catheterization - joint venture	Nonsurgical procedure that utilizes the same basic principles as diagnostic catheterization and then uses advanced techniques to improve the heart's function of children experiencing cardiac issues. It can be a less invasive alternative to heart surgery. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Pediatric interventional cardiac catheterization - network	Non surgical procedure that utilizes the same basic principles as diagnostic catheterization and then uses advanced techniques to improve the heart's function. It can be a less-invasive alternative to heart surgery. Sourced from the AHA Annual Survey.	2006-2012
Percent of hospital's patient revenue paid through bundled payment arrangements	Indicates the percent of hospital's patient revenue paid through bundled payment arrangements. Sourced from the AHA Annual Survey.	2017-CY
Percent of hospital/system patients covered by accountable care contracts	Pecent of hospital/system patients covered by accountable care contracts. Sourced from the AHA Annual Survey.	2018-CY
Pharmacist, licensed (FTEC)	Full time equivalent pharmacist, licensed. Sourced from the AHA Annual Survey.	2019-CY
Pharmacists licensed - Contracted FTE	Full time equivalent pharmacists that are contracted. Sourced from the AHA Annual Survey.	2022-CY
Pharmacists, licensed (FT)	Number that represents the full-time persons licensed within the state who are concerned with the preparation and distribution of medicinal products. Sourced from the AHA Annual Survey.	2006-CY
Pharmacists, licensed (FTE)	Number that represents the full-time equivalent persons licensed within the state who are concerned with the perparation and distribution of medicinal products. Sourced from the AHA Annual Survey.	2006-CY
Pharmacists, licensed FT (est.)	Estimated Full Time Pharmacists, licensed - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Pharmacists, licensed (PT)	Number that represents the part-time persons licensed within the state who are concerned with the preparation and distribution of medicinal products. Sourced from the AHA Annual Survey.	2006-CY

Pharmacists, licensed (vac.)	Number of licensed pharmacist vacancies. Sourced from the AHA Annual Survey.	2010-CY
Pharmacy Expense	Includes the cost of drugs and pharmacy supplies requested to patient care departments and drugs charged to patients. Sourced from the AHA Annual Survey.	2017-CY
Pharmacy technicians - Contracted FTE	Full time equivalent pharmacy technicians that are contracted. Sourced from the AHA Annual Survey.	2022-CY
Pharmacy technicians (FT)	Number that represents the full-time persons who assist the pharmacist with selected activities, including medication profile reviews for drug incompatibilities, typing labels and prescription packaging, handling or purchase records and inventory control. Sourced from the AHA Annual Survey.	2006-CY
Pharmacy technicians (FTE)	Number that represents the full-time equivalent persons who assist the pharmacist with selected activities, including medication profile reviews for drug incompatibilities, typing labels and prescription packaging, handling or purchase records and inventory control. Sourced from the AHA Annual Survey.	2006-CY
Pharmacy technicians (FTEC)	Full time equivalent pharmacy technicians. Sourced from the AHA Annual Survey.	2019-CY
Pharmacy technicians FT (est.)	Estimated Full Time Pharmacy technicians - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Pharmacy technicians (PT)	Number that represents the part-time persons who assist the pharmacist with selected activities, including medication profile reviews for drug incompatibilities, typing labels and prescription packaging, handling or purchase records and inventory control. Sourced from the AHA Annual Survey.	2006-CY
Pharmacy technicians (vac.)	Number of pharmacy technician vacancies. Sourced from the AHA Annual Survey.	2010-CY
Philippines	Hospital recruits foreign-educated nurses from Philippines. Sourced from the AHA Annual Survey.	2007-CY

Physical Rehabilitation care	Provides care encompassing a comprehensive array of restoration services for the disabled and all support services necessary to help patients attain their maximum functional capacity. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Physical Rehabilitation care beds	Staffed beds set up for patient care in a dedicated physical rehabilitation care unit. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2006-CY
Physical rehabilitation care - health system	Provides care encompassing a comprehensive array of restoration services for the disabled and all support services necessary to help patients attain their maximum functional capacity. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Physical rehabilitation care - joint venture	Provides care encompassing a comprehensive array of restoration services for the disabled and all support services necessary to help patients attain their maximum functional capacity. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Physical Rehabilitation care - network	Provides care encompassing a comprehensive array of restoration services for the disabled and all support services necessary to help patients attain their maximum functional capacity. Sourced from the AHA Annual Survey.	2006-2012
Physical rehabilitation outpatient services	Outpatient program providing medical, health-related, therapy, social, and/or vocational services to help disabled persons attain or retain their maximum functional capacity. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Physical rehabilitation outpatient services - health system	Outpatient program providing medical, health-related, therapy, social, and/or vocational services to help disabled persons attain or retain their maximum functional capacity. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Physical rehabilitation outpatient services - joint venture	Outpatient program providing medical, health-related, therapy, social, and/or vocational services to help disabled persons attain or retain their maximum functional capacity. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Physical rehabilitation outpatient services - network	Outpatient program providing medical, health-related, therapy, social, and/or vocational services to help disabled persons attain or retain their maximum functional capacity. Sourced from the AHA Annual Survey.	2006-2012
Physician Assistant FT	(Full Time) A healthcare professional licensed to practice medicine with supervision of a licensed physician. Sourced from the AHA Annual Survey.	2015-2023
Physician Assistant FTE	(FTE) A healthcare professional licensed to practice medicine with supervision of a licensed physician. Sourced from the AHA Annual Survey.	2015-2023
Physician Assistant PT	(Part Time) A healthcare professional licensed to practice medicine with supervision of a licensed physician. Sourced from the AHA Annual Survey.	2015-2023
Physician & Dentists FT (est.)	Estimated Full Time Physician & Dentists - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Physician & dentists (vac.)	Number of dentist vacancies. Sourced from the AHA Annual Survey.	2010-CY
Physician Group	Cooperative practice of medicine by a group of physicians, each of whom as a rule specializes in some particular field. Sourced from the AHA Annual Survey.	2011-CY
Physicians and dentists (FT)	Number that represents the full-time employed physicians and dentists employed directly by the hospital. Includes only those physicians and dentists engaged in clinical practice and on the payroll. Those who hold administrative positions are reported as other personnel. The number excludes those physicians and dentists who are paid on a fee basis and should not be interpreted as representing the size of the hospital's medical staff. Sourced from the AHA Annual Survey.	2006-CY

Physicians and dentists (FTEC)	Number that represents the full-time equivalent physicians and dentists employed directly by the hospital. Includes only those physicians and dentists engaged in clinical practice and on the payroll. Those who hold administrative positions are reported as other personnel. The number excludes those physicians and dentists who are paid on a fee basis and should not be interpreted as representing the size of the hospital's medical staff. The number is calculated using the following formula: Full-time physicians and dentists + (part-time physicians and dentists / 2). Sourced from the AHA Annual Survey.	2006-CY
Physicians and dentists (PT)	Number that represents the part-time employed physicians and dentists employed directly by the hospital. Includes only those physicians and dentists engaged in clinical practice and on the payroll. Those who hold administrative positions are reported as other personnel. The number excludes those physicians and dentists who are paid on a fee basis and should not be interpreted as representing the size of the hospital's medical staff. Sourced from the AHA Annual Survey.	2006-CY
Physicians and Dentists PT (est.)	Estimated Part Time Physicians and Dentists - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Physicians - contracted FTE	Full time equivalent physicians that are contracted. Sourced from the AHA Annual Survey.	2024-CY
Physicians & dentists (FTE)	The total number of hours worked (excluding non-worked hours such as PTO, etc.) by physicians over the full (12 month) reporting period divided by the normal number of hours worked by a full-time employee for that same time period. This count only includes physicians engaged in clinical practice and on the payroll. Sourced from the AHA Annual Survey.	2006-CY
Physicians in Arrangement with hospital	An integrated healthcare delivery program implementing physician compensation and incentive systems for managed care services. Sourced from the AHA Annual Survey.	2010-2023
Plan for improving community's health	Hospital has a long-term plan for improving the health of its community. Sourced from the AHA Annual Survey.	2006-2010

Population health management - clinical AI implementation	Hospital uses AI to assist with population health management. Artificial Intelligence (AI) encompasses a broad range of technologies that enable machines to simulate human intelligence and perform tasks that typically require human cognitive abilities. Sourced from the AHA Annual Survey.	2024-CY
Positron emission tomography/CT (PET/CT)	Provides metabolic functional information for the monitoring of chemotherapy, radiotherapy, and surgical planning. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Positron emission tomography/CT (PET/CT) - health system	Provides metabolic functional information for the monitoring of chemotherapy, radiotherapy, and surgical planning. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Positron emission tomography/CT (PET/CT) - joint venture	Provides metabolic functional information for the monitoring of chemotherapy, radiotherapy, and surgical planning. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Positron emission tomography/CT (PET/CT) - network	Provides metabolic functional information for the monitoring of chemotherapy, radiotherapy, and surgical planning. Sourced from the AHA Annual Survey.	2006-2012
Positron emission tomography (PET)	Positron emission tomography scanner is a nuclear medicine imaging technology which uses radioactive (positron emitting) isotopes created in a cyclotron or generator and computers to produce composite pictures of the brain and heart at work. PET scanning produces sectional images depicting metabolic activity or blood flow rather than anatomy. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Positron emission tomography (PET) - health system	Positron emission tomography scanner is a nuclear medicine imaging technology which uses radioactive (positron emitting) isotopes created in a cyclotron or generator and computers to produce composite pictures of the brain and heart at work. PET scanning produces sectional images depicting metabolic activity or blood flow rather than anatomy. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Positron emission tomography (PET) - joint venture	Positron emission tomography scanner is a nuclear medicine imaging technology which uses radioactive (positron emitting) isotopes created in a cyclotron or generator and computers to produce composite pictures of the brain and heart at work. PET scanning produces sectional images depicting metabolic activity or blood flow rather than anatomy. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Positron emission tomography (PET) - network	Positron emission tomography scanner is a nuclear medicine imaging technology which uses radioactive (positron emitting) isotopes created in a cyclotron or generator and computers to produce composite pictures of the brain and heart at work. PET scanning produces sectional images depicting metabolic activity or blood flow rather than anatomy. Sourced from the AHA Annual Survey.	2006-2012
PPO	Hospital has an equity interest in a pre-set arrangement in which purchasers and providers agree to furnish specified health services to a group of employees/patients. Sourced from the AHA Annual Survey.	2006-2016
PPO (JV)	Hospital has an equity interest, through a joint venture with an insurer, in a pre-set arrangement in which purchasers and providers agree to furnish specified health services to a group of employees/patients. Sourced from the AHA Annual Survey.	2006-2016
PPO (net.)	Hospital has an equity interest, through its network, in a pre-set arrangement in which purchasers and providers agree to furnish specified health services to a group of employees/patients. Sourced from the AHA Annual Survey.	2006-2016
PPO (sys.)	Hospital has an equity interest, through its system, in a pre-set arrangement in which purchasers and providers agree to furnish specified health services to a group of employees/patients. Sourced from the AHA Annual Survey.	2006-2016
Predictive analytics for patient care - clinical AI implementation	Hospital uses AI for predictive analytics for patient care (including but not limited to outcomes and deterioration). Artificial Intelligence (AI) encompasses a broad range of technologies that enable machines to simulate human intelligence and perform tasks that typically require human cognitive abilities. Sourced from the AHA Annual Survey.	2024-CY

Prenatal and postpartum psychiatric service - health system	Psychiatric care during and post-pregnancy. Includes perinatal depression and postpartum depression. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2020-CY
Prenatal and postpartum psychiatric service - hospital	Psychiatric care during and post-pregnancy. Includes perinatal depression and postpartum depression. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2020-CY
Prenatal and postpartum psychiatric service - joint venture	Psychiatric care during and post-pregnancy. Includes perinatal depression and postpartum depression. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2020-CY
Prenatal and Postpartum services - health system	Pregnancy care consists of prenatal (before birth) and postpartum (after birth) healthcare for expectant mothers. It involves treatments and trainings to ensure a healthy pre-pregnancy, pregnancy, labor and delivery. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2023-CY
Prenatal and Postpartum services - hospital	Pregnancy care consists of prenatal (before birth) and postpartum (after birth) healthcare for expectant mothers. It involves treatments and trainings to ensure a healthy pre-pregnancy, pregnancy, labor and delivery. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2023-CY
Prenatal and Postpartum services - joint venture	Pregnancy care consists of prenatal (before birth) and postpartum (after birth) healthcare for expectant mothers. It involves treatments and trainings to ensure a healthy pre-pregnancy, pregnancy, labor and delivery. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2023-CY
Primary care advanced practice nurses	Registered nurses with advanced didactic and clinical education, knowledge, skills, and scope of practice. Sourced from the AHA Annual Survey.	2010-2023
Primary care clinic - number of facilities	Sourced from the AHA Annual Survey.	2017
Primary care clinic - satellite facility	Sourced from the AHA Annual Survey.	2017

