

A FEW QUICK QUESTIONS ABOUT THE CAREER ACCELERATOR PROGRAM...

How do I apply?

You don't have to apply specifically for the Career Accelerator Program; all students accepted into the Global First Year at FIU are eligible to participate. The Global First Year combines the credit-bearing courses of year one of your undergraduate degree with tailored English language and academic support, concierge services and unique American cultural experiences. The Career Accelerator Program begins within the Global First Year and can be completed within two years. To find out how to apply for the Global First Year, please visit www.globalFIU.com/apply.

What are the requirements for internship assistance?

To be eligible for internship placement assistance, students must: successfully complete all required elements of the Career Accelerator Program, have at least a 3.3 GPA, and have maintained appropriate immigration status. Once students begin the program, they will have access to advisors who will help them to successfully navigate these requirements.

For more information, see globalFIU.com

What opportunities are available?

Our goal is to provide eligible students with a variety of professional opportunities, of varying types and lengths, that best suit their needs and interests. Qualifying students may be selected for part-time positions as student-professionals working on campus during their studies. Others opt to apply for internship placements on a schedule that works for them. If a summer internship works best for you, we will attempt to make that happen. Alternatively, you may have the option to take a shorter, more focused internship during your degree, subject to availability and performance criteria.

FIU CAREER ACCELERATOR PROGRAM WITH INTERNSHIP OPPORTUNITIES

THE BEST START TO A REWARDING CAREER

Tailored Career Development for International Students + Internship Preparation

Looking to get a head start on your professional future? If you're a Global First Year student participating in our Career Accelerator Program you will. You'll enhance your employability, gain skills to advance your academic performance and access opportunities for real-world work placement either during your degree or upon graduation.

In the FIU Career Accelerator Program, you will undertake a series of focused career development activities alongside your undergraduate degree. The program runs over two years and is tailored to the unique experience of international students. It'll help you develop the skills to stand out in a crowded global job market: exploring career interests, practicing interviewing skills, developing a powerful resume or CV, and connecting with potential employers. The flexible Career Accelerator Program can be adapted to fit your needs and professional interests, and beyond.

BEST OF ALL, we support and connect qualified participants to FIU partner organizations with exciting internship opportunities.

THE CAREER ACCELERATOR PROGRAM:
your dynamic path to professional success.

The FIU Career Accelerator Program helps give you the edge you need to succeed in today's professional world. Designed by experts, and customized to suit your needs, the Career Accelerator Program gives you the resources, connections and skills to confidently prepare to become global professionals. For Global First Year students, the Career Accelerator Program can be completed in two years.

MEMBERS OF OUR STAFF have more than ten years of experience placing students in internships in sought-after industries such as accounting, engineering, finance, marketing, architecture, government, technology, and theater/arts. With over 2,000 successful placements in the most exciting cities in the US, our staff has helped students gain relevant skills in real-world settings.
