Teacher Handbook Policy

An Employee Handbook will be given to each employee by the Principal. This book provides information on terms and conditions of employment as well as general information relating to working in the schools of the diocese. Employees will also receive a copy of the *Standards for the Education, Competence and Professional Conduct of Educators as approved by the BC College of Teachers* (for teachers only).

It is the responsibility of employees to be familiar with the contents of these documents and to live up to the standards contained within.
