

## THE LANTERN HOUSE

## CRAFTED WITH CARE. CRAFTED TO RESONATE. CRAFTED FOR YOU?

Lantern House - nestled in the tree line of Upper Lynn Valley, this home has been substantially reimagined with purpose.

With spaces mindfully designed for everyone and everything, this residence offers soaring vaulted ceilings, seamless indoor-outdoor flow, and an architectural three-story stair tower—an illuminated lantern—linking a private primary suite, an expansive main floor, and the walk-out lower level, which includes a flex 1 or 2 bedroom suite.

Expansive glazing frames forest views, while curated outdoor spaces invite presence and connection. The grounds have been planted with an abundance of carefully considered native species, allowing for stunning easy-care landscaping. The gear garage and gym stand adjacent to the outdoor shower.

Every element has been thoughtfully crafted for someone who values stillness over status, design over excess.

Floor Area 4,569 sqft

Lot Size 10,637 sqft

Year Built Substantially rebuilt in 2021, original

structure built in 1967
