

KALMIA

Mountain Laurel

'Tiddlywinks'

'Minuet'

'Freckles'

'Starburst'

Briggs Nursery carries, arguably, the largest selection of Kalmia cultivars in the world. Kalmia's very showy buds and blooms come in a myriad of colors and forms. Selections and breeding have produced red budded, cinnamon/maroon banded, pure white and deep pink/red flowered forms. Deeply cut varieties are also emerging, and many display showy new evergreen foliage. Kalmia lends itself equally to use as an informal hedge, as a specimen, or planted en mass, but to truly appreciate the beauty of its delicate flowers, it is best viewed up close.

BOTANICAL NAME: Kalmia latifolia

COMMON NAME: Mountain Laurel

USDA ZONES: 4 (protected) to 9

SIZE: Varies with cultivar; Standards (approx.) 5'H x 5'W at 10 years; Little Leaf Varieties 3'H x 3'W (or smaller)

HABIT: Broadleaf evergreen shrub; irregular branching; taller than wide

CULTURE: Partial shade to full sun (no full shade); more sun equals more blooms. Cool, moist, acidic, organic soil. Avoid windswept areas, quick release fertilizers, overwatering and reflected sun.

FEATURES:

- Blooms late spring to early summer
- Long lasting (2+ weeks), very showy buds and blooms
- Evergreen foliage
