MRHC is a Community Hospital, jointly owned by the City of Corinth and Alcorn County, MS that serves a 7 county service area of over 130,000 people. Located in Northeast Mississippi, Corinth is a city of contrast that attracts people from all walks of life with history, tradition, community spirit, hospitality and excellent quality of life. Corinth offers convenient access to Memphis, Nashville and Birmingham and is located just 20 minutes away from Pickwick Lake, a beautiful recreational lake with over 90 miles of shoreline. With some of the best public schools in the area, Corinth is an ideal location to raise your children. Corinth is not just for individuals or couples with children but for anyone. Our town is growing and with many young adults moving into the area, there are many things to do. Our community and hospital have a "family sense" about them and it’s comforting to know that we live in what most compare Corinth to as "Mayberry."

We are currently recruiting for Cardiology Fellowship Core Faculty/Interventional Cardiologist. This physician will oversee the Cardiology Fellows as well as conduct clinic with patients. He/she must be a graduate of an US medical program, BC in IM, Cardiology, ECHO and Nuclear Cardiology. Must demonstrate evidence of productivity in scholarship, specifically, peer-reviewed funding, publication of original research, review articles, editorials, or case reports in peer-reviewed journals or chapters in textbooks.

We currently have 5 Interventional Cardiologists, 2 who are employed by MRHC. Currently, the call rotation is 1:4.

Our generous package offers:

- MGMA total compensation package (full medical benefits and bonus potential, CME Allowance, etc.)
- Student Loan Repayment up to $125,000, if applicable
- Full Benefits including 401(k)
- Sign-on Bonus
- Relocation Expenses up to $15,000
- Excellent Teaching Opportunity
- Training Stipend of $4,000 per month, if applicable

In 2007, MRHC constructed an addition which included 3 new patient floors, a new surgical intensive care unit, new private short stay surgery rooms, new private pre & post heart cath rooms, new surgery recovery positions, 3 additional new operating rooms, a new cardiac rehabilitation area & 6 new medical office suites. Additionally, the Magnolia Heart & Vascular Center was opened that same year offering cardiac intervention & open heart surgery. In 2013, Magnolia Regional Health Center opened its newly constructed 53,000 square feet addition which included a new front entrance, new radiology department which included new, state of the art equipment such as the 1.5 large bore MRI, three 128 slice CT scanners, two Spect CT Nuclear Cameras, digital mammography and stereotactic biopsy. Also included in that construction was a new Emergency Department, Cardiology area, Lab area and centralized registration. We are extremely proud of our facility and the services that we provide to our customers.

Magnolia Regional Health Center provides care to patients in Alcorn County and the five surrounding counties in northeast Mississippi and three counties in southern Tennessee. MRHC is dedicated to improving the health and well-being of the surrounding community by blending our passion for very good care with the use of advanced medical technology to deliver the best possible care ...One Patient at a Time.

MRHC is currently expanding the Graduate Medical Education Department that currently has 26 Medical Students, 18 Internal Medicine Residents and 6 Cardiology fellows. This year, we will begin the application/accreditation process to establish an ER Residency. Pending approval, this residency addition will grow our program tremendously. Magnolia Regional Health Center is the first Osteopathic Graduate Medical Education Program nationally to go from AOA accreditation to ACGME accreditation, which allows MRHC to begin training MD credentialed physicians, in addition to D.O. credentialed physicians.

Please visit our hospital and community links for more information.

Chicago: Enjoy The Windy City

There’s so much to see and just as much to do in Chicago

Chicago is one of the largest US cities and an international hub for finance, commerce, industry, technology, telecommunications, and transportation. The city is also famously called the “Windy City” for its frigid breezes blowing off Lake Michigan where it is situated. Despite the weather, tens of millions of tourists a year enjoy the bold architecture, sports arenas, jazz clubs and museums of this populous city that made the deep-dish pizza famous. Below is a “What to do in Chicago” guide so you can enjoy the local flavor:

What To See

Adler Planetarium

Adler Planetarium is a public museum dedicated to astronomy and astrophysics. Founded in 1930 by Chicago businessman Max Adler, the museum is America’s first planetarium and is part of Chicago’s Museum Campus (comprised of the Planetarium, John G. Shedd Aquarium and The Field Museum). It became a National Historic Landmark in 1987.

