

Day 13

Transmission 27:36

Music - [Daniel Schotsborg – Meta Level Green 2](#)

This activation brings in the Light codes which are specific for you. These codes are stored in your Divine vehicle enabling easy access now and in the future. The purpose of these codes: to assist you to co-create through intention, sound and Light at an entirely new level of consciousness.

Remember to pay special attention to your words in every day reality. Continue to be the observer, and self-correct any behavior that is not in alignment with your truth. Every thought, word and action creates. Your ability to create is exponentially enhanced through participation in this journey.

The original codes of language are anchoring back into this space-time reality due to your willingness to expand and embody this level of Light. This is the first anchoring of this Light since its original anchor on Gaia during the time of Mu (or perhaps even earlier).

The Divine Mothers and Architects of Language wish to convey their deepest gratitude for your dedication and willingness to be the Living anchor of this energy once again for humanity. Although there are many layers and levels of this energy work - the first level is complete.

Be mindful, conscious and pure with your thoughts and watch as your life shifts into new levels of happiness, awareness and joy. Each day, PLEASE speak the following out loud:

I AM Love. I AM Light. I AM Divine. I co-create my reality with ease, grace and LOVE. With every breath I take, I embody these truths.

It has been an honor to facilitate this work. Thank you for BEING.
