

Indirect Message:

Subj: There's a problem with your website. can you help?

Hello

I was trying to look up your website but I'm having trouble seeing your website on my phone.

I mostly just use my phone to look up local businesses but I can't see hardly anything on yours.

You know there's an easy fix for that.

Can someone there call me?

Subj: Is your website down?

Hey

I was trying to look up your website but I'm having trouble seeing your website on my phone.

Your website isn't mobile friendly.

Did you know that 4in5 customers search for Local business using their smartphones?

50% of customers visit the stores they looked up on their phone within 24 hours.

There's an easy and inexpensive fix for that.

Can someone there call me?