Adler Planetarium has three full-sized theaters with featured shows; space science exhibits including their most recent Chasing Eclipses, and the interactive workshop Community Design Lab; and the Doane Observatory, a lakeside observatory that is one of the only public, research-active observatories. The planetarium also has a collection of print materials and antique scientific instruments on display. Visit Adler’s Store to make a purchase that supports research and STEM (Science, Technology, Engineering and Math) throughout the Midwest, or Galileo’s Café for a freshly prepared bite to eat.

Adler Planetarium is open 9:30am-4pm daily. Visit their website for ticket prices and show information.

Chicago Riverwalk

Chicago Riverwalk is a pedestrian waterfront along the Chicago River. In 2016, it was expanded an additional 9 blocks and revamped into a series of six distinct civic spaces or “rooms” with names like Marina (food vendors and waterfront seating), the Cove (kayaking and boat rentals) and the River Theater (amphitheater seating). The Riverwalk provides an escape from the concrete, steel and glass of the city.

Enjoy floating gardens during your Riverwalk visit. Water Taxis and Boat Charters are available to enjoy viewing and learning about the city.

Visit the website for more information about all the activities, attractions and events scheduled during your stay.
chicagoriverwalk.us

Museum of Contemporary Art

Museum of Contemporary Art (MCA) is one of the world’s largest contemporary art venues. It is near Water Tower Place in downtown Chicago and was established in 1967. The museum is operated gallery style, with individual exhibits curated throughout the year. Exhibits can consist of temporary loans, permanent collection pieces, or some combination of temporary and permanent exhibits.
Chicago is a popular vacation spot famous for its jazz music, sports arenas and stunning architecture.

The museum’s collections include the work of Alexander Calder, Jasper Johns, Cindy Sherman, Kara Walker and Andy Warhol. Notable past exhibits include the record-breaking *David Bowie Is* exhibit, with almost 200,000 attendees. MCA, also contains historical surrealism, pop art minimalism and postmodernism along with contemporary painting sculpture, photograph, video and installation.

Visit Museum of Contemporary Art’s website for event, performance and ticket information.

The Second City

The Second City is the first ever improvisational theater troupe. This improvisation comedy enterprise began in 1959 and is one of the most influential and prolific comedy theaters in the world. Their name came from the title of an article in The New Yorker about Chicago. Second City counts Dan Aykroyd, Gilda Radner, John Candy, Joan Rivers, Tina Fey, Steve Carell, Stephen Colbert, Jane Lynch and Mike Meyers among the long list of alumni who have cut teeth on their stage. There are also theaters in Toronto and Los Angeles in case you can’t make it to a Chicago show.

The Second City Chicago has three sketch and improv comedy shows in rotation at Chicago Mainstage: “The Best of Second City Shows” ; “The Second City New Mainstage Revue”; and, “Second City’s Neighborhood Tour”.

Visit the website for ticket purchases and to learn more about The Second City.

Where To Shop

The Magnificent Mile

No stay in Chicago would be complete without a trip to The Magnificent Mile on Downtown Michigan Avenue. It is currently Chicago’s largest shopping district with 460 retailers featuring mid-range to high-end shopping opportunities. Magnificent Mile is also the location of some of the US’s tallest buildings such as the John Hancock Center and landmarks such as Wrigley Building.

Shops range in category from apparel or cosmetics to pet boutiques or toys. You’ll find names such as Chanel, Gucci, Kiehl’s, Hugo Boss, and Crate & Barrel along The Mag Mile. Take a break from shopping so you can dine at one of the Magnificent Mile’s 275 award-winning restaurants.

