

Instructions: How to use Jewish Communities map

1. Each marker  represents a location of a Jewish Community, which was in existence between 1500 and 2000 years
2. Clicking on the marker  reveals information about particular Community at a selected location.
3. Markers with numbers on the top represent a cluster of markers. Click on the cluster to see all markers inside. Cluster color represents number of markers inside: blue cluster  has 10 or less markers, yellow cluster  has more than 10 markers.
4. The map also has timeline feature with a slider below map.

- Timeline allows you to see which Communities were in the existence at the selected years range.
 - Click on the right slider  and move all the way to the left and get the view when selected Communities were originated.
 - Now click on the right slider again and start moving it to the right to see how Communities expanded through the years.
5. Click on “+” to zoom in.
 6. Click on “-” to zoom out.
 7. All Communities shown on the map are also presented in table below the map.
 - Clicking the icon  situated alongside the Locality Name activates location search on the map
 - Clicking icons “<”>” activates navigation to the previous or the next page.
 - A Community can be found in the table by entering its name in the Search box.
 - Communities are searchable by name, location or year
