Never lose a sale to bad Inventory Listings

TrimPix offers a complete inventory merchandizing solution including trim-level color-correct images for your inventory. Our managed service ensures that your inventory listings are always perfect and standards-compliant.

Incorrect Listings Affect Sales

Very often, website inventory listings display incorrect trim-level pictures, wrong colors, and inaccurate details.

This is the #1 reason for loss of leads!

TrimPix Solution

TrimPix provides a dedicated team that logs into your Inventory Management System (IMS) or CRM and corrects inventory issues at the source. Missing pictures are added, and wrong pictures or bad images are replaced.

The TrimPix package includes licenses of trim level, color correct vehicle images for every make, model, and trim in your inventory.