Primary care department	A unit or clinic within the hospital that provides primary care services (e.g. general pediatric care, general internal medicine, family practice, gynecology) through hospital-salaried medical and/or nursing staff, focusing on evaluating and diagnosing medical problems and providing medical treatment on an outpatient basis. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Primary care department - health system	A unit or clinic within the hospital that provides primary care services (e.g. general pediatric care, general internal medicine, family practice, gynecology) through hospital-salaried medical and/or nursing staff, focusing on evaluating and diagnosing medical problems and providing medical treatment on an outpatient basis. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Primary care department - joint venture	A unit or clinic within the hospital that provides primary care services (e.g. general pediatric care, general internal medicine, family practice, gynecology) through hospital-salaried medical and/or nursing staff, focusing on evaluating and diagnosing medical problems and providing medical treatment on an outpatient basis. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Primary care department - network	A unit or clinic within the hospital that provides primary care services (e.g. general pediatric care, general internal medicine, family practice, gynecology) through hospital-salaried medical and/or nursing staff, focusing on evaluating and diagnosing medical problems and providing medical treatment on an outpatient basis. Sourced from the AHA Annual Survey.	2006-2012
Primary care (NE)	Total primary care physicians with privileges that have no employment or contractual relationship with the hospital to provide services. Sourced from the AHA Annual Survey.	2010-CY
Primary care - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020

Primary care - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Primary care - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Primary care services integrated with behavioral health care	Sourced from the AHA Annual Survey.	2017-2020
Primary care services integrated with behavioral health care	Health services that cover a range of prevention, wellness, and treatment for common illnesses. Primary care providers include doctors, nurses, nurse practitioners, and physician assistants. They often maintain long-term relationships with patients and advise and treat a range of health-related issues. Integration means routinely coupling medical services with behavioral health services and could range from co-located physical and behavioral health providers, with some screening and treatment planning, to fully integrated care where behavioral and physical health providers function as a true team in a shared practice. Sourced from the AHA Annual Survey.	2023-CY
Primary care (TC)	Total independent physicians under a formal contract to provide services at a hospital including at outpatient facilities, clinics and offices that practice primary care. Sourced from the AHA Annual Survey.	2010-CY
Primary care (TE)	Total employed physicians that are either direct hospital employees or employees of a hospital subsidiary corporation that practice primary care. Sourced from the AHA Annual Survey.	2010-CY
Primary care (TG)	Total primary care physicians that are part of a group (group practice, faculty practice plan or medical foundation) under a formal contract to provide services at a hospital including at inpatient and outpatient facilities, clinics and offices. Sourced from the AHA Annual Survey.	2010-CY
Primary care (TP)	Sum of all physicians with privileges that practice primary care. A physician that provides primary care services including general practice, general internal medicine, family practice, general pediatrics and geriatrics. Sourced from the AHA Annual Survey.	2010-CY
Primary service	The category best describing the hospital's type of service provided to the majority of admissions.	2006-2008,2017,2

Primary Service	The category best describing the hospital's type of service provided to the majority of admissions. Sourced from AHA Annual Survey and AHA Membership.	2020-CY
Primary Service	The category best describing the hospital's type of service provided to the majority of admissions. Sourced from AHA Annual Survey and AHA Membership.	2006-2019
Privileges only - Number of physicians	The number of physicians that have privileges to serve on the hospital's medical staff without being employed or contracted to do so. Sourced from the AHA Annual Survey.	2024-CY
Property, plant & equipment at cost	Represents land and physical properties that are consumed or used in the creation of economic activity by the health care entity. The historical or acquisition costs are used in recording fixed assets. Sourced from AHA Annual Survey.	2006-CY
Prosthetic and orthotic services	Services providing comprehensive prosthetic and orthotic evaluation, fitting, and training. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2009-CY
Prosthetic and orthotic services - health system	Services providing comprehensive prosthetic and orthotic evaluation, fitting, and training. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2009-CY
Prosthetic and orthotic services - joint venture	Services providing comprehensive prosthetic and orthotic evaluation, fitting, and training. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2009-CY
Prosthetic and orthotic services - network	Services providing comprehensive prosthetic and orthotic evaluation, fitting, and training. Sourced from the AHA Annual Survey.	2009-2012
Proton beam therapy	A form of radiation therapy which administers proton beams. While producing the same biologic effects as x-ray beams, the energy distribution of protons differs from conventional x-ray beams in that they can be more precisely focused in tissue volumes in a three-dimensional pattern resulting in less surrounding tissue damage than conventional radiation therapy permitting administration of higher doses. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2007-CY

Proton beam therapy - health system	A form of radiation therapy which administers proton beams. While producing the same biologic effects as x-ray beams, the energy distribution of protons differs from conventional x-ray beams in that they can be more precisely focused in tissue volumes in a three-dimensional pattern resulting in less surrounding tissue damage than conventional radiation therapy permitting administration of higher doses. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2007-CY
Proton beam therapy - joint venture	A form of radiation therapy which administers proton beams. While producing the same biologic effects as x-ray beams, the energy distribution of protons differs from conventional x-ray beams in that they can be more precisely focused in tissue volumes in a three-dimensional pattern resulting in less surrounding tissue damage than conventional radiation therapy permitting administration of higher doses. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2007-CY
Proton beam therapy - network	A form of radiation therapy which administers proton beams. While producing the same biologic effects as x-ray beams, the energy distribution of protons differs from conventional x-ray beams in that they can be more precisely focused in tissue volumes in a three-dimensional pattern resulting in less surrounding tissue damage than conventional radiation therapy permitting administration of higher doses. Sourced from the AHA Annual Survey.	2007-2012
Psychiatric care	Provides acute or long-term care to emotionally disturbed patients, including patients admitted for diagnosis and those admitted for treatment of psychiatric problems, on the basis of physicians' orders and approved nursing care plans. Long-term care may include intensive supervision to the chronically mentally ill, mentally disordered, or other mentally incompetent persons. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Psychiatric care beds	Staffed beds set up for patient care in a dedicated psychiatric care unit. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2006-CY

Psychiatric care - health system	Provides acute or long-term care to patients with mental or emotional disorders, including patients admitted for diagnosis and those admitted for treatment of psychiatric disorders, on the basis of physicians' orders and approved nursing care plans. Long-term care may include intensive supervision to persons with chronic/severe mental illness. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Psychiatric care - joint venture	This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Psychiatric care - network	Provides acute or long-term care to emotionally disturbed patients, including patients admitted for diagnosis and those admitted for treatment of psychiatric problems, on the basis of physicians' orders and approved nursing care plans. Long-term care may include intensive supervision to the chronically mentally ill, mentally disordered, or other mentally incompetent persons. Sourced from the AHA Annual Survey.	2006-2012
Psychiatric care - number of facilities	Sourced from the AHA Annual Survey.	2017
Psychiatric care - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Psychiatric care - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Psychiatric care - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Psychiatric care - satellite facility	Sourced from the AHA Annual Survey.	2017
Psychiatric child/adolescent services - network	Sourced from the AHA Annual Survey.	2006-2012

Psychiatric consultation and liaison services - acute inpatient care	Provides organized psychiatric consultation/liaison services to nonpsychiatric hospital staff and/or departments on psychological aspects of medical care that may be generic or specific to individual patients. Consultation-liaison psychiatrists work to help people suffering from a combination of mental and physical illness by consulting with them and liaising with other members of their care team. Acute inpatient care provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization. Sourced from the AHA Annual Survey.	2020-CY
Psychiatric consultation and liaison services - emergency services	Provides organized psychiatric consultation/liaison services to nonpsychiatric hospital staff and/or departments on psychological aspects of medical care that may be generic or specific to individual patients. Consultation-liaison psychiatrists work to help people suffering from a combination of mental and physical illness by consulting with them and liaising with other members of their care team. Emergency services consist of health services that are provided after the onset of a medical condition that manifests itself by symptoms of sufficient severity, including severe pain, that the absence of immediate medical attention could reasonably be expected by a prudent layperson, who possesses an average knowledge of health and medicine, to result in placing the patient's health in serious jeopardy. Sourced from the AHA Annual Survey.	2020-CY
Psychiatric consultation and liaison services - extended care	Provides organized psychiatric consultation/liaison services to nonpsychiatric hospital staff and/or departments on psychological aspects of medical care that may be generic or specific to individual patients. Consultation-liaison psychiatrists work to help people suffering from a combination of mental and physical illness by consulting with them and liaising with other members of their care team. Extended care provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization averaging 25 days. Extended care can be offered in a hospital or extended care facility. Sourced from the AHA Annual Survey.	2020-CY

Psychiatric consultation and liaison services - primary care services	Provides organized psychiatric consultation/liaison services to nonpsychiatric hospital staff and/or departments on psychological aspects of medical care that may be generic or specific to individual patients. Consultation-liaison psychiatrists work to help people suffering from a combination of mental and physical illness by consulting with them and liaising with other members of their care team. Primary care services are health services that cover a range of prevention, wellness, and treatment for common illnesses. Primary care providers include doctors, nurses, nurse practitioners, and physician assistants. They often maintain long-term relationships with patients and advise and treat a range of health-related issues. Sourced from the AHA Annual Survey.	2020-CY
Psychiatric consultation/liaison services	Provides organized psychiatric consultation/liaison services to nonpsychiatric hospital staff and/or departments on psychological aspects of medical care that may be generic or specific to individual patients. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Psychiatric consultation/liaison services - health system	Provides organized psychiatric consultation/liaison services to nonpsychiatric hospital staff and/or departments on psychological aspects of medical care that may be generic or specific to individual patients. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Psychiatric consultation/liaison services - joint venture	Provides organized psychiatric consultation/liaison services to nonpsychiatric hospital staff and/or departments on psychological aspects of medical care that may be generic or specific to individual patients. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Psychiatric consultation/liaison services - network	Provides organized psychiatric consultation/liaison services to nonpsychiatric hospital staff and/or departments on psychological aspects of medical care that may be generic or specific to individual patients. Sourced from the AHA Annual Survey.	2006-2012

Psychiatric Disorders - Commercial Insurance Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Psychiatric disorders are mental illnesses that involve a behavioral, emotional, or cognitive dysfunction that causes significant distress or impairment. Sourced from the AHA Annual Survey.	2022-CY
Psychiatric disorder screening - acute inpatient care	Screening for a broad range of mental illnesses that significantly disturb thinking, moods, and behavior that cause significant dysfunction in one's life. Acute inpatient care provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization. Sourced from the AHA Annual Survey.	2021-CY
Psychiatric disorder screening - emergency services	Screening for a broad range of mental illnesses that significantly disturb thinking, moods, and behavior that cause significant dysfunction in one's life. Emergency services consist of health services that are provided after the onset of a medical condition that manifests itself by symptoms of sufficient severity, including severe pain, that the absence of immediate medical attention could reasonably be expected by a prudent layperson, who possesses an average knowledge of health and medicine, to result in placing the patient's health in serious jeopardy. Sourced from the AHA Annual Survey.	2021-CY
Psychiatric disorder screening - extended care	Screening for a broad range of mental illnesses that significantly disturb thinking, moods, and behavior that cause significant dysfunction in one's life. Extended care provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization averaging 25 days. Extended care can be offered in a hospital or extended care facility. Sourced from the AHA Annual Survey. Sourced from the AHA Annual Survey.	2021-CY

Psychiatric disorder screening - primary care services	Screening for a broad range of mental illnesses that significantly disturb thinking, moods, and behavior that cause significant dysfunction in one's life. Primary care services are health services that cover a range of prevention, wellness, and treatment for common illnesses. Primary care providers include doctors, nurses, nurse practitioners, and physician assistants. They often maintain long-term relationships with patients and advise and treat a range of health-related issues. Sourced from the AHA Annual Survey.	2021-CY
Psychiatric Disorders - Medicaid, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Psychiatric disorders are mental illnesses that involve a behavioral, emotional, or cognitive dysfunction that causes significant distress or impairment. Sourced from the AHA Annual Survey.	2022-CY
Psychiatric Disorders - Medicare Advantage Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Psychiatric disorders are mental illnesses that involve a behavioral, emotional, or cognitive dysfunction that causes significant distress or impairment. Sourced from the AHA Annual Survey.	2022-CY

Psychiatric Disorders - Traditional Medicare, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Psychiatric disorders are mental illnesses that involve a behavioral, emotional, or cognitive dysfunction that causes significant distress or impairment. Sourced from the AHA Annual Survey.	2022-CY
Psychiatric education services	Provides psychiatric educational services to community agencies and workers such as schools, police, courts, public health nurses, welfare agencies, clergy, and so forth. The purpose is to expand the mental health knowledge and competence of personnel not working in the mental health field and to promote good mental health through improved understanding, attitudes, and behavioral patterns. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Psychiatric education services - health system	Provides psychiatric educational services to community agencies and workers such as schools, police, courts, public health nurses, welfare agencies, clergy, and so forth. The purpose is to expand the mental health knowledge and competence of personnel not working in the mental health field and to promote good mental health through improved understanding, attitudes, and behavioral patterns. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Psychiatric education services - joint venture	Provides psychiatric educational services to community agencies and workers such as schools, police, courts, public health nurses, welfare agencies, clergy, and so forth. The purpose is to expand the mental health knowledge and competence of personnel not working in the mental health field and to promote good mental health through improved understanding, attitudes, and behavioral patterns. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY

Psychiatric education services - network	Provides psychiatric educational services to community agencies and workers such as schools, police, courts, public health nurses, welfare agencies, clergy, and so forth. The purpose is to expand the mental health knowledge and competence of personnel not working in the mental health field and to promote good mental health through improved understanding, attitudes, and behavioral patterns. Sourced from the AHA Annual Survey.	2006-2012
Psychiatric emergency services	Services of facilities available on a 24-hour basis to provide immediate unscheduled outpatient care, diagnosis, evaluation, crisis intervention, and assistance to persons suffering acute emotional or mental distress. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Psychiatric emergency services - health system	Services of facilities available on a 24-hour basis to provide immediate unscheduled outpatient care, diagnosis, evaluation, crisis intervention, and assistance to persons suffering acute emotional or mental distress. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Psychiatric emergency services - joint venture	Services of facilities available on a 24-hour basis to provide immediate unscheduled outpatient care, diagnosis, evaluation, crisis intervention, and assistance to persons suffering acute emotional or mental distress. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Psychiatric emergency services - network	Services of facilities available on a 24-hour basis to provide immediate unscheduled outpatient care, diagnosis, evaluation, crisis intervention, and assistance to persons suffering acute emotional or mental distress. Sourced from the AHA Annual Survey.	2006-2012
Psychiatric geriatric services	Provides care to emotionally disturbed elderly patients, including those admitted for diagnosis and those admitted for treatment. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Psychiatric geriatric services beds	Staffed beds set up to provide care to elderly patients with mental or emotional disorders, including those admitted for diagnosis and those admitted for treatment. Sourced from the AHA Annual Survey.	2017-CY

Psychiatric geriatric services - health system	Provides care to emotionally disturbed elderly patients, including those admitted for diagnosis and those admitted for treatment. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Psychiatric geriatric services - joint venture	Provides care to emotionally disturbed elderly patients, including those admitted for diagnosis and those admitted for treatment. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Psychiatric geriatric services - network	Provides care to emotionally disturbed elderly patients, including those admitted for diagnosis and those admitted for treatment. Sourced from the AHA Annual Survey.	2006-2012
Psychiatric intensive outpatient services - health system	A prescribed course of treatment in which the patient receives outpatient care no less than three times a week (which might include more than one service/day). Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2017-CY
Psychiatric intensive outpatient services - hospital	A prescribed course of treatment in which the patient receives outpatient care no less than three times a week (which might include more than one service/day). This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2017-CY
Psychiatric intensive outpatient services - joint venture	A prescribed course of treatment in which the patient receives outpatient care no less than three times a week (which might include more than one service/day). This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2017-CY
Psychiatric outpatient services	Provides medical care, including diagnosis and treatment, of psychiatric outpatients. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Psychiatric outpatient services - health system	Provides medical care, including diagnosis and treatment, of psychiatric outpatients. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Psychiatric outpatient services - joint venture	Provides medical care, including diagnosis and treatment, of psychiatric outpatients. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Psychiatric outpatient services - network	Provides medical care, including diagnosis and treatment, of psychiatric outpatients. Sourced from the AHA Annual Survey.	2006-2012
Psychiatric partial hospitalization program	Organized hospital services of intensive day/evening outpatient services of three hours of more duration, distinguished from other outpatient visits of one hour. Sourced from the AHA Annual Survey.	2006-2016
Psychiatric partial hospitalization program - network	Organized hospital services of intensive day/evening outpatient services of three hours of more duration, distinguished from other outpatient visits of one hour. Sourced from the AHA Annual Survey.	2006-2012
Psychiatric partial hospitalization services/adult - health system	Organized hospital services providing intensive day/evening outpatient services of three hours or more duration, distinguished from other outpatient visits of one hour. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2017-CY
Psychiatric partial hospitalization services/adult - hospital	Organized hospital services providing intensive day/evening outpatient services of three hours or more duration, distinguished from other outpatient visits of one hour. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2017-CY
Psychiatric partial hospitalization services/adult - joint venture	This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2017-CY
Psychiatric partial hospitalization services/pediatric - health system	A structured, intensive mental health care program for children and adolescents with severe mental health or substance use disorders. PHP mental health providers offer a range of services, such as individual therapy, skill development, and medication management, all in one location. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2017-CY

Psychiatric partial hospitalization services/pediatric - hospital	A structured, intensive mental health care program for children and adolescents with severe mental health or substance use disorders. PHP mental health providers offer a range of services, such as individual therapy, skill development, and medication management, all in one location. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2017-CY
Psychiatric partial hospitalization services/pediatric - joint venture	A structured, intensive mental health care program for children and adolescents with severe mental health or substance use disorders. PHP mental health providers offer a range of services, such as individual therapy, skill development, and medication management, all in one location. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2017-CY
Psychiatric pediatric care beds	Staffed beds set up for use in psychiatric pediatric care. Sourced from the AHA Annual Survey.	2017-CY
Psychiatric pediatric care - health system	The branch of medicine focused on the diagnosis, treatment and prevention of mental, emotional and behavioral disorders in pediatric patients. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2017-CY
Psychiatric pediatric care - hospital	The branch of medicine focused on the diagnosis, treatment and prevention of mental, emotional and behavioral disorders in pediatric patients. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2017-CY
Psychiatric pediatric care - joint venture	This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2017-CY
Psychiatric residential treatment	A total 24-hour safe, structured environment to provide an array of appropriate and relevant services to address the severity of behavioral disorders. Sourced from the AHA Annual Survey.	2011-2016
Psychiatric residential treatment/adult - health system	Overnight psychiatric care in conjunction with an intensive treatment program in a setting other than a hospital. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2017-CY

Psychiatric residential treatment/adult - hospital	Overnight psychiatric care in conjunction with an intensive treatment program in a setting other than a hospital. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2017-CY
Psychiatric residential treatment/adult - joint venture	Overnight psychiatric care in conjunction with an intensive treatment program in a setting other than a hospital. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2017-CY
Psychiatric residential treatment (JV)	A total 24-hour safe, structured environment to provide an array of appropriate and relevant services to address the severity of behavioral disorders. Sourced from the AHA Annual Survey.	2011-2016
Psychiatric residential treatment - network	A total 24-hour safe, structured environment to provide an array of appropriate and relevant services to address the severity of behavioral disorders. Sourced from the AHA Annual Survey.	2011-2012
Psychiatric residential treatment/pediatric - health system	A residential treatment program is a 24 hour-a-day, year round program that provides intensive help for children or youth with serious emotional, behavioral, or mental health needs. Residential treatment centers (RTC) are usually located in the community and offer various on-site treatment services such as diagnostic evaluation, development of an individual treatment plan, and individual and group therapy. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2017-CY
Psychiatric residential treatment/pediatric - hospital	A residential treatment program is a 24 hour-a-day, year round program that provides intensive help for children or youth with serious emotional, behavioral, or mental health needs. Residential treatment centers (RTC) are usually located in the community and offer various on-site treatment services such as diagnostic evaluation, development of an individual treatment plan, and individual and group therapy. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2017-CY

Psychiatric residential treatment/pediatric - joint venture	A residential treatment program is a 24 hour-a-day, year round program that provides intensive help for children or youth with serious emotional, behavioral, or mental health needs. Residential treatment centers (RTCs) are usually located in the community and offer various on-site treatment services such as diagnostic evaluation, development of an individual treatment plan, and individual and group therapy. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2017-CY
Psychiatric residential treatment (sys.)	A total 24-hour safe, structured environment to provide an array of appropriate and relevant services to address the severity of behavioral disorders. Sourced from the AHA Annual Survey.	2011-2016
Psychology - advanced practice physician assistants FTE	Full time equivalent physician assistants that provide psychology services. Psychology the scientific study of the human mind and its functions, especially those affecting behavior in a given context. Sourced from the AHA Annual Survey.	2024-CY
Psychology - advanced practice registered nurses FTE	Full time equivalent registered nurses that provide psychology services. Psychology the scientific study of the human mind and its functions, especially those affecting behavior in a given context. Sourced from the AHA Annual Survey.	2024-CY
Pulmonary - Commercial Insurance Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Pulmonary is the branch of medicine that deals with the lungs. Sourced from the AHA Annual Survey.	2022-CY

Pulmonary - Medicaid, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Pulmonary is the branch of medicine that deals with the lungs. Sourced from the AHA Annual Survey.	2022-CY
Pulmonary - Medicare Advantage Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. Sourced from the AHA Annual Survey.	2022-CY
Radiation oncology - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020

Radiation oncology - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Radiation oncology - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Radiologist - not employed or under contract	Total radiologists with privileges that have no employment or contractual relationship with the hospital to provide services. Sourced from the AHA Annual Survey.	2024-CY
Radiologists/pathologist/anesthesiologist (NE)	Sourced from the AHA Annual Survey.	2010-2023
Radiologists/pathologist/anesthesiologist (TC)	Sourced from the AHA Annual Survey.	2010-2023
Radiologists/pathologist/anesthesiologist (TE)	Sourced from the AHA Annual Survey.	2010-2023
Radiologists/pathologist/anesthesiologist (TG)	Sourced from the AHA Annual Survey.	2010-2023
Radiologists/pathologist/anesthesiologist (TP)	Sourced from the AHA Annual Survey.	2010-2023
Radiologist - total employed	Total employed physicians that are either direct hospital employees or employees of a hospital subsidiary corporation that practice radiology services. Sourced from the AHA Annual Survey.	2024-CY
Radiologist - total group contract	Total radiologists that are part of a group (group practice, faculty practice plan or medical foundation) under a formal contract to provide services at a hospital including at inpatient and outpatient facilities, clinics and offices. Sourced from the AHA Annual Survey.	2024-CY
Radiologist - total individual contract	Total independent physicians under a formal contract to provide services at a hospital including at outpatient facilities, clinics and offices that practice radiology services. Sourced from the AHA Annual Survey.	2024-CY
Radiologist - total privileged	Sum of all radiologists with privileges that practice emergency medicine. Sourced from the AHA Annual Survey.	2024-CY
Radiology technicians - Contracted FTE	Full time equivalent radiology technicians that are contracted. Sourced from the AHA Annual Survey.	2022-CY
Radiology technicians (FT)	Number that represents the full-time technical positions in imaging fields, including, but not limited to, radiology, sonography, nuclear medicine, radiation therapy, CT, MRI. Sourced from the AHA Annual Survey.	2006-CY

Radiology technicians (FTE)	Number that represents the full-time equivalent technical positions in imaging fields, including, but not limited to, radiology, sonography, nuclear medicine, radiation therapy, CT, MRI. Sourced from the AHA Annual Survey.	2006-CY
Radiology technicians (FTEC)	Full time equivalent radiology technicians. Sourced from the AHA Annual Survey.	2019-CY
Radiology technicians FT (est.)	Estimated Full Time Radiology technicians - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Radiology technicians (PT)	Number that represents the part-time technical positions in imaging fields, including, but not limited to, radiology, sonography, nuclear medicine, radiation therapy, CT, MRI. Sourced from the AHA Annual Survey.	2006-CY
Radiology technicians (vac.)	Number of radiology technician vacancies. Sourced from the AHA Annual Survey.	2010-CY
Regional Emerging Special Pathogen Treatment Center	Sourced from the AHA Annual Survey.	2021-2023
Registered hospital	Indicates whether a hospital is Registered with the American Hospital Association. Membership is not a requirement. Sourced from AHA.	2006-2016
Registered nurses - Contracted FTE	Full time equivalent registered nurses that are contracted. Sourced from the AHA Annual Survey.	2022-CY
Registered nurses (FT)	Number that represents the full-time registered nurses working for the hospital. Registered nurses are defined as nurses who have graduated from approved schools of nursing, and who are currently registered by the state. They are responsible for the nature and quality of all nursing care that patients receive. The number does not include private duty nurses, and nurses in administrative positions are reported as other personnel. Sourced from the AHA Annual Survey.	2006-CY
Registered nurses (FTE)	The total number of hours worked (excluding non-worked hours such as PTO, etc.) by registered nurses over the full (12 month) reporting period divided by the normal number of hours worked by a full-time employee for that same time period. This count only includes personnel engaged in clinical practice and on the payroll. Sourced from the AHA Annual Survey.	2006-CY

Registered nurses (FTEC)	Number that represents the full-time equivalent registered nurses working for the hospital. Registered nurses are defined as nurses who have graduated from approved schools of nursing, and who are currently registered by the state. They are responsible for the nature and quality of all nursing care that patients receive. The number does not include private duty nurses, and nurses in administrative positions are reported as other personnel. The number is calculated using the following formula: Full-time registered nurses + (part-time registered nurses / 2). Sourced from the AHA Annual Survey.	2006-CY
Registered Nurses FT (est.)	Estimated Full Time Registered Nurses - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Registered nurses (PT)	Number that represents the part-time registered nurses working for the hospital. Registered nurses are defined as nurses who have graduated from approved schools of nursing, and who are currently registered by the state. They are responsible for the nature and quality of all nursing care that patients receive. The number does not include private duty nurses, and nurses in administrative positions are reported as other personnel. Sourced from the AHA Annual Survey.	2006-CY
Registered nurses (vac.)	Number of registered nurse vacancies. Sourced from the AHA Annual Survey.	2010-CY
Regulatory compliance and safety concerns - AI implementation challenges	Hospital has encountered regulatory compliance and safety concerns as a challenge in implementing AI in clinical and/or operational areas. Sourced from the AHA Annual Survey.	2024-CY
Rehabilitation - number of facilities	Sourced from the AHA Annual Survey.	2017
Rehabilitation - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Rehabilitation - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020

