

Day 5

Transmission 27:11

Music - [Daniel Schotsborg – Meta Level Blue 2](#)

This activation brings in the next two ribbons of Light frequency from the Architects of Language. Both are iridescent in color, just as the first one anchored during Day 3. Coming in through the frontal lobe region of your head, it moves into the pineal gland and down the spinal column. Allow your body to receive the codes/instructions to activate this next level of your blueprint.

The ancient language spoken and sung during this activation emanates from the Architects of Language. It is instructions for the frequency as it moves into your matrix, as well as a trigger for memory held within your cellular structure to reawaken. (As a side note ... they are telling me I need voice lessons - Ha!)

Allow the music to support you once again. It's so beautiful the way Spirit orchestrated the serendipitous events of meeting Daniel, so our gifts could merge in this way.

Remember to celebrate your Light. Each day, PLEASE speak the following out loud:

I exude Love, Light, Compassion and Wisdom with every breath I take. I am a Divine Being.
