

Our new Nandina features swirly, orange-red young foliage with the same great growth habit of its parent, 'Gulfstream'

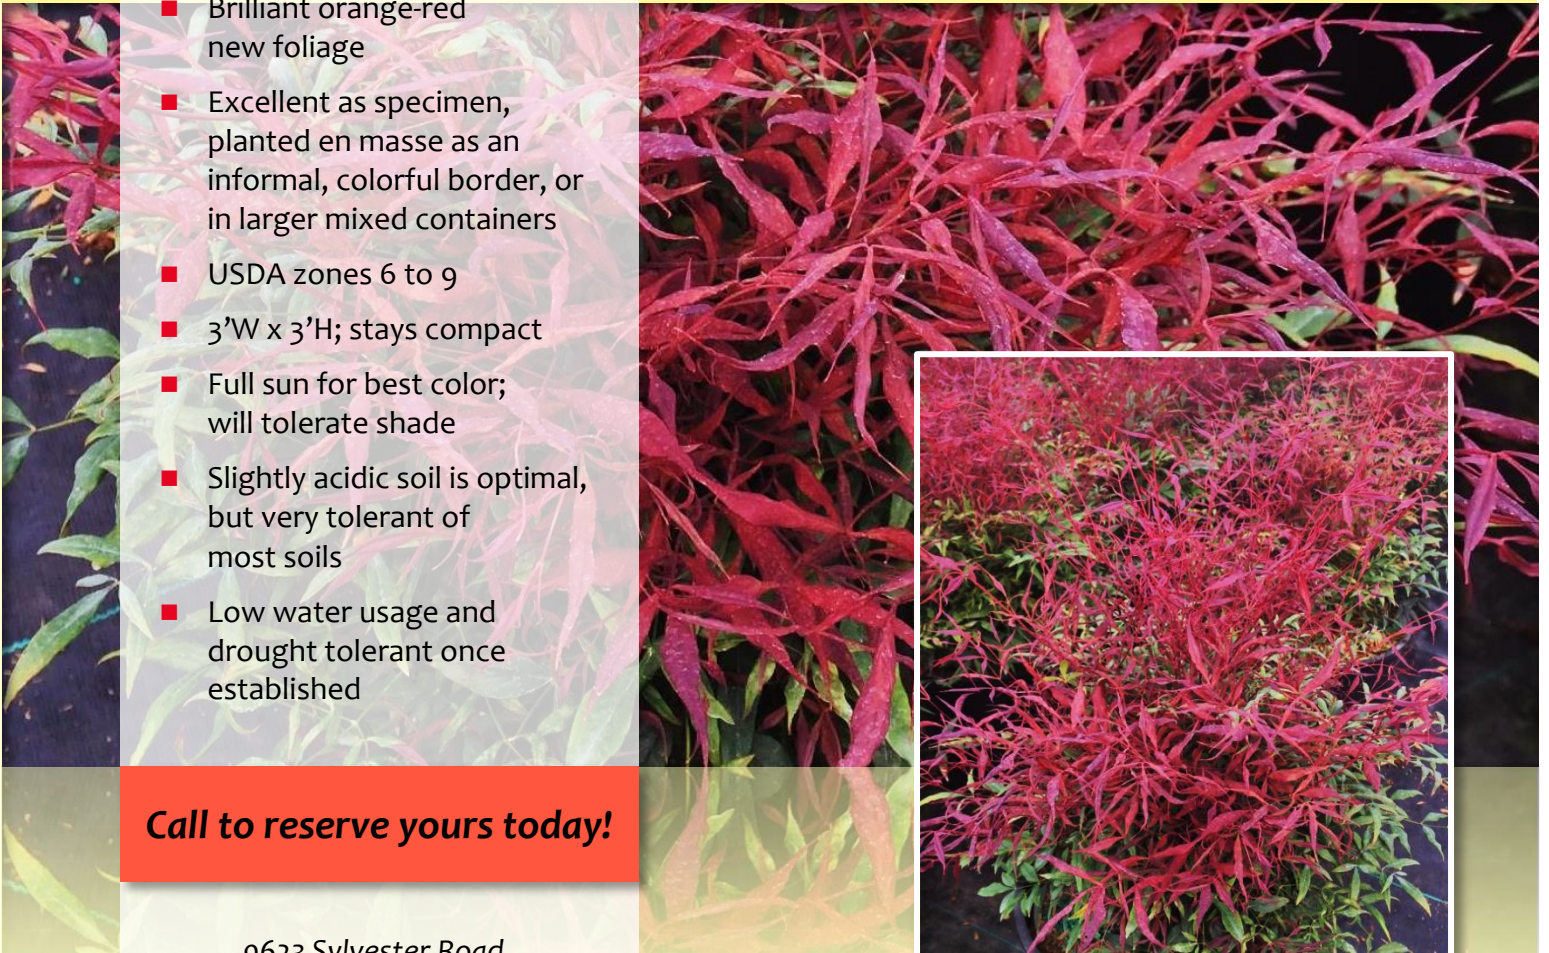

- Nandina 'NanSid6' PPAF, CPBRAFF Bonfire™
- Developed by Sidhu & Sons Nursery
- Leaves are slender and distinctively swirly
- Brilliant orange-red new foliage
- Excellent as specimen, planted en masse as an informal, colorful border, or in larger mixed containers
- USDA zones 6 to 9
- 3'W x 3'H; stays compact
- Full sun for best color; will tolerate shade
- Slightly acidic soil is optimal, but very tolerant of most soils
- Low water usage and drought tolerant once established

Brand New from Sidhu & Sons!