Visit the website for a complete list of retailers, restaurants and...
Where To Dine

Andy's Jazz Club
Andy's Jazz Club offers the full jazz club experience with tasty dining and mixed drinks. This low-key, intimate club attracts a mature crowd with nightly jazz performances and an American menu. Perfect for the after-work crowd or for tourists looking to immerse themselves in Andy's soulful jazz vibe minus the cigarette smoke. There's a two-hour table maximum, but it's not always strictly enforced. Be prepared for a crowded room as hot performances take the stage twice a night.

11 East Hubbard Street, Suite 1
Chicago, IL 60611
312-642-6805
andysjazzclub.com

Tortoise Supper Club
Tortoise Supper Club offers the full jazz club experience with tasty dining and mixes an upscale supper club with dark mahogany and leather finishes that give it a throwback vibe. American menu favorites like seafood and steaks are served by friendly wait staff and the specialty cocktails are impressive. Live jazz shows are on weekends only, but whether you want to entertain clients or impress the father-in-law, this is the place to do it.

650 North Street
Chicago, IL 60654
312-755-1700
tortoiseclub.com

Bandera Restaurant
Bandera Restaurant on Magnificent Mile does American cuisine with southwestern flair. Their specialties include barbecue ribs, rotisserie chicken and cornbread served in a skillet, but they are also a crowd favorite because they're one of the few restaurants in town that offers delicious veggie burgers. They've made "USA Today's Best 10" list for restaurants; but nightly live jazz music doesn't hurt either. Window seats with a view are in high demand at Bandera's, so don't be surprised if you don't get one.

CARDIOTHORACIC SURGEON: Northern Colorado Front Range

Practice in an environment where the air is clear and you have the time to breathe it in.

Banner Health’s CardioVascular Institute (CVI) is seeking an Employed Cardiothoracic Surgeon to join our highly respected team of established physicians including 2 CT Surgeons, 2 PAs, and highly trained nursing and support staff. Practice is based out of North Colorado Medical Center (NCMC) in Greeley with support to McKee Medical Center (MMC) in Loveland. The candidate hired will be Board Certified/Board Eligible in CT Surgery dedicated to providing excellent patient care, and able to work collaboratively and effectively within a team environment. Call schedule 1:3.

Nestled between the Rocky Mountains, Colorado’s high plains, and Denver International Airport – Northern Colorado (known as NoCo) communities consistently rank as some of the best locations in the country for business, lifestyle, and craft beer. Northern Colorado attracts businesses and individuals alike to its world-class communities for many reasons. The communities continuously rank as some of the best places to live. The region also offers access to high-quality, award-winning educational institutions. Among them are Colorado State University, the University of Northern Colorado, and two community colleges that are both nationally accredited. If all that weren’t enough, NoCo boasts more than 330 miles of scenic trails for biking, running and hiking, and more than 125 parks with amenities such as tennis courts, skate parks, picnic facilities and illuminated athletic fields. It’s a true paradise for outdoor activities and recreation year round. Northern Colorado has one of the highest performing economies nationwide. Companies in a variety of industries, from agriculture and energy to IT and bio-science, create a diverse economy making the region ideal for doing business. With mountains to the west, rolling plains to the east, and a one-hour drive to Metro Denver, Northern Colorado’s location is hard to beat. Add in a mix of communities – Fort Collins, Loveland, Greeley – each with its own unique character, and you’ve got an idyllic place to put down roots and have more time for your patients AND your life!

We offer a generous salary plus incentives and excellent benefit package options that provide security for you and your family. Submit your CV, to: Dawn Curry, Sourcing Strategist, at: doctors@bannerhealth.com
For questions, please call: 970-810-6096. Website: www.bannerdocs.com
As an equal opportunity affirmative action employer, Banner Health recognizes the power of a diverse community and encourages applications from individuals with varied experiences and backgrounds. Banner Health is an EEO/AA - M/W/D/V Employer.