Rehabilitation - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Rehabilitation - satellite facility	Sourced from the AHA Annual Survey.	2017
REH designation conversion date	Indicates the date when a hospital was converted to REH designation if applicable. Sourced from the AHA Annual Survey.	2024-CY
Reporting Period Beginning Day	Reporting Period Beginning Day	2006-CY
Reporting Period Beginning Month	Reporting Period Beginning Month	2006-CY
Reporting Period Beginning Year	Reporting Period Beginning Year	2006-CY
Reporting Period End Day	Reporting Period End Day	2006-CY
Reporting Period End Month	Reporting Period End Month	2006-CY
Reporting Period End Year	Reporting Period End Year	2006-CY
Reports to community on healthcare services	Hospital disseminates reports to the community on the quality and costs of health care services. Sourced from the AHA Annual Survey.	2006-2010
Residency approved by American Osteopathic Association	Residency approved by American Osteopathic Association (MAPP13). Sourced from the American Osteopathic Association.	2018
Residential care - number of facilities	Sourced from the AHA Annual Survey.	2017
Residential care - satellite facility	Sourced from the AHA Annual Survey.	2017
Resource allocation during emergencies - clinical AI implementation	Hospital uses AI to assist with creating or interpreting predictive models for resource allocation. Artificial Intelligence (AI) encompasses a broad range of technologies that enable machines to simulate human intelligence and perform tasks that typically require human cognitive abilities. Sourced from the AHA Annual Survey.	2024-CY
Respiratory therapists - Contracted FTE	Full time equivalent respiratory therapists that are contracted. Sourced from the AHA Annual Survey.	2022-CY
Respiratory therapists (FT)	Number of respiratory therapists (FT). Sourced from the AHA Annual Survey.	2007-CY
Respiratory therapists (FTE)	The total number of hours worked (excluding non-worked hours such as PTO, etc.) by Respiratory therapists over the full (12 month) reporting period divided by the normal number of hours worked by a full-time employee for that same time period. This count only includes personnel engaged in clinical practice and on the payroll. Sourced from the AHA Annual Survey.	2007-CY
Respiratory therapists (FTEC)	Full time equivalent respiratory therapists. Sourced from the AHA Annual Survey.	2019-CY

Respiratory therapists FT (est.)	Estimated Full Time Respiratory therapists - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2007-CY
Respiratory therapists (PT)	Number of respiratory therapists (PT). Sourced from the AHA Annual Survey.	2007-CY
Respiratory therapists (vac.)	Number of respiratory therapist vacancies. Sourced from the AHA Annual Survey.	2010-CY
Response code	Indicated whether a hospital submitted a response to the AHA Annual Survey.	2006-CY
Retirement housing	A facility that provides social activities to senior citizens, usually retired persons, who do not require health care but some short-term skilled nursing care may be provided. A retirement center may furnish housing and may also have acute hospital and long-term care facilities, or it may arrange for acute and long-term care through affiliated institutions. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Retirement housing - health system	A facility that provides social activities to senior citizens, usually retired persons, who do not require health care but some short-term skilled nursing care may be provided. A retirement center may furnish housing and may also have acute hospital and long-term care facilities, or it may arrange for acute and long-term care through affiliated institutions. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Retirement housing - joint venture	A facility that provides social activities to senior citizens, usually retired persons, who do not require health care but some short-term skilled nursing care may be provided. A retirement center may furnish housing and may also have acute hospital and long-term care facilities, or it may arrange for acute and long-term care through affiliated institutions. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY

Retirement housing - network	A facility that provides social activities to senior citizens, usually retired persons, who do not require health care but some short-term skilled nursing care may be provided. A retirement center may furnish housing and may also have acute hospital and long-term care facilities, or it may arrange for acute and long-term care through affiliated institutions. Sourced from the AHA Annual Survey.	2006-2012
Revenue cycle management - operation AI implementation	Hospital uses AI to assist with revenue cycle management including but not limited to billing and claims processing. Artificial Intelligence (AI) encompasses a broad range of technologies that enable machines to simulate human intelligence and perform tasks that typically require human cognitive abilities. Sourced from the AHA Annual Survey.	2024-CY
RN Direct Patient Care (FTE)	Sourced from the AHA Annual Survey.	2015-2023
Robot-assisted walking therapy	A form of physical therapy that uses a robotic device to assist patients who are relearning how to walk. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2008-CY
Robot-assisted walking therapy - health system	A form of physical therapy that uses a robotic device to assist patients who are relearning how to walk. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2008-CY
Robot-assisted walking therapy - joint venture	A form of physical therapy that uses a robotic device to assist patients who are relearning how to walk. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2008-CY
Robot-assisted walking therapy - network	A form of physical therapy that uses a robotic device to assist patients who are relearning how to walk. Sourced from the AHA Annual Survey.	2008-2012
Robotic surgery	The use of mechanical guidance devices to remotely manipulate surgical instrumentation. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Robotic surgery - health system	The use of mechanical guidance devices to remotely manipulate surgical instrumentation. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Robotic surgery - joint venture	The use of mechanical guidance devices to remotely manipulate surgical instrumentation. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Robotic surgery - network	The use of mechanical guidance devices to remotely manipulate surgical instrumentation. Sourced from the AHA Annual Survey.	2006-2012
Rural Health Clinic	A clinic located in a rural, medically under-served area in the United States that has a separate reimbursement structure from the standard medical office under the Medicare and Medicaid programs. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2010-CY
Rural health clinic - health system	A clinic located in a rural, medically under-served area in the United States that has a separate reimbursement structure from the standard medical office under the Medicare and Medicaid programs. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2010-CY
Rural health clinic - joint venture	A clinic located in a rural, medically under-served area in the United States that has a separate reimbursement structure from the standard medical office under the Medicare and Medicaid programs. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2010-CY
Rural health clinic - network	A clinic located in a rural, medically under-served area in the United States that has a separate reimbursement structure from the standard medical office under the Medicare and Medicaid programs. Sourced from the AHA Annual Survey.	2010-2012
Rural Referral Center	Large rural specialty facilities with 275 or more beds that may receive higher DSH (disproportionate share hospital) payments. (MAPP19) Sourced from the Centers for Medicare and Medicaid.	2009-CY
Satellite facilities	Satellite Services are available at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2007-2017
Self-pay inpatient days (est.)	Sourced from the AHA Annual Survey.	2022-CY
Self-pay inpatient discharges (est.)	Sourced from the AHA Annual Survey.	2022-CY
Separate long-term nursing home	Indicates if hospital owns or operates a nursing home time unit or facility. Sourced from the AHA Annual Survey	2006-CY

Shaped beam Radiation System	A precise, non-invasive treatment that involves targeting beams of radiation that mirror the exact size and shape of a tumor at a specific area of a tumor to shrink or destroy cancerous cells. This procedure delivers a therapeutic dose of radiation that conforms precisely to the shape of the tumor, thus minimizing the risk to nearby tissues. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Shaped beam radiation system - health system	A precise, non-invasive treatment that involves targeting beams of radiation that mirror the exact size and shape of a tumor at a specific area of a tumor to shrink or destroy cancerous cells. This procedure delivers a therapeutic dose of radiation that conforms precisely to the shape of the tumor, thus minimizing the risk to nearby tissues. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Shaped beam radiation system - joint venture	A precise, non-invasive treatment that involves targeting beams of radiation that mirror the exact size and shape of a tumor at a specific area of a tumor to shrink or destroy cancerous cells. This procedure delivers a therapeutic dose of radiation that conforms precisely to the shape of the tumor, thus minimizing the risk to nearby tissues. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Shaped beam Radiation System - network	A precise, non-invasive treatment that involves targeting beams of radiation that mirror the exact size and shape of a tumor at a specific area of a tumor to shrink or destroy cancerous cells. This procedure delivers a therapeutic dose of radiation that conforms precisely to the shape of the tumor, thus minimizing the risk to nearby tissues. Sourced from the AHA Annual Survey.	2006-2012
Simulated rehabilitation environment	Rehabilitation focused on retraining functional skills in a contextually appropriate environment (simulated home and community settings) or in a traditional setting (gymnasium) using motor learning principles. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2008-CY

Simulated rehabilitation environment - health system	Rehabilitation focused on retraining functional skills in a contextually appropriate environment (simulated home and community settings) or in a traditional setting (gymnasium) using motor learning principles. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2008-CY
Simulated rehabilitation environment - joint venture	Rehabilitation focused on retraining functional skills in a contextually appropriate environment (simulated home and community settings) or in a traditional setting (gymnasium) using motor learning principles. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2008-CY
Simulated rehabilitation environment - network	Rehabilitation focused on retraining functional skills in a contextually appropriate environment (simulated home and community settings) or in a traditional setting (gymnasium) using motor learning principles. Sourced from the AHA Annual Survey.	2008-2012
Single photon emission computerized tomography (SPECT)	Single photon emission computerized tomography is a nuclear medicine imaging technology that combines existing technology of gamma camera imaging with computed tomographic imaging technology to provide a more precise and clear image. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Single photon emission computerized tomography (SPECT) - health system	Single photon emission computerized tomography is a nuclear medicine imaging technology that combines existing technology of gamma camera imaging with computed tomographic imaging technology to provide a more precise and clear image. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Single photon emission computerized tomography (SPECT) - joint venture	Single photon emission computerized tomography is a nuclear medicine imaging technology that combines existing technology of gamma camera imaging with computed tomographic imaging technology to provide a more precise and clear image. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY

Single photon emission computerized tomography (SPECT) - network	Single photon emission computerized tomography is a nuclear medicine imaging technology that combines existing technology of gamma camera imaging with computed tomographic imaging technology to provide a more precise and clear image. Sourced from the AHA Annual Survey.	2006-2012
Single specialty physician arrangement - Number of physicians	A single specialty physician arrangement or group is composed of members who practice within the same specialty. The count indicates number of physicians involved in this arrangement. Sourced from the AHA Annual Survey.	2024-CY
Skilled nursing care	Provides non-acute medical and skilled nursing care services, therapy, and social services under the supervision of a licensed registered nurse on a 24-hour basis. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Skilled nursing care beds	Staffed beds set up for patient care in a dedicated skilled nursing care unit. Staffed beds are beds actually set up for patient use. Licensed beds usually refers to the maximum number of beds for which a hospital has been licensed by the state in which it is located. Sourced from the AHA Annual Survey.	2006-CY
Skilled nursing care - health system	Provides non-acute medical and skilled nursing care services, therapy, and social services under the supervision of a licensed registered nurse on a 24-hour basis. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Skilled nursing care - joint venture	Provides non-acute medical and skilled nursing care services, therapy, and social services under the supervision of a licensed registered nurse on a 24-hour basis. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Skilled nursing care - network	Provides non-acute medical and skilled nursing care services, therapy, and social services under the supervision of a licensed registered nurse on a 24-hour basis. Sourced from the AHA Annual Survey.	2006-2012
Skilled nursing - number of facilities	Sourced from the AHA Annual Survey.	2017
Skilled nursing - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020

Skilled nursing - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Skilled nursing - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Skilled nursing - satellite facility	Sourced from the AHA Annual Survey.	2017
Sleep Center	Specially equipped and staffed center for the diagnosis and treatment of sleep disorders. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Sleep center - health system	Specially equipped and staffed center for the diagnosis and treatment of sleep disorders. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Sleep center - joint venture	Specially equipped and staffed center for the diagnosis and treatment of sleep disorders. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Sleep Center - network	Specially equipped and staffed center for the diagnosis and treatment of sleep disorders. Sourced from the AHA Annual Survey.	2006-2012
Small group - do not know	Sourced from the AHA Annual Survey.	2017
Small group - do not know	A group health plan that covers employees of an employer that has less than 50 employees - do not know if offered. Sourced from the AHA Annual Survey.	2018-CY
Small group - hospital	A group health plan that covers employees of an employer that has less than 50 employees - offered by hospital. Sourced from the AHA Annual Survey.	2018-CY
Small group - hospital	Sourced from the AHA Annual Survey.	2017
Small group - joint venture	A group health plan that covers employees of an employer that has less than 50 employees - offered as a joint venture. Sourced from the AHA Annual Survey.	2018-CY
Small group - joint venture	Sourced from the AHA Annual Survey.	2017
Small group - new product	A group health plan that covers employees of an employer that has less than 50 employees. Sourced from the AHA Annual Survey.	2018-2021
Small group - no	A group health plan that covers employees of an employer that has less than 50 employees - not offered. Sourced from the AHA Annual Survey.	2018-CY
Small group - no	Sourced from the AHA Annual Survey.	2017

