

Day 8

Transmission 29:19

Music: [Daniel Schotsborg - Neurosonic Calibrator](#)

As we move into higher states of consciousness and awareness, the extent to which we can experience and embody the frequency of Love expands. Each transmission brings in a new layer of the foundation that is being created within your energetic and cellular structures to hold and facilitate this new level of awareness.

This transmission begins to open up the star gates and portals in your matrix and DNA to allow for the influx of Light and knowledge from your Star Lineages and Cosmic Christ Consciousness. Moving beyond the understanding of emotional Love as we know it in this plane of reality, the Light knowledge being infused will enable a deeper experiential of Love in all its forms. Working with many Light Beings and energies such as the Buddha, Isis and the Magdalene; those who most resonate with you will begin to teach you in your dream state and meditations. Please continue to keep a journal of your dreams. Many of the teachings will come in symbology, Light Language or codes that will ignite and activate your multidimensional DNA to expand your perceptions of awareness.

As we continue to expand the heart and the frequencies moving throughout your entire system, you will begin to experience a deeper sense of balance and harmony within your life. All life is an ebb and flow. It is the natural cycle of this reality. Your ability to stay in a state of compassion, being the observer of your outer world and centered within your own knowing will lead to a deeper expression of self love. Self love is not an emotion, it is a state of BEING. Having the energetic pathways in your system allows for this to flow easily and with grace. The frequency of Self Love that is now available will feel more natural and familiar. Embrace it!

You may notice as we move further into these activations, the music is getting more intense. Daniel, the Master Musician who developed this technology, designed this music to open up the neural pathways in the brain to allow for deeper states of meditation and connection to Source

energy. Please visit his website for more information. He is truly a Master and is bringing through the next level of sound technology. I am so fortunate to know him and include his music with these activations. www.qualiaplus.com