Cardiology Faculty Positions

New Orleans, Louisiana – The Tulane University School of Medicine’s Heart & Vascular Institute/Section of Cardiology is recruiting board certified/eligible cardiologists to help expand our academic and clinical cardiovascular services. These positions will be responsible for the instruction of cardiology fellows (currently 24 fellows) and for patient care at three hospitals and multiple clinic sites in the Greater Metropolitan New Orleans area.

Cardiac Electrophysiology

Tulane is an EOE/M/F/Vet/Disabled employer.
Retirement planning is an essential but much under-appreciated part of life for any profession. For physicians, planning for retirement presents its own particular challenges, including the high rates of burnout and the high debt levels upon entering the profession.

The 2016 Survey of America’s Physicians: Practice Patterns and Perspectives conducted for The Physicians Foundation by Merritt Hawkins reported that 46.8% of physicians plan to accelerate their retirement plans in order to retire early. This is an increase in the number of physicians who reported that they planned to do so compared to the previous survey in 2014. At the same time, a greater number of physicians are continuing to practice beyond the traditional retirement age of 65.

This uncertainty about projected retirement age can make planning for retirement difficult. For a physician just out of medical school, thinking about possible burnout or future retirement isn’t at the top of the agenda; there are many competing demands for their salary following years of accruing student debt. However, successful planning that allows for much-needed flexibility requires physicians to start saving for their retirement as early as possible.

The Importance of Savings

Medscape’s 2017 Physician Compensation Report found that the average income for all physicians in the report has risen steadily since 2011. It states average income rose to $294,000 in 2017. With compensation packages of this kind, retirement planning should be straightforward.

However, the reality isn’t so simple. According to the AMA Insure, the average student loan debt a medical student graduated with in 2012 was $166,750. The Association of American Medical Colleges (AAMC) has found that 79% of medical school graduates carry $100,000 or more of education debt.

There are many competing demands on a physician’s salary, including malpractice insurance, buying a home and the cost of raising a family. Added to this, a physician typically doesn’t start achieving higher rates of income until well into mid-career. For those coming late to the profession, the limited time available for paying into a plan creates even more of a challenge.

Given the way pension saving works, a lack of investment into pension schemes and the loss of the potential compound interest during these early years of a career can create a serious hole in pension funding.

Options for Employed and Self-employed

Increasing numbers of physicians are turning to employment rather than self-employment, as the options for pension planning and employer contributions are more readily available.

The Medscape Physician Compensation Report 2016 found that 66% of employed physicians had a retirement plan with employer match, compared to just 39% of self-employed physicians. Those benefitting from retirement plans without employer match was found to be 27% for employed physicians and 25% for self-employed physicians. The findings, while encouraging for the majority of employed physicians, highlight...
Self-Employed Pension Planning

The pension plans available differ for employed and self-employed physicians as well as for physicians working in government facilities and for-profit healthcare facilities.

Self-employed physicians will first need to make the decision about whether they should choose a tax-deferred retirement plan or a tax-qualified pension plan. Plans such as a 401(k) are tax-deferred plans which enable self-employed physicians to defer up to $18,000 on a pre-tax basis. This rises to an allowance of $24,000 over the age of 50. After the age of 59½ qualified distributions are taxed as ordinary income.

The most common form of tax-qualified pension plans for self-employed physicians are defined benefit plans, such as the cash balance plan. These provide the option of a lifetime annuity, but via an individual account for each covered employee, complete with a specified lump sum. They offer a higher maximum contribution rate than a 401(k) plan; in 2017, a maximum contribution was $149,203 versus a 401(k)’s maximum contribution of $60,000. Contribution limits vary by age, but this type of plan need not necessarily be an alternative to a 401(k) plan; it is possible to own both plans for additional future security.

Employed Pension Planning

If employed by a facility or an organization, the physician will need to choose whether to use the pension savings plan offered.
If the employer is offering to make contributions, this choice is an easy one; the physician will want to take advantage of this significant benefit and use the employer’s plan.

