

New! WINTERGREEN from BRIGGS!

INTRODUCING GAULTHERIA PROCUMENS 'GAULSIDH5'

PPAF, CPBRAAF

*Our brand new
Wintergreen
featuring loads of
brilliant, cherry-
like berries!*

Our superior new addition to the Wintergreen family features glossy evergreen foliage that turns merlot in the cool of winter, and loads of showy,

exceptionally large berries from Fall through Spring. Propagated by tissue culture, to ensure crop uniformity not possible from seed grown plants.
