

## Online Clinical Support Workshops for 2021 – 2022

Behavior Advantage is excited to offer professional development workshops for any educator, from administrators to paraeducators, across the 2021-2022 school year. Workshops are available online for both Behavior Advantage software users and non-users. Fall workshop dates and times are listed below and Spring Workshop dates will be announced soon. Customized scheduling is available upon request. All services provided by a Board Certified Behavior Analyst with over 10 to 20 years of experience solving behavior problems in educational settings.

### Fall 2021

#### Workshop Title

#### **Simple Behavior Intervention Plans: Road Maps to Change Any Student's Behavior**

#### Description

The large majority of behavior problems in schools are not serious or severe, but disrupt the learning environment on a regular basis. Proactively addressing these behavior challenges with evidence-based strategies reduces the risk of these issues growing into larger problems. A Simple Behavior Plan designed to prevent, teach, and respond provides educators with the road maps they need to effectively and efficiently manage these behavior challenges. This workshop shows educators how to create and implement individualized Simple Behavior Plans using Behavior Advantage, making the process both efficient and practical.

#### Details

Where: Two 2-hour Sessions Online

Who: Any educators in your district, unlimited attendees

When: September 20 & September 22 (1pm-3pm PST, 2pm-4pm MST, 3pm-5pm CST)

Cost: \$640 per District (Behavior Advantage Online Clinical Support Package Hours may be applied)

#### Workshop Title

#### **Check-In/Check-Out: Creating, implementing, and monitoring an evidence-based intervention to support students with behavior challenges**

#### Description

Research has repeatedly shown that Check-In/Check-Out effectively decreases problem behaviors and increases academic achievement . . . when implemented as designed. Improve implementation fidelity by training your staff on the essential components of this powerful and dynamic intervention. Join us as we develop a Check-In/Check-Out program, discuss and model implementation, and create graphs for progress monitoring using Behavior Advantage, making the process both efficient and practical.

#### Details

Where: One 2-hour Session Online

Who: Any educators in your district, unlimited attendees for districts using Behavior Advantage

When: October 13 (1pm-3pm PST, 2pm-4pm MST, 3pm-5pm CST)

Cost: \$320 per District (Behavior Advantage Online Clinical Support Package Hours may be applied)

### **Workshop Title**

#### **Practical, Useable Data Collection and Progress Monitoring Tools**

#### **Description**

Educators need access to data collection tools that are both practical and useable, in order to consistently make data-based decisions about behavior intervention and prevention. Give your staff the training and resources necessary to efficiently collect and analyze student behavior data in order to objectively evaluate next steps. Join us as we utilize Behavior Advantage to design individualized data collection tools, learn how to use them, and create graphs for more accurate and efficient progress monitoring of student behaviors.

#### **Details**

Where: One 2-hour Session Online

Who: Any educators in your district, unlimited attendees for districts using Behavior Advantage

When: October 25 (1pm-3pm PST, 2pm-4pm MST, 3pm-5pm CST)

Cost: \$320 per District (Behavior Advantage Online Clinical Support Package Hours may be applied)

### **Workshop Title**

#### **Goal Scaling Processes: Implement, shape, and measure**

#### **Description**

Evidence-based behavior interventions were identified, matched, and recommended. Unfortunately, behavior doesn't change overnight. Goal scaling complements behavior support efforts by helping teams map out an implementation plan, identify behavioral shaping procedures, and objectively measure progress over time. Goal scaling is compatible with measurable IEP goals and can also be applied to students receiving support in general education.

#### **Details**

Where: One 2-hour Session Online

Who: Any educators in your district, unlimited attendees for districts using Behavior Advantage