This is likely to be:
- a 401(k) plan, a defined benefit plan that for-profit facilities offer;
- a 403(k) or 457(b) tax-deferred retirement plan offered by non-profit (government or non-governmental) organizations; or
- an Individual Retirement Account (IRA).

Each type of plan has its own characteristics, so it is important to seek expert independent advice to determine which option on the table is right for your retirement goals and whether the retirement plan your employer offers should be supplemented by additional arrangements in order to achieve those goals.

For those physicians choosing to pay into an employer’s plan, this doesn’t – and shouldn’t – preclude the possibility of making additional arrangements beyond the employer’s scheme; for example, making further savings contributions to tax-efficient investments in taxable accounts, or making further contributions into a private defined benefit plan.

It is important to seek expert and independent investment advice. However, by far the most important decision that a physician can make when planning their retirement savings is to start preparations as early as possible.

As hospitals strive to remain profitable and competitive in today’s health care environment, the addition of a Physician Advisor (PA) to the administrative staff is viewed as not only good for business but also as good for patients. Once a role typically filled by physicians who were nearing retirement, the Physician Advisor has evolved into a position that is part compliance expert, part patient care coordinator, and part hospital administrator. The PA’s role is to perform in an advisory capacity with:

- Utilization of Hospital Resources (Level of Care and Length of Stay)
- Documentation and Compliance
- Clinical Review of Patients
- Medical Necessity Protocol
- Care/Case Management with Physicians and Staff
- Quality of Care Provided
- Referrals to Alternative Facilities (Physical Therapy, Hospice, etc.)
- Insurance Claims (Appeals of Denials)
- Informing Physicians About Regulatory Changes
- Informing Staff About ICD Code Changes and Interpretation
- Patient Satisfaction

- Physician Peer Review

The Affordable Care Act outlines specific guidelines for the unique role of a PA as the job is complex and exists to serve both the provider (hospital) and the patient. This pivotal position serves as a bridge between the hospital’s clinical staff and the administrative staff and works to improve communication on all levels. As a result of this increased interaction between physicians, staff, and patients, the patients receive better care.

With the ever-changing compliance environment, a PA must stay informed and current about every aspect of patient care from quality of care to medical necessity guidelines. The PA serves as a liaison to ensure that the patient receives appropriate care and that all medical services rendered are correctly submitted for reimbursement. When necessary, the PA coordinates the appeal process if an insurance claim is denied.

What Knowledge and Expertise Do You Need?

A medical degree and experience in utilization management is the ideal background for a PA. Degrees in Internal Medical, Family Practice, or Emergency Medicine are particularly useful due to the broad background provided by these specialty areas. Naturally, other specialty areas of medicine can also provide the appropriate background to perform well as a PA. Success as a PA is always...
Temperament Is Key

Is a PA role right for you? Even if you have a stellar background in medicine and can point to years of success as a physician, a PA position may still not be a good fit for you. The successful PA brings a broad medical knowledge to the job as well as a comprehensive understanding of utilization management and necessity of care protocols, an interest in keeping current with compliance and insurance regulations, and a passion to deliver quality care to patients. But there is still one key ingredient that can't be taught in any medical school or hospital setting – temperament. Do you have the communication skills of a seasoned diplomat to help you navigate the choppy waters when you must make a recommendation or suggestion that is contrary to what a physician has ordered or what the staff is accustomed to providing in a similar case? Always maintaining that delicate balance between advisor and advocate is the mark of a successful and valuable PA.

In addition to the daily interactions with physicians, patients, patients’ families, and hospital staff, a PA also has to commit to a heavy load of committee work and meetings on topics such as “Quality of Care,” “Safety,” and “ICD 10 Updates.” Attending (or running) these topic-specific meetings and/or workshops is integral to the successful performance of a PA's duties.

This is an exciting and growing area of medicine – one that has a direct effect on a hospital's bottom line. As a PA, you can not only ensure that your hospital receives every reimbursement dollar that is appropriate from insurance, but you also assist in helping the hospital achieve increased patient satisfaction and better health outcomes for its service area.