Small group - system	A group health plan that covers employees of an employer that has less than 50 employees - offered by system. Sourced from the AHA Annual Survey.	2018-CY
Small group - system	Sourced from the AHA Annual Survey.	2017
Social and community psychiatry - health system	Social psychiatry deals with social factors associated with psychiatric morbidity, social effects of mental illness, psycho-social disorders and social approaches to psychiatric care. Community psychiatry focuses on detection, prevention, early treatment and rehabilitation of emotional and behavioral disorders as they develop in a community. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2020-CY
Social and community psychiatry - hospital	Social psychiatry deals with social factors associated with psychiatric morbidity, social effects of mental illness, psycho-social disorders and social approaches to psychiatric care. Community psychiatry focuses on detection, prevention, early treatment and rehabilitation of emotional and behavioral disorders as they develop in a community. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2020-CY
Social and community psychiatry - joint venture	Social psychiatry deals with social factors associated with psychiatric morbidity, social effects of mental illness, psycho-social disorders and social approaches to psychiatric care. Community psychiatry focuses on detection, prevention, early treatment and rehabilitation of emotional and behavioral disorders as they develop in a community. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2020-CY
Social isolation program/strategy	Sourced from the AHA Annual Survey.	2020-2023
Social isolation screening	Sourced from the AHA Annual Survey.	2020-2023
Social work services	Organized services that are properly directed and sufficiently staffed by qualified individuals who provide assistance and counseling to patients and their families in dealing with social, emotional, and environmental problems associated with illness or disability, often in the context of financial or discharge planning coordination. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Social work services - health system	Organized services that are properly directed and sufficiently staffed by qualified individuals who provide assistance and counseling to patients and their families in dealing with social, emotional, and environmental problems associated with illness or disability, often in the context of financial or discharge planning coordination. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Social work services - joint venture	Organized services that are properly directed and sufficiently staffed by qualified individuals who provide assistance and counseling to patients and their families in dealing with social, emotional, and environmental problems associated with illness or disability, often in the context of financial or discharge planning coordination. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Social work services - network	Organized services that are properly directed and sufficiently staffed by qualified individuals who provide assistance and counseling to patients and their families in dealing with social, emotional, and environmental problems associated with illness or disability, often in the context of financial or discharge planning coordination. Sourced from the AHA Annual Survey.	2006-2012
Sole Community Provider	Geographically isolated hospitals that are paid the greater of the current PPS rate or a base year cost per discharge updated to the current year and that may also receive higher DSH (disproportionate share hospital) payments. (MAPP20) Sourced from the Centers for Medicare and Medicaid.	2009-CY
Special Pathogen Assessment Center	Sourced from the AHA Annual Survey.	2021-2023
Special Pathogen Treatment Center	Sourced from the AHA Annual Survey.	2021-2023
Specialty clinic - number of facilities	Sourced from the AHA Annual Survey.	2017
Specialty clinic - satellite facility	Sourced from the AHA Annual Survey.	2017
Sports medicine	Provision of diagnostic screening and assessment and clinical and rehabilitation services for the prevention and treatment of sports-related injuries. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY

Sports medicine - health system	Provision of diagnostic screening and assessment and clinical and rehabilitation services for the prevention and treatment of sports-related injuries. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Sports medicine - joint venture	Provision of diagnostic screening and assessment and clinical and rehabilitation services for the prevention and treatment of sports-related injuries. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Sports medicine - network	Provision of diagnostic screening and assessment and clinical and rehabilitation services for the prevention and treatment of sports-related injuries. Sourced from the AHA Annual Survey.	2006-2012
Staffed bed change during reporting period	Sourced from the AHA Annual Survey.	2020
Staff scheduling and workforce management - operation AI implementation	Hospital uses AI to assist with staff scheduling and workforce management. Artificial Intelligence (AI) encompasses a broad range of technologies that enable machines to simulate human intelligence and perform tasks that typically require human cognitive abilities. Sourced from the AHA Annual Survey.	2024-CY
Staff training and upskilling - AI implementation challenges	Hospital has encountered staff training and upskilling as a challenge in implementing AI in clinical and/or operational areas. Sourced from the AHA Annual Survey.	2024-CY
State (mailing)	Sourced from AHA Membership.	CY
State (physical)	Sourced from AHA Membership.	2006-CY
Stereotactic radiosurgery	Stereotactic radiosurgery (SRS) is a radiotherapy modality that delivers a high dosage of radiation to a discrete treatment area in as few as one treatment session. Includes gamma knife, cyberknife, etc. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Stereotactic radiosurgery - health system	Stereotactic radiosurgery (SRS) is a radiotherapy modality that delivers a high dosage of radiation to a discrete treatment area in as few as one treatment session. Includes gamma knife, cyberknife, etc. provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Stereotactic radiosurgery - joint venture	Stereotactic radiosurgery (SRS) is a radiotherapy modality that delivers a high dosage of radiation to a discrete treatment area in as few as one treatment session. Includes gamma knife, cyberknife, etc. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Stereotactic radiosurgery - network	Stereotactic radiosurgery (SRS) is a radiotherapy modality that delivers a high dosage of radiation to a discrete treatment area in as few as one treatment session. Includes gamma knife, cyberknife, etc. Sourced from the AHA Annual Survey.	2006-2012
Strategic plan includes quality improvement goals for diverse patient populations	Hospital's strategic plan includes goals for improving quality of care of culturally and linguistically-diverse patient populations. Sourced from the AHA Annual Survey.	2011-2012
Stroke care - health system	A range of services to reduce death and disability through the provision of specialist multidisciplinary care for diagnosis, emergency treatments, normalisation of homeostasis, prevention of complications, rehabilitation and secondary prevention. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2024-CY
Stroke care - hospital	A range of services to reduce death and disability through the provision of specialist multidisciplinary care for diagnosis, emergency treatments, normalisation of homeostasis, prevention of complications, rehabilitation and secondary prevention. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2024-CY
Stroke care - joint venture	A range of services to reduce death and disability through the provision of specialist multidisciplinary care for diagnosis, emergency treatments, normalisation of homeostasis, prevention of complications, rehabilitation and secondary prevention. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system.	2024-CY
Substance abuse/chemical dependency - number of facilities	The number of facilities providing substance abuse/chemical dependencies services. Sourced from the AHA Annual Survey.	2017

Substance abuse/chemical dependency - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2019
Substance abuse/chemical dependency - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital.	2018-2019
Substance abuse/chemical dependency - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2019
Substance abuse/chemical dependency - satellite facility	Substance abuse/chemical dependency - satellite facility. A satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2017
Substance use disorder care	Provides diagnosis and therapeutic services to patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal. Owned or provided by hospital or subsidiary. Sourced from the AHA Annual Survey.	2020-CY
Substance use disorder care beds	Staffed beds set up for patient care in a dedicated alcohol/drug abuse or dependency care unit. Sourced from the AHA Annual Survey.	2020-CY
Substance use disorder care - health system	Provides diagnosis and therapeutic services to patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal. Sourced from the AHA Annual Survey.	2020-CY
Substance use disorder care - joint venture	Provides diagnosis and therapeutic services to patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2020-CY

Substance use disorder care - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2020
Substance use disorder care - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2020
Substance use disorder care - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2020
Substance use disorder outpatient services	Organized hospital services that provide medical care and/or rehabilitative treatment services to outpatients for whom the primary diagnosis is alcoholism or other chemical dependency. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2020-CY
Substance use disorder outpatient services - health system	Organized hospital services that provide medical care and/or rehabilitative treatment services to outpatients for whom the primary diagnosis is alcoholism or other chemical dependency. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2020-CY
Substance use disorder outpatient services - joint venture	Organized hospital services that provide medical care and/or rehabilitative treatment services to outpatients for whom the primary diagnosis is alcoholism or other chemical dependency. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2020-CY
Substance use disorder partial hospitalization services - health system	Organized hospital services providing intensive day/evening outpatient services of three hour or more duration, distinguished from other outpatient visits of one hour. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2020-CY
Substance use disorder partial hospitalization services - hospital	Organized hospital services providing intensive day/evening outpatient services of three hour or more duration, distinguished from other outpatient visits of one hour. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2020-CY

Substance use disorder partial hospitalization services - joint venture	Organized hospital services that provide medical care and/or rehabilitative treatment services to outpatients for whom the primary diagnosis is alcoholism or other chemical dependency. At the joint venture level. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2020-CY
Substance use disorder pediatric services beds	Staffed pediatric beds set up for patient care in a dedicated alcohol/drug abuse or dependency care unit. Sourced from the AHA Annual Survey.	2020-CY
Substance use disorder pediatric services - health system	Provides diagnosis and therapeutic services to pediatric patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2020-CY
Substance use disorder pediatric services - hospital	Provides diagnosis and therapeutic services to pediatric patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2020-CY
Substance use disorder pediatric services - joint venture	Provides diagnosis and therapeutic services to pediatric patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal. At the joint venture level. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2020-CY

Substance Use Disorders - Commercial Insurance Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Substance-use disorders are medical illnesses characterized by clinically significant impairments in health, social function, and voluntary control over use of substances such as alcohol, prescription and non-prescription drugs. Sourced from the AHA Annual Survey.	2022-CY
Substance use disorder screening - acute inpatient care	A range of medical illnesses characterized by clinically significant impairments in health, social function, and voluntary control over use of substances such as alcohol, prescription and non-prescription drugs. Acute inpatient care provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization. Sourced from the AHA Annual Survey.	2021-CY
Substance use disorder screening - emergency services	A range of medical illnesses characterized by clinically significant impairments in health, social function, and voluntary control over use of substances such as alcohol, prescription and non-prescription drugs. Emergency services consist of health services that are provided after the onset of a medical condition that manifests itself by symptoms of sufficient severity, including severe pain, that the absence of immediate medical attention could reasonably be expected by a prudent layperson, who possesses an average knowledge of health and medicine, to result in placing the patient's health in serious jeopardy. Sourced from the AHA Annual Survey.	2021-CY

Substance use disorder screening - extended care	A range of medical illnesses characterized by clinically significant impairments in health, social function, and voluntary control over use of substances such as alcohol, prescription and non-prescription drugs. Extended care provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization averaging 25 days. Extended care can be offered in a hospital or extended care facility. Sourced from the AHA Annual Survey. Sourced from the AHA Annual Survey.	2021-CY
Substance use disorder screening - primary care services	A range of medical illnesses characterized by clinically significant impairments in health, social function, and voluntary control over use of substances such as alcohol, prescription and non-prescription drugs. Primary care providers include doctors, nurses, nurse practitioners, and physician assistants. They often maintain long-term relationships with patients and advise and treat a range of health-related issues. Sourced from the AHA Annual Survey.	2021-CY
Substance Use Disorders - Medicaid, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Substance-use disorders are medical illnesses characterized by clinically significant impairments in health, social function, and voluntary control over use of substances such as alcohol, prescription and non-prescription drugs. Sourced from the AHA Annual Survey.	2022-CY

Substance Use Disorders - Medicare Advantage Plan, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Substance-use disorders are medical illnesses characterized by clinically significant impairments in health, social function, and voluntary control over use of substances such as alcohol, prescription and non-prescription drugs. Sourced from the AHA Annual Survey.	2022-CY
Substance Use Disorders - Traditional Medicare, bundled payment arrangement	Bundling is a payment mechanism whereby a provider entity (primary or specialty) receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care. Substance-use disorders are medical illnesses characterized by clinically significant impairments in health, social function, and voluntary control over use of substances such as alcohol, prescription and non-prescription drugs. Sourced from the AHA Annual Survey.	2022-CY
Suicide prevention services - health system	A collection of efforts to reduce the risk of suicide. These efforts may occur at the individual, relationship, community and society levels. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2020-CY
Suicide prevention services - hospital	A collection of efforts to reduce the risk of suicide. These efforts may occur at the individual, relationship, community and society levels. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2020-CY

Suicide prevention services - joint venture	A collection of efforts to reduce the risk of suicide. These efforts may occur at the individual, relationship, community and society levels. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2020-CY
Supplies purchased directly	Indicates whether supplies are purchased directly through distributor. Sourced from the AHA Annual Survey.	2010-CY
Supply chain optimization - operation AI implementation	Hospital uses AI to assist with supply chain optimization. Artificial Intelligence (AI) encompasses a broad range of technologies that enable machines to simulate human intelligence and perform tasks that typically require human cognitive abilities. Sourced from the AHA Annual Survey.	2024-CY
Supply expense	The net cost of all tangible items that are expensed including freight, standard distribution cost, and sales and use tax minus rebates. This would exclude labor, labor-related expenses and services as well as some tangible items that are frequently provided as part of labor costs. Sourced from AHA Annual Survey.	2006-CY
Support for community building activities	Hospital provides support for community building activities. Sourced from the AHA Annual Survey.	2007-2010
Support groups	A hospital-sponsored program that allows a group of individuals with the same or similar problems who meet periodically to share experiences, problems, and solutions in order to support each other. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Support groups - health system	A hospital-sponsored program that allows a group of individuals with the same or similar problems who meet periodically to share experiences, problems, and solutions in order to support each other. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Support groups - joint venture	A hospital-sponsored program that allows a group of individuals with the same or similar problems who meet periodically to share experiences, problems, and solutions in order to support each other. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY

Support groups - network	A hospital-sponsored program that allows a group of individuals with the same or similar problems who meet periodically to share experiences, problems, and solutions in order to support each other. Sourced from the AHA Annual Survey.	2006-2012
Supportive housing services - health system	A hospital program that provides decent, safe, affordable, community-based housing with flexible support services designed to help the individual or family stay housed and live a more productive life in the community. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2018-CY
Supportive housing services - hospital	A hospital program that provides decent, safe, affordable, community-based housing with flexible support services designed to help the individual or family stay housed and live a more productive life in the community. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2018-CY
Supportive housing services - joint venture	A hospital program that provides decent, safe, affordable, community-based housing with flexible support services designed to help the individual or family stay housed and live a more productive life in the community. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2018-CY
Surgical - Limited Service	A range of services related to surgical treatments. These include the use of operation room and recovery room, operative and cutting-procedures, treatment of fractures and dislocations, surgical dressings, and other medically necessary services. Sourced from the AHA Annual Survey.	2006-CY
Surgical operations (inpatient)	Surgical services provided to patients who remain in the hospital overnight. Sourced from the AHA Annual Survey.	2006-CY
Surgical Operations Inpatient (est.)	Estimated Surgical Operations Inpatient - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY

