DISCLAIMER

This document consist of scanned copies of the BGCSE and/or BJC past papers produced by the Bahamas Ministry of Education. The Student Shed accepts no responsibility or liability for the contents within this document, including but not limited to; answers that may be highlighted, missing papers or missing questions.

It is the sole responsibility of the user to determine the correct and most suitable answers for each question contained therein.
MATHEMATICS

PAPER 1 (CORE/EXTENDED)

Tuesday 22 MAY 2001 1.00 – 2.30 P.M.

Additional materials:
calculator
geometrical instruments

MINISTRY OF EDUCATION
NATIONAL EXAMINATIONS

BAHAMAS GENERAL CERTIFICATE OF SECONDARY EDUCATION

INSTRUCTIONS TO CANDIDATES

Do not open this booklet until you are told to do so.

Write your school number, candidate number, Surname and Initials in the spaces provided at the top of this page.

Answer ALL questions in the spaces provided for each question.

ALL working must be shown.

ALL working must be done in blue or black ink.

INFORMATION FOR CANDIDATES

Calculators [NOT GRAPHING CALCULATORS] may be used.

Geometrical instruments are required.

The mark for each question or part question is shown in brackets. [ ]

The total number of marks for this paper is 100.

This question paper consists of 18 printed pages and 2 blank pages.
INFORMATION AND FORMULAE

Angle sum of triangle \( a + b + c = 180^\circ \)

Angle sum of quadrilateral \( a + b + c + d = 360^\circ \)

Area of rectangle = base \times height

Area of triangle = \( \frac{\text{base} \times \text{height}}{2} \)

Volume of cuboid = length \times width \times height

Circumference of circle = \( 2\pi r \) or \( \pi d \)

Area of circle = \( \pi r^2 \)
1. Write down the next two numbers in the following sequence,

1, 3, 6, 10, ____ , ____.

Answer ______, ______, [2]

2. (a) Draw in the line(s) of symmetry on the traffic light below.

(b) The door handle below is fitted on a rod which is a square prism. This square prism fits through a square hole in the door. How many ways can the door handle be inserted into the hole in the door?

Answer __________ [1]
3. Mrs. Newton filled four glasses with milk. Each glass held 330 ml. How many litres of milk were used altogether?

Answer __________ litres [2]

4. (a) Use your calculator to work out the exact value of

\[
\frac{32.45 \times 1.392}{0.6}
\]

Answer _____________ [1]

(b) Express the answer in (a) correct to

(i) two decimal places,

Answer _____________ [1]

(ii) three significant figures.

Answer _____________ [1]
The rectangular driveway above measuring 26 feet by 12 feet is to be paved using square paving stones with sides of length 2 feet.

Calculate the number of paving stones

(a) that will fit along the 26 feet length,

Answer ____________ [1]

(b) that will fit along the 12 feet width,

Answer ____________ [1]

(c) that are needed to pave the whole driveway.

Answer ____________ [2]
9. (a) Given that \( I = \frac{PRT}{100} \), make \( T \) the subject of the formula.

Answer \______________\ [2]

(b) Calculate the value of \( T \) when \( I = 60, P = 150 \) and \( R = 8 \).

Answer \______________\ [2]

10. (a) Calculate the length of side

(i) a.

Answer \______________\ m [1]

(ii) b.

Answer \______________\ m [1]

(b) Calculate the perimeter of this shape.

Answer \______________\ m [2]
The diagram shows a thermometer marked in degrees Fahrenheit (°F) and degrees Celsius (°C).

(a) Give the Fahrenheit temperature reading indicated on the thermometer.

Answer __________ °F [1]

(b) Give the Celsius temperature reading indicated on the thermometer.

Answer __________ °C [1]

(c) The temperature drops by 80° F. Give the new

(i) Fahrenheit reading,

Answer __________ °F [1]

(ii) Celsius reading.

Answer __________ °C [1]
12. Using the given fractions, $3\frac{1}{3}$ and $\frac{1}{2}$,

(a) (i) change the mixed number fraction to an improper fraction,

Answer _______________ [1]

(ii) state the Lowest Common Denominator (LCD) of the fractions.

Answer _______________ [1]

(b) Use the L.C.D. to find the sum of the fractions.

Answer _______________ [2]

(c) Write your answer to (b) as a fraction in its lowest terms.

Answer _______________ [1]

13. (a) Simplify

$$\frac{8a^2 \times a^4}{2a}$$

Answer _______________ [2]

(b) Evaluate

$$\left(\frac{1}{3}\right)^{-2} + (6)^0$$

Answer _______________ [3]
The diagram shows a set of measuring drill bits. In the set, their sizes are \( \frac{3}{8}, \frac{1}{2}, \frac{3}{16}, \frac{1}{4}, \frac{5}{16} \) inches.

(a) List the sizes of the bits in ascending order of size.

Answer _______________ [4]

(b) Write down the size of the third largest bit in the set.

Answer __________ inch [1]

A mortar mix recommended for making concrete building blocks, uses cement, lime and sand in the ratio 1 : 2 : 9.

Calculate the amount of

(a) cement in the mortar mix of 216 kg.

Answer _______________ [2]

(b) sand used when 20 kg of cement is used.

Answer _______________ [1]

(c) lime used when 117 kg of sand is used.

Answer _______________ [2]
16. The chart below lists the colours and number of gallons of paint sold at Rainbow Paint Store.

(a) Use it to complete the bar graph below.

<table>
<thead>
<tr>
<th>COLOUR</th>
<th>GALLONS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Green</td>
<td>4</td>
</tr>
<tr>
<td>White</td>
<td>10</td>
</tr>
<tr>
<td>Yellow</td>
<td>6</td>
</tr>
<tr>
<td>Blue</td>
<td>7</td>
</tr>
<tr>
<td>Red</td>
<td>3</td>
</tr>
</tbody>
</table>

Use the graph to help you answer the following questions:

(b) How many gallons of paint were sold?

Answer ________ gallons [1]

One gallon of paint costs $12.96.

(c) Calculate the total amount of money made from the sales.

Answer $___________ [2]
A refrigerator valued at $850 is imported from abroad. Stamp tax is charged at 2%.

(a) Calculate the amount of the stamp tax.

Answer $_________________  [2]

Import tax on the refrigerator is $102.

(b) Calculate the percentage charged on the original value of the refrigerator as import tax.

Answer _______________%  [2]

(c) Calculate the total cost of the refrigerator.

Answer $_________________  [2]
The graph above is used to calculate the amount of discount given in a sale. Use it to answer the following questions.

(a) Write down the discount when the regular price is $30.

Answer $\ldots$ [1]

(b) Give the regular price when the discount is $1.50.

Answer $\ldots$ [1]

The regular price is $100.

(c) (i) Calculate the amount of the discount.

Answer $\ldots$ [2]

(ii) Calculate the percentage discount.

Answer $\ldots$ % [2]