Surgical operations (outpatient)	Scheduled surgical services provided to patients who do not remain in the hospital overnight. In the AHA Annual Survey, outpatient surgery may be performed in operating suites also used for inpatient surgery, specially designated surgical suites for outpatient surgery, or procedure rooms within an outpatient care facility. Sourced from the AHA Annual Survey.	2006-CY
Surgical Operations Outpatient (est.)	Estimated Surgical Operations Outpatient - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Surgical Operations Total (est.)	Estimated Surgical Operations Total -defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Swing bed services	A hospital bed that can be used to provide either acute or long-term care depending on community or patient needs. To be eligible a hospital must have a Medicare provider agreement in place, have fewer than 100 beds, be located in a rural area, do not have a 24 hour nursing service waiver in effect, have not been terminated from the program in the prior two years, and meet various service conditions. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Swing bed services - health system	A hospital bed that can be used to provide either acute or long-term care depending on community or patient needs. To be eligible a hospital must have a Medicare provider agreement in place, have fewer than 100 beds, be located in a rural area, do not have a 24 hour nursing service waiver in effect, have not been terminated from the program in the prior two years, and meet various service conditions. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Swing bed services - joint venture	A hospital bed that can be used to provide either acute or long-term care depending on community or patient needs. To be eligible a hospital must have a Medicare provider agreement in place, have fewer than 100 beds, be located in a rural area, do not have a 24 hour nursing service waiver in effect, have not been terminated from the program in the prior two years, and meet various service conditions. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Swing bed services - network	A hospital bed that can be used to provide either acute or long-term care depending on community or patient needs. To be eligible a hospital must have a Medicare provider agreement in place, have fewer than 100 beds, be located in a rural area, do not have a 24 hour nursing service waiver in effect, have not been terminated from the program in the prior two years, and meet various service conditions. Sourced from the AHA Annual Survey.	2006-2012
System Address	System street address. Sourced from AHA Membership.	2006-CY
System address 2	Sourced from AHA Membership.	CY
System area code	Area code for system affiliated with hospital. Sourced from AHA Membership.	2024-CY
System Area code	System area code	2006-CY
System City	System city. Sourced from AHA Membership.	2006-CY
System Contact Title	System contact title. Sourced from AHA Membership.	2006-CY
System established a clinically integrated network	A clinically integrated network is a collection of healthcare providers, such as physicians, hospitals, and post-acute care treatment providers, that come together to improve patient care and reduce overall healthcare costs. Clinically integrated networks rely on evidence-based care guidelines to provide high-quality care across participating providers. Sourced from the AHA Annual Survey.	2017-2019
System established medical home program	The medical home concept refers to the provision of comprehensive primary care services that facilitates communication and shared decision-making between the patient, his/her primary care providers, other providers, and the patient's family. Sourced from the AHA Annual Survey.	2017-CY
System fax	Sourced from AHA Membership.	CY
System ID	Unique numerical identifier assigned by AHA to each health system. The information in this field comes from the AHA membership database.	2006-CY

System member	Indicates whether a hospital is affiliated with a healthcare system. A multihospital health care system is two or more hospitals owned, leased, sponsored, or contract managed by a central organization. Sourced from AHA Membership.	2006-CY
System Name	Health care system organization name. Sourced from AHA Membership	2006-CY
System phone	Sourced from AHA Membership.	CY
System Phone	System phone number	2006-CY
System Primary Contact	System primary contact. Sourced from AHA Membership.	2009-CY
System State	System state. Sourced from AHA Membership.	2006-CY
System telephone number	Phone number for system affiliated with hospital. Sourced from AHA Membership.	2024-CY
System Zip	System zip code. Sourced from AHA Membership.	2006-CY
Teaching Affiliation	Major Teaching Hospitals - those that are a member of the Association of American Medical Colleges (AAMC, formerly COTH); Minor Teaching Hospitals - those Approved to participate in residency and/or internship training by the Accreditation Council for Graduate Medical Education (ACGME), or American Osteopathic Association (AOA); Non Teaching Hospitals - those without AAMC (formally, COTH), ACGME or AOA	2010-CY
Teen outreach services	A program focusing on the teenager which encourages an improved health status and a healthful lifestyle including physical, emotional, mental, social, spiritual and economic health through education, exercise, nutrition and health promotion. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Teen outreach services - health system	A program focusing on the teenager which encourages an improved health status and a healthful lifestyle including physical, emotional, mental, social, spiritual and economic health through education, exercise, nutrition and health promotion. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Teen outreach services - joint venture	A program focusing on the teenager which encourages an improved health status and a healthful lifestyle including physical, emotional, mental, social, spiritual and economic health through education, exercise, nutrition and health promotion. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Teen outreach services - network	A program focusing on the teenager which encourages an improved health status and a healthful lifestyle including physical, emotional, mental, social, spiritual and economic health through education, exercise, nutrition and health promotion. Sourced from the AHA Annual Survey.	2006-2012
Telehealth consultation and office visits - health system	A broad variety of technologies and tactics to deliver virtual medical, public health, health education delivery and support services using telecommunications technologies. Telehealth is used more commonly as it describes the wide range of diagnosis and management, education, and other related fields of health care. This includes, but are not limited to: dentistry, counseling, physical and occupational therapy, home health, chronic disease monitoring and management, disaster management and consumer and professional education. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2017-CY
Telehealth consultation and office visits - hospital	A broad variety of technologies and tactics to deliver virtual medical, public health, health education delivery and support services using telecommunications technologies. Telehealth is used more commonly as it describes the wide range of diagnosis and management, education, and other related fields of health care. This includes, but are not limited to: dentistry, counseling, physical and occupational therapy, home health, chronic disease monitoring and management, disaster management and consumer and professional education. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2017-CY

Telehealth consultation and office visits - joint venture	A broad variety of technologies and tactics to deliver virtual medical, public health, health education delivery and support services using telecommunications technologies. Telehealth is used more commonly as it describes the wide range of diagnosis and management, education, and other related fields of health care. This includes, but are not limited to: dentistry, counseling, physical and occupational therapy, home health, chronic disease monitoring and management, disaster management and consumer and professional education. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2017-CY
Telehealth eICU - health system	An electronic intensive care unit (eICU), also referred to as a tele-ICU, is a form of telemedicine that uses state of the art technology to provide an additional layer of critical care service. The goal of an eICU is to optimize clinical experience and facilitate 24-hour a day care by ICU caregivers. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2017-CY
Telehealth eICU - hospital	An electronic intensive care unit (eICU), also referred to as a tele-ICU, is a form of telemedicine that uses state of the art technology to provide an additional layer of critical care service. This service is owned or provided by the hospital or subsidiary. The goal of an eICU is to optimize clinical experience and facilitate 24-hour a day care by ICU caregivers. Sourced from the AHA Annual Survey.	2017-CY
Telehealth eICU - joint venture	An electronic intensive care unit (eICU), also referred to as a tele-ICU, is a form of telemedicine that uses state of the art technology to provide an additional layer of critical care service. The goal of an eICU is to optimize clinical experience and facilitate 24-hour a day care by ICU caregivers. At the joint venture level. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2017-CY

	The use of digital technologies to collect medical and other forms of health data from individuals in one location and electronically transmit the information securely to health care providers in a different location for assessment and recommendation. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	
Telehealth other remote patient monitoring - hospital		2018-CY
Telehealth other telehealth - health system	Other telehealth services provided at the health system level. Sourced from the AHA Annual Survey.	2018-CY
Telehealth other telehealth - hospital	Other telehealth services provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2018-CY
Telehealth other telehealth - joint venture	Other telehealth services. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2018-CY
Telehealth psychiatric and addiction treatment - health system	Telepsychiatry can involve a range of services including psychiatric evaluations, therapy, patient education, and medication management. At the health system level. Sourced from the AHA Annual Survey.	2017-2023
Telehealth psychiatric and addiction treatment - hospital	Telepsychiatry can involve a range of services including psychiatric evaluations, therapy, patient education, and medication management. Sourced from the AHA Annual Survey.	2017-2023
Telehealth psychiatric and addiction treatment - joint venture	Telepsychiatry can involve a range of services including psychiatric evaluations, therapy, patient education, and medication management. At the joint venture level. Sourced from the AHA Annual Survey.	2017-2023
Telehealth psychiatric treatment - health system	Telepsychiatry is the use of telehealth visits to supplement a range of services including psychiatric evaluations, therapy, patient education, and medication management. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2024-CY
Telehealth psychiatric treatment - hospital	Telepsychiatry is the use of telehealth visits to supplement a range of services including psychiatric evaluations, therapy, patient education, and medication management. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2024-CY

Telehealth psychiatric treatment - joint venture	Telepsychiatry is the use of telehealth visits to supplement a range of services including psychiatric evaluations, therapy, patient education, and medication management. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2024-CY
Telehealth remote patient monitoring ongoing chronic care management - health system	The use of digital technologies to collect medical and other forms of health data from individuals in one location and electronically transmit the information securely to health care providers in a different location for assessment and recommendation. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2017-CY
Telehealth remote patient monitoring ongoing chronic care management - hospital	The use of digital technologies to collect medical and other forms of health data from individuals in one location and electronically transmit the information securely to health care providers in a different location for assessment and recommendation. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2017-CY
Telehealth remote patient monitoring ongoing chronic care management - joint venture	The use of digital technologies to collect medical and other forms of health data from individuals in one location and electronically transmit the information securely to health care providers in a different location for assessment and recommendation. At the joint venture level. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2017-CY
Telehealth remote patient monitoring other remote patient monitoring - health system	"The use of digital technologies to collect medical and other forms of health data from individuals in one location and electronically transmit the information securely to health care providers in a different location for assessment and recommendation. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2018-CY

Telehealth remote patient monitoring other remote patient monitoring - joint venture	The use of digital technologies to collect medical and other forms of health data from individuals in one location and electronically transmit the information securely to health care providers in a different location for assessment and recommendation. Joint Venture: contractual arrangement between two or more parties forming an unincorporated business. The participants in the arrangement remain independent and separate outside of the ventures€™s purpose. Joint Venture: A contractual arrangement between two or more parties forming an unincorporated business. The participants in the arrangement remain independent and separate outside of the ventures€™s purpose. Sourced from the AHA Annual Survey.	2018-CY
Telehealth remote patient monitoring post discharge - health system	The use of digital technologies to collect medical and other forms of health data from individuals in one location and electronically transmit the information securely to health care providers in a different location for assessment and recommendation. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2017-CY
Telehealth remote patient monitoring post discharge - hospital	Utilizing telehealth visits to evaluate a patient's post-discharge experience after hospital treatment. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2017-CY
Telehealth remote patient monitoring post discharge - joint venture	The use of digital technologies to collect medical and other forms of health data from individuals in one location and electronically transmit the information securely to health care providers in a different location for assessment and recommendation. At the joint venture level. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2017-CY
Telehealth stroke care - health system	Stroke telemedicine is a consultative modality that facilitates the care of patients with acute stroke by specialists at stroke centers. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2017-CY
Telehealth stroke care - hospital	Stroke telemedicine is a consultative modality that facilitates the care of patients with acute stroke by specialists at stroke centers. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2017-CY

Telehealth stroke care - joint venture	Stroke telemedicine is a consultative modality that facilitates the care of patients with acute stroke by specialists at stroke centers. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2017-CY
Telehealth substance use disorder treatment - health system	Telehealth helps individuals with a substance use disorder access different types of health care professionals, including: primary care providers, addiction specialist, psychiatrists. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2024-CY
Telehealth substance use disorder treatment - hospital	Telehealth helps individuals with a substance use disorder access different types of health care professionals, including: primary care providers, addiction specialist, psychiatrists. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2024-CY
Telehealth substance use disorder treatment - joint venture	Telehealth helps individuals with a substance use disorder access different types of health care professionals, including: primary care providers, addiction specialist, psychiatrists. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2024-CY
Telehealth/virtual care - number of audio visits	Synchronous visits between a patient and a provider that are not co-located, through the use of two-way, interactive, real-time audio-only communication. Sourced from the AHA Annual Survey.	2020-CY
Telehealth/virtual care - number of eConsults	E-Consults are synchronous or asynchronous two-way communication between primary care clinicians and specialists. Sourced from the AHA Annual Survey.	2024-CY
Telehealth/virtual care - number of eVisits	eVisits are Non-face-to-face patient-initiated communications through an online patient portal.	2024-CY
Telehealth/virtual care - number of patient monitored through remote patient monitoring	Asynchronous or synchronous interactions between patient and provider that are not co-located involving the collection, transmission, evaluation, and communication of physiological data. Sourced from the AHA Annual Survey.	2020-CY
Telehealth/virtual care - number of patients being monitored through remote therapeutic monitoring	Remote therapeutic monitoring (RTM) is the collection and transmission of non-physiologic data to providers. Services include medical device set up, patient education, transmission of data, and interpretation and analysis of results. Sourced from the AHA Annual Survey.	2024-CY

Telehealth/virtual care - number of patients receiving other virtual services	All other synchronous or asynchronous interactions between a provider and patient, or provider and provider, delivered remotely including messages, eConsults, and virtual check-ins. Sourced from the AHA Annual Survey.	2020-CY
Telehealth/virtual care - number of video visits	Synchronous visits between patient and provider that are not co-located, through the use of two-way, interactive, real-time audio and video communication. Sourced from the AHA Annual Survey.	2020-CY
Telehealth/virtual care - number of virtual check-ins	Virtual check-ins are brief communication technology-based service (including synchronous audio or asynchronous exchange of video or images). Sourced from the AHA Annual Survey.	2024-CY
Telephone number	Sourced from AHA Membership.	CY
Temporary increase in ED beds during reporting period	Sourced from the AHA Annual Survey.	2021-2023
Temporary increase in ICU beds during reporting period	Sourced from the AHA Annual Survey.	2021-2023
Temporary increase in staffed beds during reporting period	Sourced from the AHA Annual Survey.	2021-2023
Temporary spaces set up during reporting period	Sourced from the AHA Annual Survey.	2020-2023
Third-party inpatient days (est.)	Sourced from the AHA Annual Survey.	2022-CY
Third-party inpatient discharges (est.)	Sourced from the AHA Annual Survey.	2022-CY
Tissue transplant	The branch of medicine that transfers tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey	2006-CY
Tissue transplant - health system	The branch of medicine that transfers tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey	2006-CY
Tissue transplant - joint venture	The branch of medicine that transfers tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY

Tissue transplant - network	The branch of medicine that transfers tissue from one person to another or from one part to another to replace a diseased structure or to restore function or to change appearance. Sourced from the AHA Annual Survey	2006-2012
Tobacco Treatment Services	Organized hospital services with the purpose of ending tobacco-use habits of patients addicted to tobacco/nicotine. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Tobacco treatment services - health system	Organized hospital services with the purpose of ending tobacco-use habits of patients addicted to tobacco/nicotine. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Tobacco treatment services - joint venture	Organized hospital services with the purpose of ending tobacco-use habits of patients addicted to tobacco/nicotine. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Tobacco Treatment Services - network	Organized hospital services with the purpose of ending tobacco-use habits of patients addicted to tobacco/nicotine. Sourced from the AHA Annual Survey.	2006-2012
Total births (excluding fetal deaths)	Total number of infants born in the hospital during the reporting period, excluding fetal deaths. Births do not include infants transferred from other institutions, and are excluded from admission and discharge figures. Sourced from the AHA Annual Survey.	2006-CY
Total Capital Expenditures	Expenses used to acquire assets, including buildings, remodeling projects, equipment, or property. Sourced from AHA Annual Survey.	2006-CY
Total closed intensive care		2010
Total energy usage (in MMBTU)	Includes electricity, natural gas, fuel oil, district steam, district chilled water, diesel (no.2) and coal; it is the sum of all MMBTUs. Sourced from the AHA Annual Survey.	2008-2010
Total Expenses (est.)	Estimated Total Expenses - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a non-reporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from AHA Annual Survey.	2006-CY
Total facility employee benefits	Includes social security, group insurance, retirement benefits, workman's compensation, unemployment insurance, etc. Sourced from AHA Annual Survey.	2006-CY

Total facility expenses (excluding bad debt)	Includes all payroll and non-payroll expenses (excluding bad debt) as well as any non-operating losses (including extraordinary losses) for the entire reporting period. Sourced from AHA Annual Survey.	2006-CY
Total facility inpatient discharges	Represents the total inpatient discharges from that specific facility. Hospital discharge describes the point at which inpatient hospital care ends, with ongoing care transferred to other primary, community or domestic environments. Sourced from the AHA Annual Survey.	2022-CY
Total facility other payer discharges	Discharge days where the source of payment for total facility is other(does not fit into specified categories). Sourced from the AHA Annual Survey.	2022-CY
Total facility other payer inpatient days	Inpatient days where the source of payment for total facility is other(does not fit into specified categories). Sourced from the AHA Annual Survey.	2022-CY
Total facility payroll expenses	Dollar value of the facility's total payroll for all personnel, including medical/dental residents and interns and other trainees. The dollar value includes payroll for personnel working in the nursing home unit of a hospital that owns and operates a nursing home-type unit/facility. Sourced from AHA Annual Survey.	2006-CY
Total facility personnel (FTE)	The total number of hours worked (excluding non-worked hours such as PTO, etc.) by total facility personnel over the full (12 month) reporting period divided by the normal number of hours worked by a full-time employee for that same time period. This count only includes personnel engaged in clinical practice and on the payroll. Sourced from the AHA Annual Survey.	2006-CY
Total facility personnel (vac.)	Number of total facility personnel vacancies. Sourced from the AHA Annual Survey.	2010-CY
Total facility self-pay discharges	Discharge days where self-pay is the source of payment for total facility. Sourced from the AHA Annual Survey.	2022-CY
Total facility self-pay inpatient days	Inpatient days where self-pay is the source of payment for total facility. Sourced from the AHA Annual Survey.	2022-CY
Total facility third-party discharges	Discharge days where a third-party is the source of payment for total facility. Sourced from the AHA Annual Survey.	2022-CY
Total facility third-party inpatient days	Inpatient days where a third-party is the source of payment for total facility. Sourced from the AHA Annual Survey.	2022-CY

Total gross square feet	Include all inpatient, outpatient, office, and support space used for or in support of health care activities; exclude exterior, roof, and garage space in the figure. Sourced from AHA Annual Survey.	2006-CY
Total hospital beds	Number of beds regularly maintained (set up and staffed for use) for inpatients as of the close of the reporting period. Excludes newborn bassinets. Sourced from the AHA Annual Survey.	2006-CY
Total hospital unit personnel (FT)	Sourced from the AHA Annual Survey.	2006-CY
Total hospital unit personnel (PT)	Sourced from the AHA Annual Survey.	2006-CY
Total Medicaid days	Inpatient days where Medicaid (including a Medicaid Managed Care Plan) is the source of payment. Sourced from the AHA Annual Survey.	2006-CY
Total Medicaid discharges	Discharge days where Medicaid (including a Medicaid Managed Care Plan) is the source of payment. Sourced from the AHA Annual Survey.	2006-CY
Total Medicare days	Inpatient days where Medicare (including a Medicare Managed Care Plan) is the source of payment. Sourced from the AHA Annual Survey.	2006-CY
Total Medicare discharges	Discharge days where Medicare (including a Medicare Managed Care Plan) is the source of payment. Sourced from the AHA Annual Survey.	2006-CY
Total nursing home personnel (FT)	Number that represents the total full-time nursing personnel. Sourced from the AHA Annual Survey.	2006-CY
Total nursing home personnel (PT)	Number that represents the total part-time nursing personnel. Sourced from the AHA Annual Survey.	2006-CY
Total nursing home personnel (vac.)	Number of total nursing home personnel vacancies. Sourced from the AHA Annual Survey.	2010-CY
Total outpatient visits	Number of outpatient visits reported by the hospital. An outpatient visit is defined as a visit by a patient who is not lodged in the hospital while receiving medical, dental, or other services. Each visit an outpatient makes to a discrete unit constitutes one visit regardless of the number of diagnostic and/or therapeutic treatments that the patient receives. Total outpatient visits include all clinic visits, referred visits, observation services, outpatient surgeries, and emergency room visits. Sourced from the AHA Annual Survey.	2006-CY

Total Payroll Expenses (est.)	Estimated Total Payroll Expenses -defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a non-reporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from AHA Annual Survey.	2006-CY
Total personnel (FT)	Sum of all categories of full-time personnel working for the hospital, including: physicians and dentists; medical/dental residents and interns; other trainees; registered nurses; licensed practical or vocational nurses; nursing assistive personnel; all other personnel. This number includes those personnel working in the nursing home unit of a hospital that owns and operates a nursing home-type unit/facility. Full-time personnel are defined as those personnel working a minimum of 35 hours a week. Sourced from the AHA Annual Survey.	2006-CY
Total personnel (FTEC)	Full time personnel on payroll plus one half the part time personnel on payroll. This excludes medical and dental residents, interns and other trainees. Sourced from the AHA Annual Survey.	2006-CY
Total Personnel FT (est.)	Estimated Full Time Total Personnel - defines the nature of the number as one of the following: reported by the hospital; estimated by the survey analysts for a nonreporting hospital; or expanded by the survey analysts to reflect a twelve-month time period for a hospital that reported for a time period less than twelve months. Sourced from the AHA Annual Survey.	2006-CY
Total personnel (PT)	The total number of hours worked (excluding non-worked hours such as PTO, etc.) by all other personnel over the full (12 month) reporting period divided by the normal number of hours worked by a full-time employee for that same time period. This count only includes personnel engaged in clinical practice and on the payroll. Sourced from the AHA Annual Survey.	2006-CY
Total Physicians (NE)	Total number of physicians with privileges that have no employment or contractual relationship with the hospital to provide services. Sourced from the AHA Annual Survey.	2010-CY
Total Physicians (TC)	Total independent physicians under a formal contract to provide services at a hospital including at outpatient facilities, clinics and offices. Sourced from the AHA Annual Survey.	2010-CY

Total Physicians (TE)	Total employed physicians that are either direct hospital employees or employees of a hospital subsidiary corporation. Sourced from the AHA Annual Survey.	2010-CY
Total Physicians (TG)	Total primary care physicians that are part of a group (group practice, faculty practice plan or medical foundation) under a formal contract to provide services at a hospital including at inpatient and outpatient facilities, clinics and offices. Sourced from the AHA Annual Survey.	2010-CY
Total Physicians (TP)	Sum of all physicians with privileges. A physician that provides primary care services including general practice, general internal medicine, family practice, general pediatrics and geriatrics. Sourced from the AHA Annual Survey.	2010-CY
Total surgical operations	Those surgical operations, whether major or minor, performed in the operating room(s). A surgical operation involving more than one surgical procedure is still considered only one surgical operation. Sourced from the AHA Annual Survey.	2006-CY
Total trainees (FTEC)	Total number of FTE trainees. Sourced from the AHA Annual Survey.	2006-CY
Traditional medicare - Comprehensive ESRD care	The model is designed to identify, test, and evaluate new ways to improve care for Medicare beneficiaries with End-Stage Renal Disease (ESRD.) Sourced from the AHA Annual Survey.	2018-CY
Traditional Medicare - ENHANCED Track	Sourced from the AHA Annual Survey.	2021-CY
Traditional Medicare - MSSP BASIC Track, Level A	Medicare Shared Savings Program. For fee-for-service beneficiaries. The Shared Savings Program has different tracks that allow ACOs to select an arrangement that makes the most sense for their organization. Sourced from the AHA Annual Survey.	2021-CY
Traditional Medicare - MSSP BASIC Track, Level B	Medicare Shared Savings Program. For fee-for-service beneficiaries. The Shared Savings Program has different tracks that allow ACOs to select an arrangement that makes the most sense for their organization. Sourced from the AHA Annual Survey.	2021-CY
Traditional Medicare - MSSP BASIC Track, Level C	Medicare Shared Savings Program. For fee-for-service beneficiaries. The Shared Savings Program has different tracks that allow ACOs to select an arrangement that makes the most sense for their organization. Sourced from the AHA Annual Survey.	2021-CY

Traditional Medicare - MSSP BASIC Track, Level D	Medicare Shared Savings Program. For fee-for-service beneficiaries. The Shared Savings Program has different tracks that allow ACOs to select an arrangement that makes the most sense for their organization. Sourced from the AHA Annual Survey.	2021-CY
Traditional Medicare - MSSP BASIC Track, Level E	Medicare Shared Savings Program. For fee-for-service beneficiaries. The Shared Savings Program has different tracks that allow ACOs to select an arrangement that makes the most sense for their organization. Sourced from the AHA Annual Survey.	2021-CY
Traditional medicare - MSSP track 1	Medicare Shared Savings Program. For fee-for-service beneficiaries. The Shared Savings Program has different tracks that allow ACOs to select an arrangement that makes the most sense for their organization. Sourced from the AHA Annual Survey.	2018-2020
Traditional medicare - MSSP track 1+	Medicare Shared Savings Program. For fee-for-service beneficiaries. The Shared Savings Program has different tracks that allow ACOs to select an arrangement that makes the most sense for their organization. Sourced from the AHA Annual Survey.	2018-2020
Traditional medicare - MSSP track 2	Medicare Shared Savings Program. For fee-for-service beneficiaries. The Shared Savings Program has different tracks that allow ACOs to select an arrangement that makes the most sense for their organization. Sourced from the AHA Annual Survey.	2018-2020
Traditional medicare - MSSP track 3	Medicare Shared Savings Program. For fee-for-service beneficiaries. The Shared Savings Program has different tracks that allow ACOs to select an arrangement that makes the most sense for their organization. Sourced from the AHA Annual Survey.	2018-2020
Traditional medicare - NextGen	The Next Generation ACO Model is an initiative for ACOs that are experienced in coordinating care for populations of patients. It allows these provider groups to assume higher levels of financial risk and reward. Sourced from the AHA Annual Survey.	2018-2020
Traditional Medicare - Original MSSP program, Tracks 1, 1+, 2 or 3	Medicare Shared Savings Program. For fee-for-service beneficiaries. The Shared Savings Program has different tracks that allow ACOs to select an arrangement that makes the most sense for their organization. Sourced from the AHA Annual Survey.	2021-CY
Transportation program/strategy	Sourced from the AHA Annual Survey.	2020-2023

Transportation screening	Sourced from the AHA Annual Survey.	2020-2023
Transportation to health services	A long-term care support service designed to assist the mobility of the elderly. Some programs offer improved financial access by offering reduced rates and barrier-free buses or vans with ramps and lifts to assist the elderly or handicapped; others offer subsidies for public transport systems or operate mini-bus services exclusively for use by senior citizens. Sourced from the AHA Annual Survey.	2006-2017
Transportation to health services - health system	A long-term care support service designed to assist the mobility of the elderly. Some programs offer improved financial access by offering reduced rates and barrier-free buses or vans with ramps and lifts to assist the elderly or handicapped; others offer subsidies for public transport systems or operate mini-bus services exclusively for use by senior citizens. Sourced from the AHA Annual Survey.	2006-2017
Transportation to health services - joint venture	A long-term care support service designed to assist the mobility of the elderly. Some programs offer improved financial access by offering reduced rates and barrier-free buses or vans with ramps and lifts to assist the elderly or handicapped; others offer subsidies for public transport systems or operate mini-bus services exclusively for use by senior citizens. Sourced from the AHA Annual Survey.	2006-2017
Transportation to health services - network	A long-term care support service designed to assist the mobility of the elderly. Some programs offer improved financial access by offering reduced rates and barrier-free buses or vans with ramps and lifts to assist the elderly or handicapped; others offer subsidies for public transport systems or operate mini-bus services exclusively for use by senior citizens. Sourced from the AHA Annual Survey.	2006-2012
Transportation to health services (non-emergency) - health system	A long-term care support service designed to assist the mobility of the elderly. Some programs offer improved financial access by offering reduced rates and barrier-free buses or vans with ramps and lifts to assist the elderly or handicapped; others offer subsidies for public transport systems or operate mini-bus services exclusively for use by senior citizens. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2018-CY

Transportation to health services (non-emergency) - hospital	A long-term care support service designed to assist the mobility of the elderly. Some programs offer improved financial access by offering reduced rates and barrier-free buses or vans with ramps and lifts to assist the elderly or people with disabilities; others offer subsidies for public transport systems or operate mini-bus services exclusively for use by senior citizens. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2018-CY
Transportation to health services (non-emergency) - joint venture	A long-term care support service designed to assist the mobility of the elderly. Some programs offer improved financial access by offering reduced rates and barrier-free buses or vans with ramps and lifts to assist the elderly or people with disabilities; others offer subsidies for public transport systems or operate mini-bus services exclusively for use by senior citizens. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2018-CY
Trauma center certified level	A facility to provide emergency and specialized intensive care to critically ill and injured patients. For the facility to be provided by the hospital, it must be located in your hospital. In addition, the utilization, expense, and revenue from the provision of trauma services must be reported in Section E of the survey. For the service owned or provided by the hospital, please specify the trauma center level. Level 1: A regional resource trauma center, which is capable of providing total care for every aspect of injury and plays a leadership role in trauma research and education. Level 2: A community trauma center, which is capable of providing trauma care to all but the most severely injured patients who require highly specialized care. Level 3: A rural trauma hospital, which is capable of providing care to a large number of injury victims and can resuscitate and stabilize more severely injured patients so that they can be transported to level 1 or 2 facilities. Level 4: A Level 4 Trauma Center has demonstrated an ability to provide advanced trauma life support (ATLS) prior to transfer of patients to a higher-level trauma center. It provides evaluation, stabilization, and diagnostic capabilities for injured patients. Level 5: A Level 5 Trauma Center provides initial evaluation, stabilization and diagnostic capabilities and prepares patients for transfer to higher levels of care. Sourced from the AHA Annual Survey.	2006-CY

Type of co-located hospital - Cancer	Co-location refers to two or more entities, with separate CMS Certification Numbers occupying the same building, or conjoined buildings. Cancer: Provides medical care to patients for whom the primary diagnosis is cancer. Sourced from the AHA Annual Survey.	2018-CY
Type of co-located hospital - Cardiac	Co-location refers to two or more entities, with separate CMS Certification Numbers occupying the same building, or conjoined buildings. Cardiac: Provides diagnosis and treatment of heart disease. Sourced from the AHA Annual Survey.	2018-CY
Type of co-located hospital - Long-Term Acute Care	Co-location refers to two or more entities, with separate CMS Certification Numbers occupying the same building, or conjoined buildings. Long-Term Acute Care: Provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization averaging 25 days, in a facility offering specialized treatment programs and therapeutic intervention on a 24 hour/7 day a week basis. Sourced from the AHA Annual Survey.	2024-CY
Type of co-located hospital - Orthopedic	Co-location refers to two or more entities, with separate CMS Certification Numbers occupying the same building, or conjoined buildings. Orthopedic: Provides corrective treatment of deformities, diseases, and ailments of the locomotive apparatus, especially affecting the limbs, bones, muscles, and joints. Sourced from the AHA Annual Survey.	2018-CY
Type of co-located hospital - Other	Type of co-located hospital - Other. Sourced from the AHA Annual Survey.	2018-CY
Type of co-located hospital - Other description	Type of co-located hospital - Other description. Sourced from the AHA Annual Survey.	2018-CY
Type of co-located hospital - Pediatric	Co-location refers to two or more entities, with separate CMS Certification Numbers occupying the same building, or conjoined buildings. Pediatric: Provides care to pediatric patients on the basis of physicians' orders and approved nursing care plans. Sourced from the AHA Annual Survey.	2018-CY

Type of co-located hospital - Psychiatric	Co-location refers to two or more entities, with separate CMS Certification Numbers occupying the same building, or conjoined buildings. Psychiatric: Provides acute or long-term care to patients with mental or emotional disorders, including patients admitted for diagnosis and those admitted for treatment of psychiatric disorders, on the basis of physicians' orders and approved nursing care plans. Long-term care may include intensive supervision to persons with chronic/severe mental illness. Sourced from the AHA Annual Survey.	2018-CY
Type of co-located hospital - Rehabilitation	Co-location refers to two or more entities, with separate CMS Certification Numbers occupying the same building, or conjoined buildings. Rehabilitation: Provides care encompassing a comprehensive array of restoration services for the disabled and all support services necessary to help patients attain their maximum functional capacity. Sourced from the AHA Annual Survey.	2024-CY
Type of co-located hospital - Surgical	Co-location refers to two or more entities, with separate CMS Certification Numbers occupying the same building, or conjoined buildings. Surgical: An acute care specialty hospital where 2/3 or more of its inpatient claims are for surgical/diagnosis related groups. Sourced from the AHA Annual Survey.	2018-CY
Ultrasound	The use of acoustic waves above the range of 20,000 cycles per second to visualize internal body structures. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Ultrasound - health system	The use of acoustic waves above the range of 20,000 cycles per second to visualize internal body structures. Provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Ultrasound - joint venture	The use of acoustic waves above the range of 20,000 cycles per second to visualize internal body structures. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Ultrasound - network	The use of acoustic waves above the range of 20,000 cycles per second to visualize internal body structures. Sourced from the AHA Annual Survey.	2006-2012

Urgent care center	A facility that provides care and treatment for problems that are not life-threatening but require attention over the short term. These units function like emergency rooms but are separate from hospitals with which they may have backup affiliation arrangements. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Urgent care center - health system	A facility that provides care and treatment for problems that are not life-threatening but require attention over the short term. These units function like emergency rooms but are separate from hospitals with which they may have backup affiliation arrangements. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Urgent care center - joint venture	A facility that provides care and treatment for problems that are not life-threatening but require attention over the short term. These units function like emergency rooms but are separate from hospitals with which they may have backup affiliation arrangements. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Urgent care center - network	A facility that provides care and treatment for problems that are not life-threatening but require attention over the short term. These units function like emergency rooms but are separate from hospitals with which they may have backup affiliation arrangements. Sourced from the AHA Annual Survey.	2006-2012
Urgent care - number of facilities	Urgent care - number of facilities. Sourced from the AHA Annual Survey.	2017
Urgent care - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Urgent care - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Urgent care - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020

Urgent care - satellite facility	An urgent care facility provides care and treatment for problems that are not life-threatening but require attention over the short term. Satellite facilities provided services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2017
Urology - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Urology - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Urology - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Used assessment to identify unmet health needs	Hospital uses written assessment to identify unmet health needs, excess capacity, or duplicate services in the community. Sourced from the AHA Annual Survey.	2006-2010
Utility needs program/strategy	Sourced from the AHA Annual Survey.	2020-2023
Utility needs screening	Sourced from the AHA Annual Survey.	2020-2023
Utilization of outcome metrics to assess effectiveness of interventions to address social needs	Sourced from the AHA Annual Survey.	2020-2023
Vascular/endovascular/cardiovascular - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Vascular/endovascular/cardiovascular - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Vascular/endovascular/cardiovascular - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020

Violence prevention programs for the community - health system	An organized program that attempts to make a positive impact on the type(s) of violence a community is experiencing. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2018-CY
Violence prevention programs for the community - health system	An organized program that attempts to make a positive impact on the type(s) of violence a community is experiencing. Sourced from the AHA Annual Survey.	2016-2017
Violence prevention programs for the community - hospital	An organized program that attempts to make a positive impact on the type(s) of violence a community is experiencing. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2018-CY
Violence prevention programs for the community - joint venture	An organized program that attempts to make a positive impact on the type(s) of violence a community is experiencing. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2018-CY
Violence prevention programs for the community - joint venture	An organized program that attempts to make a positive impact on the type(s) of violence a community is experiencing. Sourced from the AHA Annual Survey.	2016-2017
Violence prevention programs for the workplace - health system	A violence prevention program with goals and objectives for preventing workplace violence against staff and patients. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2018-CY
Violence prevention programs for the workplace - hospital	A violence prevention program with goals and objectives for preventing workplace violence against staff and patients. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2018-CY
Violence prevention programs for the workplace - joint venture	A violence prevention program with goals and objectives for preventing workplace violence against staff and patients. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2018-CY
Virtual colonoscopy	Noninvasive screening procedure used to visualize, analyze and detect cancerous or potentially cancerous polyps in the colon. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Virtual colonoscopy - health system	Noninvasive screening procedure used to visualize, analyze and detect cancerous or potentially cancerous polyps in the colon. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY

Virtual colonoscopy - joint venture	Noninvasive screening procedure used to visualize, analyze and detect cancerous or potentially cancerous polyps in the colon. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Virtual colonoscopy - network	Noninvasive screening procedure used to visualize, analyze and detect cancerous or potentially cancerous polyps in the colon. Sourced from the AHA Annual Survey.	2006-2012
Visits and related services - Number of off-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. An off-campus or satellite facility provides services at a facility geographically remote from the hospital campus. Sourced from the AHA Annual Survey.	2018-2020
Visits and related services - Number of on-campus sites	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Visits and related services - Outpatient services	Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital. Sourced from the AHA Annual Survey.	2018-2020
Volunteer community organization - health system	Initiatives that engage individuals to offer their time, services, and expertise to assist in various non-medical tasks within a healthcare setting. The primary purpose of these programs is to provide support, comfort, and companionship to patients, families, and staff members. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2024-CY
Volunteer community organization - hospital	Initiatives that engage individuals to offer their time, services, and expertise to assist in various non-medical tasks within a healthcare setting. The primary purpose of these programs is to provide support, comfort, and companionship to patients, families, and staff members. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2024-CY

Volunteer community organization - joint venture	Initiatives that engage individuals to offer their time, services, and expertise to assist in various non-medical tasks within a healthcare setting. The primary purpose of these programs is to provide support, comfort, and companionship to patients, families, and staff members. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2024-CY
Volunteer services department	An organized hospital department responsible for coordinating the services of volunteers working within the institution. This service is owned or provided by the hospital or subsidiary. Sourced from the AHA Annual Survey.	2006-CY
Volunteer services department - health system	An organized hospital department responsible for coordinating the services of volunteers working within the institution. Service provided by hospital's Health System (in local community). Sourced from the AHA Annual Survey.	2006-CY
Volunteer services department - joint venture	An organized hospital department responsible for coordinating the services of volunteers working within the institution. This service is provided through a formal contractual arrangement or joint venture with another provider that is not in the hospital's health system. Sourced from the AHA Annual Survey.	2006-CY
Volunteer services department - network	An organized hospital department responsible for coordinating the services of volunteers working within the institution. Sourced from the AHA Annual Survey.	2006-2012
Web address	Sourced from AHA Membership.	CY
What % of hospital/system patient revenue came from ACO contracts in 2018?	What % of hospital/system patient revenue came from ACO contracts in 2018? Sourced from the AHA Annual Survey.	2018
What % of hospital/system patient revenue came from ACO contracts in 2019?	What % of hospital/system patient revenue came from ACO contracts in 2019? Sourced from the AHA Annual Survey.	2019
What % of hospital/system patient revenue came from ACO contracts in 2020?	What % of hospital/system patient revenue came from ACO contracts in 2020? Sourced from the AHA Annual Survey.	2020
What % of hospital/system patient revenue came from ACO contracts in 2021?	What % of hospital/system patient revenue came from ACO contracts in 2021? Sourced from the AHA Annual Survey.	2021
What % of hospital/system patient revenue came from ACO contracts in 2022?	What % of hospital/system patient revenue came from ACO contracts in 2022?	2022
